1. Description of the Plan

The following description of the Clark Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible employees, as defined in the Plan. The Plan is subject to the provisions of the Employee Retirement Security Act of 1974, as amended ("ERISA").

Fidelity Management Trust Company ("Fidelity") is the trustee and record keeper of the Plan and the Plan's assets are part of the Doosan Master Trust ("Master Trust") maintained by Fidelity.

The Benefits Oversight Committee (the "Committee") administers the Plan on behalf of Clark Equipment Company ("the Company"). Effective June 30, 2016, Doosan Infracore International, Inc. merged into Clark Equipment Company with Clark Equipment Company being the surviving corporation. For the time period prior to June 30, 2016, "Company" means Doosan Infracore International, Inc. For the time period from June 30, 2016 onwards, "Company" means Clark Equipment Company. The Committee designs and approves changes to the Plan. The Committee selects and approves the Plan's investment options. Participants direct investments among the primary investment options. The Plan is intended and operated to satisfy the requirements of ERISA Section 404(c).

Participation

The Plan is comprised of contributions that were made by Ingersoll-Rand ("IR"), a former plan sponsor. Contributions and participation ceased in the mid-1990's, but existing participant balances continued to accrue gains and losses with the market over the years. For certain participants, the Plan allows the participant some flexibility with their pension benefit election options, allowing them to transfer their account balance to a certain Company defined benefit plan in return for increased benefits under that plan, or they may choose to not integrate and take their account value as a lump sum distribution.

Contributions

Through February 2001, the unallocated common stock maintained by the Plan's trustee was utilized as collateral for the Plan's loan from IR that was assigned upon IR's acquisition of Clark Equipment Company. Each month, IR made a contribution to the Plan in the amount of the loan interest and principal payment. The Plan then made a loan interest and loan principal payment, releasing unallocated shares. The final payment on the loan was made in February 2001. Since then, any contributions have been made in cash.

Before 2001, each IR contribution released from collateral the IR common stock that was allocated to participants based on an allocation formula. A portion of these allocations offset benefits accrued under another IR plan that was merged in. A portion of these contributions was used to offset benefits accrued under the Clark Retirement Program for certain grandfathered employees in a Pension Offset Account in the Plan. As a result, eligible participants have several sub-accounts under the Plan based upon criteria outlined in the plan document. Until August 2002 for employees participating in the SSIP account, employer contributions were required to be 100 percent invested in IR common stock.

1. Description of the Plan (Continued)

The Plan has been designed to comply with the Internal Revenue Code as of 1986, as amended ("IRC") and applicable Treasury regulations. In accordance with Treasury regulations for the component of the Plan that is an ESOP, a portion of plan funds were formerly invested in IR securities.

Effective August 5, 2002, participants were permitted to sell their employer securities in specified sub-accounts to purchase other investment options. To facilitate an orderly transition, Plan participants were permitted to diversify in cumulative increments of up to 20 percent, increasing each month until December 1, 2002, of existing IR match balances per month. Any new matching contributions after August 5, 2002 can be diversified immediately. After a five-month transition period ending December 31, 2002, the plan participants have no limitations on the sale of company-match IR common stock in certain sub-accounts.

Effective August 1, 2002, IR matching, IR retirement and profit sharing contributions were contributed to other IR defined contribution plans. Prior to August 1, 2002, IR matching and profit sharing contributions were contributed to the Plan. Effective October 1, 1995, for IR matching contributions, and effective December 31, 1998 for certain profit sharing contributions, the Plan was amended to allow such contributions of two other IR defined contribution plans to be contributed to the Plan. For the years ended December 31, 2020 and 2019, no contributions were made to the Plan as management elected to fund other Company savings plans instead.

Participant Accounts
Each participant's account is credited with allocations of the Company's contributions, plan earnings, and forfeitures, and charged with distributions, applicable administrative expenses and allocation of plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
All participants in the Plan are 100% vested.

Investment Options
Upon participation in the Plan, a participant may direct his or her account, in multiples of 1%, into various investment options offered by the Plan through the Master Trust. The Plan currently offers various mutual funds and self-directed brokerage accounts.

Payment of Benefits
No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary) or otherwise terminates employment with the Company except in the case of a participant reaching the age of 70-1/2. Any participant who has not commenced receiving benefit distributions by age 70-1/2 will receive benefit distributions regardless of where employed as of that date. Plan distributions are in the form of whole shares of employer securities or cash with value being determined on the date of distribution.

1. Description of the Plan (Continued)

Voting Rights
Each participant is entitled to exercise voting rights attributable to the shares of IR allocated to his or her account and is notified by Fidelity prior to the time that such rights are to be exercised. Fidelity is not permitted to vote any share for which instructions have not been given by a participant.

Forfeited Accounts
At December 31, 2020 and 2019, forfeited nonvested amounts totaled $152,575 and $147,668, respectively. These amounts may be used to reduce future Company contributions, reduce plan expenses or allocated to existing participants. During 2020 and 2019, there were no transfers from the forfeiture account to the individual participant accounts.

Payment of Administrative Costs
The Company pays substantially all significant administrative expenses of the Plan.

2. Summary of Accounting Policies

Basis of Accounting
The accounts of the Plan are maintained on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Valuation of Investments in Master Trust
Plan investments are held in the Master Trust, which provides unified investment management. Fidelity invests plan assets in various investment options at the direction of plan participants and as required by the Plan. Separate participant accounts are maintained by investment option. These accounts record contributions, withdrawals, transfers, earnings and changes in market value.

The Master Trust reports investments at fair value. See Note 5 for further discussion on fair value.

Recently Adopted Accounting Pronouncements
In February 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans, Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*. This guidance requires the disclosure of the Plan's dollar amount of its interest in each general type of investment held by the master trust. In addition, the guidance requires disclosure of the master trust's other asset and liability balances and the Plan's interest in each of those other assets and liability balances. The guidance requires retrospective application and is effective for annual reporting periods beginning on or after December 15, 2008. The adoption has been reflected in Note 3.

Security Transactions and Investment Income
Realized gains or losses on security transactions are recorded on the trade date. Realized gains or losses are the difference between the proceeds received and the security's unit cost. Unrealized gains and losses are the gains and losses on investments held at year end. Dividend income is recorded on the ex-dividend date and interest income is recorded when earned.

The Statements of Changes in Net Assets Available for Benefits present interest in investment income of the Master Trust, which includes realized and unrealized gains and losses and dividend and interest income, in accordance with the policy of stating investments at fair value.

Payment of Benefits
Benefits to participants are recorded when paid.

3. Investment in the Master Trust (Unaudited)

The Plan's investments are in the Master Trust which was established for the investment of assets of the Plan and two other Company defined contribution plans. The assets of the Master Trust are held by Fidelity. Each participating retirement plan has a divided interest in the Master Trust. The Trustee maintains separate accounting of all contributions, benefit payments and expenses and allocates income earned and received or losses incurred by the Master Trust on the basis of the adjusted value of each plan at year end.

The following investments in the Master Trust and the net appreciation in fair value of investments, and interest and dividend income in the Master Trust are certified by Fidelity to be complete and accurate. Fidelity has also certified the Plan's proportionate share of such items to be complete and accurate. The Master Trust financial statements are prepared on the modified cash basis of accounting while the Plan's financial statements are prepared on the accrual basis of accounting.

5. Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

5. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

At December 31, 2020 and 2019, all of the Plan's assets are held in the Master Trust. The investments in the Master Trust are recorded at fair value. The investments in the Master Trust are further discussed in Note 3.

Following is a description of the valuation methodologies used for the underlying assets in the Master Trust measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Trust at year end, as determined by the administrator of the fund.

Self-directed brokerage accounts: Valued at the NAV of the assets in which it participates at year-end. The NAV is the value of account assets, based on closing prices in an active market, less fund liabilities divided by the number of shares outstanding.

Money market funds: Funds invest in high quality, short-term securities that are quoted in an active market. The fund manager has assigned a unit price of $1.

Collective trust funds: Valued at the NAV of units of the collective fund. The NAV is used as a practical expedient to estimate fair value. The practical expedient would not be used if it is determined to be probable that the funds will sell the investment for an amount different from the reported net asset value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, of the Master Trust's underlying assets at fair value as of December 31, 2020 and 2019:

	Assets at Fair Value as of December 31, 2020			
	Level 1	**Level 2**	**Level 3**	**Fair Value**
Mutual Funds	$ 65,105,387	$ 224,441,484	$ --	$ 289,546,871
Money market funds	161,973	--	--	161,973
Self-directed brokerage accounts	16,482,447	--	--	16,482,447
Total assets in the fair value hierarchy	$ 81,749,807	$ 224,441,484	$ --	$ 306,191,291
Investments measured at net asset value (a)				196,877,021
Investments at fair value				$ 503,068,312

	Assets at Fair Value as of December 31, 2019			
	Level 1	**Level 2**	**Level 3**	**Fair Value**
Mutual Funds	$ 50,129,582	$ 186,304,255	$ --	$ 236,433,838
Money market funds	101,373	--	--	101,373
Self-directed brokerage accounts	10,181,763	--	--	10,181,763
Total assets in the fair value hierarchy	$ 60,412,718	$ 186,304,255	$ --	$ 246,716,974
Investments measured at net asset value (a)				187,238,771
Investments at fair value				$ 433,955,745

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2020 and 2019. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	Fair Value at December 31, 2020	Fair Value at December 31, 2019	Unfunded Commitments	Other Redemption Restrictions	Redemption Notice Period
Common collective trust funds*	$ 196,877,021	$ 187,238,771	None	None	None

* Represents investment in the Wells Fargo Stable Value Funds C and Q which are 100% invested in the Wells Fargo Stable Value Fund G. The fund seeks to provide investors with a moderate level of stable income without principal volatility. The fund primarily invests in investment contracts, including guaranteed investment contracts ("GICs") and security-backed contracts issued by insurance companies and other financial institutions. The holdings in these funds is considered to have an indirect investment in fully benefit responsive contracts, which should be measured at contract value and can be used to approximate fair value as practical expedient. Also represents three additional collective trust funds: Columbia Contrarian Large Cap Core, Rothschild US Small-Mid Cap Core, and BTC Equity Index.

6. Plan Termination

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time and for any reason subject to the provisions of ERISA. In the event of the plan termination, participants will become fully vested in their accounts and shall be entitled to a distribution of their respective account balances.

7. Risks and Uncertainties

Through the Master Trust, the Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

8. Party-in-Interest Transactions

As of December 31, 2020 and 2019, certain plan investments held in the Master Trust are shares of mutual funds and other investments managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions but are not deemed to be prohibited transactions.

9. Tax Status

The Internal Revenue Service has determined by a letter dated May 16, 2014, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. Therefore, the plan administrator believes the Plan was qualified and the related master trust was tax-exempt as of December 31, 2020 and 2019.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Subsequent Events

The Plan has evaluated subsequent events through September 30, 2021, which is the date financial statements were available to be issued.

11. COVID-19

In March 2020, the World Health Organization declared the outbreak and spread of COVID-19, a novel strain of Coronavirus, a pandemic. The coronavirus outbreak has had far reaching and unpredictable impacts on the global economy, supply chains, financial markets, and global business operations of a variety of industries. Governments have taken substantial action to contain the spread of the virus including mandating social distancing, suspension of certain gatherings, and shuttering of certain nonessential businesses.

There is significant uncertainty in the nature and degree of its continued effects on the Plan. The extent to which it will impact the Plan going forward will depend on a variety of factors including the duration and continued spread of the outbreak, impact on the Company's customers, employees and vendors, as well as governmental, regulatory and private sector responses. Further, the pandemic may have a significant impact on management's accounting estimates and assumptions.
