Bering Home Center, Inc. Retirement Savings Plan

Notes to Financial Statements

December 31, 2020

Note 1 - Description of Plan

The following description of the Bering Home Center, Inc. Retirement Savings Plan (the "Plan") provides only general information. Plan participants should refer to the *Plan Document* for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution retirement plan generally covering all employees of Bering Home Center, Inc. (the "Company"). The Plan was established on October 1, 1968, and was most recently amended and restated on January 1, 2019. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Ascensus Inc. (the "Recordkeeper") is the recordkeeper for the Plan, as agent for Ascensus Trust Company (the "Trustee"), the trustee of the Plan.

Eligibility

All employees are eligible to participate in the Plan after the attainment of 18 years of age and the completion of six months of service. Employees are automatically enrolled at 1% of eligible compensation on the first day of the month coinciding with or following the date the eligibility requirements are met. Additionally, to be eligible for profit sharing contributions, employees must complete one year of service and be employed on the last day of the plan year.

Contributions

The Plan provides for voluntary pre-tax employee contributions expressed as a percentage of the participant's eligible compensation, as defined, and are not to exceed the limits set by the Internal Revenue Code ("IRC"), which limits the annual amount of salary deferrals that may be made by a participant. Eligible employees may also make catch-up contributions upon attaining 50 years of age, as defined by the IRC.

The Company can make discretionary matching contributions and discretionary profit sharing contributions. In 2020, the Company elected to make a discretionary matching contribution for each payroll period equal to 25% of the first 6% of participant contributions. The Company did not make any profit sharing contributions for the plan year ended December 31, 2020.

Participant accounts

Each participant's account is credited with the participant's contribution, rollover contribution, if any, the Company's contribution, an allocation of Plan earnings or losses, and administrative fees. These allocations are based on participant earnings and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account balance.

Participants direct the investment of their account balances in any of several investment funds. Participants can change their investment options among the various investment funds either through direct transfers from one fund to another or by changing the percentage allocation of future contributions.

Note 1 - Description of Plan (Continued)

Vesting

Participants are immediately vested in their voluntary contributions, rollover contributions, and actual earning thereon. A participant is vested in the Company matching and profit sharing contributions and related earnings or losses based on years of service as follows:

Years of Service	Percent Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures

The Plan provides that nonvested portions of the Company's contributions are forfeited by terminated participants and may be used to pay administrative expenses or to reduce the Company's matching contributions. During 2020, forfeitures of $1,071 were used to offset Plan expenses. The Plan had $20 of forfeitures available for utilization as of December 31, 2020.

Benefit payments

Participants are eligible for distributions of their vested account balances upon the event of death, disability, retirement, termination of employment, or the attainment of age 55.

If the value of a terminated participant's account balance is less than $5,000, payments are made, without participant consent. For balances below $1,000, payments are made in a single lump-sum. For balances between $1,000 and $5,000, balances are rolled over into an individual retirement account designated by the Plan administrator. Any taxable distribution paid directly to the participant is subject to mandatory federal income tax withholding of 20% of the requested distribution.

Plan expenses

All reasonable expenses related to plan administration will be paid from Plan assets, except to the extent the expenses are paid by the Company at its discretion.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, the net assets would be allocated among the participants of the Plan in accordance with the provisions of the Plan and participants would be 100% vested.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting

The accounts of the Plan are maintained and the accompanying financial statements are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles ("GAAP").

Use of estimates

The preparation of financial statements in conformity with GAAP requires the management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Financial instruments and credit risk

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits. Plan participants bear the risk of any investment losses.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Unrealized appreciation or depreciation in the fair value of investments held at year-end is determined using the fair value at the beginning of the year or the purchase price if the investment is acquired during the year. The realized gain or loss on the sale of investments is determined using historical cost. Unrealized appreciation or depreciation and realized gains and losses are reported as net appreciation or depreciation in fair value of investments in the statement of changes in net assets available for benefits.

Benefit payments

Benefit payments to participants are recorded upon distribution.

Recent accounting pronouncement

The Financial Accounting Standards Board issued Accounting Standards Update ("ASU") 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement* in August 2018. The ASU modifies the disclosure requirements for the fair value measurements in Topic 820, including the removal, modification to, and addition of certain disclosure requirements. The ASU will be effective for the Plan's fiscal year beginning after December 15, 2019. The provisions of the ASU did not have a material impact on the Plan's financial statements.

Note 3 - Fair Value Measurements

The Plan uses a three-level hierarchy for grouping assets and liabilities, based on the significance of inputs. The hierarchy of fair value measurements is described below:

- Level 1 – quoted prices in active markets for identical assets or liabilities;
- Level 2 – inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of these assets or liabilities; or
- Level 3 – unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

- Mutual funds – these investments are valued daily at the net asset value of shares or units.
- Collective trust – this investment is valued daily at the net asset value ("NAV"). The NAV is calculated by the fund based on "net assets," which includes fully benefit-responsive investment contract value. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value for the collective trust since this is the amount at which the Plan transacts with the fund. If the Plan terminates participation in the collective trust, the Plan will receive the lesser of the guaranteed value, as defined, or the fair value of its share of the collective trust. The units in the collective trust can be redeemed daily. There were no unfunded commitments as of December 31, 2020.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the valuation methods are considered appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's mutual funds are measured at Level 1 as of December 31, 2020 and 2019. The Plan's collective trust is measured at the NAV per share (or its equivalent) as a practical expedient and has not been classified in the fair value hierarchy.

Note 4 - Information Certified by the Recordkeeper (Unaudited)

For Plan year 2020, the financial information included in the Plan's financial statements, and Schedule H, line 4i, except for contributions receivable, contributions, benefits paid and withdrawals, and administrative expenses, has been derived from information certified as complete and accurate by the Recordkeeper on behalf of the Trustee, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 5 - Income Tax Status

The prototype plan document adopted by the Plan, received its latest favorable opinion letter dated January 1, 2018, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with applicable requirements of the IRC. The Plan administrator believes that the Plan is currently designed and is being operated in compliance within the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax provisions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Reconciliation of the Financial Statements to the Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to Form 5500 as of December 31, 2019 (compiled):

Net assets available for benefits per the financial statements financial statements	$ 4,690,676
Employer contributions receivable	(751)
Participant contributions receivable	(4,603)
Net assets available for benefits per Form 5500	$ 4,685,322

There were no reconciling items as of December 31, 2020.

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to net income per Form 5500 for the year ended December 31, 2020:

Net increase in net assets available for benefits per the financial statements	$ 833,231
Change in employer contributions receivable	751
Change in participant contributions receivable	4,603
Net income per Form 5500	$ 838,585

Note 7 - Uncertainty

The Company is currently researching certain participant and employer contributions that were not funded in accordance with Plan provisions. The Plan administrator intends to correct any related instances of noncompliance with the *Plan* Document. Further, the Company believes that the extent and nature of the contributions to be corrected will not adversely affect the operations of the Plan or have a material adverse effect on the financial statements of the Plan.

Note 8 - Subsequent Events

Management has evaluated subsequent events through October 14, 2021, which was the date that the financial statements were available to be issued, and has determined that there are no subsequent events to be reported.
