ArborWorks, Inc. 401(k) Plan

Notes to the Financial Statements

1. Description of Plan

The following description of the ArborWorks Inc. 401(k) Plan (the Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan, which became effective January 1, 2019, is a defined contribution plan covering substantially all full-time employees of ArborWorks, Inc. (the Employer) having completed one month of employment and are age 18 or older. Full-time employees who have completed one year of service and are age 18 or older are eligible to receive employer contributions, as defined. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Employer is responsible for oversight of the Plan. The Plan's trustee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Employer.

Contributions – Each year, participants may contribute a percentage of pretax annual compensation, as defined by the Plan, up to the maximum limits of the Internal Revenue Code (IRC). Participants also may designate all or a portion of their deferral contributions as after-tax contributions into a Roth account. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants also may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Employer will make safe harbor matching contributions equal to 100% on the first 3% of a participant's eligible earnings that they defer as an elective deferral and an additional 50% of the next 2% of their eligible earnings that they defer as an elective deferral. A participant must make elective deferrals to receive the safe harbor matching contributions. These contributions are made each pay period.

The Employer may make a discretionary additional matching contribution. If the Employer makes a discretionary additional matching contribution, the discretionary additional matching contribution will not apply to elective deferrals exceeding 6% of a participant's eligible compensation. The total amount of this discretionary additional matching contribution will not exceed 4% of a participant's eligible earnings. No discretionary additional matching contributions were made for the years ended December 31, 2020 and 2019.

Participant and Employer contributions may not exceed Internal Revenue Code (IRC) limitations.

Participant Accounts – Each participant's account is credited with the participant's contributions and Employer contributions, as well as allocations of investment earnings

(losses) and administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All amounts in participants' accounts are participant-directed.

Vesting – Participants are fully (100%) vested in all participant contributions and employer safe harbor matching contributions plus actual earnings thereon. Vesting in employer discretionary contributions is based on years of continuous service. A participant is 100 percent vested after three years of credited service. A year of service for vesting purposes is a Plan year during which a participant has performed 1,000 or more hours of service. Notwithstanding the above, a participant is fully vested in his entire account upon the attainment of normal retirement age or upon death or prior to termination.

Payment of Benefits – On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or various installments as provided by the Plan. In-service distributions are available upon demonstration of financial hardship, disability, death, or after participants reach the age of 59 ½, as defined by the Plan. Effective January 1, 2020, all participants must begin withdrawing benefits no later than April 1 following the year age 72 is attained.

Forfeited Accounts – At December 31, 2020 and 2019, there were no forfeited nonvested accounts. These accounts will be used to reduce future Employer contributions or to pay Plan expenses. During 2020, no forfeitures were used.

2. Summary of Significant Accounting Policies

Date of Management's Review – Subsequent events were evaluated through September 20, 2021, which is the date the financial statements were available to be issued.

Basis of Accounting – The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management determines the Plan's valuation policies utilizing information provided by the custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification Topic 820, "Fair Value Measurements and Disclosures," are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the assets or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Pooled separate accounts – The value of the units held in pooled separate accounts is calculated based on the net asset value (NAV) of the underlying pool of securities based

on quoted market prices for the years ended December 31, 2020, and 2019. All of the Plan's pooled separate accounts are redeemable at NAV as of the measurement date. The pooled separate accounts can be redeemed on a daily basis and there were no unfunded commitments for the years ended December 31, 2020, and 2019.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value:

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$0	$684,166	$0	$684,166

	Assets at Fair Value as of December 31, 2019 (unaudited)			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$0	$185,737	$0	$185,737

4. Related Party and Party-in-Interest Transactions

Parties-in-interest are defined under Department of Labor regulation as any fiduciary of the Plan, any party rendering service to the Plan, the Employer and certain others.

Fees paid directly from the Plan to service providers amounted to $7,305 for the year ended December 31, 2020.

Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provision of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

5. Trustee

The trustee of the Plan as of December 31, 2020 was Rebecca Lee.

6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the

provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. Tax Status

The Employer adopted a Volume Submitter 401(k) Profit Sharing Plan sponsored by Retirement Plan Consultants. The volume submitter plan document has received an IRS Advisory letter dated March 31, 2014, from the Internal Revenue Service as to the plan document's qualified status. Although the Plan has been amended since receiving the IRS Advisory letter, the plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions on the Internal Revenue Code and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan to recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2019.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Custodian Certification

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2020 and 2019, and investment activity for the year ended, December 31, 2020 that are disclosed in the accompanying financial statements and supplemental schedules, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the custodian of the Plan.

10. Late Remittance of Participant Deferrals

For the plan year ended December 31, 2020, participant deferrals totaling $70,565 were not timely deposited into the Plan. As of the date of the Independent Auditor's Report, the Plan trustee and third party administrator were finalizing calculations for lost earnings to be credited to participant accounts.

The DOL considers late deposits, without regard to materiality, to be prohibited transactions. The general rule for deposits of 401(k) withholdings requires that the Employer remit withheld employee 401(k) deferrals to the Plan as of the earliest date on which such amounts can reasonably be segregated from the Employer's general assets, but in no event later than 15 business days after the end of the month in which the contributions were withheld.
