An employee is eligible for participation in the Plan after three months of employment and attainment of age twenty-one (21) with entrance into the Plan occurring on the first day of every quarter.

Contributions

Unless an eligible employee elects otherwise, the employee's compensation will be reduced by 4% (automatic enrollment rate) for employee contributions to the Plan and their contributions will be invested in a designated fund until changed by the participant. At any time, participants may elect to contribute, on a tax-deferred or Roth basis, up to 100% of their eligible compensation, in an amount not in excess of the maximum allowed by the IRC. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. In 2020, the Employer's match was calculated based on 15% of each participant's deferral contribution of the first 6% of active participant's eligible compensation (up to $285,000 of a participant's salary). To be eligible to receive an allocation of the matching contribution, the participant must have completed six months of service and be employed on the last day of the Plan year. The Employer's profit sharing contributions are discretionary. Participants are eligible to receive profit sharing contributions after completing 500 hours of services, completed six months of service and must be employed on the last day of the Plan year. The Employer's profit sharing is granted to selected participants at the Employer's discretion. The Employer made no profit sharing contribution for the year ended December 31, 2020. All Employer contributions are invested in the same manner that the Participant directs his or her participant withheld amounts. Rollover contributions representing qualified Plan distributions and individual retirement accounts are permitted.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participants' contributions, rollovers from qualified plans, an allocation of the Employer's contributions, and allocations of the Plan's earnings, losses, and administrative expenses. Each participant's account is credited with the participant's contribution and the Employer's contribution. Allocations of earnings, losses and expenses are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Employee contributions, rollovers, and actual earnings on all such contributions are fully vested at all times. Vesting of Employer match contributions and Employer profit sharing contributions and actual earnings thereon are based upon the participant's continuous years of service with the Employer as follows:

Years of Service	Percentage Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 and above	100%

Investment Options

The investments of the Plan are self-directed by the participants into various investment options offered by the Plan. Investment elections may be changed online or through telephone access on a daily basis.

Forfeitures

Forfeitures of terminated participants' nonvested accounts are used to pay administrative expenses or applied against future Employer contributions. For the year ended December 31, 2020, $0 of forfeitures were applied to the Employer's contribution. As of December 31, 2020 and 2019, there were $8,491 and $5,156 forfeitures available to be used, respectively.

Benefit Payments

Upon normal retirement, retirement due to permanent disability, death, termination, or hardship, the participant or the participants' beneficiaries are eligible to receive their vested interest in funds in a lump-sum payment or an annuity. Participants who separate from service and have vested balances of $1,000 or less are subject to an administrative lump-sum distribution.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Notes from Participants

Participants may borrow from their account a minimum of $1,000 up to a maximum of 50% of their vested account balance (not to exceed $50,000 less the highest outstanding note balance during the prior twelve-month period). Participants may only have five notes outstanding at any time. All notes shall bear a reasonable rate of interest as determined by the Plan Administrator. Notes must be paid back within five years of the date of issuance in accordance with terms established by the Plan Administrator. The notes are secured by the balance in the participant's account. Current note interest rates range from 5.25% to 7.50% maturing through August 31, 2036 as of December 31, 2020 and 2019.

The Coronavirus Aid Relief, and Economic Security Act (CARES Act) was passed by the U.S. Senate on March 26, 2020. Plan Management amended the Plan's loan policy effective April 1, 2020, to be in line with the CARES Act to allow all loan payments due through December 31, 2020 be delayed for one year, inclusive of loans that predated the CARES Act.

Administrative Expenses

Management fees and operating expenses charged to the Plan are charged and reflected separately to individual participant accounts. The Employer pays substantially all other out-of-pocket administrative expenses of the Plan, which are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment Valuation and Income Recognition

The Plan's investments in registered investment companies and the stable value fund are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes from Participants

Notes from participants are measured at their unpaid principal balance plus any accrued unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document. For the year ended December 31, 2020, deemed distribution totaled $5,257 and are included in benefits paid to participants on the statement of changes in net assets available for benefits. As of December 31, 2020 and 2019, there were no delinquent participant notes. There was no allowance for credit losses recorded as of December 31, 2020 or 2019.

Payment of Benefits

Benefit payments to participants are recorded upon distribution. As of December 31, 2020 and 2019, there were no benefits payable to participants who elected to withdraw from the Plan. Corrective distributions generally represent the distribution of certain assets to employees in order for the Plan to comply with nondiscrimination rules. As of December 31, 2020 and 2019, there were no corrective distributions to participants for contributions made in excess of amounts allowed by the IRS.

COVID-19

In March 2020, the COVID-19 outbreak was declared a pandemic by the World Health Organization. COVID-19 pandemic has also led to extreme volatility in financial markets and has affected, and may continue to affect, the market price of Plan assets. While the potential economic impact brought by, and the duration of, COVID-19 may be difficult to assess or predict, a widespread pandemic could result in significant disruption of global financial markets. The extent to which COVID-19 impacts the financial markets will depend on future developments that are highly uncertain and cannot be predicted.

Use of Estimates

The preparation of the Plan's financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, and changes therein and, when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

NOTE 3 – INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company, the custodian of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2020 and 2019, the supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2020, the related investment activity and interest income on notes receivable from participants reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2020.

NOTE 4 – FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification ("ASC") Topic No. 820 ("ASC 820") establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

Following are descriptions of the valuation methodologies used for assets measured at fair value.

Registered investment companies: valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transfer at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Stable value fund: The Principal Stable Value Fund, held in a collective trust fund, invests in conventional and synthetic guaranteed investment contracts ("GICs") issued by life insurance companies, banks and other financial institutions with excess cash invested in cash equivalents. The objective of the stable value fund is to provide preservation of capital and relatively stable returns regardless of the volatility of the financial markets. The investments are valued using NAV as a practical expedient to estimate fair value where NAV is based on the value of the underlying investment assets owned by the fund, minus its liabilities. This practical expedient is not used when it is determined to be probable that the account will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There are currently no redemption restrictions or unfunded commitments on these investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020 and 2019. There have been no changes to the methodologies used as of December 31, 2020 and 2019.

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

[(a)] In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit the reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

NOTE 5 – INTERNAL REVENUE SERVICE STATUS

Effective December 1, 2017, the Plan adopted a volume submitter plan sponsored by CCH Incorporated DBA FTWilliam.com. The volume submitter plan has received an advisory letter from the Internal Revenue Service ("IRS") as to the volume submitter plan's qualified status. The volume submitter plan advisory letter has been relied upon by the Plan. Although the Plan has been amended since the volume submitter plan received the advisory letter, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Principal Global Investors Trust Company and Principal Funds Inc, related parties of Principal Life Insurance Company, the custodian of the Plan and therefore, these transactions qualify as party-in-interest transactions permitted by the United States Department of Labor's Rules and Regulations. Fees paid by the Plan to Principal Life Insurance Company amounted to $7,261 for the year ended December 31, 2020. Fees paid by the Plan to the Ryding Company amounted to $3,580 for the year ended December 31, 2020. Note receivables from participants and the related interest income of $17,608 are also considered related party transactions.

NOTE 7 – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 8 – PLAN TERMINATION

Although it has not expressed such intent, the Employer, by action of its Board of Directors, reserves the right, at any time, to amend or terminate the Plan. Upon termination of the Plan, further contributions to the Plan shall cease and all participants who are affected by such termination shall become 100% vested. Thus, net assets available for benefits would be distributed to the participants based on each participant's interest in the Plan.

NOTE 9 – SUBSEQUENT EVENTS

On November 4, 2020, the Plan's management signed a new plan agreement effective January 1, 2021 for a non-standardized form of a prototype plan sponsored by The Ryding Company. No changes were made to the Plan's provisions or the Plan's service providers.

The Plan Committee has evaluated all subsequent events through October 14, 2021, the date the financial statements were available to be issued, and concluded that, other than the matters described above, no subsequent events have occurred that would require recognition in the financial statements or disclosure in the notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of Law Offices of Pearlman, Brown & Wax, L.L.P. Inc. 401(k) Plan (the "Plan") is provided for general information only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution plan established by Law Offices of Pearlman, Brown & Wax, L.L.P. (the "Employer") under the provisions of Section 401(k) of the Internal Revenue Code ("IRC"). The Plan covers substantially all employees of Law Offices of Pearlman, Brown & Wax, L.L.P. The Plan is administered by management of the Employer and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Principal Life Insurance Company, the custodian, is responsible for the custody and management of the Plan's assets. The Ryding Company serves as the record keeper and the third-party administrator.

Eligibility

An employee is eligible for participation in the Plan after three months of employment and attainment of age twenty-one (21) with entrance into the Plan occurring on the first day of every quarter.

Contributions

Unless an eligible employee elects otherwise, the employee's compensation will be reduced by 4% (automatic enrollment rate) for employee contributions to the Plan and their contributions will be invested in a designated fund until changed by the participant. At any time, participants may elect to contribute, on a tax-deferred or Roth basis, up to 100% of their eligible compensation, in an amount not in excess of the maximum allowed by the IRC. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. In 2020, the Employer's match was calculated based on 15% of each participant's deferral contribution of the first 6% of active participant's eligible compensation (up to $285,000 of a participant's salary). To be eligible to receive an allocation of the matching contribution, the participant must have completed six months of service and be employed on the last day of the Plan year. The Employer's profit sharing contributions are discretionary. Participants are eligible to receive profit sharing contributions after completing 500 hours of services, completed six months of service and must be employed on the last day of the Plan year. The Employer's profit sharing is granted to selected participants at the Employer's discretion. The Employer made no profit sharing contribution for the year ended December 31, 2020. All Employer contributions are invested in the same manner that the Participant directs his or her participant withheld amounts. Rollover contributions representing qualified Plan distributions and individual retirement accounts are permitted.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participants' contributions, rollovers from qualified plans, an allocation of the Employer's contributions, and allocations of the Plan's earnings, losses, and administrative expenses. Each participant's account is credited with the participant's contribution and the Employer's contribution. Allocations of earnings, losses and expenses are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Employee contributions, rollovers, and actual earnings on all such contributions are fully vested at all times. Vesting of Employer match contributions and Employer profit sharing contributions and actual earnings thereon are based upon the participant's continuous years of service with the Employer as follows:

Years of Service	Percentage Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 and above	100%

Investment Options

The investments of the Plan are self-directed by the participants into various investment options offered by the Plan. Investment elections may be changed online or through telephone access on a daily basis.

Forfeitures

Forfeitures of terminated participants' nonvested accounts are used to pay administrative expenses or applied against future Employer contributions. For the year ended December 31, 2020, $0 of forfeitures were applied to the Employer's contribution. As of December 31, 2020 and 2019, there were $8,491 and $5,156 forfeitures available to be used, respectively.

Benefit Payments

Upon normal retirement, retirement due to permanent disability, death, termination, or hardship, the participant or the participants' beneficiaries are eligible to receive their vested interest in funds in a lump-sum payment or an annuity. Participants who separate from service and have vested balances of $1,000 or less are subject to an administrative lump-sum distribution.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Notes from Participants

Participants may borrow from their account a minimum of $1,000 up to a maximum of 50% of their vested account balance (not to exceed $50,000 less the highest outstanding note balance during the prior twelve-month period). Participants may only have five notes outstanding at any time. All notes shall bear a reasonable rate of interest as determined by the Plan Administrator. Notes must be paid back within five years of the date of issuance in accordance with terms established by the Plan Administrator. The notes are secured by the balance in the participant's account. Current note interest rates range from 5.25% to 7.50% maturing through August 31, 2036 as of December 31, 2020 and 2019.

The Coronavirus Aid Relief, and Economic Security Act (CARES Act) was passed by the U.S. Senate on March 26, 2020. Plan Management amended the Plan's loan policy effective April 1, 2020, to be in line with the CARES Act to allow all loan payments due through December 31, 2020 be delayed for one year, inclusive of loans that predated the CARES Act.

Administrative Expenses

Management fees and operating expenses charged to the Plan are charged and reflected separately to individual participant accounts. The Employer pays substantially all other out-of-pocket administrative expenses of the Plan, which are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment Valuation and Income Recognition

The Plan's investments in registered investment companies and the stable value fund are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes from Participants

Notes from participants are measured at their unpaid principal balance plus any accrued unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document. For the year ended December 31, 2020, deemed distribution totaled $5,257 and are included in benefits paid to participants on the statement of changes in net assets available for benefits. As of December 31, 2020 and 2019, there were no delinquent participant notes. There was no allowance for credit losses recorded as of December 31, 2020 or 2019.

Payment of Benefits

Benefit payments to participants are recorded upon distribution. As of December 31, 2020 and 2019, there were no benefits payable to participants who elected to withdraw from the Plan. Corrective distributions generally represent the distribution of certain assets to employees in order for the Plan to comply with nondiscrimination rules. As of December 31, 2020 and 2019, there were no corrective distributions to participants for contributions made in excess of amounts allowed by the IRS.

COVID-19

In March 2020, the COVID-19 outbreak was declared a pandemic by the World Health Organization. COVID-19 pandemic has also led to extreme volatility in financial markets and has affected, and may continue to affect, the market price of Plan assets. While the potential economic impact brought by, and the duration of, COVID-19 may be difficult to assess or predict, a widespread pandemic could result in significant disruption of global financial markets. The extent to which COVID-19 impacts the financial markets will depend on future developments that are highly uncertain and cannot be predicted.

Use of Estimates

The preparation of the Plan's financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, and changes therein and, when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

NOTE 3 – INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company, the custodian of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2020 and 2019, the supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2020, the related investment activity and interest income on notes receivable from participants reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2020.

NOTE 4 – FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification ("ASC") Topic No. 820 ("ASC 820") establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

Following are descriptions of the valuation methodologies used for assets measured at fair value.

Registered investment companies: valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transfer at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Stable value fund: The Principal Stable Value Fund, held in a collective trust fund, invests in conventional and synthetic guaranteed investment contracts ("GICs") issued by life insurance companies, banks and other financial institutions with excess cash invested in cash equivalents. The objective of the stable value fund is to provide preservation of capital and relatively stable returns regardless of the volatility of the financial markets. The investments are valued using NAV as a practical expedient to estimate fair value where NAV is based on the value of the underlying investment assets owned by the fund, minus its liabilities. This practical expedient is not used when it is determined to be probable that the account will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There are currently no redemption restrictions or unfunded commitments on these investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020 and 2019. There have been no changes to the methodologies used as of December 31, 2020 and 2019.

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

[(a)] In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit the reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

NOTE 5 – INTERNAL REVENUE SERVICE STATUS

Effective December 1, 2017, the Plan adopted a volume submitter plan sponsored by CCH Incorporated DBA FTWilliam.com. The volume submitter plan has received an advisory letter from the Internal Revenue Service ("IRS") as to the volume submitter plan's qualified status. The volume submitter plan advisory letter has been relied upon by the Plan. Although the Plan has been amended since the volume submitter plan received the advisory letter, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Principal Global Investors Trust Company and Principal Funds Inc, related parties of Principal Life Insurance Company, the custodian of the Plan and therefore, these transactions qualify as party-in-interest transactions permitted by the United States Department of Labor's Rules and Regulations. Fees paid by the Plan to Principal Life Insurance Company amounted to $7,261 for the year ended December 31, 2020. Fees paid by the Plan to the Ryding Company amounted to $3,580 for the year ended December 31, 2020. Note receivables from participants and the related interest income of $17,608 are also considered related party transactions.

NOTE 7 – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 8 – PLAN TERMINATION

Although it has not expressed such intent, the Employer, by action of its Board of Directors, reserves the right, at any time, to amend or terminate the Plan. Upon termination of the Plan, further contributions to the Plan shall cease and all participants who are affected by such termination shall become 100% vested. Thus, net assets available for benefits would be distributed to the participants based on each participant's interest in the Plan.

NOTE 9 – SUBSEQUENT EVENTS

On November 4, 2020, the Plan's management signed a new plan agreement effective January 1, 2021 for a non-standardized form of a prototype plan sponsored by The Ryding Company. No changes were made to the Plan's provisions or the Plan's service providers.

The Plan Committee has evaluated all subsequent events through October 14, 2021, the date the financial statements were available to be issued, and concluded that, other than the matters described above, no subsequent events have occurred that would require recognition in the financial statements or disclosure in the notes to the financial statements.
