We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2020 and 2019 that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion on the financial statements. Accordingly, we do not express an opinion on the financial statements.

Mortality

Mortality tables mandated by current legislation as specified in IRS Regulation 1.430(h)(3)-1, as amended in IRS Notice 2019-26, applied on a static basis.

Lump Sum interest and mortality

Interest Rate: Forward rates implied by the funding interest rates (annuity substitution rule)

Mortality: 2020 IRC 417(e) Applicable Mortality table

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan administrative and investment related expenses to be paid from plan assets during the year.

Since the plan is frozen, the Target Normal Cost represents expected plan expenses only.

Name of Plan: Cincinnati Bell Management Pension Plan

Plan Year: January 1, 2020 to December 31, 2020

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods

The following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor with the actuary's advice and is an acceptable method under the applicable provisions of the Internal Revenue Code and associated regulations.

Expenses

Expected plan administrative and investment related expenses of \$585,461 were added to the Target Normal Cost. This assumption is based on the sum of the prior year's expenses (without PBGC premium) and the current year's PBGC premium.

Frequency of optional payment forms

Retirement – 90% elect lump sums, 10% elect annuities. All annuities were assumed to be life annuities due to immateriality of specifying additional annuity types.

Death and termination – 100% of participants elect lump sums.

Current vested terminations – 100% elect lump sums.

Marital percentage

100% of participants are assumed to be married at death. Husbands are assumed to be 3 years older than their wives.

Retirement rates

The retirement rates were based on anticipated future experience. Actual experience is reviewed each year and compared to the assumption. Changes are then made, as appropriate, based on this review. The assumption remains appropriate given historic gain and loss experience of the plan, as well as general expectations for clients similar to Cincinnati Bell.

Age	Assumption
54 & below	2.00%
55-59	4.00%
60-61	5.00%
62-63	20.00%
64	10.00%
65 and above	100.00%

Current terminated vested participants are assumed to retire at age 65. Future terminated vested participants are assumed to retire at date of decrement.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods (continued)

Withdrawal rates for active participants not eligible for retirement

The withdrawal rates are based on an examination of a public study, Actuary's Pension Handbook T-3 Turnover Rates, which analyzed historical experience and is deemed indicative of future experience for this plan. Sample rates below:

Age	Assumption
25	5.27%
30	4.83%
35	4.47%
40	3.84%
45	3.21%
50	1.52%
55	0.33%

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including discounted receivable contributions, reduced by 2/3 of the gain/(loss) for the immediately preceding plan year and reduced by 1/3 of the gain/(loss) for the plan year before that. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by current law and regulation to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2020 Expected Return	6.00%	6.27%	6.00%
2019 Expected Return	6.50%	6.11%	6.11%
2018 Expected Return	7.00%	6.29%	6.29%

The expected rate of return is based on the plan's asset allocation and forward-looking expected rates of return by asset category provided by Cincinnati Bell's investment consultant.

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.

Any age	and	30

Benefit

The monthly retirement benefit payable to a participant at any retirement date is equal to the actuarial equivalent of his cash balance account as of such date or the transition annuity benefit (reduced for early retirement), if greater.

For transition benefit purposes, the benefit is reduced by 0.5% for each calendar month by which the employee's age at retirement is less than 55 years unless the employee has 30 or more years of service or is granted a disability pension. If the employee has 30 or more years of service, the pension amount is reduced by 0.25% for each calendar month by which the employee's age at retirement is less than 55. There is no reduction for employees on a disability pension. The early retirement reductions which apply to the frozen minimum accrued benefit as of March 31, 1995 are based on the greater of age and service at retirement, or age plus five as of March 31, 1995 and service plus five as of March 31, 1995.

Benefit

The monthly retirement benefit payable to a participant at any retirement date is equal to the actuarial equivalent of his cash balance account as of such date or the transition annuity benefit, if greater.

Forms of Benefit

The normal form of benefit for non-married participants is a level life annuity. For married participants, the normal form of benefit is a qualified 50% joint and survivor annuity. In either case, the normal form of benefit is the actuarial equivalent of the participant's account balance or the transition annuity benefit, if greater. As an optional form of benefit, participants can receive their benefit as a lump sum distribution of an actuarial equivalent basis.

Vesting

Effective January 1, 2001, the vesting schedule was changed from five years of service to 20% per year of service (up to 100% after five years).

Effective January 1, 2008, the vesting schedule was changed from 20% per year of service (up to 100% after five years) to 100% after three years of service.

Benefit

Upon termination of employment, a vested participant may elect to receive an immediate benefit which is the actuarial equivalent of his cash balance account (adjusted for applicable transition benefits). If immediate distribution is not requested, the participant may elect to defer receipt of his benefit and receive interest credits on the cash balance account at a rate of 4.00%.

Death Benefits

Eligibility

Effective January 1, 2008, eligibility was changed from 20% per year of service (up to 100% after five years) to three years of service.

Benefit

The greater of (a) or (b)

- a) The actuarial equivalent of the participant's cash balance account as of the date of death.
- b) The transition benefit for a surviving spouse of an active employee who dies with at least 5 years but less than fifteen years of service is equal to 44% of the transition benefit amount accrued to the date of death with payments to the surviving spouse beginning at the time the deceased employee would have attained age 65. For a surviving spouse of an active employee who dies with at least fifteen years of service, the transition benefit is equal to 45% of the pension amount accrued to the date of death with payments commencing immediately without an early retirement discount.

CINCINNATI BELL MANAGEMENT PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

(1) Plan Description

The following Notes to Financial Statements give only a brief description of the Cincinnati Bell Management Pension Plan (“the Plan”) and are provided for general purposes only. Participants should refer to the Plan Document for further details. In the event of any conflicts between the Notes to Financial Statements and the Plan Document, the Plan Document shall control.

The Plan is a non-contributory defined benefit pension plan maintained for eligible management and certain hourly employees of Cincinnati Bell Inc. and its subsidiaries (collectively, the “Company” or “Employer”), who were hired prior to January 1, 2009, have reached age 21, and have at least one year of service. Subject to satisfaction of the Plan’s vesting requirements and (when applicable) to the Plan’s provisions reflecting the funding-based restrictions of Section 436 of the Internal Revenue Code (the “IRC”), benefits are payable generally in the form of an annuity or lump sum when a participant retires, dies, or separates from service.

The Plan generally uses a cash balance formula to determine benefits. All benefit accruals under the Plan were frozen as of June 30, 2013 (benefit accruals for non-grandfathered participants were frozen as of March 28, 2009). As such, no pension credits have been or will be earned under the Plan for any period after June 30, 2013. All participants will continue to earn interest credits as specified under Plan provisions (4% for both 2020 and 2019).

In general and subject to certain grandfathered vesting rules, a participant who completes at least one hour of service with the Company on or after January 1, 2008 will be fully vested in a Plan benefit upon completion of three years of vesting service (normally a year of vesting service is a calendar year with respect to which the participant is paid by the Company for at least 1,000 hours). In addition, a participant will be fully vested in a Plan benefit if still employed by the Company when normal retirement age is attained, which is the later of the participant’s 65th birthday or the fifth annual anniversary date of his or her becoming a participant in the Plan. Any amounts not vested at the time a participant’s employment terminates are forfeited.

(2) Summary of Significant Accounting Policies

- a. **Basis of Accounting:** The accompanying financial statements are prepared on the accrual basis of accounting.
- b. **Use of Estimates:** The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America (“U.S. GAAP”) requires management to make significant estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. These significant estimates include the accumulated plan benefits and market value of investments. Actual results could differ from those estimates.
- c. **Fair Value Measurements:** Accounting Standards Codification Topic 820, “Fair Value Measurements,” establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:
 - Level 1 - Quoted market prices for identical instruments in an active market;
 - Level 2 - Quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (i.e., interest rates, yield curves, etc.), and inputs that are derived principally from or corroborated by observable market data by correlation or other means (market corroborated inputs); and
 - Level 3 - Unobservable inputs that reflect management's determination of assumptions that market participants would use in pricing the asset or liability. These inputs are developed based on the best information available, including our own data.

The Plan invests in the Cincinnati Bell Pension Plans’ Trust (the “Master Trust”), which holds only the assets of the Plan and the Cincinnati Bell Pension Plan. The Master Trust invests in a combination of mutual funds. The fair values of Level 1 investments are based on quoted prices in active markets. The fair values of Level 2 investments, which consisted of funds that hold securities in active markets, were determined based on the net asset value as reported by the fund manager.

CINCINNATI BELL MANAGEMENT PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

- d. **Investment Valuation and Income Recognition:** Investments are reported at fair value. Fair value is the price that would be received to sell an asset or to transfer a liability in an orderly transaction between market participants at the transaction date. Investment income (loss) in the Master Trust is allocated between the Plan and the Cincinnati Bell Pension Plan based on the weighted average allocated investment balances between the plans throughout the year. Purchases and sales of securities in the Master Trust are reflected as of the trade date. Realized gains and losses on sales of securities are determined on the basis of average cost. Dividend income in the Master Trust is recorded on the ex-dividend date. Income from other investments is recorded as earned on an accrual basis. The Plan presents its portion of the Master Trust's realized gains or losses and the net unrealized appreciation or depreciation of investments in the Statements of Changes in Net Assets Available for Benefits under the caption "Interest in Master Trust investment income."
 - e. **Actuarial Method and Contributions:** Contributions to the Plan are made by the Company into the Master Trust. The Company's contributions are equal to the current period cost of the Plan actuarially determined by the aggregate cost method. This method calculates a specific contribution such that the sum of future contributions, present trust investments and expected future investment earnings will be sufficient to pay all future benefits due. For the 2020 plan year, the Company did not contribute to the Plan in 2020 and the Plan did not record a receivable to be contributed to the Plan in fiscal year 2021 by the Company as the Plan had been fully funded. For the 2019 plan year, the Company did not contribute to the Plan in 2019 and the Plan recorded a receivable of \$716,610 that was contributed in fiscal year 2020 by the Company.
- The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan's minimum funding requirements under ERISA, as modified by the Pension Protection Act of 2006, have been met.
- f. **Actuarial Present Value of Accumulated Plan Benefits:** Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries.
 - g. **Payment of Benefits:** Benefit payments to participants are recorded upon distribution.
 - h. **Plan Expenses:** Trustee and investment management fees and administrative expenses are paid directly from the Master Trust and allocated to the Plan as a reduction of the Plan's interest in Master Trust investment income (loss).
 - i. **Transfer to/from Other Plans:** If a Plan participant becomes a participant of the Cincinnati Bell Pension Plan, or if a participant of the Cincinnati Bell Pension Plan becomes a participant of the Plan, the related assets and accrued benefits and liabilities are generally transferred to and assumed by the recipient plan. There were no participant transfers to or from the Plan in 2020.

In 2020, \$1,700,904 was transferred to the Plan from the Cincinnati Bell Pension Plan related to participants that transferred during plan years 2014 through 2018. Transfers to the Plan in 2020 include a receivable of \$1,644,173 that was recorded in plan year 2019 in addition to interest payments of \$56,731 recorded in plan year 2020.

Effective January 1, 1985, companies which were former members of or affiliated with the pre-1985 Bell System, including the Company, entered into a Mandatory Portability Act (the "MPA") which among other things provides for the transfer of defined benefit plan assets and liabilities attributable to certain employees who change employment between any such companies. There were no transfers to or from the Plan in 2020 and 2019.

CINCINNATI BELL MANAGEMENT PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

- j. **Uncertain Tax Positions:** U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service (the “IRS”). There are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is not currently under audit by any taxing jurisdictions.
- k. **Risks and Uncertainties:** Plan contributions and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions, including interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties in the estimations and assumptions processes, it is possible that changes in these estimates and assumptions could be material to the financial statements.
- The Master Trust holds investments in a combination of mutual funds. The portfolio of mutual funds include: U.S. equity index funds, international equity index funds and fixed income long-term bond funds. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with investment securities and the level of uncertainty related to changes in the value of the investment securities, changes in investment values could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.
- l. **COVID-19:** On March 19, 2020, the World Health Organization declared the novel coronavirus (“COVID-19”) outbreak a pandemic which has impacted the financial markets and global economy. The “COVID-19” pandemic is on-going and the duration and extent of the related financial impact on the Plan’s net assets available for benefits and changes in net assets available for benefits is uncertain and cannot be reasonably estimated at this time.
- m. **Subsequent Events:** The Plan has evaluated subsequent events through October 13, 2021, the date the financial statements were available to be issued.

(5) Tax Status

The IRS issued on May 13, 2021, a favorable determination that the Plan meets the requirements of Section 401(a) of the IRC and is exempt from federal income taxes under Section 501(a) of the IRC. Under Revenue Procedure 2016-37, letters issued after January 4, 2016 no longer contain an expiration date and are considered operative. The Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

(6) Actuarial Present Value of Accumulated Plan Benefits

Pension benefits are generally determined under the Plan's cash balance formula for an active participant by the addition of pension credits (for periods prior to the applicable freeze of benefit accruals and based upon age and compensation) and an annual interest credit to the participant's cash balance account. The accumulated Plan benefits as of January 1, 2020 presented on page 11 are based on census data and the Plan in effect as of that date. Benefits payable under retirement, death, disability, or withdrawal are included to the extent they are deemed attributable to employee service rendered through the valuation date.

Assumptions were made for the following factors used to determine the actuarial present values of the accumulated plan benefits as of January 1, 2020: (a) mortality rates using the MP-2019 tables for all participants, (b) withdrawal rates, (c) disability retirement rates, (d) service retirement rates, (e) qualified beneficiary ratios, and (f) a discount rate of 6.00% for 2020 and 6.50% for 2019. These assumptions are based on the Company's experience as well as industry-wide trends modified as appropriate for the Company.

(7) Termination Priorities

Currently, the Company has no intentions to terminate the Plan. In the event the Plan is terminated, subject to conditions set forth by ERISA:

- a. The Plan provides that its interest in the Master Trust shall be allocated among the participants and beneficiaries of the Plan in the order provided for by ERISA;
- b. To the extent the Plan's interest in the Master Trust exceeds the amounts needed to pay all Plan benefits, such amounts will revert to the Company; and
- c. Certain benefits under the Plan may be insured by the Pension Benefit Guaranty Corporation ("PBGC"), a Federal corporation. Because of such insurance, if the Plan terminates when the amounts needed to pay all Plan benefits exceed the Plan's interest in the Master Trust and the Company is financially unable to contribute further amounts to the Plan, certain unfunded but insured benefits under the Plan may be provided by the PBGC. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. Further, there is a statutory ceiling, which is adjusted periodically, on the amount of a participant's monthly benefit that the PBGC guarantees.

NOTES TO FINANCIAL STATEMENTS

(8) Related-Party Transactions

The Bank of New York Mellon ("Trustee") is the trustee for the Plan. Fees paid to The Bank of New York Mellon by the Master Trust and allocated to the Plan for the investment management services amounted to \$22,204 and \$57,759 for the years ended December 31, 2020 and 2019, respectively.

(9) Contingencies

In the normal course of administering pension benefits, the Plan is subject to various lawsuits, claims, and other matters. Such matters are subject to many uncertainties and outcomes that are not predictable with assurance. The Plan believes that the resolution of such matters would not likely have a material adverse effect on the Plan's financial condition.

(10) Information Certified by the Trustee

All investments, investment income and losses, and the net appreciation and depreciation in the fair value of investments included in the financial statements were obtained from data that has been prepared and certified as complete and accurate by the Trustee.

(11) Other

The Plan also generally provides certain participants, on an unfunded and non-tax-qualified basis, benefits they do not receive under the Plan solely because of legal limits on the level of compensation or benefits able to be given on a tax-qualified basis ("excess benefits"). Such excess benefits are not funded through any trust or other funding media that is not subject to the claims of the Company's creditors and are not reflected in these financial statements for the Plan.

The following is a reconciliation of the financial statements to the Form 5500 for 2020:
