DIRECT ENERGY US 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

NOTE I- DESCRIPTION OF THE PLAN

The following description of the Direct Energy US 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering certain employees of Centrica U.S. Holdings, Inc. and certain other related companies (Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). In January 2021, NRG Energy, Inc. acquired Direct Energy from Centrica PLC. Direct Energy is a participating company in the Plan.

Contributions - Each year, participants may contribute up to 90% of pretax annual compensation, as defined in the Plan. In addition, employees are immediately eligible to participate in the Plan and automatically have 3% deducted from their compensation as a contribution to the Plan, and each year, on January 1, the automatic deferral percentage is increased by 1% up to a maximum of 10%, unless otherwise elected. The Company makes a safe harbor contribution equal to 100% of the first 3% of eligible compensation, and 50% of the next 2% of eligible compensation and may elect to make a discretionary matching contribution limited to 4% of the participant's eligible compensation for the Plan year. Participants must have one year of service with 1,000 hours to be eligible for the discretionary matching contribution. There were no discretionary matching contributions in 2020. The Plan allows participants to direct their contributions and contributions made on their behalf to any of the investment options provided by the Plan. In addition, participants over the age of 50 are permitted an additional "catch-up" contribution. Participants are allowed to make rollover contributions (contributions transferred to the Plan from other qualified retirement plans), subject to certain requirements. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts - Each participant's account is credited with the participant's contribution and Company safe harbor and discretionary matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined above. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions, safe harbor contributions and employer discretionary profit sharing plus actual earnings thereon.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their account balance, whichever is less. Loans are required to be repaid through payroll deductions within five years, except those loans used in the purchase of a primary residence. Residential loans must be repaid within a reasonable period of time, determined at the time the loan is executed. The loans are secured by the balance in the participant's account and bear interest at the prime lending rate plus 1% at the time of the loan. Principal and interest are paid ratably through payroll deductions. During 2020, under the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), the Plan elected to increase the maximum loan amount to the lesser of \$100,000 or 100% of the vested account balance, for loans taken between March 27, 2020 and September 23, 2020. In addition, participants who had loans due from March 27, 2020 through December 31, 2020 may delay their repayments and extend the term for up to one year.

Payment of Benefits - Benefits provided by the Plan are paid from assets available for benefits at retirement, disability, death or termination of employment. Payments may be in the form of a lump-sum payout of the participant's account balance, purchase of an annuity or periodic cash payments, or rolled over to another qualified plan. During 2020, under the CARES Act, all required minimum distributions (RMDs) were waived for calendar year 2020, including participants who turned 70½ during 2019 and did not take their distribution prior to January 1, 2020. Hardship withdrawals are permitted by the Plan and are limited to employee elective deferrals plus any rollover amounts.

NOTE I- DESCRIPTION OF THE PLAN (Continued)

During 2020, the Plan elected to adopt the hardship provisions associated with the CARES Act. Under this provision, the additional 10% tax for early withdrawals is waived for hardship distributions related to participants diagnosed with COVID-19, participants with a spouse or dependent diagnosed with COVID-19, and participants who have experienced adverse financial consequences as a result of COVID-19. Participants who meet one of these requirements may withdrawal up to \$100,000, may spread the tax on the income due to the distribution over three years, and may repay the amount to the Plan over the next three years.

NOTE 2-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by the Plan administrator in the preparation of the accompanying financial statements follows:

Basis of Accounting - The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. (See Note 7 for discussion of fair value measurement.)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the Plan document.

Forfeitures - Forfeitures shall be used to offset Plan administrative expenses or reduce employer contributions. Forfeitures remaining approximated \$74,000 and \$46,000 at December 31, 2020 and 2019, respectively. During 2020, approximately \$16,000 forfeitures was used to offset Plan administrative expenses.

Benefits - Benefits are recorded when paid.

Administrative Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to recordkeeping and to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative fees. The remainder of the expenses are paid out of Plan assets. Investment-related expenses are included in net appreciation in fair value of investments.

NOTE 2–SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events - Subsequent events are defined as events or transactions that occur after the statement of net assets available for benefits date, but before the financial statements are issued or are available to be issued. Management has evaluated subsequent events through October 14, 2021, the date that the financial statements were issued and determined that there have been no events that have occurred that would require adjustments to the disclosures in the financial statements except for the matter described in the following paragraphs.

NOTE 3–INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2020 and 2019, and net appreciation in fair value of investments, interest income on notes receivable from participants, interest and dividends for the year ended December 31, 2020, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Fidelity Management Trust Company (Fidelity), the trustee of the Plan.

NOTE 4–PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer discretionary contributions.

NOTE 5 -INCOME TAX STATUS

The Plan has received an opinion letter from the IRS dated April 20, 2012 stating that the form of the Plan is qualified under Section 401 of the Internal Revenue Code (IRC) and, therefore, the related trust is tax-exempt. The Plan sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan option letter. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for tax years prior to 2017.

NOTE 6 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7-FAIR VALUE MEASUREMENT

The Plan discloses the category of assets and liabilities measured at fair value into one of three different levels, depending on the assumptions (i.e., inputs) used in the valuation. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant management judgment. Financial assets and liabilities are classified in their entirety based on the lowest level of input significant to the fair value measurement. The fair value hierarchy is defined as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2- Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; or
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3- Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 or 2019.

Registered Investment Companies - Valued at the daily closing price as reported by the fund. The funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily value and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Money Market Funds - Valued at the daily closing price as reported by the funds.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

NOTE 7–FAIR VALUE MEASUREMENT (Continued)

Common Collective Trust - Valued at net asset value (NAV) of units of a common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) occur daily. At December 31, 2020 and 2019, there were no unfunded commitments, and investments are redeemable on a daily basis and without restriction.

The preceding methods described might produce a fair value calculation that might not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

		2020				
		Level 1	Level 2	Level 3	Total	
Registered investment companies	\$	408,379,132			408,379,132	\$
Money market funds		6,969	-	-	6,969	
		408,386,101	-	-	408,386,101	
Investments measured at net asset value (a):						
Common collective trust					14,193,084	
Total investments at fair value						\$ 422,579,185

		2019				
		Level 1	Level 2	Level 3	Total	
Registered investment companies	\$	362,301,557	-	-	362,301,557	\$
Money market funds		121,984	-	-	121,984	
		362,423,541	-	-	362,423,541	
Investments measured at net asset value (a):						
Common collective trust					11,248,783	
Total investments at fair value						\$ 373,672,324

- (a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

NOTE 7-FAIR VALUE MEASUREMENT (Continued)

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques might require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

NOTE 8-RELATED-PARTY TRANSACTIONS

The Plan invests in registered investment companies and a common collective trust managed by Fidelity. These transactions qualify as party-in-interest transactions that are allowable under ERISA, as Fidelity is the trustee of the Plan. Certain administrative functions are performed by officers or employees of the Company with no cost to the Plan.
