Enterprise Employees' Pension and 401(k) Plan

Notes to Financial Statements December 31, 2020

Note 1 - Description of Plan

The following description of the Enterprise Employees' Pension and 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) defined contribution profit sharing plan covering all eligible full-time employees of Enterprise Community Partners, Inc. (the "Organization") and its affiliates who have attained 1,000 hours of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Retirement Committee of the Organization is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Organization's Board of Trustees.

Contributions

Annual compensation used in determining a participant's contribution to the Plan is limited pursuant to the provisions of Section 401 of the Internal Revenue Code (the "IRC"). Subject to the maximum salary deferral allowed for 401(k) purposes, participants may elect to voluntarily contribute up to 100% of their annual compensation to the Plan each year. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans ("rollover"). The Plan includes an auto-enrollment provision, whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions are invested in a designated fund until changed by the participant. After one year of service, participants are eligible to receive an employer matching contribution (subject to the vesting provisions detailed below) equal to \$.50 for each \$1.00 by which a participant defers their compensation pursuant to a salary-deferral agreement up to a maximum of 6% of their compensation (i.e., the maximum employer matching contribution is 3% of compensation).

Each year, the Organization may also fund the Plan with a nonelective discretionary contribution on behalf of each eligible participant. During the year ended December 31, 2020, \$5,339,710 was contributed. \$2,629,129 relates to nonelective discretionary contributions earned by participants during the 2019 Plan year but not approved to be paid to the Plan until 2020 by the Organization due to the economic uncertainties related to the coronavirus pandemic.

On February 22, 2021, the Plan was amended allowing for participants to make Roth elective deferrals.

CARES Act

On April 30, 2020, the Plan was amended to adopt the following provisions of the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act").

Under the CARES Act, required minimum distributions ("RMD") for the 2020 calendar year were temporarily suspended, however, plan participants could elect to receive distributions equal to their respective RMD in 2020. Additionally, impacted participants could elect to receive up to \$100,000 in aggregate for in-service withdrawals from the vested portion of their elective deferrals and rollover contributions before December 31, 2020 and the 10% penalty tax for early withdrawal was waived. The related taxes can be included in the impacted participant's taxable income over a three-year period. There were no limits to the number of such withdrawals each impacted participant could

Enterprise Employees' Pension and 401(k) Plan

Notes to Financial Statements December 31, 2020

take and the repayment of the withdrawal amount is permitted if repayment occurs within three years of distribution.

Loan provision changes under the CARES Act allowed impacted participants to defer loan payments that were due from March 27, 2020 through December 31, 2020 and subsequent loan payments would be adjusted appropriately to reflect the payment delay. Interest would continue to accrue during the deferral period and the loans would be reamortized in January 2021 to determine the new principal and interest payment. The Plan elected not to adopt the loan provision under the CARES Act that allowed impacted participants to borrow up to the lesser of \$100,000 or 100% of their vested balance for 180 days beginning March 27, 2020.

Participant accounts

Each participant's account is credited with the participant's contributions and Organization contributions. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. A participant was 100% vested in discretionary contributions after six years of credited services and 100% vested in matching contributions after three years of credited services. Effective January 28, 2020, the Plan was amended and a participant is 100% vested in all employer contributions after three years of credited service.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. The interest rate on the loan is set at 1% above the prime rate. Principal and interest are paid ratably through monthly payroll deductions.

Payment of benefits

Other than as provided by the CARES Act, on termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or a fixed payment installment option paid annually, semi-annually, quarterly, or monthly installment as elected by the participant. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited accounts

At December 31, 2020 and 2019, forfeited nonvested accounts totaled \$80,866 and \$75,921, respectively. These accounts will be used to reduce future employer contributions and pay Plan expenses. During the year ended December 31, 2020, employer contributions were reduced by \$82,000 from forfeited nonvested accounts.

Note 2 - Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Enterprise Employees' Pension and 401(k) Plan

Notes to Financial Statements December 31, 2020

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Organization's Retirement Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and the trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 or 2019.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Organization and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events

The Plan has evaluated subsequent events through October 13, 2021, the date the financial statements were available to be issued and concluded that, other than the subsequent events disclosed in Note 1, no subsequent events have occurred that would require recognition in the financial statements or disclosures in the notes to the financial statements.

Note 3 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1") and the

Enterprise Employees' Pension and 401(k) Plan

Notes to Financial Statements December 31, 2020

lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: Valued using net unit value, which is based on fair value of the underlying assets of the account.

Collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different

Enterprise Employees' Pension and 401(k) Plan

Notes to Financial Statements December 31, 2020

methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

	2020			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 34,238,008	\$ -	\$ -	\$ 34,238,008
Total assets in the fair value hierarchy	34,238,008	-	-	34,238,008

Total measurement in the fair value	<u>\$ 34,238,008</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 192,186,498</u>
	2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 22,733,443	\$ -	\$ -	\$ 22,733,443
Total assets in the fair value hierarchy	22,733,443	-	-	22,733,443

Total measurement in the fair value	<u>\$ 22,733,443</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 154,814,831</u>

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Fair value of investments in entities that use NAV

The following tables summarize investments for which fair value is measure using NAV per share practical expedient as of December 31, 2020 and 2019, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan:

December 31, 2020	Fair value	Unfunded commitments	Redemption frequency (if currently eligible)	Redemption notice period
Collective trust fund	\$ 38,332,118	N/A	Daily	12 months

Enterprise Employees' Pension and 401(k) Plan

Notes to Financial Statements December 31, 2020

Note 4 - Fully benefit-responsive investment contract

The Plan holds an investment contract that is comprised of a synthetic investment contract. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. As of December 31, 2020 and 2019, the Plan held synthetic investment contracts valued at \$11,594,745 and \$9,775,540, respectively.

A synthetic investment contract includes a wrapper contract, which is an agreement for the wrap issuer, such as a bank or insurance company, to make payments to the Plan in certain circumstances. The wrapper contract typically includes certain conditions and limitations on the underlying assets owned by the Plan. Synthetic contracts are designed to accrue interest based on crediting rates established by the contract issuers.

The synthetic investment contract held by the Plan include wrapper contracts that provide a guarantee that the credit rate will not fall below 0%. Cash flow volatility (for example, timing of benefit payments) as well as asset underperformance can be passed through to the Plan through adjustments to future contract crediting rates. Formulas are provided in each contract that adjusts renewal crediting rates to recognize the difference between the fair value and the book value of the underlying assets. Crediting rates are reviewed monthly for resetting.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the IRC or the failure of the trust to be tax-exempt under Section 501(a) of the IRC;
2. Premature termination of the contracts;
3. Plan termination or merger;
4. Changes to the Plan's prohibition on competing investment options; and
5. Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

Enterprise Employees' Pension and 401(k) Plan

Notes to Financial Statements December 31, 2020

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines;
2. A breach of material obligation under the contract;
3. A material misrepresentation; and
4. A material amendment to the agreements without the consent of the issuer.

Note 5 - Related party transactions and party-in-interest transactions

Certain Plan investments are shares of mutual funds managed by Principal Life Insurance Company. Principal Life Insurance Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note 6 - Plan termination

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 7 - Tax status

The Internal Revenue Service ("IRS") has determined and informed the Organization by a favorable opinion letter dated February 3, 2015, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Additionally, the Plan has adopted and operates under a Prototype Volume Submitter Profit Sharing Plan of Principal Life Insurance Company ("Principal Prototype Plan") which received a favorable opinion from the IRS on August 8, 2014, that the Principal Prototype Plan is designed in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving its determination letter and adopting the Principal Prototype Plan, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Enterprise Employees' Pension and 401(k) Plan

Notes to Financial Statements December 31, 2020

In early 2020, an outbreak of a novel strain of coronavirus ("COVID-19") emerged globally. As a result, events have occurred domestically in the United States and globally, including mandates from federal, state and local authorities, leading to an overall decline in economic activity. The continuation of the effects of COVID-19 could result in significant disruption of global financial markets; however, the ultimate impact of COVID-19 on the financial performance of the Plan's investments cannot be reasonably estimated at this time. Due to COVID-19, the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") was enacted in 2020. Portions of the CARES Act make changes to existing law including relating to the amount and circumstances permitting penalty-free distributions. Effective April 30, 2020, the Plan was amended to incorporate changes enacted by the CARES Act. See Note 1 for discussion of changes.

Note 9 - Certified investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at December 31, 2020 and 2019, and investment income and interest income on notes receivable from participants for the year ended December 31, 2020, that are disclosed in the accompanying financial statements and supplemental schedule, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the trustee of the Plan.
