Note 1 - Plan Description

The following brief description of the Syndex Corporation 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan was established effective April 30, 1974, as a qualified defined contribution savings plan covering eligible employees of Syndex Corporation and certain affiliated companies (collectively, the Company), as defined in the plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Company serves as the plan administrator and has appointed two employees to serve as the Plan's trustees. Transamerica Life Insurance Company (Transamerica) became the Plan's asset custodian as of August 4, 2020. Prior to Transamerica, Principal Life Insurance Company was the asset custodian for the pooled separate accounts, and Principal Life Insurance Company on behalf of Principal Global Investors Trust Company was the asset custodian for the collective investment trust funds.

Eligibility

The Plan is provided for all eligible employees of the Company, as defined. Employees are eligible to begin participating in the Plan on the first open enrollment date following the date that the participant has completed one year of service and attained the age of 21. Open enrollment dates are January 1 and July 1 of each year. One year of service is defined as having worked at least 1,000 hours within a 12-consecutive month period.

Contributions

Participants may elect to defer any amount of their compensation, as defined by the Plan, on a pre-tax basis, subject to certain limitations set forth in the Internal Revenue Code (IRC). Eligible employees who have attained age 50 before the end of the plan year are eligible to make catch-up contributions, subject to the limitations of the IRC. The Plan also accepts rollovers from other qualified plans or individual retirement accounts. Participants may make changes to their deferral elections on the first day of each calendar quarter.

The Company may elect to make discretionary matching contributions. For the year ended December 31, 2020, the Company made discretionary matching contributions equal to $0.25 per dollar of the participant's contributions, including catch-up contributions, not to exceed 3% of the participant's compensation per pay period. The Company may also elect to make a discretionary employer contribution on behalf of all eligible employees who are employed on the last day of the plan year. No such discretionary employer contribution was made for the 2020 plan year.

Participant Accounts

Each participant's account is credited with the participant's contributions, the employer's contributions, plan earnings and losses, as applicable, and charged with an allocation of administrative expenses.

Upon enrollment in the Plan, a participant directs the investment of his or her account balance.

Vesting

Participants are immediately vested in their salary deferral contributions, including rollovers, plus actual earnings and losses thereon. Vesting in the Company's contributions, plus actual earnings and losses thereon, is based on years of service. Participants vest in increments of 20% after two years of service and are 100% vested after six years of service. Regardless of the vesting schedule, participants become fully vested upon reaching normal retirement age, death or total and permanent disability.

Forfeitures

Forfeitures from participant accounts are used to offset future employer contributions or to pay plan expenses. At December 31, 2020 and 2019, there were $5,032 and $13 of unallocated forfeitures, respectively. For the year ended December 31, 2020, no forfeitures were used to offset employer contributions or to pay for plan expenses.

Notes Receivable from Participants

Notes receivable from participants are loans to participants, secured by the vested portion of their respective accounts. Participants may borrow a minimum of $1,000 from their account balance. A loan may not be more than 50% of the participant's vested account balance or $50,000 reduced by any outstanding loan balance, if any, during the previous twelve months, whichever is less. Interest rates are determined by the plan document to be 7%. Principal and interest are repaid ratably through payroll deductions. Loan terms are limited to five years unless for the purchase of a principal residence, which could then be extended to fifteen years. Participants may have up to two loans outstanding at a time.

Payment of Benefits

Distributions may be made to participants or their beneficiaries upon termination of employment, retirement, death or disability. In-service distributions are available for participants who have reached 59½ or for other reasons as permitted by the plan document. Upon termination, participants with an account balance of $1,000 or less shall receive an automatic lump sum distribution from the Plan. For participants who terminate with an account balance of more than $1,000 but less than $5,000, the plan administrator shall make a direct rollover into an individual retirement account. Withdrawals from the Plan may be subject to income tax on contributions and income earned.

During 2020, the Plan adopted certain provisions of the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) which allowed eligible plan participants to request up to $100,000 in coronavirus-related distributions, with a repayment option of up to three years. The ability to request the distributions ceased on December 30, 2020. For the year ended December 31, 2020, the Plan disbursed $384,337 of coronavirus-related distributions.

Note 2 - Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Investment Valuation and Income Recognition

Investments of the Plan, except for the fully benefit-responsive investment which is reported at contract value, are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. See Note 4 for discussion of fair value measurements and Note 5 for discussion of contract value.

Interest income is recorded on the accrual basis. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation or depreciation in the fair value of investments includes realized gains or losses on investments purchased and sold during the year as well as unrealized gains or losses on the investments held at the end of the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2020 and 2019, no allowance for credit losses has been recorded, as the notes are collateralized by the respective participants' account balances. In general, notes receivable from participants are considered in default if a participant does not repay a missed payment by the end of the calendar quarter following the calendar quarter in which the missed payment was due. Defaulted loans are treated as distributions based upon the terms of the plan document when a distributable event has occurred.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability, with a corresponding reduction to contributions.

Benefit Payments

Benefits paid to participants or their beneficiaries are recorded when paid.

Administrative Expenses

Fees related to the administration of notes receivable from participants and certain transactional fees are charged directly to the participant's account. Certain other costs and expenses incurred in connection with the operation of the Plan are paid by the Plan, unless paid by the Company, at its discretion. Investment related expenses are included in the net appreciation in the fair value of investments.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for investment in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with the Plan's investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and may impact participants' account balances and amounts reported in the financial statements.

Subsequent Events

Management of the Plan evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 14, 2021, which is the date the financial statements were available to be issued.

Note 3 - Information Certified by the Asset Custodians

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications from the asset custodians that all of the information provided is complete and accurate. Information included in the financial statements and accompanying notes to financial statements as to investments, notes receivable from participants (December 31, 2020), investment income and all of the information in the supplemental schedule is presented in reliance solely upon these certifications.

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements, the accompanying notes and the supplemental schedule.

Note 4 - Fair Value Measurements

GAAP provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2020 and 2019.

Pooled Separate Accounts and Collective Investment Trust (CIT) Funds: These funds are valued at their net asset value (NAV) as determined by the issuer, based on the value of each of the underlying investments, less applicable fees charged by the issuer. The NAV is used as a practical expedient to estimate fair value. The practical expedient is not used when it is determined to be probable that the investment will be sold for an amount different than the reported NAV.

In accordance with GAAP, the fair value of the pooled separate accounts and the CIT funds is not required to be categorized in the fair value hierarchy because the NAV is used as a practical expedient to estimate fair value.

The following tables provide additional information for the pooled separate accounts and the collective investment trust funds which are measured using NAV as a practical expedient as of December 31, 2020 and 2019.

	Fair Value				
Investment Class	**2020**	2019	**Unfunded Commitments**	**Redemption Frequency**	**Redemption Notice Period**

Stable Value Fund	**-**	397,379	None	Daily	30 days
	$ -	$ 6,126,485			

Note 5 - Contract with Transamerica

The Plan has a group annuity contract with Transamerica with respect to the Plan's investments in the pooled separate accounts and the Transamerica Stable Value Advantage Account (Stable Value Fund). The pooled separate accounts are segregated from Transamerica's general assets, while the Stable Value Fund is part of Transamerica's general account.

As described in Note 2, the Stable Value Fund is a fully benefit-responsive investment that is reported at contract value. It is made up of deposits made under the contract, plus earnings at guaranteed crediting rates, less participant withdrawals and fees.

Twice a year, the effective annual rate of interest is established for the upcoming six-month period. Interest is credited based upon the daily balance at a rate that is the daily equivalent of the effective annual rate of interest applicable for the six-month period There is no stated minimum or maximum interest rate for the Stable Value Fund.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value without restriction; however, certain events such as partial or total discontinuance of the contract may limit the ability of the Plan to transact at contract value with Transamerica and may cause a delay in payment of up to 12 months. The plan administrator is not aware of any events that are probable of occurring, which would limit the Plan’s ability to transact at contract value with Transamerica.

Note 6 - Tax Status

The volume submitter plan document adopted by the Plan obtained its latest advisory letter from the Internal Revenue Service dated September 30, 2014, which stated that the volume submitter plan, as then designed, was in compliance with the applicable provisions of the IRC. The volume submitter plan has been amended since receiving the advisory letter; however, the plan administrator believes that the Plan, through its adoption of the volume submitter plan, is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions and underwent a routine DOL investigation for the 2017 through 2019 plan years. On November 13, 2020, the DOL investigation was completed and the Plan received a no action letter from the DOL. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2020 and 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all participants would become 100% vested in their Company contributions.

Note 8 - Party-in-Interest Transactions

The Plan engages in transactions with funds managed by the asset custodians. These transactions are covered by an exemption from the "prohibited transaction" provisions of ERISA and the IRC.
