1. Description of Plan

The following description of the Infor Global Solutions 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document, copies of which are available from the plan administrator, for a complete description of the Plan's provisions.

Subsequent to year end, the Plan Sponsor was acquired by a third party. Management has not yet made a determination as to the effect the acquisition will have on the Plan.

General

The Plan is a defined contribution plan. All employees of Infor (US), Inc. and its subsidiaries (the Company or Sponsor), except temporary employees and employees under 21 years of age, are eligible to participate in the Plan. Eligible employees may enter the Plan on the first day of each month. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On March 27, 2020, the Coronavirus Aid, Relief and Economic Security Act (CARES Act) was signed into law. Plans were permitted to adopt these provisions immediately provided the Plan document is retroactively amended on or before December 31, 2022. Plan management elected to adopt the following provisions:

- For coronavirus-related distributions made before December 31, 2020, to qualified individuals, as defined in the CARES Act, the maximum distribution was the lesser of the vested portion of the participant's account balance in the Plan or $100,000. In addition, for active employees, a coronavirus-related distribution may be repaid at any time during a three-year period beginning on the day after the date on which the distribution was received.

- For qualified individuals with outstanding loans, loan repayments during the period March 27, 2020 through December 31, 2020, may be deferred for up to one year. The term of the loan will be extended by the length of the deferment period and adjusted for accrued interest.

- Required minimum distributions were suspended in 2020.

Contributions

Each participant may elect to make pre-tax and/or Roth contributions of up to 75% of eligible compensation as defined by the Plan document, not to exceed a maximum of $19,500 in 2020, plus a catch-up contribution of $6,500 for participants age 50 and older. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers).

The Company may make a discretionary matching contribution based on a percentage of each participant's deferral, which is determined annually. For the year ended December 31, 2020, the Company matched 50% of the participants' first 6% of employee contributions, not to exceed a maximum of $2,400 per participant.

Participant Accounts

Each participant's account is credited with the participant's contribution, rollovers, the Company's contribution and earnings on the investments in their accounts and is charged with specific transaction fees. Upon enrollment in the Plan, participants may direct investments in their account to any of the investment options offered by the Plan. The Plan currently offers a self-directed brokerage account as an additional investment option for participants. Self-directed brokerage accounts cannot invest in Fidelity and non-Fidelity mutual funds currently offered through the Plan, tax-exempt securities, employer securities, physical certificates, precious metal, limited partnerships, master limited partnerships, futures contracts, commodities, interest rate options, currencies and currency options, CAPS, and options levels 3, 4, and 5. Participants may change their investment options on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

All participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching contribution is based on years of credited service and are vested in annual increments of 20% for each year of service and are 100% vested after five years of service. Participants also become fully vested once they have attained the age of 55, become disabled or upon death if they are then currently employed by the Company. Matching contributions from prior employers of merged plans are 100% vested.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the vested balance of their account balance. A participant may have one note receivable outstanding at any time. The notes receivable are secured by the balance in the participant's account and must bear a reasonable rate of interest as defined in the Plan. As of December 31, 2020, notes receivable had fixed rates ranging from 4.25% to 10.50% for the term of the loan, not to exceed 5 years or, 10 years if used for the purchase of a residence. Principal and interest are paid through payroll deductions.

Forfeited Accounts

At December 31, 2020 and 2019, forfeited non-vested accounts totaled $451,275 and $696,879, respectively, which are included in the money market fund on the statements of net assets available for benefits. Forfeitures may be used to reduce future employer contributions or to pay

Plan expenses. During 2020, $1,154,116 of forfeitures were used to reduce Company contributions and $30,362 of forfeitures were used to pay administrative expenses.

Payment of Benefits

On termination of service due to death, disability, termination of employment or retirement, a participant or their beneficiary may receive payment of the vested interest in their account in the form of a lump-sum distribution. The participant's vested account may also be withdrawn for in-service distribution upon reaching age 59 ½ or certain hardship situations when certain conditions are met.

Administrative Expenses

Administrative expenses of the Plan may be allocated to participants, paid through forfeitures, or paid by the Sponsor. Participant transaction fees related to notes receivable from participants and distributions are charged directly to the participant. Investment related expenses are included in net change in fair value of investments. During 2020, the Plan's custodian deposited revenue sharing of $325,000 to the Plan into an ERISA account and $325,154 was refunded directly to participants' accounts. Amounts unused for expenses may be allocated to participants' accounts based on participants' account balances, exclusive of outstanding loan balances. The ERISA account had an available balance (deficit) of $(1,302) and $(1,148) as of December 31, 2020 and 2019, respectively, which is included in the money market fund on the statements of net assets available for benefits. These expenses are paid to service providers of the Plan and therefore qualify as party-in-interest transactions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Contributions

Participant contributions are considered payable to the Plan upon the withholding of contributions from the participant's paycheck. The employer discretionary matching contributions are considered payable to the Plan when the related participant's contributions are payable to the Plan. Any unfunded participant or discretionary matching contributions are

included in the participant or employer contributions receivable on the statements of net assets available for benefits as of December 31, 2020 and 2019, if applicable.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Net change in fair value of investments includes interest, dividends, realized and unrealized gains and losses and fees charged for investment management and administrative services on investments.

Notes Receivable from Participants

Notes receivable from participants are carried at their outstanding balance. Interest income is recognized when received. No allowance for credit losses has been recorded as of December 31, 2020 or 2019. If a participant ceases to make note receivable repayments and the plan administrator deems the note receivable to be in default, the note receivable balance is reduced and a benefit payment is recorded. Notes receivable from participants qualify as party-in-interest transactions.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 14, 2021, which is the date the financial statements were available to be issued.

3. Information Certified by the Custodian

Information in the accompanying financial statements and supplemental schedule – Schedule H, Line 4i – Schedule of Assets (Held at End of Year) regarding investments held and notes receivable from participants at December 31, 2020 and 2019, net change in fair value of investments and interest income for the year ended December 31, 2020, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company (Fidelity), the Plan's custodian.

4. Investments and Fair Value Measurements

Certain Plan investments are shares of a money market fund, mutual funds, and common/collective trust funds managed by Fidelity. Fidelity is the custodian of the Plan; therefore, transactions in these investments qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net change in fair value of investments as they are paid through revenue sharing, rather than a direct payment.

Investments are exposed to various risks, such as market, currency, interest rate, and credit risks. It is at least reasonably possible that changes in their fair value will occur in the near term and that such changes could materially affect participants' account balances.

The Financial Accounting Standards Board established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities, and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 – unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access

Level 2 – other observable data, including quoted prices for identical assets or liabilities in inactive markets

Level 3 – unobservable inputs

Observable inputs are those based on market data obtained from sources independent of the Plan, and unobservable inputs reflect the Plan's own assumptions based on the best information available. The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level but rather the degree of judgment used in determining those values.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Investments in the money market fund and mutual funds are based on quoted market prices for the identical asset in an active market and are considered Level 1 assets. Securities held in self-directed brokerage accounts, primarily money market funds, common stock, mutual funds, and exchange traded funds, are publicly traded and are priced using the custodian's pricing service and are considered to be Level 1.

Investments in common/collective trust funds are valued daily using net asset value (NAV) and are considered Level 1 assets. The NAV's are based on quoted prices determined daily based on the fair value of the underlying mutual funds, stocks, debt instruments, and other securities in the accounts. The common/collective trust funds may be traded daily at their NAV.

The following table summarizes the Plan's investments based on the inputs used to determine their values as of December 31, 2020 and 2019:

	Level 1	
	2020	2019
Money market fund	**$ 40,729,601**	$ 28,358,422
Mutual funds	**505,949,655**	434,725,915
Common/collective trust funds	**358,362,577**	310,145,822
Self-directed brokerage accounts	**31,361,465**	19,430,311
Total	**$ 936,403,298**	$ 792,660,470

5. Tax Status

The Plan operates under a volume submitter plan created by Fidelity Management Research Company, an affiliate of the Plan's custodian. The Internal Revenue Service has determined and informed Fidelity Management Research Company by a letter dated June 30, 2020, that the volume submitter plan is designed in accordance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has not received an individual determination letter and has been amended, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. The Plan's income tax returns for the past three years are subject to examination by taxing authorities and may change upon examination.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.
