INDEPENDENT AUDITOR'S REPORT

Pension Committee
Major League Baseball—Minor League Players' Pension Plan

We have audited the accompanying financial statements of the Minor League Players' Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2020 and 2019, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2020 and changes therein for the year then ended, and its financial status as of December 31, 2019 and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedules of assets (held at end of year) of the Major League Baseball Group Pension Trust (Group Trust) as of December 31, 2020, and reportable transactions of the Group Trust for the year then ended are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the U.S. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTE 1 PLAN DESCRIPTION

The Major League Baseball—Minor League Players' Pension Plan (the Plan or the Minor League Plan) is a noncontributory multiple-employer, defined benefit plan intended to meet the qualification requirements of Section 401(a) of the Internal Revenue Code (the Code) of 1986, as amended. The Plan was established to provide retirement and death benefits to eligible Minor League Players' listed on the roster of any minor league baseball club affiliated with Major League Baseball (collectively, the Participating Clubs; individually, a Club) on or after January 1, 2008. Except as expressly provided herein, events occurring prior to January 1, 2008 will be governed by the Major League Baseball Pension Plan for Non-Uniformed Personnel (the NUPP or the Prior Plan) in effect at the time the event occurred. The Plan, as a multiple-employer plan, provides benefits to Minor League Players employed by any Club.

In 2008, assets were spun off from the single-employer plans of Participating Clubs who had adopted the Prior Plan to establish the Minor League Plan.

The Plan is presently administered by a nine-member Pension Committee consisting of the Vice President/Controller, Executive Vice President/Chief Financial Officer, the senior vice president and Chief Employment Counsel, all of the Office of the Commissioner of Baseball (BOC), and six individuals appointed by a majority vote of the Participating Clubs.

The investments of the Plan are held by U.S. Bank (the Trustee) for the various Participating Employer Plans (Participating Plans) in the Major League Baseball Group Pension Trust (the Group Trust) (see Note 3).

The Code Section 415(b) maximum benefit limit was \$230,000 and \$225,000 for 2020 and 2019, respectively.

The Participating Clubs have agreed to voluntarily contribute such amounts as are necessary to provide assets sufficient to meet the benefits expected to be paid to participants. The contributions by the Participating Clubs are not to be used to pay benefits to participants employed by any other Participating Clubs. Such contributions are made in amounts sufficient to meet the minimum funding requirements set forth in the Employee Retirement Income Security Act of 1974, plus such additional amounts as may be determined to be appropriate from time to time. Such minimum funding requirements have been met for 2020 and 2019.

Eligible employees participate in the Plan after they have attained age 21 and completed one year of eligible service. Benefits under the Plan fully vest upon completion of five years of vesting service, which includes cumulative years of service prior to establishment of the applicable Plan.

NOTE 1 **PLAN DESCRIPTION** *(continued)*

Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of these benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC's benefit guarantee, while other benefits may not be provided for at all.

Effective December 1, 2010, the Pension Committee of the NUPP agreed to transfer inactive Minor League Players' from the NUPP to the Plan. The transfer reallocated the assets of those inactive Minor League Players' from the NUPP to the Plan, within the Group Trust.

Additional information about the Plan, including the vesting and benefit provisions and the PBGC's benefit guarantee, is available through the Participating Clubs or the BOC and related Plan documents.

NOTE 2 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 7) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees through the valuation date (January 1 of each year). Accumulated plan benefits include benefits expected to be paid to: (a) retired employees or their designated beneficiaries and (b) present employees or their designated beneficiaries. Monthly benefits are determined by a formula provided for in the Plan document. Such monthly benefits are limited under Internal Revenue Service (IRS) guidelines in 2020 and 2019 to the lesser of \$19,167 and \$18,750, respectively, or the employees' highest average monthly compensation for three consecutive years that the participant is employed by the Participating Employers. Benefits currently payable are included in accumulated plan benefits to the extent they are deemed attributable to employee service rendered to the valuation date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the U.S. (U.S. GAAP) requires the Plan's management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Investments and Valuation

The Plan participates in the Group Trust, as further described in Note 3.

Investments held by the Group Trust are stated at fair value. Fair value is defined as the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (*i.e.*, exit date). See Note 4 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned and dividends are recorded on the ex-dividend date. Net investment gains and losses include gains and losses on investments bought and sold as well as held during the year.

The Pension Committee is responsible for determining the Group Trust's valuation policies and analyzing information provided by the investment managers and issuers that is used to determine the fair value of the Group Trust's investments.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Adopted New Accounting Pronouncement

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2018-13, *Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*, which amends Accounting Standards Codification 820, *Fair Value Measurement*. This ASU modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. The Plan adopted the standard on January 1, 2020. The adoption did not have a material effect on the Plan's disclosures.

NOTE 3 INVESTMENTS

Contributions received from the Participating Clubs are deposited with the Trustee. The assets are invested as part of the Group Trust. Each Plan participating in the Group Trust owns a percentage of the underlying assets of the Group Trust and not the individual assets themselves. The assets of the Group Trust are comprised of investments in common stocks, equity mutual funds, government obligations, corporate bonds and notes, hedge funds, and cash and cash equivalents.

MAJOR LEAGUE BASEBALL—MINOR LEAGUE PLAYERS' PENSION PLAN

Notes to Financial Statements

NOTE 3 INVESTMENTS *(continued)*

The assets of the Plan are not guaranteed as to principal or income. Investment income and all gains and losses, whether or not realized, are recognized on the accrual basis.

With respect to investments in the Group Trust, on a quarterly basis, each Plan's net assets are re-measured. This is done by first adjusting the Plan's beginning balance for employer-specific items, such as contributions, benefit payments, withdrawals, and any specific expenses incurred. Investment income and loss, investment fees and expenses, and realized and unrealized gains or losses on investments are then allocated to each Plan based on the percentage of its fair value to the combined fair value of all Plans participating in the Group Trust. At December 31, 2020 and 2019, the individual Plans owned the following portions of the total fair value of the underlying investments comprising the Group Trust:

NOTE 3 INVESTMENTS *(continued)*

During the years ended December 31, 2020 and 2019, the Plan's investments in the Group Trust, including investments bought, sold, and held during the applicable period, appreciated in fair value by \$242,499,937 and \$273,834,176, respectively. Interest and dividends reported by the Group Trust were \$59,570,920 and \$57,619,808 for the years ended December 31, 2020 and 2019, respectively. The Plan's allocable shares of these amounts are reported in the net investment gain from the Group Trust in the statements of changes in net assets available for benefits.

Investment managers exercise discretionary authority, subject to certain limitations, for the purchase, sale, and management of the investments of the Group Trust that have been allocated to them for such purposes. Provisions relating to this discretionary authority and a representation by each of the investment managers that it is duly registered with the SEC pursuant to the Investment Advisers Act of 1940, as amended, are contained within respective agreements entered into with each investment manager.

Certain investment managers are authorized to use derivative financial instruments, either directly or within a commingled fund structure, within established guidelines. Derivative financial instruments may be used to manage interest rate and foreign exchange risk. The derivative financial instruments are recorded as other investments either as an asset or a liability, depending upon whether the instrument is in a gain or loss position. Changes in the fair value of derivative financial instruments are recorded in the statements of changes in net assets available for benefits; therefore, no gains or losses are deferred. There were no derivative financial instruments as of December 31, 2020 and 2019.

NOTE 4 FAIR VALUE MEASUREMENTS

To measure fair value, a hierarchy has been established that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs. As such, the hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1:* Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.
- Level 2:* Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

MAJOR LEAGUE BASEBALL—MINOR LEAGUE PLAYERS' PENSION PLAN
Notes to Financial Statements
December 31, 2020 and 2019

NOTE 4 FAIR VALUE MEASUREMENTS *(continued)*

Level 2 (continued):

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3: Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

The following is a description of the valuation methodologies used for investments measured at fair value pursuant to the fair value hierarchy.

The following investments are classified as Level 1 investments in the fair value hierarchy.

Cash and cash equivalents include highly liquid investments with original maturities of 90 days or less and money market funds. Treasury bills are measured at institutional bond quotes that are based on various market and industry inputs, which is indicative of Level 1. Actively traded money market funds are measured at their net asset value (NAV) and may include several different underlying short-term obligations, including corporates, government-sponsored enterprises, U.S. Treasuries and municipal securities. Certain investments within the fund may be deemed unobservable and not considered to be in an active market. These factors indicate Level 2 securities.

Common stocks are determined by obtaining quoted prices in an active market, which indicate Level 1 securities.

MAJOR LEAGUE BASEBALL—MINOR LEAGUE PLAYERS' PENSION PLAN

Notes to Financial Statements

December 31, 2020 and 2019

NOTE 4 FAIR VALUE MEASUREMENTS *(continued)*

Mutual funds are valued based on their NAV. A mutual fund may include several different underlying investments, including equities, bonds, real estate, and global securities. The NAV price is derived from the value of these investments, accrued income, anticipated cash flows (maturities), management fees, and other fund expenses. Certain investments within the fund may be deemed unobservable and not considered to be in an active market; therefore, they are considered Level 2 securities.

U.S. Government and corporate obligations are valued using the consensus and a market-based model, which considers yield, price of comparable securities, coupon rate, maturity, credit quality and dealer-provided prices. These factors indicate Level 2 securities.

Hedge funds are valued at the NAV per unit based on the fair value of the underlying investments. The underlying investments are primarily in publicly traded securities, which are valued at the closing price reported on the active market on which the individual securities are traded. In addition, these funds may have underlying investments in non-publicly traded securities for which quoted prices are not readily available. Such securities are valued by the investment management firm at an amount that approximates fair value, which is generally based on the verifiable fair value of similar securities at the valuation date. Plan management uses NAV as a practical expedient for measuring fair value; therefore, these investments do not require classification.

The methods described above may produce a fair value calculation that may not indicate net realizable value or reflect future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The Plan did not have any investments measured at fair value on a nonrecurring basis as of December 31, 2020 and 2019.

Fair Value of Investments Valued Using NAV

The following tables summarize investments measured at NAV per share:

December 31, 2020				
Investment Class	Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Hedge funds (a)	\$ 308,735,577	\$ -	Monthly–Annually	30-180 days
December 31, 2019				
Investment Class	Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Hedge funds (a)	\$ 255,964,931	\$ -	Monthly–Annually	30-180 days

- (a) These funds are oriented as a multi-strategy fund of funds, along with another group of investments managed by various different investment managers. These other managers specialize in various markets, the majority of which are either in the distressed asset category or long and short positions in global equities and equity-like securities.

The Plan's right to redeem its hedge fund investments varies according to the contractual agreements with each of the individual hedge fund management firms. Some of the hedge funds do not permit redemption for an initial period of time following an investment in the fund, which, for the Group Trust's hedge fund investments, range between six months and three years. Additionally, the Group Trust's hedge fund investment managers may limit the portion of an investment that can be redeemed at any one time, either by an individual investor or in the aggregate by all of the investors in the hedge fund. These limits vary and limit the portion of an investment that may be redeemed at any one time or restrict both the portion and term of such redemptions.

NOTE 5 DERIVATIVE INSTRUMENTS

In the normal course of operations, the Group Trust's assets and liabilities may include derivative financial instruments (swaps, options and foreign currency contracts). These derivatives involve, in varying degrees, elements of credit and market volatility risks in excess of more traditional investment holdings, such as equity and debt instruments. The contract or notional amounts disclosed in this footnote provide a measure of the Group Trust's involvement in such instruments but are not indicative of potential loss. The intent is to use derivative financial instruments as investments to gain exposure to certain markets and as economic hedges to manage interest rate, equity price, foreign currency exchange rate risk and credit risk associated with the Group Trust's investments and obligations.

There were no derivative instruments as of December 31, 2020 or 2019.

NOTE 6 OFFSETTING ASSETS AND LIABILITIES

The Group Trust is subject to master netting agreements, or netting arrangements, with certain counterparties. The Group Trust is required to disclose the impact of offsetting assets and liabilities presented in the statement of net assets available for benefits to enable users of the financial statements to evaluate the effect or potential effect of netting arrangements on its financial position for recognized assets and liabilities. These recognized assets and liabilities are financial instruments and derivative instruments that are either subject to an enforceable master netting arrangement or similar agreement or meet the following right of set off criteria: the amounts owed by the Group Trust to another party are determinable, the Group Trust has the right to set off the amounts owed with the amounts owed by the other party, the Group Trust intends to set off, and the Group Trusts' right of set off is enforceable by law. The Group Trust's derivative contracts are subject to these master netting agreements; however, these transactions would be included at gross in the Plan's interest in the Group Trust amount on the statement of net assets available for benefits. However, there were no derivative instruments as of December 31, 2020 and 2019.

NOTE 7 ACCUMULATED PLAN BENEFITS

The Plan's actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment.

The Plan provides for the accumulation of benefits for services rendered by participants from the later of their respective dates of participation or January 1, 1989.

The accumulated plan benefit information as of December 31, 2019 is as follows:

Actuarial present value of accumulated plan benefits

Vested benefits

Participants receiving benefits	\$ 27,541
Other participants	21,460,466
	<hr/>
	21,488,007
Non-vested benefits	443,228

Notes to Financial Statements

December 31, 2020 and 2019

NOTE 7 ACCUMULATED PLAN BENEFITS *(continued)*

The changes in the actuarial present value of accumulated plan benefits are due to the following:

Actuarial present value of accumulated plan benefits, as of December 31, 2018	\$ 17,158,600
Additional benefits accumulated	1,180,427
Interest due to increase in the discount period	599,111
Benefits paid	(932,480)
Assumption changes	3,925,577
Change in accumulated plan benefit	4,772,635
Actuarial present value of accumulated plan benefits, as of December 31, 2019	<u>\$ 21,931,235</u>

The change in the accumulated plan benefits due to assumption changes resulted primarily from the changes in the actuarial assumptions in Note 8.

NOTE 8 ACTUARIAL ASSUMPTIONS

The more significant assumptions used by the Plan's actuary to, among other things, calculate accumulated plan benefits and determine funding levels at December 31, 2019 are as follows:

Actuarial method—Plan funding	Projected-unit credit cost method
Discount rate for accumulated plan benefits	2.20% (3.50% in prior year)
Mortality	Pri-2012, with projection and MP-2020 full generational improvement scale (Pri-2012, with projection and MP-2019 full generational improvement scale in prior year)
Average age for receiving benefit	For participants who take a distribution immediately after termination, the average benefit payment age is 27. For participants who do not take a distribution immediately after termination, the average benefit payment age is 40.

MAJOR LEAGUE BASEBALL—MINOR LEAGUE PLAYERS' PENSION PLAN

Notes to Financial Statements

December 31, 2020 and 2019

NOTE 8 ACTUARIAL ASSUMPTIONS *(continued)*

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuary estimated the accumulated plan benefits as of December 31, 2019.

NOTE 9 INCOME TAX STATUS

The Plan has received a determination letter from the IRS dated August 27, 2014, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related Trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan has been amended since issuance of the determination letter. However, the Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended and restated, is qualified and the related Trust is exempt from taxation.

U.S. GAAP requires the Plan's management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more-likely-than-not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020, there were no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 10 ADMINISTRATIVE EXPENSES

Certain actuarial, auditing fees, insurance and administrative expenses are paid by the Plan. Certain other administrative expenses are paid by the BOC directly.

NOTE 11 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities that are exposed to risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term. The changes could materially affect the amounts reported in the financial statements.

MAJOR LEAGUE BASEBALL—MINOR LEAGUE PLAYERS' PENSION PLAN

Notes to Financial Statements

December 31, 2020 and 2019

NOTE 11 RISKS AND UNCERTAINTIES *(continued)*

Contributions to the Plan are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

In addition, with the global outbreak of the coronavirus disease 2019 (COVID-19) that was declared a pandemic by the World Health Organization and a national emergency by the U.S. Government in March 2020. The continued spread of COVID-19 has caused volatility in the equity capital markets and the investment returns on our pension assets, which may have a material impact on the Plans' funded status.

NOTE 12 SUBSEQUENT EVENTS

Management evaluated subsequent events for the Plan through October 14, 2021, the date the financial statements were available to be issued. No material other events were identified requiring disclosure.

SCHEDULE SB ATTACHMENTS

Schedule SB, Line 15 Adjusted Funding Target Attainment Percentage

On September 25, 2020, the Plan Administrator made an election to apply the Adjusted Funding Target Attainment Percentage ("AFTAP") for the plan year ending during 2019 to the plan year beginning January 1, 2020. Thus, an AFTAP of 159.36% applies for the plan year beginning January 1, 2020.

The AFTAP certified for the plan year beginning January 1, 2020 of 171.78% and shown on Line 15 of the attached Schedule SB will be used to determine the presumed AFTAP for the plan year beginning January 1, 2021.

Plan Name:	Minor League Players Pension Plan
EIN / PN:	13-1665347 / 010
Plan Sponsor:	Office of the Commissioner of Baseball
Valuation Date	January 1, 2020

2020 Form 5500, Schedule SB, Line 22 - Description of Weighted Average Retirement Age
Minor League Players Pension Plan
Office of the Commissioner of Baseball
EIN: 13-1665347 PN: 010

Each participant is assumed to retire at a single retirement age which is entered on Line 22.

Statement of actuarial assumptions, methods and data sources

Economic Assumptions

Interest rate basis:

- Applicable month September 2019
- Interest rate basis Segment Rates from Fourth Month Preceding Valuation Date

Interest rates:	Reflecting Stabilization	Not Reflecting Stabilization
▪ First segment rate	3.64%	2.79%
▪ Second segment rate	5.21%	3.92%
▪ Third segment rate	5.94%	4.38%
▪ Effective interest rate	5.87%	4.35%

Annual rates of increase

- Compensation N/A
- Statutory limits on compensation N/A

Plan-related expenses \$30,000 per club; included in target normal cost

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Rates not reflecting stabilization are used to determine PBGC variable rate premiums if the alternative method is used and are used to determine the PBGC FTAP and the PBGC 4010 FS.

Demographic and Other Assumptions

Inclusion date	The valuation date coincident with or next following the date on which the employee becomes a participant.												
New or rehired employees	It was assumed there will be no new or rehired employees.												
Mortality	IRS 2020 Prescribed 417(e)(3) Mortality (Unisex).												
Termination	Rates varying by service												
<table> <tr> <th colspan="2">Percentage leaving during the year</th></tr> <tr> <th><u>Years of Club Service</u></th><th><u>Rate</u></th></tr> <tr> <td>1</td><td>30%</td></tr> <tr> <td>2-4</td><td>40%</td></tr> <tr> <td>5-11</td><td>60%</td></tr> <tr> <td>12+</td><td>100%</td></tr> </table>		Percentage leaving during the year		<u>Years of Club Service</u>	<u>Rate</u>	1	30%	2-4	40%	5-11	60%	12+	100%

<u>Years of Club Service</u>	<u>Rate</u>												
1	30%												
2-4	40%												
5-11	60%												
12+	100%												
Disability	None assumed												
Retirement	Age 65, or age on the next valuation date if greater than 65												
Benefit commencement date:													
▪ Preretirement death benefit	The later of the death of the active participant or the date the participant would have attained age 55												
▪ Lump sum payment	Upon termination of employment for active participants; later of age 35 or 5 years after valuation date for deferred vested participants.												
Form of payment	100% assumed to elect lump sum. Lump sums were valued using the substitution of annuity form under IRS Regulation 1.430(d) – 1(f)(4) without application of generational mortality.												
Percent married	100% (for purposes of valuing pre-retirement death benefits)												
Spouse age	Females three years younger than males												
At-risk assumptions	Not applicable for current plan year												
Timing of benefit payments	Lump sum payments are payable on date of decrement if the participant is currently active. Lump sum payments are payable at the later of age 35 or 5 years after valuation date for deferred vested participants.												

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.

Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets	Market value of assets
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Major League Baseball and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor, through both its third-party administrator and its trustee, furnished participant data as of 1/1/2020. Information on assets and contributions was supplied by the trustee. Information on plan provisions was provided by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. In consultation with Major League Baseball, the following assumptions were made:

- Estimated accrued benefits were used for certain terminated vested participants for whom final accrued benefits had not been completed.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).
Lump sum conversion rate	As required by IRC §430, lump sum benefits are valued using "annuity substitution", so that the interest rates assumed are effectively the same as described above for the discount rate.

Rates of increase in statutory limits (CPI)

The assumed CPI is based on a combination of historical average CPI and future forecasts by economists.

Assumptions Rationale - Significant Demographic Assumptions

Mortality

As required by IRC §430, lump sum benefits are valued using “annuity substitution”, so that the mortality basis assumed is effectively the IRS Prescribed 417(e)(3) Mortality (Unisex) table in effect for 2020 lump sum payments from the plan.

Termination

Termination rates were based on an experience study conducted in 2016, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Assumed termination rates differ by service because of observed and expected differences in termination rates by service.

Retirement

Retirement rates are based on plan sponsor expectations for the future.

Benefit commencement date for deferred benefits:

■ Preretirement death benefit

Beneficiaries are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the beneficiary elects to defer. If the beneficiary elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value.

■ Lump sum benefit

Deferred vested participants’ assumed commencement age is based on recent experience and plan sponsor expectations for the future.

Form of payment

The percentage of participants assumed to take a lump sum is based on observed experience.

Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Change in Assumptions and Methods

Changes in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC §430.

Changes in methods since prior valuation

There have been no changes in methods since the prior valuation.

Model Descriptions and Disclosures (in accordance with ASOP No. 56)

Quantify

Quantify is the Willis Towers Watson centrally developed, tested and maintained Global actuarial valuation system. It is used to perform valuations of clients' benefit plans.

Quantify provides the ability to process data, calculate benefits and value benefit liabilities, develop results using applicable standards, and generate client reports.

Quantify parameters provide significant flexibility to model populations and plan designs. Various demographic, economic and benefit related assumptions exist for users to model multiple demographic and economic situations.

Plan liabilities are calculated based on standard actuarial techniques, developing actuarially reasonable results using the population and parameters entered. The calculation and presentation of liabilities in Quantify relies on the assumptions used and the reasonability of the assumptions selected.

Quantify incorporates standard liability methodologies that are intended to reasonably reflect a variety of economic or demographic conditions. The model itself does not evaluate any assumptions entered for reasonableness, consistency or probability of occurrence.

Quantify is designed specifically for these purposes, and we know of no material limitations that would prevent the system from being suitable for these intended purposes. The actuaries signing this report have relied on the actuaries who develop, test and maintain this system, and have also performed a limited review of results to ensure that system parameters have been set appropriately and plan provisions coded correctly.

Published Demographic Tables

Certain demographic tables described above are standard published tables or are based on standard published tables from models developed by organizations with the requisite expertise.

Summary of principal pension plan provisions

Plan Provisions

Effective date	January 1, 2008. Amended and restated effective December 1, 2016.
Covered employees	<p>Any person employed by a participating Minor League Baseball Club in the U.S. or Canada, and who has attained age 21 and completed one year of baseball service. The following groups are not eligible to participate in the Plan:</p> <ul style="list-style-type: none">▪ Active participants in the Major League Baseball Players Benefit Plan,▪ Members of a non-participating collective bargaining unit,▪ Employees compensated on a per-day or per-game basis,▪ Employees who are employed substantially full-time in Canada,▪ Self-employed partners, proprietors or shareholder-employees, or▪ Non-resident aliens of the U.S. who receive no U.S. source income from the Clubs or a baseball-related affiliate.
Participation date	First day of the month after becoming a covered employee, as described above.

Definitions

Baseball service	Employment in baseball with any Minor League Baseball Club or affiliated organization, as designated by the Pension Committee. Covered employees must be on a roster for at least one day in each of six separate months in a year from March through September in order to be considered to have earned one year of baseball service.
Vesting service	Completed years from a participant's employment date to the termination of baseball service.
Pension service	Determined based on the Club roster as of August 1 of any given year (other than as a Major League player or player covered by a collective bargaining agreement). One year of pension service is granted if a covered employee is on a Club's Minor League roster as of August 1.
Prior plan	MLB Pension Plan for Non-Uniformed Personnel or the Minnesota Twins Pension Plan, as appropriate. Pension benefits for minor league players were frozen under these plans effective December 31, 2007 and were transferred to the Plan for active minor league employees as of January 1, 2008.

Pension benefits for previously terminated minor league participants were transferred to the Plan from the MLB Pension Plan for Non-Uniformed Personnel for all clubs, with the exception of the Milwaukee Brewers, Minnesota Twins, and Texas Rangers, effective December 1, 2010.

Normal retirement date (NRD) First of month coinciding with or next following the attainment of age 65.

Pension benefit The accrued benefit for an employee is equal to the sum of the current Minor League service benefit plus the frozen final average pay benefit from the prior plan as of December 31, 2007 (if applicable).

Current Minor League service benefit

\$14.00 per month times years of pension service (after December 31, 2007) for A Level (or lower) Minor League Participants

\$18.00 per month times years of pension service (after December 31, 2007) for AA Level Minor League Participants

\$22.00 per month times years of pension service (after December 31, 2007) for AAA Level Minor League Participants

The monthly dollar amount for each Plan Year depends on the level with which the roster spot is associated on August 1 of the Plan Year.

Preretirement death benefit If not eligible for early or normal retirement, 50% of the pension benefit as of the date of death, reduced for the 50% joint and survivor election and reduced for payment as early as the participant's 55th birthday. If eligible for early or normal retirement, 50% of the pension benefit as of the date of death, reduced for the 50% joint and survivor election and reduced for early commencement of payment.

Eligibility for Benefits

Normal retirement Retirement on NRD.

Early retirement Retirement before NRD and on or after both attaining age 55 and completing ten years of vesting service.

Postponed retirement Retirement after NRD.

Deferred vested Termination for reasons other than death or retirement after completing five years of vesting service.

Preretirement death benefit Death while eligible for normal, early, postponed or deferred vested retirement benefits, with a surviving spouse or designated beneficiary.

Benefits Paid Upon the Following Events

Normal retirement	Pension benefit determined as of NRD.
Early retirement	<p>Pension benefit determined as of early retirement date, reduced 7/12% for each of the first 60 months and 1/3% for each of the next 60 months by which payment precedes NRD.</p> <p>Early retirement reduction factors under the prior plan may apply for participants with frozen final average pay benefits from the prior plan.</p>
Postponed retirement	<p>The greater of:</p> <ul style="list-style-type: none"> ▪ The pension benefit determined as of actual retirement date, or ▪ The pension benefit determined as of NRD, actuarially increased between NRD and actual retirement date.
Termination with deferred vested benefit	<p>Pension benefit determined as of termination date, payable at NRD.</p> <p>Participants who terminate with 10 or more years of vesting service, but prior to age 55, may elect to commence payment before age 55 and receive a reduced benefit (reduction is based on the Plan's definition of actuarial equivalence).</p> <p>Participants who terminate with less than 10 years of vesting service may also elect to commence payment at any age and receive a reduced benefit (reduction is based on the Plan's definition of actuarial equivalence).</p> <p>Early commencement reduction factors under the prior plan may apply for participants with frozen final average pay benefits from the prior plan.</p>
Death with preretirement benefits	Preretirement death benefit is payable to a spouse or designated beneficiary.

Other Plan Provisions

Forms of payment	<p>Preretirement death benefits are payable only as described above.</p> <p>Monthly pension benefits are paid as described above, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of the 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan.</p> <p>Optional forms are a 50%, 75% or 100% joint and survivor annuity, a ten-year certain and life annuity, a lump sum, or (for married participants) a life annuity. The normal form of payment is converted to an optional annuity form using an interest rate of 6% and GAR-94 Mortality (unisex). The normal form of payment is converted to a lump sum using the "applicable mortality table" as defined in Code section 417(e)(3) and the applicable 24-month average segment rates (as defined in Code section</p>
-------------------------	---

430) for the month of November of the Plan Year immediately preceding the Plan Year in which the payment is made.

Maximum on benefits

All benefits for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions.

Changes in Benefits Valued Since Prior Year

There have been no changes in benefits valued since prior year.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

The count of participants in Items 3a(1) and 3b(1) shown on the Schedule SB for the combined plan differs from the total sum of the count of participants in Items 3a(1) and 3b(1) shown on the Schedule SB for each individual employer due to the removal of duplicate records across more than one employer.
