The Company is the Plan administrator and is responsible for providing the participants and their beneficiaries with information about their rights and benefits under the Plan.

Eligibility

All employees of the Company are eligible to participate in the Plan provided they have attained the age of 18 and 1,000 of service hours in a year and may enter the plan on the first day of the month following their eligibility. Excluded participants include collective bargaining (union) employees, non-resident aliens and part-time employees that work less than 1,000 hours.

Contributions

Participants are allowed to make pre-tax and Roth contributions up to the limitation contained in the Internal Revenue Code ("IRC") in effect for each taxable year. In 2020, participants were permitted to contribute up to a maximum of $19,500 with an additional $6,500 catch-up contribution for employees over 50 years old. The Plan automatically enrolls eligible participants at a rate equal to 3% of compensation, unless otherwise directed by the participant. Following this enrollment on the first day of the plan year the automatic deferral percentage will increase by 1% per year up to a maximum of 10% of compensation.

The Company has the option to contribute discretionary matching contributions and non-elective contributions. For the year ended December 31, 2020, the Company elected to not provide such contributions.

Participant Accounts

Each participant directs participant and Company contributions, if any, to the investment options offered by the Plan. Each participant's account is credited with the participant's contribution, Company contributions, if any, and the Plan's earnings (losses), participant withdrawals, and administration expenses, if applicable. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in both employee and employer, if any, contributions, plus actual earnings thereon.

Notes Receivable from Participants

Participants are allowed to borrow from their accounts an amount equal to no less than $500 and no greater than $50,000 or 50% of the participant's vested balance. The loans bear interest, and principal and interest are repaid ratably through payroll deductions. General purpose loans must be repaid within five years, and loans used to purchase a primary residence may be paid over 30 years. There were no outstanding loans at December 31, 2020.

Payment of Benefits
In the event of retirement, disability, or termination of employment, participants may elect a lump-sum distribution equal to the value of the participant's vested balance. Participants may also request in-service distributions upon attaining age 59 ½, disability, or due to certain hardships. The Plan will make a mandatory distribution following severance from employment if a participant has not attained the age of 62 or later and is less than $5,000. During 2020, the Plan operated in conformity with distribution provisions set forth under the Coronavirus Aid, Relief and Economic Security ("CARES") Act. Such provisions included the ability for participants to withdraw up to $100,000 tax-free and penalty-free between March 28, 2020 and December 31, 2020 if the participant determined he or she was a qualified individual under the CARES Act.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The accompanying financial statements of the Plan have been prepared in compliance with the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates
The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities, and additions and deductions to net assets available for benefits as of the date of the financial statements. Actual results may differ from those estimates.

Payment of Benefits
Benefit payments are recorded when paid.

Investment Valuation and Income Recognition
Investments in registered investment companies and self-directed brokerage accounts are recorded at fair value. See Note 4 Fair Value Measurements for further disclosure of fair value measurements. The Plan's investment in the guaranteed investment contract is fully benefit-responsive investment contract and is valued at contract value. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. See Note 5 for further information on the investment contract.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis and dividends are recorded on the ex-dividend date. Realized gains and losses are calculated as the difference between the proceeds from sales and the related investment's fair market value at the beginning of the Plan year, or acquisition cost if acquired during the year. Unrealized appreciation and depreciation are calculated as the difference between the fair value of investments at the end of the year less their fair values at the beginning of the year, or acquisition cost, if acquired during the year. Capital gain distributions are included in dividend income. Certain investment related expenses are reflected in net appreciation and are not readily determinable.

Plan Expenses
Plan expenses can be paid directly by the Company or by the Plan. Administrative expense paid by the Plan were $89 for the year ended December 31, 2020.

3. INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election. The Trustees of the Plan, Great-West Trust Company LLC and Great-West Life & Annuity Insurance Company, have certified the completeness and accuracy of all investments from participants and related investment activity from participants in the accompanying statements of net assets available for benefits as of December 31, 2020, the statement of changes in net assets available for benefits for the year ended December 31, 2020 and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2020. No auditing procedures were performed with respect to the information certified by the Trustees, except for comparing such information with the information reported in the financial statements.

4. FAIR VALUE MEASUREMENTS

The Plan's investments are recorded in accordance with FASB ASC 820, *Fair Value Measurement*, which established a framework for measuring fair value and clarifies that fair value is an estimate of the exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants (i.e., the exit price at the measurement date). That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value:

Registered Investment Companies: The fair value of the registered investment companies is based on the net asset value of the shares held by the Plan at year end as reported on the active market on which the funds are traded.

Common Stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate Bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

Self-directed Brokerage Account: Investments include common stocks, bonds, and mutual funds; value as noted above.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020 and 2019:

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Registered investment companies, at fair value	$ 417,243	$ -	$ -	$ 417,243
Self Directed Brokerage Accounts	128,499	-	-	128,499
Total investments, at fair value	$ 545,742			$ 545,742

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Registered investment companies, at fair value	$ 235,083	$ -	$ -	$ 235,083
Total investments, at fair value	$ 235,083			$ 235,083

5. FULLY BENEFIT RESPONSIVE INVESTMENT CONTRACT

The Plan holds a fully benefit-responsive investment contract (guaranteed investment contract) issued by Great West Life & Annuity Insurance Company ("GWLAIC") that guarantees a minimum rate of interest for the life of the annuity contract. The contract value of the fund is determined based on the contributions plus interest and transfers into the fund less amounts distributed, transferred out and any premium taxes paid, if any. The fund is held in a general account with the issuer of the contract. Stability of principal is the primary objective of this investment option.

The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly. The guaranteed annual interest rate is guaranteed for the life of the contract, but may be higher from time to time, and is compounded daily.

Certain events limit the Plan's ability to transact at contract value. Such events include the following: (a) premature termination of the contracts by the plan, (b) bankruptcy of the Company or other events (for example, plant closings, layoffs, plan termination, mergers, and early retirement incentives) that cause a significant withdrawal from the Plan, or (c) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the ERISA of 1974. The Company does not believe that any events that would limit the Plan's ability to transact at contract value with the issuer are probable of occurring.

6. PARTY-IN-INTEREST TRANSACTIONS

Plan expenses paid by the Plan sponsor are considered party-in-interest transactions. All such party-in-interest transactions are exempt from the prohibited transaction rules.

7. TAX STATUS

The Plan adopted a prototype profit sharing 401(k) plan which obtained its latest opinion letter on June 30, 2020 in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable sections of the IRC. Furthermore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or the DOL. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. In addition, there have been no tax related interest or penalties for periods presented in these financial statements.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to terminate the Plan subject to the provisions of ERISA. Participant accounts become fully vested upon plan termination.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. These investments are exposed to risks such as interest rate, market, and credit risk. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in risks in the near term could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

The 2019 novel coronavirus (or "COVID-19") has adversely affected and may continue to adversely affect economic activity globally, nationally, and locally. Following the COVID-19 outbreak in March 2020, the values of investment securities have experienced significant volatility. These economic and market conditions and other effects of the COVID-19 outbreak may continue to cause volatility. The extent of the adverse impact of the COVID-19 outbreak on the Plan participants' account balances cannot be predicted at this time.

10. RECONCILIATION TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

	2020	2019
Net assets available for benefits per the financial statements	$ 664,285	$ 251,131
Participant contributions receivable	-	(15,844)
Net assets per Form 5500	$ 664,285	$ 235,287

The following is a reconciliation of total contributions per the financial statements to the Form 5500 for the year ended December 31, 2020:

Total contributions	
Per the financial statements	$ 426,099
Contributions receivable at December 31, 2020	-
Contributions receivable at December 31, 2019	15,844
Per the Form 5500	$ 441,943

11. SUBSEQUENT EVENTS

The Plan administrator has evaluated subsequent events occurring after December 31, 2020 through October 14, 2021, the date the financial statements were available to be issued. Based on this evaluation, the Plan administrator has determined that the following subsequent event has occurred.
