(a) The total amount of salary reduction that the participants elect to defer.

(b) A matching employer contribution equal to 6% of 50% of eligible employee deferrals. Participants must be employed by one of the Companies as of the last day of the Plan year.

(c) A discretionary profit-sharing employer contribution as determined by the Companies on a year-to-year basis. For the years ended December 31, 2020 and 2019, the Companies elected not to make a profit-sharing contribution.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Companies contributions and (b) plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting:

A participant is always 100% vested in their salary reduction contributions. Employer contributions vest at a rate of 25% for each year of qualified service; all eligible participants are fully vested after four years of service.

A. Description of Plan (continued):

Payment of Benefits:

Upon termination of service, participants or their beneficies may receive the vested value of their account in a lump sum. Certain other in-service withdrawals are allowed as described in the plan document. Benefits are recorded when paid. As of December 31, 2020, there were no amounts allocated to participants who have elected to withdraw from the Plan but have not been paid.

Covid-19 provisions:

On March 28, 2020 the Coronavirus Aid, Relief, and Economic Security (CARES) Act become law. The CARES act included several provisions related to retirement plans which were adopted by the Plan through December 31, 2020. They were; increased the maximum loan that could be taken from $50,000 or 50% of the vested account balance to $100,000 or 100% of the vested account balance; loan payments could be suspended from March 27, 2020 to December 31, 2020; participants could take an in-service withdrawal of up to $100,000 with the option of paying any related taxes over three years or paying in back into the plan over the same time period; and suspending required minimum distributions.

Forfeitures:

Forfeited amounts are used to reinstate previously forfeited account balances of former participants, if any, and other required contributions of the employer. Any remaining forfeitures may be used to pay the administrative expenses of the Plan. Forfeited non-vested amounts totaled $29,202 and $21,158 at December 31, 2020 and 2019, respectively. For the year ended December 31, 2020, $283 of forfeitures were used to pay Plan expenses.

Loans:

Loans to participants are not permitted under the Plan agreement; however, during the 2014 plan year four participants were allowed to take loans from their account balances due to an administrative error. The loans are being paid back by payroll deduction, and plan management has executed an EPCRS Self Correction Loan Amendment to correct for this operational defect.

Plan Expenses:

The Plan pays recordkeeping and certain other administrative fees of the Plan assets; legal, accounting and other services are paid by the Plan Sponsors.

B. Summary of Significant Accounting Policies:

Basis of Accounting:

Assets, liabilities, income and expenses are recognized on the accrual method of accounting.

Date of Management's Review:

Subsequent events were evaluated through October 14, 2021 which is the date the financial statements were available to be issued.

B. Summary of Significant Accounting Policies (continued):

Investment Valuation and Income Recognition:

The Plan's investments are stated at fair value, except for the stable value fund which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, the actual results may differ from those estimates.

C. Fair Value Measurements:

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

FASB ASC topic 820 on *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3). The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using level 1 inputs because they generally provide the most reliable evidence of fair value. The hierarchy is measured in three levels based on the reliability of the inputs:

Level 1 Valuations based on unadjusted quoted prices in active markets for identical assets that the Plan has the ability to access at the measurement date.

Level 2 Valuations based on inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly. Observable inputs include quoted prices for similar assets in active or non-active markets.

Level 3 Valuations derived through the use of valuation models or methodologies using significant unobservable inputs. Level 3 valuations incorporate certain assumptions and projections that are not observable in the market and as a result significant professional judgment may be used in determining the fair values.

C. **Fair Value Measurements (continued):**

The following are the major categories of assets measured at fair value on a recurring basis during the year ended December 31, 2020:

		Fair Value Hierarchy Level		
	Fair Value	Level 1	Level 2	Level 3
Mutual Funds	$ 7,994,096	$ 7,994,096	$-	$ -

The following are the major categories of assets measured at fair value on a recurring basis during the year ended December 31, 2019:

		Fair Value Hierarchy Level		
	Fair Value	Level 1	Level 2	Level 3
Mutual Funds	$ 7,721,559	$ 7,721,559	$ -	$ -

D. **Information Certified by the Plan's Trustee:**

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Reliance Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2020 and 2019 and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2020.

E. **Related Party Transactions:**

The plan pays various service providers for record keeping, trust and investment advisory services and as such these transactions qualify as party-in-interest transactions. Amounts paid directly to providers for these services were $47,915 for the year ended December 31, 2020.

F. **Risks and Uncertainties:**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The influx of the novel strain of coronavirus (COVID-19) in the United States beginning in March of 2020 has caused widespread economic disruptions in nearly every sector of the economy. While the economy has recovered to an extent, there remains considerable uncertainty concerning the long-term effects and as such any financial impact to the Plan cannot be reasonable estimated at this time.

G. Plan Termination:

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

H. Federal Income Tax Status:

The Internal Revenue Service has opined and informed Great-West Trust Company, LLC., the volume submitter by letter dated March 31, 2014, that the Prototype Non-standardized Profit-Sharing Plan with CODA plan adopted by the Employer is designed in accordance with the applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained by the relevant taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.
