The following description of Gordon Lumber Holdings Company 401(k) Profit Sharing Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan, originally adopted January 1, 2016 and subsequently amended, is a defined contribution plan of Gordon Lumber Holdings Company and participating employers (the Plan Administrator and Company), covering all eligible employees, as defined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contributions, and an allocation of Plan earnings (losses). The allocation of Plan earnings (losses) is based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the vested value of the participant's account. Participants direct the investment of their account balances among the investment funds offered by the Plan.

Notes Receivable from Participants

Participants are permitted loans up to the lesser of \$50,000 or 50% of their vested account balance. Participants should refer to the Plan document for a complete description of loan provisions.

Contributions

Participants may elect to defer as pre-tax and/or Roth contributions, an amount up to the maximum percentage allowable, or may elect not to participate in the Plan. If an employee does not make an election, the employee will be automatically enrolled at an initial pre-tax rate of 6%. Participants over age 50 may also defer catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans.

The Company may elect to contribute discretionary matching contributions and/or discretionary other contributions to the Plan. For 2020 and 2019, the Company matched 25% of the participant's pre-tax and Roth 401(k) deferrals up to 6% of eligible compensation. There were no discretionary other contributions contributed to the Plan during 2020 and 2019.

Payment of Benefits

On termination of service, death, disability, or retirement, a participant may receive a payment in the amount equal to the value of the participant's vested interest in his or her account. The Plan provides for normal retirement at age 65. The total vested portion of a participant's account balance is distributed in the form of a lump sum payment, non-recurring partial payment, or regularly scheduled installment payments..

Note 1 – Description of Plan (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings (losses) thereon. Company contributions are fully vested after completing three years of service.

Forfeitures

Forfeited balances of terminated participants' non-vested accounts shall be allocated to remaining participants' accounts as defined in the Plan document.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

Administrative Expenses

Certain administrative expenses are paid by the Plan, as described in the Plan document. The Company paid for other costs of administering the Plan, including professional fees. The services are rendered by parties-in-interest to the Plan.

Note 2 – Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Benefit payments to participants are recorded upon distribution.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. There have been no changes in the valuation methods used. The Plan's investments were held by Mid Atlantic Trust Company and Ascensus Trust Company, the trustees.

Mutual funds represent investments with various investment managers. The fair values of these investments are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are valued at net asset value.

Note 2 – Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

Common/collective trust funds (CCTs) represent investments with various investment managers. Units held in CCTs, including stable value funds, are fair valued at the net asset value (NAV). The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liability. This practical expedient is not used when it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants represent outstanding loans and are measured at their unpaid principal balance plus accrued interest.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that could affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent Events

Management has evaluated subsequent events through October 15, 2021, the date the financial statements were available to be issued.

Note 3 – Investments

Investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2020 and 2019, net appreciation (depreciation) of investments, and interest and dividends for the years then ended, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the trustees.

Note 4 – Fair Value Measurements

The various inputs that may be used to determine the value of the Plan's investments are summarized in three broad levels within the fair value hierarchy. The three levels are described below:

- Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly; and
- Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020 and 2019. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Note 5 – Income Tax Status

The Internal Revenue Service ruled on April 10, 2014, that the Prototype Non-standardized Profit Sharing Plan with CODA (the prototype plan upon which the Plan is based) qualifies under Section 401 of the Internal Revenue Code (IRC) and the related trust is, therefore, not subject to tax under present income tax law. Subsequent to this ruling the Plan was amended. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is currently designed in compliance with the applicable requirements of the IRC and has indicated that it is taking the necessary steps, if any, to bring the Plan's operations into compliance.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.
