Fitness 19 401(k) Plan

Notes to Financial Statements

1. Description of Plan

The following description of the Fitness 19 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan providing benefits to all employees of the Plan Sponsor, Fitness 19 CA 285, LLC and affiliated service group employers (the Company) who are 21 years of age or older, have completed one year of service with 1,000 hours, are not governed by a collective bargaining agreement under which retirement benefits were the subject of good faith bargaining, are not a nonresident alien who received no earned income from the Company from U.S. sources, and are not a leased employee or temporary employee. To be eligible to participate in the Company matching and Company non-elective contributions, participants must also be employed on the last day of the Plan year, unless there has been a termination of service during the Plan year due to death, disability, or retirement.

The Plan was adopted by the Company with an effective date of January 1, 2020.

Contributions

Under the provisions of the Plan, each active participant may enter into a salary deferral agreement with the Company, deferring up to 100 percent of compensation for the contribution period, up to the maximum allowable amount as determined yearly by the Internal Revenue Service (IRS). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company, at its discretion, may make matching contributions to the Plan. The Company may contribute a percentage of participants' elective deferrals or the Company may contribute a flat dollar amount, which shall be allocated on a uniform basis to all participants. For the year ended December 31, 2020, the Company elected not to make a matching contribution to the Plan.

The Company, at its discretion, may make non-elective contributions to the Plan. The Company may establish various classifications of employees and in doing so, may contribute a different non-elective contribution to each classification of employees. For the year ended December 31, 2020, the Company elected not to make a non-elective contribution to the Plan.

The Company may make Qualified Matching Contributions (QMAC) and Qualified Non-Elective Contributions (QNEC) to the Plan. QMAC and QNEC contributions are to be determined by the Company and allocated according to the provisions of the Plan document. For the year ended December 31, 2020, the Company elected not to make any QMAC or QNEC contributions to the Plan.

Participant Account

An account is maintained for each participant. Each participant's account is credited with the participant's contribution, Company matching contributions, Company non-elective contributions, Company QMAC, Company QNEC, and participant's Plan earnings and losses.

Fitness 19 401(k) Plan

Notes to Financial Statements

1. Description of Plan (Continued)

Vesting

Participants are immediately vested in their contributions, Company QMAC and Company QNEC contributions plus earnings thereon. Vesting in Company matching contributions and Company non-elective contributions plus earnings thereon, is based on years of service. A year of service is given for each Plan year in which a participant performs 1,000 hours or more of service. After two years of service, a participant becomes 20 percent vested. Each service year thereafter will increase the participant's vesting by 20 percent, with 100 percent vesting after six years.

Investment Options

Participants direct employee and Company contributions to his or her account through investment options offered by the Plan. These investment options are comprised of mutual funds, pooled separate accounts, and an investment contract with an insurance company.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in their account. Participants who terminate employment shall receive the value of the vested interest in their account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2020, there are no forfeited nonvested accounts. Forfeited nonvested accounts are available to pay Plan expenses, restore forfeited account balances of any rehired employees who are eligible for a restoration of a forfeited account balance, or reduce future Company contributions. During the year ended December 31, 2020, no forfeitures were available to be used by the Company.

2. Summary of Accounting Policies

The preparation of these financial statements requires Plan management to make estimates and assumptions. Those estimates and assumptions affect the reported amounts of net assets available for benefits, net appreciation in fair value of investments, as well as disclosures of contingent assets and liabilities. Actual results could differ from those estimates. Plan management has considered events occurring through October 13, 2021 in its evaluation of the conditions on which estimates were based or for changes in conditions subsequent to the date of the statement of net assets available for benefits, which should be disclosed. The financial statements were available to be issued at this date.

2. Summary of Accounting Policies (Continued)

Plan management also determines the accounting principles to be used in the preparation of financial statements. A description of the significant accounting policies employed in the preparation of these financial statements follows:

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the custodians. See Note 5 for fair value measurements.

Purchases and sales of securities are recorded on trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as investments held during the year.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of benefit payments are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

3. Information Certified by the Custodians (Unaudited)

At December 31, 2020, the Plan's investments were held by Principal Life Insurance Company (PLIC) and Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company (PTC), the Custodians. The guaranteed investment contract is issued by PLIC and PTC is the Custodian for the guaranteed investment contract. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Custodians as complete and accurate in accordance with Section 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA).

	2020
Investments	
Pooled separate accounts – PLIC	$ 27,572
Mutual funds – PTC	3,142
Guaranteed investment contract at contract value – PTC	2,302
Total investments	$ 33,016
Investment income	
Dividend income – PTC	$ 10
Net appreciation in fair value of investments – PTC	315
Net appreciation in fair value of investments – PLIC	3,299
Total investment income	$ 3,624

4. Investment Contract with Insurance Company (Unaudited)

According to accounting principles generally accepted in the United States of America, investment contracts held by a defined-contribution plan are required to be reported at contract value for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts.

The Plan entered into a group annuity contract with PLIC which consists of one fully benefit-responsive investment contract. Because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported to the Plan by PTC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may direct the withdrawal or transfer of all or a portion of their investments at contract value. The investment contract issuer is contractually obligated to repay the principal and a specified interest that is guaranteed to the Plan.

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the Accounting Standards Codification Topic 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs, other than quoted prices, that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund, which represents the net asset value (NAV) of shares held by the Plan at year end.

Pooled separate accounts: Valued at the NAV of the underlying assets held by the separate account.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair Value Measurements (Continued)

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 3,142	$ –	$ –	$ 3,142
Pooled separate accounts	–	27,572	–	27,572
Total investments at fair value	$ 3,142	$ 27,572	$ –	$ 30,714

6. Related-Party and Party-in-Interest Transactions

The Plan invests in units of pooled separate accounts managed by PLIC and an investment contract issued by PLIC and held by PTC as the Custodian. PLIC and PTC act as Custodians for only those investments as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules. Fees incurred by the Plan for investment management services are directly paid by the Plan Sponsor. The Plan Sponsor also directly pays any other fees related to the Plan's operations.

7. Tax Status

The Company adopted a Volume Submitter Profit Sharing 401(k) Plan, which received an opinion letter from the IRS dated March 31, 2014, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter. However, the Plan Trustees and Plan management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participant would become 100 percent vested in their Company matching contributions and Company non-elective contributions.

9. Nonexempt Transactions

During the year ended December 31, 2020, there were unintentional delays by the Company in submitting participant contributions of $21 to the Custodians.
