In March 2020, the World Health Organization declared the outbreak of a novel coronavirus ("COVID-19") as a pandemic. The COVID-19 pandemic and related economic repercussions created significant volatility and uncertainty in domestic and international markets. On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act") was signed into law, which includes provisions relating to retirement plans. The Plan adopted the optional provisions under the CARES Act related to participant loan limits as further discussed below.

(b) Contributions

Contributions to the Plan may consist of funds contributed by the Company, employees, and rollover contributions. Participants may contribute up to the maximum statutory amount of pretax annual compensation, as defined in the Plan. Participants who have attained age fifty before the end of the Plan year are also eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Under safe harbor provisions adopted by the Plan, the Company is required to make matching contributions equal to 100% of a participant's deferral contribution up to 3% of eligible compensation plus 50% of any participant deferral contributions between 3% and 5% of eligible compensation. In addition, the Company may choose to make a discretionary contribution to the Plan for a particular plan year. No discretionary contributions were made in 2020 or 2019. Contributions are subject to certain limitations.

(1) Description of Plan (continued)

(c) Participant Accounts

Each participant's account is credited with the participant's contributions, the employer matching contribution, and an allocation of (a) the Company's discretionary contribution and (b) Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant annual earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

(d) Vesting

Participants are vested immediately in their contributions, Company safe harbor provision contributions, plus actual earnings thereon. Company discretionary contributions are 20% vested to the participant after two full years of service, 20% for each additional year of service and 100 % vested after six years. Participants become 100% vested in all accounts upon death, disability, or retirement at or after age sixty-five. Upon termination of employment, non-vested balances are forfeited.

(e) Notes Receivable from Participants

Participants may borrow from the vested portion of their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates from 4.25% to 6.50%, which is commensurate with the local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

The Plan adopted the provision under the CARES Act that allowed loan limits to increase to the lessor of $100,000 or 100% of the vested account balance.

(f) Payment of Benefits

On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments.

Notes to Financial Statements

(1) Description of Plan (continued)

(g) Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements for changes in net assets available for benefits. Investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

(h) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(i) Forfeited Accounts

Net assets available for benefits at December 31, 2020 and 2019 include certain forfeited non-vested accounts. The Plan may use forfeited non-vested account balances to cover administrative expenses or reduce contributions of the Company. As of December 31, 2020 and 2019, there were no amounts in the forfeited non-vested accounts. Forfeitures of -$0- and $1,284 were used to pay administrative expenses in 2020 and 2019, respectively.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

(2) Summary of Significant Accounting Policies (continued)

(b) Investments

The Plan provides for self-directed investment programs for individual participants. The Plan's mutual fund investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for further discussion of fair value measurements.

The collective investment trusts invest in a variety of mutual funds with a bank and are valued using the net asset value ("NAV") of the units as a practical expedient to estimate fair value. The pooled separate accounts invest in a variety of mutual funds with an insurance company and are valued using NAV of the units as a practical expedient to estimate fair value. The unallocated contract includes fully benefit-responsive investments. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to direct investments in fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(c) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are paid. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

(d) Payment of Benefits

Benefits are recorded when paid.

(2) Summary of Significant Accounting Policies (continued)

(e) Income Taxes

The Plan recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

(f) Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(3) Collective Investment Trusts and Investment Contracts with an Insurance Company

The following methods and assumptions were used to report the values of the collective investment trusts and investment contracts with an insurance company:

The collective investment trusts invest exclusively in underlying mutual funds that trade on an established market. The collective investment trusts are valued daily at the NAV of the units of the trust. Redemption of investments within the collective investment trusts can occur without restrictions. Plan sponsor directed withdrawals over certain limits require five business days advance written notice.

The pooled separate accounts invest exclusively in underlying mutual funds that trade on an established market. The pooled separate accounts are valued daily at the NAV of the units in the account. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable the underlying investments would sell for an amount different than the reported NAV. The ability to exchange units of a pooled separate account may be restricted in the event that the Plan or participant engages in trading patterns which are detrimental to the account or the underlying investments. Trading restrictions apply to transfer into an investment fund; transfers out of the pooled separate account are allowed at any time.

(3) Collective Investment Trusts and Investment Contracts with an Insurance Company (continued)

The unallocated contract is a stable value investment option (Fixed Income Guaranteed Option) (the "Fund") under the contract with Principal Life Insurance Company. Contract value represents contributions made under the contract plus interest at the contract rate, less benefit payments and administrative expenses. The primary objective of the Fund is to preserve principal while generating returns in excess of money market funds and one-year U.S Treasury bills. Prior to January 1st and July 1st, the effective annual rate of interest is established for the corresponding six month period. Interest is credited, based upon the daily balance, at a rate that is the daily equivalent of the effective annual rate of interest applicable for the six-month period. There is no stated minimum or maximum interest rate for the Fund. Although Plan participants generally may withdraw assets from the Fund without restrictions, Principal Life Insurance Company may impose a hold period at the contract level in the event of a full contract discontinuance or partial contract discontinuance.

Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption with Principal Life Insurance Company, Principal Life Insurance Company reserves the right to require 30 days notification in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments as of December 31, 2020 and 2019.

(4) Information Certified by the Custodian

The financial information included in the Plan financial statements, except for employer and participants' contributions receivable, contributions, benefits paid to participants, and administrative expenses, have been derived from information certified as complete and accurate by Principal Trust Company, custodian of the Plan, in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure, under ERISA.

(5) Tax Status

The Plan is using a standardized prototype profit-sharing plan document. In a letter dated March 31, 2014, the Internal Revenue Service ("IRS") indicated the standardized form of the Plan is acceptable under Section 401 of the Internal Revenue Code (the "Code"). The opinion of the IRS on the acceptability of the form of the Plan is not a ruling or determination as to whether the Plan qualifies under Code section 401(a). The Plan has been amended since receiving this acceptability letter. However, the Plan Administrator

Notes to Financial Statements

(5) Tax Status (continued)

believes the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

(6) Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer accounts.

(7) Party-In Interest Transactions

Certain Plan investments are shares of mutual funds managed by Principal Trust Company and units of pooled separate accounts and an investment contract – unallocated account with Principal Life Insurance Company. The Principal Trust Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

The Plan has not considered Company contributions to the Plan or benefits paid by the Plan to participants as party-in-interest transactions.

(8) Fair Value Hierarchy and Measurements

Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability.

(8) Fair Value Hierarchy and Measurements (continued)

The level in the fair value hierarchy within which a financial instrument in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

Mutual funds: Valued at quoted market prices which represent the net asset value of shares held by the Plan as of year-end. Mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

		Fair Value Measurements Using		
	Fair Value December 31, 2020	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 167,963	167,963	-	-

		Fair Value Measurements Using		
	Fair Value December 31, 2019	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 1,554,268	1,554,268	-	-

(9) Subsequent Events

Subsequent to year-end, ownership of the Plan sponsor changed. Plan management has indicated its intentions to continue operating the Plan under the Plan agreement.

The Plan has evaluated subsequent events from the date of the statement of net assets available for benefits through October 13, 2021, the date at which the financial statements were available to be issued, and determined there are no other items to disclose.
