Note A – Description of the Plan

Pipeliners' Retirement Plan (the "Plan") was established on January 1, 1991. The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that covers all employees of Mears Installation, LLC (the "Company") who are members of the United Steelworkers Union, Local 348-08 (Successor to the Paper, Allied Industrial, Chemical and Energy Workers International Union). All employees, age 18 years or older, except foremen, are eligible to participate upon specified entry dates, when they have completed twelve months of employment and 1,000 hours of service. Foremen are eligible the first of the month following the completion of sixty days of service. Effective June 30, 1998, upon expiration of the union contract, employees of Mid-Atlantic Pipeliners, Inc. ("Mid-Atlantic") were no longer eligible for participation in the Plan. Account balances of some of the former Mid-Atlantic participants still remain in the Plan. However, no Company contributions have been made by Mid-Atlantic since June 30, 1998. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and amendments.

Contributions

Each year, participants may contribute to the Plan a percentage of their compensation, not to exceed certain dollar limitations established by the Internal Revenue Code ("IRC"). The Company may contribute a discretionary match amount based on the participants' contributions. The matching formula is: (1) 50% of the first 6% of compensation deferred under the Plan for employees (other than foreman) who have completed three or more years of service; (2) 50% of the first 10% of compensation deferred under the Plan for foremen who have completed one or more years of service; and (3) 0% for all other employees. In addition, the Company contributes $1.00 for each hour of service worked by all participants based on the union contract. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participant forfeitures are used to reduce the Company's total contribution.

Participant Accounts

Each participant's account is credited with the participant's voluntary contribution, the Company's contributions, and earnings thereon. The account is charged for benefit and withdrawal payments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Participants may choose to direct their contributions and account balances among the Plan's various investment alternatives. Participants are allowed to change their investment options daily.

Note A – Description of the Plan (Continued)

Vesting

Participants are immediately vested in voluntary contributions plus actual earnings thereon. In addition, participants vest immediately in the Company's contributions based on hours of service under union contracts, plus earnings thereon. Participants become fully vested in the matching contributions made by the Company after three years of service. Participants that have the title of foreman become fully vested in the matching contributions made by the Company after one year of service.

Forfeitures

Forfeited non-vested account balances may be used to pay administrative expenses, or to reduce future employer contributions. At December 31, 2020 and 2019, forfeited non-vested accounts totaled $59,840 and $46,551, respectively. There were no forfeitures used during the year ending December 31, 2020 or December 31, 2019.

Payment of Benefits

Upon retirement, death, disability or termination of employment, a terminating participant's account of less than $1,000 may be distributed in a lump-sum without the consent of the participant. Account balances exceeding $1,000 are paid in an annuity, lump-sum or installment payments, at the participant's discretion.

Administrative Expenses

The Company absorbs substantially all administrative expenses of the Plan. Expenses paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of investments.

Note B – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires Plan Management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Note B – Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note D for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefit payments are recorded when paid.

Coronavirus Aid, Relief, and Economic Security Act

In April 2020, the Plan operationally adopted the changes permitted by the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") allowing participants to receive Coronavirus-related distributions and suspend minimum distributions during the year ended December 31, 2020.

Subsequent Events

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through September 7, 2021, the date the financial statements were available for issue.

Note C – Investment Certifications

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, The Voya Retirement Insurance and Annuity Company ("the Trust Company"), has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2020 and 2019, and the supplemental Schedule of Assets (Held at End of Year) as of December 31, 2020, and the information related to investment activity reflected in statements of changes in net assets available for benefits for the years ended December 31, 2020 and 2019.

Note D – Fair Value Measurements

The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There were no changes in the methodologies used at December 31, 2020 and 2019. Following is a description of the valuation methodologies used for investments measured at fair value:

Note D – Fair Value Measurements (Continued)

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020:

	Level 1	**Level 2**	**Level 3**	**Total**
Mutual Funds	**$2,924,739**	**$ - **	**$ - **	**$2,924,739**

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$2,914,392	$ -	$ -	$2,914,392

Note E – Investment Contracts with Insurance Company

The Plan holds unallocated insurance contracts with Voya Retirement Insurance and Annuity Company. These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract value of these investments at December 31, 2020 and 2019 was $3,521,160 and $2,734,135, respectively.

The guaranteed investment contracts are designed to accrue interest based on a crediting rate established by the contract issuer. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. Additionally, certain events might limit the ability of the Plan to transact at contract value with the contract issuer.

Note E – Investment Contract with Insurance Company (Continued)

Examples of such events include the following:

- The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
- Premature termination of the contract
- Plan termination or merger
- Changes to the Plan's prohibition on competing investment options
- Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

Note F – Related-Party Transactions and Party in Interest Transactions

Plan investments include mutual funds and an investment contract managed by Voya Retirement Insurance and Annuity Company. This party is the custodian as defined by the Plan and, therefore, transactions with Voya Retirement Insurance and Annuity Company qualify as party-in-interest. Such transactions are not considered prohibited transactions by statutory exemptions under ERISA regulations. During 2020 and 2019, the Company paid certain administrative expenses of the Plan.

Note G – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	2020	2019
Net assets available for benefits per the financial statements	**$6,509,512**	$5,688,989

Rounding	**2**	1
Net assets available for benefits per the Form 5500	**$6,455,901**	$5,648,528

Note G – Reconciliation of Financial Statements to Form 5500 (Continued)

The following is a reconciliation of the changes in net assets available for benefits per the financial statements to the Form 5500 at December 31:

	2020
Net increase in net assets available for benefits per the financial statements	$ 820,523
Prior year contributions receivable	51,672
Current year contributions receivable	(72,790)
Prior year excess contribution	(11,210)
Current year excess contribution	9,177
Rounding	1
Net increase in net assets available for benefits per the Form 5500	$ 797,373

Note H – Income Tax Status

In the Plan's latest opinion letter dated September 1, 2014, the Internal Revenue Service stated that the Plan, as then designed, is in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note I – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note J – Plan Termination

Although they have not expressed any intent to do so, the Company reserves the right at any time by action of their Board of Directors to amend or terminate the Plan subject to the provisions of ERISA and the Union contract. In the event of Plan termination, participants would become fully vested in their account balances.
