Independent Auditor's Report

To the Trustees and Plan Administrator
Stream-Flo 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Stream-Flo 401(k) Plan, which comprise the statements of net assets available for benefits as of December 31, 2020 and 2019, and the related statement of changes in net assets available for benefits for the year ended December 31, 2020, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note I, which was certified by Principal Trust Company, the custodian of the plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2020 and 2019, and for the year ended December 31, 2020, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

A. Description of the Plan

The following brief description of the Stream-Flo 401(k) Plan (plan) is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General

The plan is a defined contribution plan designed and intended to operate as a safe harbor 401(k) plan that provides retirement savings benefits to eligible employees of the company through tax deferred voluntary contributions by employees and safe harbor and discretionary non-elective profit-sharing contributions by the company.

Employees are eligible to participate in the plan after attaining the age of twenty-one and completion of six months of service. Employees can enter the plan immediately upon satisfaction of the eligibility requirements. Employees who are covered by a collective bargaining agreement, a non-resident alien who received no earned income or an employee not required to be taken into account for nondiscrimination testing purposes are not eligible to participate in the plan.

Master Flo Valve USA, Inc. is an affiliate employer and has adopted the Stream-Flo 401(k) Plan. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may elect to defer a percentage or dollar amount of their salary each pay period up to 100% of their annual eligible compensation, as defined by the plan document, in the form of pre-tax contributions. Participants may also contribute eligible rollovers from other qualified defined benefit or defined contribution plans and individual retirement accounts. The plan also allows Roth contributions. Participants who have attained the age of 50 before the end of the plan year are eligible to make catch-up contributions.

The plan is a safe harbor plan providing matching contributions under a basic matching contribution formula. The company matches 100% of participant's contributions up to the first 3% of each participant's compensation, plus 50% of the participant's contributions up to the next 2% of eligible compensation. The company matching contributions are 100% vested immediately and invested in the same manner as the participant has directed for their contributions.

Additionally, each plan year the company may make discretionary non-elective profit-sharing contributions in amounts determined by the company. Discretionary non-elective profit-sharing contributions are allocated to eligible participants based upon the percentage of the participant's compensation to the total compensation of all eligible participants. Eligible participants who are employed on the last day of the plan year and received credit for at least 1,000 hours of service during the plan year share in any non-elective profit-sharing contributions.

Participant's accounts

Each participant's account is credited with the participant's contribution and allocations of (*a*) the company's contribution and (*b*) plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

A. Description of the Plan - Continued

Vesting

Participants are immediately and fully vested in their voluntary contributions and employer safe harbor matching contributions plus actual earnings thereon. Vesting in the company's discretionary non-elective profit-sharing contributions and earnings thereon is based on years of continuous service. A year of service is defined as 1,000 hours of service during any plan year. Additionally, a participant will become fully vested in the company contribution portion of their account upon reaching normal retirement age or in the event of death or total and permanent disability.

The vesting schedule for company's discretionary non-elective profit-sharing contributions and earnings is determined as follows:

Completed years of service	Vested Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Notes receivable from participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 6.50%. Principal and interest is paid ratably through payroll deductions. The loan term may not exceed 5 years, except that any loan used to purchase your principal residence may be repaid over a longer period.

Payment of benefits

On termination of employment, disability, death, or natural retirement, a participant or designated beneficiary may elect to receive a lump-sum cash distribution equal to the vested value of the participants account, a direct rollover distribution, or a combination of a cash distribution and direct rollover distribution. If withdrawing participants are not entitled to their entire account balance, the amounts not received are forfeited. Participants may defer receipt of distribution until a later date unless their account balance is $5,000 or less. If the vested account balance is $5,000 or less, the company will direct the custodian that any amount exceeding $1,000 be distributed to the participant, without consent, as a lump sum distribution in cash.

If an active participant has attained age fifty-nine and one-half (59 ½), they may elect to withdraw all or a portion of their account while still employed by the company. Hardship distributions are not permitted.

A. Description of the Plan - Continued

Forfeited accounts

Forfeitures represent the non-vested benefits remaining from employees who have withdrawn from the plan before coming fully vested. Forfeited amounts are retained in the plan and will first be used to pay administrative expenses. Any remaining forfeitures will be used to reduce any employer contribution to the plan. Forfeited non-vested accounts amounted to $0 as of December 31, 2020 and 2019.

B. Summary of Significant Accounting and Reporting Policies

Basis of accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan. See Note C for a discussion of fair value measurements.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for fully-benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Operating expenses

Certain administrative expenses of maintaining the plan are paid by the company. Contract administrative fees are paid by the plan.

B. Summary of Significant Accounting and Reporting Policies - Continued

Subsequent events

The plan has evaluated subsequent events through October 13, 2021, the date the financial statements were available to be issued.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

C. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The 3 levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

C. Fair Value Measurements - Continued

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2020 and 2019:

	Assets at Fair Value as of December 31, 2020			
	Level 1	*Level 2*	*Level 3*	*Total*
Mutual funds	$7,992,092			$7,992,092
Investments at fair value	$7,992,092			$7,992,092

	Assets at Fair Value as of December 31, 2019			
	Level 1	*Level 2*	*Level 3*	*Total*
Mutual funds	$7,279,069			$7,279,069
Investments at fair value	$7,279,069			$7,279,069

D. Guaranteed Investment Contract with Principal Life Insurance Company

In 2016, the plan entered into a fully benefit-responsive interest account with Principal, which maintains the contributions in a general account totaling $406,490 for 2020 and $474,243 for 2019. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan. The crediting interest rate is based on a formula established by the contract issuer. The crediting rate is reviewed on a semi-annual basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

D. Guaranteed Investment Contract with Principal Life Insurance Company - Continued

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the plan. Contract value, as reported to the plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the plan to transact at contract value with the issuer. Such events include (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the plan to transact at contract value with the contract issuers and that also would limit the ability of the plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

E. Related Party and Party-In-Interest Transactions

During 2020, the plan investments were shares of mutual funds managed by Principal Trust Company. Principal Trust Company is a custodian as defined by the plan and, therefore, a party-in-interest with respect to the plan. These transactions are covered by an exemption from the "prohibited" transaction provisions of ERISA and the IRC.

F. Plan Termination

Although it has not expressed any intent to do so, the company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

G. Tax Status

On September 30, 2014, the IRS stated that the prototype adopted by the plan, as then designed, qualifies under Internal Revenue Code (IRC) Section 401(a). The plan has not received a determination letter specific to the plan itself; however, the plan administrator and the plan's tax counsel believe that the plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognizes a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

H. Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

I. Custodial Certification

The plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted under such election, the following investment information was certified by Principal Trust Company and was not subjected to any auditing procedures performed by the independent public accountants:

a. Total investments as shown in the accompanying statements of net assets available for benefits of $8,398,582 as of December 31, 2020, and $7,753,312 as of December 31, 2019.

b. Net investment income as shown in the accompanying statement of changes in net assets available for benefits of $979,484 for the year ended December 31, 2020.

c. All investment-related information in the accompanying supplemental Schedule H, Line 4i—Schedule of Assets (Held at End of Year) as of December 31, 2020.
