To those charged with governance of

Greenspoon Marder 401(k) Plan:

We have audited the financial statements of **Greenspoon Marder 401(k) Plan** for the year ended December 31, 2020, and have issued our report thereon dated September 29, 2021. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our engagement letter dated March 31, 2021. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by **Greenspoon Marder 401(k) Plan** are described in Note B to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2020. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements and are based on your knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements was:

> Your estimate of the Net Assets Available for Benefits is based on US GAAP. We evaluated the key factors and assumptions used to develop the Net Assets Available for Benefits in determining that it is reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the financial statements were:

> **Note B, Note C, and Note G**

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in performing and completing our audit.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated September 29, 2021.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We have recommended the Company that the Company maintains meeting minutes for the Plan related to all required ERISA fiduciary responsibilities.

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Evidence of Fiduciary Oversight

Management should maintain procedures to document discussions and meetings held by the Plan's oversight committee, which should occur annually at a minimum. This provides evidence of addressing management's fiduciary responsibilities.

Forfeiture Allocations

Employers should monitor forfeiture account balances before any employer contributions are deposited into the trust and before any plan expenses are paid by the employer. This will help to ensure that outstanding balances in the forfeiture accounts are being used timely. Many plan documents specify when the forfeitures must be used by. As noted above, some plans specify that forfeitures must be used in the plan year in which the funds are forfeited. Other plans specify that forfeitures may be used in the following year. However, the Code does not allow for forfeitures to be held in suspense accounts beyond the plan year in which they arise. This would make it so a plan could not carry over forfeitures into another year past the year in which they were forfeited. Additionally, Treasury Regulations Section 1.401-7(a) states that forfeitures must be used as soon as possible to reduce employer contributions. And Revenue Ruling 84-156 states that they may be used to pay plan expenses and/or to reduce employer contributions.

Other Matters

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

ERISA section 103(a)(3)(C) audits

The Auditing Standards Board ("ASB") of the American Institute of Certified Public Accountants issued a new auditing standard that changes the auditor's opinion that is effective for years ending on or after December 15, 2020. Prior to the new standard, the plan sponsor was permitted to engage an auditor to perform a DOL limited scope audit. This type of audit resulted in a disclaimer of opinion. Under the new standard, this type of audit will be referred to as an ERISA section 103(a)(3)(C) audit because the ASB wants to emphasize that the scope limitation in these audits differs from a typical scope limitation. Under the new standard, an auditor engaged to perform such an audit can no longer disclaim an opinion solely because he or she did not audit the certified investment information. Instead, the auditor must express a new form of opinion that is unique to an ERISA section 103(a)(3)(C) audit.

The new standard enhance auditor reporting to provide the public with better information about the responsibilities of management and those of the auditor, including when management elects an ERISA section 103(a)(3)(C) audit, which is named after the section of the law that allows this scope limitation. We do not anticipate that this change will have an impact on the Plan or the Plan audit due to the level of audit procedures we are already performing.

This information is intended solely for the use of those individuals charged with governance and, if appropriate, management of **Greenspoon Marder 401(k) Plan** and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

Note A – Description of Plan

The following description of the Greenspoon Marder 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was established effective January 1, 1997. All employees of Greenspoon Marder, LLP and affiliates (the "Plan Sponsor" or "Employer"), with exception of union employees, leased employees and nonresident aliens, are immediately eligible to begin making salary deferrals. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective January 1, 2020, the Plan was restated to adopt the Massachusetts Mutual Life Insurance Company Volume Submitter Plan document and change the Trustee of the Plan to Reliance Trust Company.

Effective April 1, 2020, the Plan was amended to permit installment payments as a distribution option.

Effective November 30, 2020, the Plan was amended to add The Liaison Group, LLC as a participating Employer and to exclude any employee of the The Liaison Group, LLC from eligibility for matching contributions.

The Plan has implemented certain requirements by the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act") and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the "SECURE Act"), which laws change the Plan to, among others, allow certain eligible individuals to receive coronavirus-related relief for loan repayment, suspend required minimum distributions, and delay the commencement date for required minimum distributions. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and IRS guidance.

Administration

The Plan is administered by the Plan Sponsor. The Plan changed Trustees for participant directed investments from John Hancock Life Insurance Company to Reliance Trust Company effective January 2, 2020. For the year ended December 31, 2020, the Trustees of the Plan were Northern Trust Company ("Northern Trust") for non-participant directed investments and Reliance Trust Company for participant directed investments. Massachusetts Mutual is the record-keeper of the Plan for the year ended December 31, 2020. Effective January 2, 2020, the Plan transferred the balance of the non-participant directed investments to Reliance Trust Company.

Contributions

Participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, subject to Internal Revenue Code ("IRC") limitations. They also have the option to make after-tax Roth contributions to the Plan. The maximum participant deferral for the years ended December 31, 2020 and 2019 was $19,500 and $19,000, respectively. A participant who has attained the age of 50 may also make catch up contributions, subject to IRS limitations of $6,500 and $6,000 for December 31, 2020 and 2019, respectively. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

For participants who have completed one year of service during which at least 1,000 hours of service have been credited, the Plan Sponsor may elect to make matching and profit sharing contributions, at its discretion, to be determined each year. Participants must be employed on the last day of the Plan year to receive the Plan Sponsor's discretionary contributions. The Plan Sponsor elected to make a matching contribution equal to 25% of participants' elective deferrals, reflected as a receivable, for the year ended December 31, 2020.

Participants direct the investment of their contributions and Plan Sponsor contributions into various investment options offered by the Plan.

Note A – Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching or non-elective contribution amounts, if applicable. Each participant's account shall be allocated earnings, gains, expenses, and losses with respect to the investments of the participant's account. Allocations of Plan earnings or losses are based on each participant's investment fund balance in proportion to the total investment fund balance.

Vesting

Participants are immediately vested in their voluntary contributions and rollovers plus actual earnings thereon. Vesting in Plan Sponsor matching and profit sharing contributions is based on years of continuous service. A year of service is earned each Plan year in which an employee completes at least 1,000 hours of service. A participant is 100% vested upon death, disability, retirement age of 65, or after six years of credited service as follows:

Years of Services	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Distribution of Benefits

Upon termination of service, death, disability or retirement, a participant may receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installments, as defined in the Plan agreement. If a terminated participant's vested balance is $5,000 or less, the Company may distribute the entire vested account balance to the participant without their consent. Participants may also request in-service distributions at age 59 ½ and as a qualified reservist. Benefits may be received when a participant demonstrates a situation of financial hardship as defined by the IRC.

The Plan has implemented certain requirements by the CARES Act, which allows for coronavirus-related distributions from January 1, 2020, to December 30, 2020 up to an aggregate limit of $100,000. These distributions are not subject to the 10% early withdrawal penalty.

Investment Options

Under the Plan, participants may currently direct investments to any of 33 investment options. Participants may change their investment options during election periods established by the Plan Administrator.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account, or other acceptable collateral, and bear interest at the Prime interest rate plus one percentage point. The maximum note repayment period is five years. Principal and interest payments with respect to the notes are credited solely to the account of the borrowing participant from which the note was made.

Note A – Description of Plan (continued)

Notes Receivable from Participants (continued)

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. In the event of default, the unpaid portion of the participant's loan will be treated as a taxable distribution as of the first day of the second calendar quarter following the calendar quarter in which the participant failed to make a required installment payment.

The Plan has implemented certain requirements by the CARES Act, which allows participants to receive coronavirus-related relief for loan repayment. Participants with loans were permitted to suspend loan payments between May 27, 2020 and December 31, 2020. The Plan also implemented the optional provisions allowed by the CARES Act to permit participant loans up to $100,000 due to the coronavirus.

Forfeitures/Asset Holding Account

At December 31, 2020 and 2019, forfeited non-vested and asset holding accounts totaled approximately $78,000 and $33,000, respectively. These accounts will be used to pay Plan expenses and future Plan Sponsor matching contributions with any remaining amount. During the year ended December 31, 2020, the Company used approximately $1,000 of forfeitures to reduce Plan expenses.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant's account will become fully vested and nonforfeitable. All appropriate accounting provisions of the Plan will continue to apply until the accounts of all participants have been distributed.

Note B – Summary of Significant Account Policies

Basis of Presentation

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes in net assets available for benefits and disclosure of contingent assets and liabilities during the reporting period. Actual results could differ from these estimates.

Valuation of Investments

The Plan's investments are stated at fair value, except for the fully benefit-responsive investment contracts, which are reported at contract value as described in Note G. Fair value is based on quoted market prices at year-end as reported by the Trustee.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Note B – Summary of Significant Accounting Policies (continued)

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Fair Value Measurements

The FASB has established a framework for measuring fair value in ASC 820, *Fair Value Measurements*. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note B – Summary of Significant Accounting Policies (continued)

Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	Fair Value Measurements at Reporting Date Using:		
	Assets Measured at Fair Value at 12/31/2020	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)

Investments at fair value	$ 66,233,353		

Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investments for the year ended December 31, 2020 is as follows:

Balance, beginning of year	$ 28,511,419
Investment income	2,921
Transfer to Reliance Trust Company/Mass Mutual	(28,514,340)
Total nonparticipant-directed investments at December 31, 2020	$ -

Investments measured using the NAV as a practical expedient are exempt from being presented in the fair value hierarchy.

Note C – Certified Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Trustees, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan Administrator has obtained a certification from the Trustees that the information provided to the Plan Administrator by the Trustees as of December 31, 2020 and 2019, and for the year ended December 31, 2020, is complete and accurate. Such information includes all investments, investment income, and the information in the supplemental schedule of assets (held at end of year).

Note D – Income Tax Status

The underlying volume submitter profit sharing plan document sponsored by Massachusetts Mutual Life Insurance Company has received an opinion letter from the Internal Revenue Service dated March 31, 2014, stating that the written form of the underlying prototype document is qualified under Section 401(a) of IRC, and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the IRC. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Although the Plan has been amended since receiving the determination letter, the Plan's Administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2018.

Note E – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note F – Party-In-Interest Transaction

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or participants of the Plan, any person who provides services to the Plan, or a Plan Sponsor whose employees are covered by the Plan. Certain Plan investments and the related transactions as of and for the year ended December 31, 2020, were in investment funds managed by the Trustee; therefore, these investments and transactions qualify as party-in-interest transactions. Notes receivable from participants are also considered to be party-in-interest transactions because they are with Plan participants. Fees paid to parties-in-interest by the Plan for services amounted to approximately $171,000 during the year ended December 31, 2020.

Note G – Fully Benefit-Responsive Investment Contracts

Fully benefit-responsive investment contracts, at contract value on the statement of net assets consist of the following investment(s):

Investment Type	Investment name	December 31, 2020	December 31, 2019
Guaranteed interest account	Capital Preservation Account	$ 891,232	$ -

The Plan invests in a guaranteed interest account (the "Fund") provided through a group annuity contract. Under the Fund a crediting rate is established and is credited with contributions and charged for participant withdrawals and administrative expenses charged by the Trustee of the Funds. The guaranteed interest account issuers are contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Note G – Fully Benefit-Responsive Investment Contracts (continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Specific coverage provided by each contract may be different from each issuer and can be found in the contract of the Fund. Examples of such events include the following: (1) amendments to the Plan document (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investments options or deletion of equity wash provision, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note H – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

	2020	2019
Net assets available for benefits for financial statement purposes	$69,272,574	$66,337,160

Total additions per financial statements	$ 10,741,947

Total additions per the Form 5500	$ 9,956,263

Note I – Subsequent Events

Subsequent events have been evaluated through September 29, 2021, which is the date the financial statements were available to be issued.
