NOTE A PLAN DESCRIPTION

The following description of CNL Financial Group Subsidiaries and Affiliates Employee Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of CNL Financial Group Investment Management, LLC, its wholly-owned subsidiaries, and certain affiliates as specified in the plan (the Company). Employees of the Company who are United States permanent residents and not residents of Puerto Rico are eligible to participate in the Plan immediately upon date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Administration

The Company is the plan sponsor and plan administrator of the Plan, and as such, controls and manages the operation and administration of the Plan. The Plan's assets are maintained by Fidelity Management Trust Company (the Custodian). Contributions are held by the Custodian, who invests cash received, interest and dividend income, and make distributions to participants (at the direction of the Company and the participants).

Contributions

Each year, participants may voluntarily contribute up to 90% of pretax annual compensation, as defined in the Plan agreement. Participants may contribute up to 90% of annual compensation as a Roth (after-tax) contribution. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 4%, escalating by 1% annually until reaching 10%, of eligible compensation and their contributions are invested in a designated balance fund until changed by the participant.

The Company provides matching contributions of 50% of each participant's contribution to a maximum of 7% of compensation after six months of service. Additional profit sharing amounts may be contributed at the discretion of the Company. Matching and discretionary profit sharing contributions are invested in the same manner as participant contributions, as directed by the participant. The Company's matching contribution for the year ended December 31, 2020 amounted to $686,608. There were no authorized discretionary profit sharing contributions for the year ended December 31, 2020.

Participant and Company contributions are subject to the limitations specified by the Plan and the Internal Revenue Service (the IRS).

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution and discretionary contributions, as well as allocations of earnings and losses and administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings or losses thereon. Vesting in the Company's contributions, including actual earnings or losses thereon, is based upon the number of years of service. Participants vest in the Company's contributions at a rate of 25% per year of service after the first year of service and become fully vested after 4 years of credited service. Company contributions in participant accounts become fully vested upon death, disability (as defined by the Plan), attainment of normal retirement age (as defined by the Plan) or upon termination of the Plan.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. In accordance with the CARES Act, for loans taken by participants between March 27, 2020 and September 22, 2022, the participant could have borrowed up to the lessor of $100,000 or the total vested balance of the participant's account. The loans are secured by the balance in the participant's account. The loan interest rate, determined at the time of issuance, is set at the prime rate. Principal and interest are paid ratably through payroll deductions. Loans are treated as an investment of the borrowing participant's account and only the borrowing participant's account receives interest paid on the participant loan.

NOTE A PLAN DESCRIPTION (CONTINUED)

Payment of Benefits

On termination of service with the Company due to death, disability, retirement or other reason, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installment distributions. The period of installment distributions may not extend beyond the life expectancy of the participant. In addition, the Plan allows hardship withdrawals as allowed by the Internal Revenue Code.

Participants still employed who have reached the age of 59 ½ are eligible to withdraw all or a portion of their vested accounts.

Forfeited Accounts

The non-vested portion of a participant's account balance upon termination of service with the Company is forfeited. Forfeitures may be used by the Plan for administrative expenses of the Plan or by the Company to reduce the Company's matching and discretionary contributions to the Plan. During the year ended December 31, 2020, approximately $51,000 were used for administrative expenses of the Plan or reduce Company contributions to the Plan. At December 31, 2020 and 2019, forfeited non-vested accounts totaled approximately $60,000 and $75,000, respectively.

NOTE B SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on an accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are reported on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest, which approximates fair value. Interest income is recorded on the accrual basis. Related fees are recoded as administrative expenses when incurred. No allowance for credit losses is recoded as repayments of principal and interest are received primarily through payroll deductions and the notes are collateralized by the participants' account.

Notes receivable from participants outstanding at December 31,2020, bear interest at rates determined by the Plan Administrator ranging from 3.25% to 5.50% and has maturities through October 2029.

Deemed Loan Distributions

Deemed loan distributions are recorded when the participant defaults on the loan. For the year ended December 31, 2020, there were no deemed loan distributions included with benefits paid to participants.

Corrective Distributions

Contributions in excess of amounts allowed by the IRS or ERISA requirements are returned to the participant. Contributions are presented net of corrective distributions.

NOTE B SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

New Accounting Pronouncements
The Plan has considered new pronouncements that alter accounting principles generally accepted in the United States of America and does not believe that any new or modified principles will have a material impact on the Plan's reported financial position or operations in the near term.

Subsequent Events
The Plan has evaluated subsequent events through the date of the independent auditor's report, the date which the accompanying financial statements were available to be issued. Based on such evaluation no events have occurred that in the opinion of management warrant adjustments to or disclosures in the financial statements.

NOTE C FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset of liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2020 and 2019.

Registered Investment Companies
The value is based on quoted market prices in an active market where individual securities are traded, as of the last trading day of the Plan year.

Common and Preferred Stocks
The value is based on quoted market prices in an active market where individual securities are traded, as of the last trading day of the Plan year.

U.S. Government Bonds
The value is based on quoted market prices in active markets where individual securities are traded, as of the last trading day of the Plan year.

NOTE C FAIR VALUE MEASUREMENTS (CONTINUED)

Common Collective Trust
The net asset value (NAV) of units of a financial institution common collective trust, which are not publicly quoted prices in an active market, is based on the fair value of the underlying investments, less any liabilities. The NAV, as provided by the Custodian, is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments reported at fair value using the level 1 valuation methodology and NAV as a practical expedient are as follows as of December 31, 2020 and 2019:

	2020	2019
Registered investment companies (Level 1)	$ 44,216,692	$ 42,752,715
Common and preferred stocks (Level 1)	1,426,319	787,977
U.S. government bonds (Level 1)	-	100,000
Total assets in the fair value hierarchy	45,643,011	43,640,692
Common collective trust (NAV)	2,918,829	1,941,809
Total investments, at fair value	$ 48,561,840	$ 45,582,501

The following table summarizes investments for which fair value is measured using the NAV practical expedient as of December 31, 2020 and 2019:

	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
December 31, 2020:				
Common collective trust	$ 2,918,829	N/A	Daily	None
December 31, 2019:				
Common collective trust	$ 1,941,809	N/A	Daily	None

NOTE D SUMMARY OF INFORMATION CERTIFIED BY THE CUSTODIAN

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2020 and 2019 and net appreciation in fair value of investments, interest, and dividends for the year ended December 31, 2020, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Custodian.

NOTE E PARTY-IN-INTEREST

Parties-in-interest include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or a Company whose employees are covered by the Plan.

The Custodian provides certain administrative services to the Plan for which fees are charged to the Plan. Fees paid to the Custodian qualify as party-in-interest transactions and amounted to approximately $15,000 for the year ended December 31, 2020.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. Additionally, certain administrative expenses such as audit and legal fees are paid by the Company at its discretion.

NOTE F PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The Company also has the right to amend any or all provisions of the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and the net assets of the Plan must be allocated among the participants and beneficiaries of the Plan in the order provided for by ERISA.

NOTE G INCOME TAX STATUS

The Plan has adopted a prototype defined contribution plan which the IRS has determined and affirmed, in a letter dated June 30, 2020, to be designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt. The Plan can be subject to unrelated business income tax related to certain investments. During the year ended December 31, 2020, the Plan had no unrelated business income tax due relating to these investments. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. Plan management has analyzed the tax positions taken by the Plan and has concluded no uncertain positions have been taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE H RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits
