Note 1 - Plan Description

The following description of Ardagh North America GMP Spinoff Plan (the "Plan") provides only general information. Participants should refer to the plan agreement and related union agreements, if applicable, for a more complete description of the Plan's provisions.

The Plan was terminated effective February 1, 2020; see Note 5 for additional information. The following is a description of the Plan at spin-off and termination.

General

The Plan is a defined benefit plan covering certain employees of Ardagh Glass Inc. who were previously eligible for the Retirement Accumulation Plan (the "RAP") portion of the Ardagh North America Retirement Income Plan (the "covered employees"). The Plan was established on February 1, 2020 when the Ardagh North America Retirement Income Plan was amended to remove coverage to the covered employees. The obligations and related assets of the covered employees were transferred out of the Ardagh North America Retirement Income Plan to the Plan. See Note 7 for additional information. The Plan is frozen to new participants, and benefits for existing participants are frozen. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company has established the Ardagh Glass Inc. Retirement Income Plan Trust (the "Master Trust"). The Plan began participating in the Master Trust when assets were transferred to the Plan in November 2020.

Pension Benefits

The Plan is a cash balance plan. Participant accounts receive both pay credits and interest credits on December 31 of each year. The pay credit is based on a participant's full years of service as of the first day of the plan year and is expressed as a percentage of pay for that year. The percentage of pay is as follows: 1 to 8 years - 3.5 percent; 9 to 15 years - 4 percent; 16 or more years - 4.5 percent. Pay credits are frozen for all participants. The interest credit is based on a participant's beginning of the year account balance. The interest credit is reset each year to equal the average yield on the 30-year U.S. Treasury Bond during the month of November preceding the start of the year.

Upon plan termination on February 1, 2020, all participants are fully vested in their pension benefit.

Contributions

Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by State Street Bank and Trust Company or its affiliates. State Street Bank and Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

As discussed in Note 5 to the financial statements, the plan sponsor terminated the Plan effective February 1, 2020. As a result, the financial statements were prepared on the liquidation basis of accounting.

Under the liquidation basis of accounting, assets are measured to reflect the estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process and liabilities are measured using the accrual basis of accounting and would include any expected costs of the disposal of assets and other costs expected to be incurred during the liquidation process.

December 31, 2020**Note 2 - Summary of Significant Accounting Policies (Continued)*****Investment Valuation***

The fair value of the Plan's interest in the Master Trust is based on the beginning of the period value of the Plan's interest in the trust plus amounts transferred at fair value from the Ardagh North America Retirement Income Plan less actual distributions and allocated administrative expenses. The Master Trust's investments are stated at fair value.

The common collective trust funds are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. The U.S. government securities are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures. The money market funds are valued at fair value based on their outstanding balances. All other investments are valued based on quoted market prices reported in active markets. See Note 4 for additional information.

Benefit Payments

Benefits are recorded when paid.

Annuity Contract

In December 2020, the Plan purchased an annuity contract from Principal Life Insurance Company. Under the agreement, Principal Life Insurance Company assumed the obligation to pay future benefits for certain participants of the Plan who elected an annuity payment upon plan termination. The purchase price of the annuity contract was approximately \$6,286,000. Subsequent to period end, the Plan received a refund of approximately \$685,000, which was recorded as an other asset as of December 31, 2020. The contract and related obligations are excluded from the Plan's financial statements.

Administrative Expenses

Various administrative costs are paid by the Company. Under the liquidation basis of accounting, the Plan has recorded accrued expenses expected to be incurred in liquidation in the amount of \$482,631.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. These include benefits expected to be paid to the following:

- (a) Retired or terminated employees or their beneficiaries
- (b) Beneficiaries of employees who have died
- (c) Present employees or their beneficiaries

Benefits provided via annuity contracts are deducted from plan assets and from accumulated plan benefits.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

December 31, 2020

Note 2 - Summary of Significant Accounting Policies (Continued)

The significant actuarial assumptions used in the valuation of the Plan at December 31, 2020 include future forecasted lump-sum benefit payments and expenses that will be paid in 2021. Based on the short duration between December 31, 2020 and the date on which final lump-sum benefit payments and expenses were disbursed in 2021, the impact of discounting accumulated plan benefits at December 31, 2020 to reflect the time value of money would be insignificant.

As discussed in Note 5, the IRS approved the plan termination in 2020, and the Plan was fully settled during 2021.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 11, 2021, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

State Street Bank and Trust Company (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment results included in the accompanying financial statements, including master trust information included in Note 4 and unrelated to reporting assets within the fair value hierarchy, are based solely on information certified by the Trustee.

Note 4 - Fair Value Measurements and Interest in Master Trust

The Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and several other company-sponsored benefit plans. Each participating benefit plan has an undivided interest in the Master Trust. At December 31, 2020, the Plan's interest in the net assets of the Master Trust was approximately 0.04 percent. The assets of the Master Trust are held by State Street Bank and Trust Company. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

December 31, 2020

Note 4 - Fair Value Measurements and Interest in Master Trust (Continued)

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Master Trust has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Master Trust's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following table presents information about the net assets of the Master Trust and the Plan's interest in Master Trust balances at December 31, 2020:

Master Trust Net Assets at December 31, 2020					
	Plan's Interest in Master Trust Balances	Master Trust Balances	Level 1	Level 2	Level 3

Interest and dividends	<u>40,804,962</u>
Total investment income	<u>\$ 125,077,993</u>

December 31, 2020

Note 5 - Plan Termination

Effective February 1, 2020, the plan sponsor elected to terminate the Plan in accordance with the PBGC provisions and reporting requirements. The net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations. As of the effective date of the termination, participants are 100 percent vested in plan benefits.

Liquidation of assets through distributions to participants began during 2020, with full liquidation expected in 2021. There were benefit payments requested but not yet paid totaling \$1,264,665 as of December 31, 2020.

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Accordingly, no provision for income taxes has been made in the accompanying financial statements.

The Plan received approval from the IRS for the Plan's termination effective February 1, 2020.

Note 7 - Transfers

On February 1, 2020, the Ardagh North America Retirement Income Plan was amended to spin off the pension benefits of certain employees previously eligible for the Retirement Accumulation Plan. Accordingly, assets of approximately \$32,500,000 were transferred from the Ardagh North America Retirement Income Plan to the Plan. In accordance with the Employee Benefit Plan Trust agreement adopted by the Plan, assets remained in the Master Trust. As a result of the plan spin-off, accumulated plan benefits of approximately 2,000 participants were transferred from the Ardagh North America Retirement Income Plan to the Plan in the amount of approximately \$32,500,000.

In connection with the liquidation, the Ardagh North America Retirement Income Plan funded benefit payments and expenses on behalf of the Plan. The Plan has established a payable to reimburse the Ardagh North America Retirement Income Plan in the amount of \$483,080. The payable is reported within other payables on the accompanying statement of net assets in liquidations as of December 31, 2020.
