The Reynolds and Reynolds Company 401(k) Savings Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of The Reynolds and Reynolds Company 401(k) Savings Plan (the Plan), is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Universal Computer Systems Holding, Inc. and subsidiaries (the Company, the Employer or Plan Sponsor). Such employees are immediately eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended.

Plan mergers: Effective March 31, 2020, the Plan was amended to approve the merger of the GoMoto, Inc. sponsored portion of the TriNet 401(k) Plan. Effective June 30, 2020, the Plan was amended to approve the merger of the Appraisal Lane, LLC, sponsored portion of the Nextep 401(k) Retirement Savings Plan. The transfers into the Plan of \$832,326 are reported on the Plan financial statements for the year ended December 31, 2020.

Administration: The Plan is administered by the Company. Great-West Trust Company, LLC serves as the Plan trustee and Empower Retirement as the record keeper.

Contributions: Eligible employees may contribute from 1% to 80% of their earnings through tax-deferred and or roth payroll deductions. The Company contributes an amount equal to the first 6% of a participant's contribution to the Plan.

Employees are automatically enrolled in the Plan at a default contribution rate of 6%, which is invested in the retirement income fund appropriate for the participant's age. Participants will automatically increase contribution rate 1% each year to a maximum of 15%. Employee may opt out of this automatic election, and automatic increase, or choose to change their deferral percentage.

Rollovers: The Plan allows rollovers received by a participant as a distribution from another qualified plan after approval from the Plan Sponsor. Participants are fully vested in these amounts.

Participant accounts: Participants may invest their account balances in any of the investment options offered by the Plan. Each participant's account is credited with the participant's contribution and his or her proportionate share of the Company's contributions and the Plan's earnings. Allocations are based on daily valuation accounting, as provided in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and distributions: Participants are 100% vested in Company contributions upon the completion of two years of eligible service. Employee contributions are 100% vested at all times. A participant who has reached the age of 59½ may elect to withdraw all or a portion of his or her vested account balance.

Participants may also apply for hardship withdrawals from their vested tax-deferred contribution accounts, subject to approval by the Plan Sponsor. During 2020, the Plan allowed qualified individuals to take coronavirus-related distributions (CRDs); see Note 9.

Notes receivable from participants: Participants may borrow from their vested accounts. The maximum loan amount is defined in the Plan document and, in any case, cannot exceed the lesser of \$50,000 or 50% of the participant's vested account balance, and the repayment period shall not exceed five years (unless proceeds are used to acquire a principal residence). A loan to a participant is funded by a reduction of the participant's 401(k) account and is prorated based on the current balance of each respective fund. Each loan is collateralized by the remaining balance in the participant's account.

The Reynolds and Reynolds Company 401(k) Savings Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Interest charged to participants is based upon prevailing interest rates for similar loans in the surrounding community. Interest on the loan is paid back directly into the participant's account. Interest rates on participant loans ranged from 4.25% to 6.50% as of December 31, 2020 and were 4.25% to 6.00% as of December 31, 2019. Loan repayments are made through payroll deductions but can be repaid in full at any time. During 2020, the available loan amount increased to the lesser of \$100,000 or 100% of the vested balance, and the loan repayment period was extended up to one year; see Note 9.

Forfeited accounts: Funds that are forfeited by participants are transferred to a forfeiture holding account. The forfeiture holding account is used to offset Company contributions or Plan expenses. The account is also used to rebuild a rehired participant's account if the ERISA break-in-service rules determine the participant is entitled to any previously forfeited funds. The balance of forfeited funds totaled \$405,892 and \$140,746 as of December 31, 2020 and 2019, respectively. During the years ended December 31, 2020 and 2019, forfeitures totaling \$0 and \$321,644, respectively, were used to reduce employer matching contributions.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements are prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC).

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect certain amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and uncertainties: The Plan provides for various investment options. These investment options are exposed to market risk, which generally means the risk of loss in the value of certain investment securities due to changes in interest rates, commodity prices and general market conditions. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in interest and dividend income.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: The Plan and the Company both contribute in paying the Plan's administrative expenses.

The Reynolds and Reynolds Company 401(k) Savings Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 13, 2021, the date the financial statements were available to be issued.

Note 3. Information Certified by the Plan's Trustee

The information related to the Plan's assets that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2020 and 2019, and for the year ended December 31, 2020 was prepared by or derived from information provided by the trustee, Great-West Trust Company, LLC and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these Plan assets is complete and accurate.

Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 4 and the supplemental schedule related to the Plan's assets.

The trustee also certified to the completeness and accuracy of \$90,048,736 of net appreciation in fair value of investments, \$20,416,037 of dividends related to investments and \$304,237 of interest income from notes receivable from participants for the year ended December 31, 2020.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Reynolds and Reynolds Company 401(k) Savings Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Self-directed brokerage accounts: Accounts primarily consist of mutual funds, common stock and money market funds. These investments use the valuation methodology of like investments within the Plan.

Common/collective trusts: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value (NAV) of units of the collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investments for an amount different from the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

^(a) Certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The table below discloses the fair value and redemption frequency for those assets whose fair value is estimated using the NAV per unit as of December 31, 2020 and 2019:

<u>Investment</u>	2020 Fair Value	2019 Fair Value	2020 Unfunded Commitment	2019 Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust fund	\$ 70,558,625	\$ 60,406,009	None	None	Immediate	None

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits.

Notes to Financial Statements

Note 5. Income Tax Status

The Internal Revenue Service has determined and informed the Company, by a letter dated April 17, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's legal counsel believe that the Plan was designed and operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2017.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7. Parties-In-Interest Transactions

Certain Plan investments are managed by Great-West Trust Company, LLC, the trustee as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions under ERISA. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibitions of party-in-interest transactions under ERISA. Fees paid by the Plan for trustee services amounted to \$523,388 for the year ended December 31, 2020.

Note 9. Coronavirus Pandemic

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a “Public Health Emergency of International Concern” and on March 11, 2020, declared it to be a pandemic. The pandemic in the United States and throughout the world has resulted in substantial volatility in financial markets. On March 27, 2020, the *Coronavirus Aid, Relief, and Economic Security Act* (CARES Act) was enacted to amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the coronavirus pandemic. During 2020, the Plan implemented certain CARES Act provisions to allow for special CRDs, an increase in Plan loan amounts, deferral of loan repayments, and waiver of 2020 required minimum distributions. CRDs were available to qualified individuals impacted by the coronavirus. The CRDs provide favorable tax treatment for distributions up to \$100,000 that may be repaid over three years. During 2020, the Plan made CRDs of \$3,235,330, which are included in benefits paid to participants in the statement of changes in net assets available for benefits.
