Oak Harbor Freight Lines, Inc. 401(k) Plan & Trust

Notes to Financial Statements

Note 1 – Description of Plan

The following description of the Oak Harbor Freight Lines, Inc. 401(k) Plan & Trust (the Plan) provides only general information. Participants should refer to the Plan agreement, as amended, for a more complete description of Plan provisions.

General – The Plan is a 401(k) salary deferral and profit sharing plan covering substantially all employees of Oak Harbor Freight Lines, Inc., and is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Oak Harbor Freight Lines, Inc. (the Company) is the Plan's sponsor and serves as Plan administrator. The Plan contains nonparticipant-directed investments within a pooled fund and participant-directed investments. Prior to 2008, the employer made contributions to the Plan at its discretion. Participant accounts for prior years' employer contributions are held in the nonparticipant-directed pooled fund. Participants may elect to transfer their balance in the nonparticipant-directed pooled fund to their participant-directed account. The Plan changed custodians from Ascensus Trust Company and Raymond James to Northwest Plan Services effective January 5, 2021. The participant-directed investments of the Plan were liquidated and were in transit to the new custodian as of December 31, 2020. The assets in transit were received by the new custodian on January 5, 2021.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act was signed into law. Included in this legislation are several provisions that impact retirement plans. As a result, the Plan made administrative changes to expand distribution options. These options allow participants to access up to \$100,000 of their 401(k) funds with no penalty and includes the option to pay the funds back over a period of three years. Corresponding amendments to the Plan will be adopted within the time period provided by the CARES Act.

Eligibility – Employees of the Company are eligible to participate in the Plan upon reaching age 21 and are credited with one hour of service. Participants must be 21 years of age and complete at least three months of service to be eligible to receive employer matching contributions. Participants must be 21 years of age and complete at least one year of service to be eligible to receive any employer paid discretionary non-elective profit sharing contributions.

Contributions

Participant contributions – Each year, participants may contribute from 1% to 100% of pretax annual compensation, as defined in the Plan. Participants may also elect to make Roth contributions utilizing after-tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer match and profit sharing contributions – The Company may elect to make discretionary matching and non-elective profit sharing contributions to the Plan. The Company matches 50% of employee contributions, up to 5% of eligible compensation deferred to the Plan. Profit sharing contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' compensation. There were no profit sharing contributions for the year ended December 31, 2020.

Contributions are subject to regulatory limitations.

Oak Harbor Freight Lines, Inc. 401(k) Plan & Trust

Notes to Financial Statements

Note 1 – Description of Plan (continued)

Participant accounts – Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Nonparticipant-directed pooled fund – Each investment account is credited with investment gains or losses as of each valuation date. Earnings or losses are allocated on the basis of the ratio of a participant's account balance as of the prior valuation date to that of all participants' account balances. Should a participant receive a distribution on any date other than a valuation date, their account balance as of the prior valuation date will be used.

Vesting – Participants are 100% vested immediately in their rollovers, and contributions plus actual earnings thereon. Vesting in employer discretionary non-elective contributions is as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Vesting in employer matching contributions is as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Investment options – Upon enrollment in the Plan, a participant may direct their contributions into a variety of investment options made available through Ascensus. Participants may change their contribution investment options and transfer balances daily.

Oak Harbor Freight Lines, Inc. 401(k) Plan & Trust

Notes to Financial Statements

Note 1 – Description of Plan (continued)

Notes receivable from participants – Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant's account. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time, which is determined at the time the loan is made. Under the terms of the Plan agreement, plan loans will bear a reasonable rate of interest determined by the Plan administrator. Principal and interest are paid ratably in level payments not less frequently than quarterly. As of December 31, 2020, the rates of interest on outstanding loans ranged from 5.25% to 7.50% with various maturities through June 2049.

Payment of benefits – Upon retirement, disability, death, termination of service, or attainment of age 59½, participants or their stated beneficiary may elect to receive a distribution of their vested account balance. The distribution may be in the form of a lump sum payment or in the form of annuity payments. If the participant's account balance is less than \$1,000, the Plan administrator may make an automatic distribution. The Plan also provides for hardship withdrawals in accordance with the provisions specified in the Plan document.

Forfeitures – Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan and will first be used to pay the Plan's administrative expenses, with any remaining amount used to reduce future Company contributions. As of December 31, 2020 and 2019, forfeited nonvested accounts totaled \$180,274 and \$84,363, respectively. For the year ended December 31, 2020, Company matching contributions were reduced by \$1,653 from forfeited nonvested accounts.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued. Note 11 provides disclosure of certain subsequent events that did not result in recognition in the financial statements.

The Plan has evaluated subsequent events through October 13, 2021, which is the date the financial statements were available to be issued.

Oak Harbor Freight Lines, Inc. 401(k) Plan & Trust

Notes to Financial Statements

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in accordance with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability (the “exit price”) in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net depreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan agreement. No allowance for credit losses has been recorded as of December 31, 2020 or 2019.

Payment of benefits – Benefits are recorded when paid.

Investment and administrative expenses – Investment transaction costs are netted against investment proceeds. Trustee and investment fees are paid by the Plan participants on a pro rata basis of the account balance to total account balance. Loan fees and distribution fees are paid by the participant taking the loan or distribution. All other administrative expenses related to the Plan are paid by the Company.

Excess contributions payable – Excess contributions payable represent amounts refunded to participants after year end to comply with regulatory contribution limitations.

Oak Harbor Freight Lines, Inc. 401(k) Plan & Trust

Notes to Financial Statements

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2020 and 2019.

Cash and cash equivalents and money market funds – Valued at cost plus accrued interest, which approximates fair value.

Registered investment companies (mutual funds) – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.

Common stock – Valued at the closing price reported on the active market on which the individual securities are traded.

Notes to Financial Statements

Note 4 – Nonparticipant-Directed Investments

Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investments is as follows:

Net appreciation in fair value of investments	\$ 250,131
Interest and dividends	179,704
Benefits paid to participants	(442,329)
Amounts transferred to participant-directed funds	-
Administrative expenses	<u>(45,151)</u>
	<u><u>\$ (57,645)</u></u>

Note 5 – Tax Status

The Plan document is a volume submitter defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the statement of net assets available for benefits.

COVID-19, which was declared a pandemic by the World Health Organization in March 2020, has resulted in widespread global, national, and local effects. The extent of the impact to the amounts reported in the 2020 statement of net assets available for benefits will depend on future developments that are highly uncertain and cannot be accurately predicted.

Notes to Financial Statements

Note 7 – Information Certified by the Custodian

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the custodian, Ascensus Trust Company:
