NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Employer Contributions

Prior to January 1, 2017, the Company made safe harbor matching contributions to all participants who are non-highly compensated employees in an amount equal to 100% of the first 3% of eligible compensation, and 50% of the next 2% of eligible compensation. The Company may make discretionary matching contributions to eligible non-highly compensated employees. The Company provides discretionary matching employer contributions to each eligible participant equal to 0.2% for each percent contributed by the participant up to the first 5% of eligible compensation. The matching contributions are invested in the same manner that the participant directs his or her investments. For the year ended December 31, 2020, the employer's matching contributions were $55,383. The Company may also make discretionary non-elective employee contributions to eligible employees. In 2020, the Company did not make discretionary non-elective contributions.

Vesting

Participants are immediately vested in their contributions and safe harbor matching contributions, including actual earnings thereon. Participants are vested in the discretionary matching and/or discretionary non-elective contributions plus earnings thereon is based on years of continuous service as follows:

Completed Years of Service	Vested Percentage
Less than 1 year	0%
1 but less than 2 years	30%
2 but less than 3 years	70%
3 years or above	100%

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions, rollovers from qualified plans of the participant's previous employers, and allocations of the Plan's earnings and administrative expenses. Each participant's account is credited with the participant's contribution and Company's matching contribution, Plan earnings or losses and an allocation of the Company's contribution, if any.

Investment Options

Participants must direct their salary deferral contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options any time throughout the year via the Internet website or by using the automated telephone system offered by the trustee.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Forfeited Accounts

Forfeitures are retained in the Plan and may first be used to pay administrative expenses. Any remaining amounts can be used to reduce future employer contributions payable under the Plan. At December 31, 2020 and 2019, the balance of forfeited non-vested accounts was $202,379 and $199,835, respectively. In 2020, the Plan used $2,142 of forfeitures to reduce employer contributions.

Payment of Benefits

Upon termination, death, retirement or disability, the participants or beneficiaries may elect to leave their account balance in the Plan or receive their total benefits in a lump-sum amount equal to the value of the participant's interest in their account. The Plan allows for the automatic distribution of participant account balances under $1,000. Additionally, the Plan allows for an automatic rollover provision for any balances between $1,000 and $5,000 into an Individual Retirement Account.

Financial Hardship Distributions

The Plan allows hardship withdrawals in accordance with Internal Revenue Service ("IRS') regulations. Among other things, the withdrawal must be necessary in light of immediate and heavy financial needs of the participant and is limited to certain purposes.

The Coronavirus Aid Relief, and Economic Security Act (CARES Act) was passed by the U.S. Senate on March 26, 2020. Section 2202 of the CARES Act permits eligible Plan participants to request penalty-free distributions of up to $100,000 for qualifying coronavirus-related reasons. These reasons include adverse financial consequences due to being quarantined, furloughed, laid off, having work hours reduced or being unable to work due to a lack of childcare due to COVID-19. The CARES Act also waived required minimum distributions for 2020. Plan Management is in the process of reviewing the CARES Act and whether or not the plan was amended to adopt the provisions of the act.

Notes Receivable from Participants

The Plan allows participants to borrow up to the lesser of $50,000 or 50% of their account balance. The minimum loan amount that a participant may request is $1,000. Participant may have one outstanding loan as long as the loan repayments are submitted through payroll deduction. The notes are secured by the participant's balance. Such notes bear reasonable rate of interest as determined by the Plan Administrator based on the prevailing interest rates charges by persons in the business of lending money for loans which would be made under similar circumstances. The interest rate shall interest rate shall remain fixed throughout of the duration of the loan. The notes receivables from participants must be repaid to the Plan within a five-year period, unless the note is used for the purchase of a principal residence, in which case the maximum repayment period may be longer. The specific terms and conditions of such notes are established by the Company. Outstanding notes receivable from participants at December 31, 2020 and 2019, carry interest rates ranging from 4.25% to 6.50%, and mature through 2025.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates
The preparation of financial statements in conformity with the U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought or sold as well as held during the year.

Management fees charged to the Plan for investments in registered investment companies are based on assets invested and are deducted on a daily basis. Management fees are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the Plan document. There was no delinquent notes receivable from participants noted as of December 31, 2020 and one delinquent note receivable from a participant as of December 31, 2019 for an amount of $8,996. No allowance for credit losses has been recorded as of December 31, 2020 and 2019.

Benefit Payments
Benefit payments are recorded when paid.

Plan Expenses
The Company pays certain Plan expenses. Plan expenses not paid by the Company, will be charged on a pro-rata basis to the value of the participants account balances.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes

The Plan has adopted a pre-approved volume submitter plan. The volume submitter plan has received an opinion letter from the Internal Revenue Service ("IRS") as to the volume submitter plan's qualified status. The volume submitter plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC. Therefore, no provisions for income taxes have been recorded in the Plan's financial statements.

Risks and Uncertainties

The Plan provides for various investment options in any combination of investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in market values, interest rates or other factors in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

COVID-19

In March 2020, the COVID-19 outbreak was declared a pandemic by the World Health Organization. The COVID-19 pandemic has also led to extreme volatility in financial markets and has affected, and may continue to affect Plan assets. While the potential economic impact brought by, and the duration of, COVID-19 may be difficult to assess or predict, a widespread pandemic could result in significant disruption of global financial markets. The extent to which COVID-19 impacts the financial markets will depend on future developments that are highly uncertain and cannot be predicted.

NOTE 3 – FAIR VALUE MEASUREMENT

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under the standard are described below:

Level 1 – Inputs to the valuation methodology are unadjusted, quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets,
- Quoted prices for identical or similar assets or liabilities in inactive markets,
- Inputs other than quoted prices that are observable for the asset or liability and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Interest-bearing cash:
Valued at the carrying value, which approximates fair value due to the short-term nature of such investments.

Self-directed brokerage accounts:
Valued at the daily closing price as reported on the active market which the individual securities are traded.

NOTE 3 – FAIR VALUE MEASUREMENT (Continued)

Registered investment companies (mutual funds)
Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020 and 2019:

	Investments at Fair Value as of December 31, 2020

NOTE 4 – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by an affiliate of Fidelity Management Trust Company, the trustee of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 5 – CERTIFIED INFORMATION

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. According, Fidelity Management Trust Company, the trustee of the Plan, have certified the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2020 and 2019;
- Net appreciation in fair value of investments, dividend and interest income, and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2020;
- Assets reflected on the supplemental schedule of assets (Held at End of Year) as of December 31, 2020.

NOTE 6 – UNCERTAIN TAX POSITIONS

U.S. GAAP requires the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the IRS or the DOL. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in question.

NOTE 7 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, further contributions to the Plan shall cease and all participants who are affected by such termination shall become 100% vested. Net assets available for benefits would be distributed to the participants based on each participant's interest in the Plan.

NOTE 8 – NON-EXEMPT TRANSACTIONS

During 2018, the Plan sponsor failed to deposit $138,695 of participants' contributions within the required timeframe as defined by the United States Department of Labor's regulations. The delay in remitting the contribution to the custodian was due to an administrative error. The Company deposited the contributions with the custodian in 2018. The Company deposited the lost earnings into the affected participant's account in 2020 to correct the error.

During 2019, the Plan sponsor failed to deposit $589,842 of participants' contributions within the required timeframe as defined by the United States Department of Labor's regulations. The delay in remitting the contribution to the custodian was due to an administrative error. The Company deposited the contributions with the custodian in 2019. The Company deposited the lost earnings into the affected participant's account in 2020 to correct the error.

During 2020, the Plan sponsor failed to deposit $270,334 of participants' contributions within the required timeframe as defined by the United States Department of Labor's regulations. The delay in remitting the contribution to the custodian was due to an administrative error. The Company deposited the contributions with the custodian in 2020. The Company will deposit the lost earnings into the affected participant's account in 2021 to correct the error.
