The NAV is generally based on the fair value of the underlying investments held by the pooled separate account less its liabilities. the reported NAV. The Plan's fully benefit responsive group annuity contract is stated at contract value.

Shoppa's Material Handling, Inc. 401(k) Profit Sharing Plan & Trust
Notes to Financial Statements
For the Years Ended December 31, 2020 and 2019

Note 1: Description of Plan

The following brief description of the Shoppa's Material Handling, Inc. 401(k) Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan documents for complete description regarding the Plan's definitions, benefits, eligibility, and other matters.

General

The Plan is a defined contribution plan established to provide retirement, disability, and death benefits to qualified employees by Shoppa's Material Handling, Inc. (the "Company"). The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA")

Under the Plan document, Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC, (together the "Custodian") holds the Plan's investment assets, executes investment transactions at the direction of plan participants, receives contributions, interest and dividend income, pays administrative expenses, and makes distributions to participants. The Plan administrator is an employee appointed by the Company. The Plan is administered by the trustee appointed by the Company.

CARES Act

On March 27, 2020, Congress signed the Coronavirus Aid, Relief, and Economic Security Act, also known as the CARES Act. The CARES Act took immediate effect and contained several provisions that temporarily impact 401(k) plans, including a new hardship withdrawal option and a loan payment pause option. The Plan did not enact any provisions of the CARES Act.

Eligibility

The Plan covers all full-time employees of the Company who have attained the age of twenty-one (21) and have completed 60 days of service. Eligible participants may join the first day of the month coinciding with or next following the date eligibility requirements are satisfied.

Contributions

Each year, participants may contribute a portion of their annual compensation as pre-tax contributions, as defined in the Plan, up to the maximum amount allowed by the Internal Revenue Code (the "IRC"). In addition, participants over the age of 50 are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans ("rollovers").

Note 1: Description of Plan (Continued)

Contributions (continued)
The Company may make a discretionary contribution equal to a uniform percentage or dollar amount of the participant's elective deferrals each payroll period. Each year, the Company will determine the formula for the discretionary matching contribution. In addition, the Company may make a discretionary non-elective contribution to the Plan which is divided among Plan participants in proportion to their compensation. During 2020 and 2019, no discretionary non-elective contributions were made.

Participants direct the investment of their contributions and rollover contributions, if applicable, and the Company's matching contributions, if any, into various investment options offered by the Plan.

Participant accounts
Each participant's account is credited with the participant's contributions, the participant's allocation of the Company's matching contributions and discretionary contributions, if applicable, and allocations of Plan earnings and administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately vested in their contributions and rollovers, if applicable, plus actual earnings thereon. Vesting in Company matching, and discretionary contributions portion of their accounts is based on years of continuous service with the Company. Participants become 20% vested in employer contributions after two years, and an additional 20% each year thereafter until 100% vested upon six years of credited service.

Notes receivable from participants
Participants can borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the participant's vested account balance. Loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest are paid ratably through payroll deduction over a period not to exceed five years from the date of the loan, unless used to acquire a principal residence.

Payment of benefits
Upon termination of service, death, disability, or reaching normal retirement age, a participant may receive a lump-sum payment or as installments in certain circumstances, as defined in the Plan

Note 1: Description of Plan (Continued)

Forfeited accounts
In accordance with Plan provisions, amounts of forfeited non-vested account balances can be used to reduce Company contributions. During the years ended December 31, 2020 and 2019, no amounts were used to reduce the Company's contributions. As of December 31, 2020 and 2019, there were approximately $65,000 and $56,000, respectively, in allocated forfeitures available to reduce Company contributions.

Administrative expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and payment of benefits to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note 2: Summary of Significant Accounting Policies

Basis of presentation
The financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of estimates
The preparation of financial statements in conformity with GAAP, as applied to defined contribution employee benefit plans, requires the Plan's management to make estimates and assumptions that affect the amounts reported in these financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition
Investments are reported at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's custodian determines the Plan's valuation policies utilizing information provided by the investment advisors and Custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the cash basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan invests in a fully benefit-responsive guaranteed insurance contract that is valued at contract value. Contract value equals the accumulated cash contributions and interest credited to the Plan's contract, less withdrawals and administrative expense, if any.

Note 2: Summary of Significant Accounting Policies (Continued)

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. No allowance for credit losses has been recorded as of December 31, 2020 and 2019.

Payments of benefits
Benefit distributions are recorded when paid.

Note 3: Fair Value Measurement

The accounting standards establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Quoted prices in active markets for identical investments.

Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3 – Unobservable inputs that are not corroborated by market data.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for instruments measured at fair value.

Mutua Funds
These investments are valued at the NAV of shares held by the Plan at year end based on quoted market prices and are classified within Level 1 of the fair value hierarchy.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3: Fair Value Measurement (Continued)

There were no assets or liabilities measured at fair value on a nonrecurring basis as of December 31, 2020 and 2019, and there were no changes in the valuation methodologies between these periods.

The following tables present the fair value of investments, measured on a recurring basis, as of December 31, 2020 and 2019, respectively, by the fair value hierarchy described above. The Plan had no investments classified as Level 2 or 3 as of December 31, 2020 and 2019.

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Mutual funds	**$ 13,245,735**	**$ 0**	**$ 0**	**$ 13,245,735**
Investments at fair value				**$ 13,245,735**

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	**$ 10,824,464**	**$ 0**	**$ 0**	**$ 10,824,464**
Investments at fair value				**$ 10,824,464**

Note 4: Information Certified by the Plan's Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following data included in the accompanying financial statements and supplemental schedule was obtained or derived from information supplied to the Plan administrator and was certified as complete and accurate by the Custodian:

	2020	2019
Investments		
Investments at fair value	**$ 13,245,735**	$ 10,824,464
Investments at contract value	**1,216,153**	1,082,151
Total	**$ 14,461,888**	$ 11,906,615
Notes receivable from participants	**$ 240,922**	$ 354,402
Investment Income:		
Net appreciation in fair value of investments	**$ 1,404,677**	
Interest and dividends	**$ 642,938**	

Note 5: Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan agreement to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the Company's contribution portion of their account.

Note 6: Related Party and Party in Interest Transactions

Notes receivable from participants are considered parties-in-interest to the Plan. The balance of the notes receivable from participants was $240,922 and $354,402 at December 31, 2020 and 2019, respectively, and interest income on notes receivable from participants was $17,182 and $18,040 during 2020 and 2019, respectively. Notes receivable from participants are exempt from the prohibited transaction rules.

Note 6: Related Party and Party in Interest Transactions (Continued)

The Custodian of the Plan is a party-in-interest as defined by ERISA. The Custodian invests certain Plan assets in mutual funds and a fully benefit-responsive investment contract managed by the Custodian, and such transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. The Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are party-in-interest transactions under ERISA.

Note 7: Tax Status

On March 31, 2014, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the IRC. The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator believes that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8: Fully Benefit-Responsive Investment Contract

The Plan has a fully benefit responsive group annuity contract with Great-West Life & Annuity Insurance Company, valued at $1,216,153 and $1,082,151 for the years ended December 31, 2020 and 2019, respectively. The insurance company maintains the contributions in a general account, which is credited with earnings and charged for participant withdrawals and administrative expenses.

Since the group annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract. The group annuity contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 8: Fully Benefit-Responsive Investment Contract (Continued)

Certain events limit the Plan's ability to transact at contract value with the insurance company. Such events include the following: (1) premature termination of the contracts by the Plan, (2) plant closings, (3) layoffs, (4) Plan termination, (5) bankruptcy, (6) and early retirement incentives. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. The insurance company may not terminate the contract at any amount less than the contract value.

The insurance company is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the insurance company. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the product will be established based on the earnings of the underlying assets in the entire medium-long term portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The average yield earned by the Plan for the group annuity contract is derived by averaging the quarterly gross interest rates for the fund over the year. The average yield was 1.04% and 1.20% for the years ending 2020 and 2019, respectively. The actual average yield earned by the Plan for the group annuity contract is derived by averaging the Plan's quarterly interest rates. The average for 2020 and 2019 was 1.04% and 1.20%, respectively.

Note 9: Reconciliation to Form 5500

The reconciliation of net assets available for benefits per the financial statements to the Form 5500 is as follows for the year ended December 31:

	2020	2019
Net assets available for benefits per the finanical statements	**$ 14,672,831**	$ 12,263,252
Less: employer contributions receivable	**0**	(9,332)
Less: participant contributions receivable	**0**	(28,280)
Add: Liability for refund of excess contributions	**29,979**	35,377
Net assets available for benefits per schedule to the Form 5500	**$ 14,702,810**	$ 12,261,017

Note 10: Risks and uncertainties

The Plan provides investment options in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

In March 2020, the World Health Organization announced a global pandemic related to the novel coronavirus ("COVID-19"), triggering volatility in financial markets and a significant negative impact on the global economy. The Plan's investments experienced volatility during 2020 in line with market conditions. The continued economic impact of the COVID-19 pandemic is uncertain and any ongoing impact to the Plan cannot be estimated at this time.

Note 11: Excess Contributions

For the years ended December 31, 2020 and 2019, amounts payable to participants for contributions in excess of amounts allowed by the IRS totaled $29,979 and $35,377, respectively and were recorded as a liability with a corresponding reduction to contributions. The Plan distributed these excess contributions to the applicable participants after March 15, 2020 and 2019, respectively; therefore, Form 5330 was filed.

Note 13: Subsequent Events

The Plan has evaluated subsequent events through October 8, 2021, the date the financial statements were available to be issued. No events came to the attention of the Plan's management that would require adjustments to or disclosure in the financial statements.
