Farmers Group, Inc.
401(k) Savings Plan
Notes to Financial Statements
Years Ended December 31, 2020 and 2019

1. Description of the Plan

The following description of the Farmers Group Inc. 401(k) Savings Plan (the “Plan”), formerly known as the Farmers Group, Inc. Employees’ Profit Sharing Savings Plan Trust is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan for employees of Farmers Group, Inc. (the “Company”) and its participating affiliates. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. Participation in the Plan is voluntary and allows employees to contribute up to 50% of their base salary, and up to 85% of their Short Term Incentive Plan or Sales Incentive Plan Award, on a pre-tax or after-tax basis subject to IRS regulatory limits. The Company will match 100% of the first 6% of employee contributions subject to IRS regulatory limits.

In November 2016, the Plan was amended to provide for transfers between the Farmers and Zurich North America (ZNA) 401(k) plans. This amendment, effective January 1, 2017, allowed participants who transfer employment between Farmers and ZNA or vice versa, an opportunity to move their 401(k) balances to their current employer’s Plan.

In August 2018, the Plan was amended to provide all eligible employees a 4% Base Company Contribution effective January 1, 2019. The 4% Base Company Contribution is made on a pre-tax basis each pay period and is not dependent on an employee’s contributions to the Plan. However, there is a 3 year service vesting requirement for this contribution. The Company contributed \$62,194,297 in 2020 and \$60,696,361 in 2019 resulting from this amendment. Of this amount \$1,149,841 and \$594,494 was forfeited in 2020 and 2019, respectively. The forfeited amounts are used to reduce future employer contributions, expenses, and account restorations.

In November 2018, the Plan was amended to clarify the definition of compensation.

In March 2019, the plan established auto enrollment for all employees whereby employees are automatically enrolled at a 3% pre-tax contribution rate with automatic contribution increases of 1% each year until the contribution percentage reaches 6%.

In November 2019, the Plan was amended to update the Hardship Withdrawal section to comply with the Bi-Partisan Budget Act of 2018

In November 2020, the Plan was amended to make changes to the loan provisions and create a Coronavirus Related Distribution in order to comply with the SECURE and CARES act.

Roll-over contributions represent contributions transferred into the Plan by the eligible participants from another qualified retirement plan and are reported as Participant contributions on the Statements of Changes in Net Assets Available for Benefits.

The Plan’s administrator, appointed by the CEO of the Company, consists of seven members who serve without compensation for such services (all members are presently the Company employees and hereinafter referred to collectively as “Plan Administrator”). The Pension and Benefits Committee is responsible for oversight of the Plan. This Committee also determines the appropriateness of the Plan’s investment offerings and monitors investment performance.

Eligibility

“Participant” generally means any eligible employee of the Company who is or becomes eligible to participate in the Plan in accordance with the provision of Article 3 of the Plan. An eligible employee shall be eligible to become a Participant in the Plan as of his or her date of employment with the Company.

Participant Accounts

Contributions are deposited with the trustee, Vanguard Fiduciary Trust Company. The Participant’s account is maintained by the Plan Administrator in the employee’s name. The account is comprised of a pre-tax contribution account balance, a Roth contribution account balance, an employer matching contribution account balance, a regular account balance, and, if applicable, an accumulation account balance, an employee after-tax accumulation account balance and a rollover account balance. The regular account balance contains company contributions made to the profit sharing plan through the 2008 plan year. The accumulation account balance contains eligible in-service regular profit sharing account distribution amounts, which were deferred by the participant through the 2008 plan year. Each active participant’s account is ordinarily credited with participant and employer contributions and income or loss on plan assets. The regular account was phased out with the March 2011 in-service profit sharing withdrawal option. The employee after-tax accumulation is due to eligible employee transfers from the Zurich Saving Plan.

Participant accounts are charged with an allocation of administration and management fee expenses that are generally paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined.

The benefit to which a participant is entitled is the benefit that can be provided from the participant’s account. Participants may direct the contributions to any of the available investment options. Participants may change their investment options daily. The Plan assets are valued daily and participants’ accounts are adjusted for changes in market value each day.

Vesting

Participants are immediately 100% vested in their contributions and employer’s matching contributions plus earnings thereon. There is a 3 year service requirement for the 4% Base Company Contribution.

Payment of Benefits

Participants in the Plan can take in-service withdrawals for financial hardship or if age 59.5 or older. Upon termination for any reason, distribution options include lump sum, rollover, installments, or annuities. Minimum distribution and required distributions are also available for those terminated participants age 72 and above. Auto cash out features are available for those terminated Participants who have account balances under certain thresholds.

Notes Receivable from Participants

Participants may borrow from their account a minimum of \$1,000 up to a maximum amount equal to the lesser of one-half of the participant’s total vested account balance or \$50,000. The Plan includes provisions to comply with the SECURE and CARES acts including allowing loans of up to \$100,000 or 100% of a participant’s account value between March 27, 2020 and September 22, 2020, and suspension of loan payments through December 31, 2020. Loans range from 1 to 5 years or up to 15 years for home loans. The loans are collateralized by the vested balance in the participant’s account and bear interest at the prime rate plus 1%. The interest rate on participant loans ranged

Farmers Group, Inc.
401(k) Savings Plan
Notes to Financial Statements
Years Ended December 31, 2020 and 2019

between 3.25% and 9.5% as of December 31, 2020 and 3.25% and 9.5% as of December 31, 2019. Principal and interest are paid ratably through monthly payroll deductions.

For employees with a loan, if missed repayments are not made by the end of an applicable cure period, the loan is in default and the outstanding balance of the loan, including interest, is treated as a deemed distribution and recorded as a benefit payment. The amount of the deemed distribution is reported as taxable income and may be subject to an additional 10% early distribution penalty. If an employee terminates with an outstanding loan, the participant will have the earlier of 90 days or day of distribution to repay the outstanding loan balance. Otherwise, the outstanding loan balance will become taxable and may be subject to an additional 10% early distribution penalty.

Administrative and Management Expenses

Administrative and management expenses incurred in the administration and operation of the Plan were paid by the Plan for the years ended December 31, 2020 and 2019. For the years ended December 31, 2020 and 2019, administrative expenses were \$1,055,225 and \$1,145,849, respectively and investment management expenses were \$3,027,685 and \$3,513,513, respectively. Expenses relating to the administration of the Plan other than trustee, legal, investment or audit fees are generally absorbed by the Company. The Company paid \$170,000 in Plan audit fees for the 2019 Plan year. 2020 Plan year audit fees will be paid with Plan forfeitures.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan have been prepared on the accrual basis of accounting and present the net assets available for benefits and the changes in those net assets.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Pension & Benefit Committee determines the valuation policies utilizing information provided by investment advisors, custodians, the trustee, and insurance companies. See Note 5 for discussion of fair value measurements.

Investments in the Plan primarily consist of self-directed brokerage accounts, collective trusts, separate accounts, and a stable value fund held in accounts with the Plan's trustee. Purchases and sales of securities are reflected on a trade date basis. Interest income is recorded on the accrual basis and dividend income is recorded on the ex-dividend date. The Plan presents, in the Statements of Changes in Net Assets Available for Benefits, the net appreciation or depreciation in the fair value of its investments, which consist of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Offsetting Assets and Liabilities

Accounting principles generally accepted in the United States of America ("U.S. GAAP") permits entities to present derivative receivables and derivative payables with the same counterparty and the related cash collateral receivables and payables on a net basis on the balance sheet when a legally enforceable master netting agreement exists. U.S. GAAP also permits securities sold and purchased under repurchase agreements to be presented net when specified conditions are met, including the existence of a legally enforceable master netting agreement. The Plan has elected to net such balances when the specified conditions are met.

Farmers Group, Inc.
401(k) Savings Plan
Notes to Financial Statements
Years Ended December 31, 2020 and 2019

The Plan uses master netting agreements to mitigate counterparty credit risk in certain transactions, including derivatives transactions. A master netting agreement is a single contract with a counterparty that permits multiple transactions governed by that contract to be terminated and settled through a single payment in the event of a default (e. g., bankruptcy, failure to make a required payment or securities transfer or deliver collateral or margin when due after expiration of any grace period). Upon the exercise of termination rights by the non-defaulting party, (i) all the transactions are terminated, (ii) all transactions are valued and the positive value or “in the money” transactions are netted against the negative value or “out of money” transactions and (iii) the only remaining payment obligation is of one of the parties to pay the netted termination amount.

Notes Receivable from Participants

Notes receivable from participants are reported at the unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document. Interest income is recorded on the accrual basis. Related fees paid by participants are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 or December 31, 2019.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Payment of Benefits

Benefit payments are recorded when paid.

Contributions

Employee contributions are recorded in the period during which the payroll deductions are made from the employee’s pay. Employer contributions are also made in the same period. Rollovers from other eligible retirement Plans are permitted for employees.

Risks and Uncertainties

The Plan provides for various investment options in any combination of stocks, bonds, fixed-income securities, mutual funds, collective trusts, guaranteed investment contracts, and other investment securities. Investment securities and contracts are exposed to various risks, such as commodity, equity, interest rate, foreign currency, market and credit. Due to the level of risk associated with certain investment securities and contracts and the level of uncertainty related to changes in the value of investment securities and contracts, it is at least reasonably possible that changes in the value of investments securities and contracts will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits. Market values of the Plan’s investments may decline for a number of reasons, including changes in prevailing market and interest rates, increase in defaults and credit rating downgrades.

Accounting Guidance

In August 2018, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2018-13: Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement. This guidance simplifies fair

Farmers Group, Inc.
401(k) Savings Plan
Notes to Financial Statements
Years Ended December 31, 2020 and 2019

value disclosure requirements for public and nonpublic companies. For nonpublic companies, it removes the disclosure of the changes in unrealized gains and losses including income, and it also simplifies the Level 3 rollforward by only requiring to disclose purchases, issuances, and transfers into or out of Level 3. The effective date of the guidance is for fiscal year beginning after December 15, 2019. Companies may choose to early adopt these changes with retrospective application. The Plan adopted the guidance and retrospectively modified the fair value disclosures. The adoption did not materially affect the Plan's statement of net assets available for benefits and changes therein for both years as it primarily impacted disclosures concerning fair value measurement.

3. Investments

Investment options for plan participants are as follows:

- Option A: All-In-One Target Retirement Trusts, which invest in a predetermined mix of funds. This allows a Participant to get a complete, diversified portfolio in a single investment option. The lower-cost trusts replaced the Target Retirement Funds previously offered in the 401(k) Savings Plan.
- Option B: Do-It-Yourself Investments, where Participants can select from five separate accounts and co-mingled trusts to build their own diversified portfolio.
- Option C: Open Choice —Brokerage Window Option which participants can invest up to 100% of their available balance.

4. Investment Contracts

Participants have the option to invest in a stable value fund - Farmers Active Stable Value Fund ("FASVF"), which seeks to provide principal stability, a competitive yield, and reliable liquidity. The Plan provides this option through investing in a separately managed account.

The FASVF separate account invests in two Synthetic Guaranteed Investment Contracts ("Synthetic GICs"), and one common collective trust Separate Account Guaranteed Investment Contract ("Separate Account GIC"). Synthetic GICs are constructed by combining a stable value wrapper and a fixed income collateral portfolio. The fixed income portfolio invests in most major sectors of the fixed income market and typically has AA/AAA average credit quality and 1 to 3 year duration. The stable value wrapper agreements are typically issued by a bank or insurance company. The instrument offsets price fluctuations in the fixed income portfolio and maintains its book value. The payment obligations of the wrappers assure investors receive \$1 net asset values. Similarly, a Separate Account GIC is constructed by combining an insurance company book value wrapper guarantee with a fixed income collateral portfolio held in a separate account by the insurance company that is pledged to satisfy the obligations of the Separate Account GIC.

The plan has no reserves against the carrying value of these contracts. The average yields on these investments for the plan and for the participants for the years ended December 31, 2020 and 2019 were 1.9% and 2.6% respectively.

The issuers of the various stable value contracts and the managers of the underlying fixed income collateral portfolios are listed below:

Synthetic GICs

Transamerica Premier Life Insurance Company (Goldman Sachs Asset Management (GSAM) is the

manager of the fixed income portfolio); Prudential Insurance Company of America (Prudential Fixed Income is the manager of the fixed income portfolio). These synthetic GICs meet the definition of a fully benefit responsive investment contract (FBRIC) and are stated at market value.

Common Collective Trust Separate Account GIC

Metropolitan Life Insurance Company (GSAM is the manager of the fixed income portfolio).

The Common Collective Trust Separate Account GIC is not considered a FBRIC and thus is stated at fair value. There are no unfunded commitments, defined remaining life, redemption notice periods or other restrictions at the measurement date.

The rate of return earned on a Synthetic GIC and Separate Account GIC is generally reset quarterly by the issuer, and the contracts contain provisions that prevent future rates from falling below zero. The crediting rate is based on the current yield-to-maturity, the duration of the portfolio, and the amortization of gains and losses (defined as the difference between the market value and contract value of the wrapper agreement). These instruments are designed to smooth out realized and unrealized gains and losses. Over time, investors receive the total return of the investment portfolio.

Contract value represents, contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The stable value fund can be redeemed daily by participants.

Average yields on investments are based on actual earnings and interest rates credited to participants.

There are no unfunded commitments, defined remaining life, redemption notice periods or other restrictions at the measurement date.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, (4) failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) any material breach of contract provisions. In general, issuers may terminate the contract and settle at other than contract value due to changes in qualification status of the Company or the Plan, breach of material obligations under the contract and misrepresentation by the contract holder, or failure of the underlying portfolio to conform to the pre-established investment guidelines. At this time, the Company does not believe that the occurrence of any event that would limit the Plan's ability to transact with participants at contract value is probable.

The guaranteed investment contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

5. Fair Value Measurement

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- a. Quoted prices for similar assets or liabilities in active markets;
- b. Quoted prices for identical or similar assets or liabilities in inactive markets;
- c. Inputs other than quoted prices that are observable for the asset or liability;
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2020 and 2019. Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2020:

Self-Directed Brokerage Accounts

Valued at the daily closing price as reported by the fund. Mutual Funds held by the plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Separate Investment Trust's Short-Term Investments

Investments in short-term investments comprise of short-term fixed income securities and short-

term investment funds. Short-term fixed income securities are valued by pricing services. Short-term investment funds are valued at the NAV of units held by the Plan at year end.

Separate Investment Trust's Equities

Investments in equities comprised of common stocks and preferred stocks listed on a national securities exchange and over-the-counter securities are valued at the last reported sale price on the active market on which the individual securities are traded on the valuation date or, if no sales are reported for that day, the last published sale price.

Separate Investment Trust's Fixed Income Securities

Investments in fixed income securities are comprised of corporate bonds, U.S. government securities, other government securities, and asset- and mortgage-backed securities. Corporate bonds and U.S. and other government securities are valued by pricing services based on yields currently available on comparable issues with similar credit ratings and broker quotes from dealers who are market makers in these investments. Asset- and mortgage-backed securities are valued based on observable data including pre-payment speeds, treasury and swap curves, cash settlements, credit ratings and volatilities.

Separate Investment Trust's Derivatives

Investments in derivatives comprise of futures, options, forward currency contracts, and swaps, which are valued by pricing services based on broker quotes or models using observable inputs. Futures contracts held by the Plan are listed on national securities exchanges.

Common Collective Trusts and Separate Investment Trust's and Stable Value Fund's Commingled Funds

Valued at the NAV. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidation will be carried out in an orderly manner.

Stable Value Fund's Money-Market Investment Funds

Valued at the NAV of shares held by the Plan at year end. Participant transactions (purchases and sales) may occur daily. There are no restrictions on redemptions.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019, respectively:

6. Derivative Instruments

ASC 815-10-50 provides users of financial statements with an enhanced understanding of the use of derivative instruments by the Plan and how these derivatives affect the financial position, financial performance and cash flows of the Plan. This requires qualitative disclosures about the objectives and strategies for using the derivative instruments, quantitative disclosures about the fair value of, and gains and losses on, derivative instruments, as well as disclosures about credit-risk related contingent features in derivative agreements.

Fair value of derivative contracts, excluding forward foreign currency contracts, are included in the "Investments" line in the Statement of Net Assets Available for Benefits. The receivables/payables from/to brokers related to forward foreign currency contracts are included in the "Due from brokers" and "Due to brokers" lines, respectively, in the Statement of Net Assets Available for Benefits. The change in fair value and realized gains or losses of derivative contracts is included in the "Net Appreciation/Depreciation in Fair Value of Investments" line in the Statement of Change in Net

Assets Available for Benefits.

The Plan may use futures contracts to manage exposure to the relevant markets. The Plan enters into futures contracts only on exchanges or boards of trade where the exchange or board of trade acts as the counterparty to the transaction. Thus, credit risk on such transactions is limited to the failure of the exchange or board of trade. Losses in value may arise from changes in the value of the underlying instruments or if there is an illiquid secondary market for the contracts. Upon entering a futures contract, the Plan is required to deposit either in cash or securities an amount ("initial margin") equal to a certain percentage of the nominal value of the contract. The margin amount related to long and short futures at December 31, 2020 and 2019 was \$0 and \$423,000, respectively. Subsequent payments are made or received by the Plan periodically, depending on the daily fluctuation in the value of the underlying securities, and are recorded as unrealized gains or losses by the Plan in the net change in fair value of investment on the Statements of Change in Net Assets Available for Benefits. A gain or loss is realized when the contract is closed or expires.

The Plan may enter into forward currency contracts to manage exposure to the relevant markets. The Plan enters into forward currency contracts on a bilateral platform between counterparties to exchange two designated currencies at a specific time in the future. Subsequent payments are made or received by the Plan periodically, depending on the daily fluctuation in the value of the underlying securities, and are recorded as unrealized gains or losses by the Plan in the net change in appreciation / depreciation of investment on the Statements of Change in Net Assets Available for Benefits. A gain or loss is realized when the contract is closed or expires.

The Plan may enter into exchange traded option agreements to manage exposure to the markets. Exchange traded options derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. Exchange traded options are generally valued at the official closing price of, or the last reported sale price on, the exchange or market on which such securities are traded as of the close of business on the day the securities are being valued or, lacking any sales, the last available bid price.

Over-the-counter option contracts derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. These contracts are normally valued on the basis of pricing service providers or broker dealer quotations. Depending on the product and the terms of the transaction, the value of financial derivative instruments can be estimated by a pricing service provider using a series of techniques, including simulation pricing models. The pricing models use inputs that are observed from actively quoted markets such as issuer details, indices, spreads, interest rates, yield curves, and exchange rates. The plan may enter into such option contracts to manage exposure.

The Plan may enter into swap agreements to manage its exposure to the financial markets. A swap is an agreement between the Plan and a counterparty to exchange the return generated by one instrument for the return generated by another instrument. The Plan may enter into interest rate, total return, currency, cross-currency and credit default and other forms of swap agreements to manage its exposure to interest rate, currency and credit risk.

Interest rate swap agreements involve the exchange by the Plan with another party of their respective commitments to pay or receive interest, e.g., an exchange of floating rate payments for fixed rate payments with respect to a notional amount of principal.

Credit default swap agreements involve one party making a stream of payments (referred to as the buyer of protection) to another party (the seller of protection) in exchange for the right to receive a specified payment in the event of a default or other credit event for the referenced entity, obligation, or index. Entering into these agreements involves, to varying degrees, elements of credit, legal, market, and documentation risk in excess of the amounts recognized on the Statements of Net Assets Available for Benefits. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreements may default on its obligation to perform or disagree as to the meaning of the contractual terms in the agreements (for bilateral only), or that there may be unfavorable changes in interest rates.

The Plan may enter into both centrally cleared swaps and over-the-counter swaps. Centrally cleared swaps transacted on a multilateral or trade facility platform, such as a registered exchange, are valued at the daily settlement price determined by the respective exchange. For centrally cleared credit default swaps, the clearing facility requires its members to provide actionable price levels across complete term structures. These levels, along with external third party prices, are used to produce daily settlement prices. These securities are categorized as Level 2 of the fair value hierarchy. Cash collateral held is categorized as Level 1.

The Plan may be required to deposit collateral with the counterparty if the market value of the contract falls below a stipulated amount in the contract. Periodic cash settlements are reported as realized gains or losses as recorded in the net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Entering into an over the counter swap contract involves, to varying degrees, elements of credit, legal, market, documentation, and interest rate risk in excess of the amounts reported in the Statement of Net Assets Available for Benefits. Some swaps are not actively traded on exchanges. Such securities involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreements may default on its obligation to perform or disagree as to the meaning of the contractual terms in the agreements, or that there may be unfavorable changes in interest rates.

Notional principal amounts are used to express the extent of involvement in the transactions, and are deliverable by the counterparty under the contracts in the event of default of the underlying issuer. Cleared swaps substantially mitigate counterparty risk, since the counterparty is the exchange, which guarantees all cleared swaps. In contrast, over the counter swaps have credit exposure to the underlying issuer implicit in the contract, credit risk is applicable to any amounts receivable from the counterparty. To reduce credit risk from potential counterparty default, the Plan enters into swap contracts with counterparties whose creditworthiness has been reviewed by the investment advisor.

8. Tax Status

The Plan has received a determination letter from the IRS dated December 28, 2016, stating that the Plan is qualified under Section 401(a) of the Code, and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions and is currently subject to audit by the IRS for tax years 2015 to 2018. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2015.

9. Related Party and Party-in-Interest Transactions

For Option A funds, Vanguard is Trustee and Recordkeeper. For Option B & Option C funds, Bank of New York Mellon is the Custodian, while Vanguard is Trustee and Recordkeeper.

The Plan structure in 2020 was unchanged from 2019. During 2020, some Plan investments were shares of collective trusts managed by Vanguard Fiduciary Trust Company. Vanguard Fiduciary Trust Company is the trustee for Target Date Trusts as defined by the Plan. Goldman Sachs, Dreyfus, Blackrock, PIMCO, Wellington, American Century, and Mondrian are investment managers for the Plan and some Plan investments are issued or sponsored by these investment managers or entities related to these investment managers.

10. Plan Termination

Although the Company has not expressed any intent to terminate the Plan, it may do so at any time. Upon the termination of the Plan, the rights of all affected participants in their accounts shall be 100% vested and not forfeitable. Thereupon, participants shall be entitled to receive a total distribution of their participant account.

11. Contingencies

From time to time, the Plan is party to lawsuits arising from normal activities. These actions are in various stages of development. The Plan intends to vigorously defend its position in each case, and at this time, it is not possible to determine with certainty the outcome of such matters.

12. Certified Financial Data

Vanguard Fiduciary Trust Company acts as the Plan's Trustee and Recordkeeper. The Plan's investments and related income and losses included in the accompanying financial statements and the related notes and the supplemental schedule of assets are based solely on information certified by the trustee. The Plan Administrator has obtained a certification from the Trustee that the investment information provided to the Plan Administrator by the Trustee is complete and accurate.

13. Subsequent Events

The Plan administrator has evaluated subsequent events through October 14, 2021, the date the financial statements were available to be issued and has provided the following additional disclosures.

In April of 2021, the Company and the Farmers Exchanges, a participating affiliate, acquired MetLife's Property and Casualty business in the U.S., which includes approximately 3,500 employees. These employees were credited with service from the acquired company for vesting in the Plan where vesting is required. Systematic transfer of assets was not part of the acquisition; Individuals may choose whether to roll-over assets from their prior employer to Farmers Plan, and can do so at any time.

An August 2021 amendment updated the definition of compensation to accommodate the compensation structure of employees acquired by the Company and its participating affiliate, to the Farmers Workplace Solutions business.
