Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

Plan Administrator
K & F Industries Retirement Plan for Salaried Employees
Akron, Ohio

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of K & F Industries Retirement Plan for Salaried Employees (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2019 and 2018, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

K & F INDUSTRIES RETIREMENT PLAN FOR SALARIED EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

NOTE 1 DESCRIPTION OF PLAN

The following brief description of the K & F Industries Retirement Plan for Salaried Employees (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined benefit pension plan with a basic noncontributory benefit for all participants and a voluntary contributory benefit available to electing participants. The Plan covers salaried employees employed prior to April 1, 2009, of Meggitt Aircraft Braking Systems Corporation (MABS) and Meggitt (Rockmart), Inc. (Rockmart) (formerly, Engineered Fabrics Corp.) (the Company), both of which are wholly owned subsidiaries of Meggitt-USA, Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan is frozen to new participants, with the exception of previously participating employees who are rehired within five years of their termination date and certain transfers of employees promoted from the Rockmart bargaining unit. Vesting is immediate for participant contributions and occurs after five years of eligibility service for benefits related to Employer contributions.

Effective December 31, 2018, the Plan was amended to freeze the accrued benefit of each participant such that years of service and earnings for the purpose of determining the amount of each such participant's accrued benefit shall not increase for periods of employment after December 31, 2018, and to cease employee contributions as of such date.

Pension Benefits

Generally, normal retirement is the later of age 65 or completion of five years of eligibility service. Pension benefits are based upon formulas for noncontributory benefits for all eligible participants and separate formulas for contributory benefits for MABS and Rockmart as summarized below.

The noncontributory benefit formula is the sum of (i) a fixed dollar amount multiplied by years and months of continuous service from March 13, 1987 through December 31, 1989, and (ii) for continuous service after 1989, the greater of the sum of 0.7% of each year's earnings up to the Social Security wage base or \$288 multiplied by years and months of continuous service.

The contributory benefit formula for MABS is in two parts with Part 1 being the greater of (i) 60% of employee contributions made between March 13, 1987 and December 31, 1989, which were not withdrawn or (ii) adjusted earnings in excess of the applicable base amount multiplied by a percentage based upon years of contributory service. Part 2 applies to contributory service after 1989 and is equal to the greater of (i) 60% of employee contributions made after 1989 or (ii) the sum of amounts determined each year after 1989 by applying a percentage (either 1.05% or 1.35% based upon years of contributory service) to earnings in excess of \$19,800 but not more than the Social Security wage base for the year, plus a percentage (either 2.25% or 2.65% based upon years of contributory service) multiplied by earnings in excess of the Social Security wage base for the year.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Pension Benefits (Continued)

The contributory benefit formula for Rockmart is the greater of (i) 60% of all employee contributions made on and after March 13, 1987, which were not withdrawn or (ii) adjusted earnings in excess of the applicable base amount multiplied by a percentage that reflects increasing years of contributory service.

Required and optional forms of payment are provided to eligible participants with spousal consent where applicable. The Plan permits early retirement with unreduced benefits in certain circumstances. Early retirement is available at any age with at least 30 years of eligibility service, 10 years of eligibility service and age 55, or age of 55 plus a combination of age and years of eligibility service totaling at least 70 years.

The Plan document includes detailed rules for each situation and forms of payment. Participants and other interested parties should refer to the Plan document regarding specific provisions of the Plan.

Death Benefits

The Plan provides the required 50% qualified pre-retirement survivor annuity (QPSA) to the surviving spouses of vested married participants. In lieu of the QPSA, a special surviving spouse benefit is available for an active, eligible employee with at least 10 years of eligibility service who dies at age 45 or older. This special death benefit is equal to a 100% joint and survivor annuity and is paid to the surviving spouse until such spouse's death. There is a limited death benefit payable to certain survivor(s) if the participant was not eligible for the QPSA or special death benefit.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2019 and 2018, the Company made contributions of \$4,131,775 and \$4,980,000, respectively. The Company's contributions for 2019 and 2018 exceeded the minimum funding requirements of ERISA.

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions set forth in ERISA.

To increase the benefits available under the Plan, participants, on a monthly basis, may contribute 1.75% (2% after age 55) of earnings in excess of \$1,650 per month up to 1/12 the current Social Security wage base, plus 3.5% (4% after age 55) of earnings in excess of the monthly Social Security wage base. Participants who elect to contribute to the Plan must have six months of service and make contributions of at least \$5.00 per month. Effective December 31, 2018, participant contributions are no longer permitted.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements reflect the application of certain accounting policies described in this note.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's sole investment is an interest in the K & F Industries Master Pension Trust (Master Trust), which was established for the pooled investment of assets of the Plan and Aircraft Braking Systems/Engineered Fabrics Retirement Plan for Bargaining-Unit Employees. The Plan's investment in the Master Trust is stated at fair value based on the fair value of the net assets of the Master Trust. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Notes 7 and 8 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

As provided in the Plan document, costs of administering the Plan are paid by the Plan. Certain administrative and clerical functions are performed by the Company's employees at no charge to the Plan.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

New Accounting Pronouncements

In February 2017, the Financial Accounting Standards Board (FASB) issued an Accounting Standards Update (ASU) that requires a plan's interest in a master trust and any change in that interest to be presented in separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. Additionally, this ASU requires all plans to disclose (i) the dollar amount of their interest in each of the master trust's general types of investments, and (ii) the master trust's other assets and liability balances and the dollar amount of the Plan's interest in each of those balances. The ASU is effective for fiscal years beginning after December 15, 2018, with early adoption permitted. The Plan adopted this ASU in the current plan year, and prior period Trust disclosures were adjusted.

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable, under the provisions of the Plan, to the services employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees with vested rights or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Benefits under the Plan are based on certain formulas determined by the Plan.

The accumulated plan benefits for active employees are based on the Plan's terms and each participant's service through the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits was determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions underlying the actuarial computations as of December 31, 2018, the latest actuarial information available, were (a) life expectancy of participants based upon RP-2014 Headcount Weighted table (adjusted back to 2006) (b) retirement age assumptions based on a table of anticipated rates of retirement at each of the ages at which retirement eligibility occurs, and (c) the assumed rate of return on the Plan's investments. The valuation included an assumed rate of return of 7%.

The foregoing actuarial assumptions were based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 4 PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (a) Benefits attributable to employee contributions taking into account those paid out before termination.
- (b) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- (c) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations (discussed below).
- (d) Other vested benefits (that is, vested benefits not insured by the PBGC).
- (e) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2019 and 2018, the statutory ceiling was approximately \$5,600 and \$5,400 per month, respectively.

The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings will be actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

NOTE 6 FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

K & F INDUSTRIES RETIREMENT PLAN FOR SALARIED EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

NOTE 6 FAIR VALUE MEASUREMENT (CONTINUED)

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Interest-Bearing Cash: Valued using amortized cost which approximates fair value.

U.S. Government Agency Bonds and Notes: Valued at the closing price reported on the active market on which the individual securities are traded.

Common Collective Trusts: Valued at the net asset value (NAV) of units of the collective trust. NAV is a readily determinable fair value and is the basis for current transactions. Also a collective fund (Real Estate) that is composed primarily of real estate investments owned directly or through partnership interests valued at the NAV of units of the bank collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Derivatives (Option Contracts): The Plan uses derivative financial instruments in the normal course of business to hedge against adverse changes in financial markets. The time period related to these hedges is dependent upon the types of securities being hedged, but in the current structure, typically matures after 3 years.

K & F INDUSTRIES RETIREMENT PLAN FOR SALARIED EMPLOYEES
NOTES TO FINANCIAL STATEMENTS

NOTE 6 FAIR VALUE MEASUREMENT (CONTINUED)

The Plan manages market risk by limiting the use of derivatives to hedging activities or by limiting potential exposure to amounts that are not considered to be material to the statement of changes in net assets available for plan benefits

An option contract provides an option to purchase (known as a call option) or sell (known as a put option) the underlying asset at a fixed price for a specified period of time. The Plan has no obligation to buy or sell an underlying asset. Accordingly, the Plan does not anticipate losses for nonperformance.

The gross assets and liability derivative values of option contracts in the master trust are as follows at December 31:

		Fair Values of Derivative Instruments					
		Asset Derivatives			Liability Derivatives		
		2019		2018	2019		2018
Derivatives							
Not Designated as Hedging Instruments Under Subtopic 815-20	Statements of Net Assets Available for Benefits Location	Fair Value	Fair Value	Statements of Net Assets Available for Benefits Location	Fair Value	Fair Value

Changes in fair value are accounted for as net appreciation (depreciation) in fair value of investments. The master trust has invested cash of \$2,507,633 and the obligation to return the invested cash collateral of \$2,496,000 at December 31, 2019. The master trust has no invested cash or obligation to return the invested cash collateral at December 31, 2018.

NOTE 7 INTEREST IN K & F INDUSTRIES MASTER PENSION TRUST

The Master Trust was established by K & F Industries, Inc. for the pooled investment of assets of the Plan and Aircraft Braking Systems/Engineered Fabrics Retirement Plan for Bargaining-Unit Employees.

Pursuant to the trustee's method of allocating the investment holdings between the two plans, contributions into the Master Trust are treated as purchases of shares in the Master Trust, withdrawals are treated as sales of shares, and investment income is allocated proportionately to all shares held.

Accordingly, the value of the Plan's investment in the Master Trust is equal to the Plan's interest in the Master Trust's combined net assets available for benefits.

NOTE 7 INTEREST IN K & F INDUSTRIES MASTER PENSION TRUST (CONTINUED)

All investment information including investments held in the Master Trust as of December 31, 2019 and 2018, interest and dividend income and net appreciation (depreciation) in fair value of investments for the years then ended, included in the Plan's financial statements, was prepared by or derived from information provided by Northern Trust Company, the trustee for the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that the information provided to the Plan administrator by the trustee related to the Master Trust and to the Plan is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information.

The fair value of Master Trust investments and the Plan's interest in the Master Trust investments held by the trustee is presented in the table below. The following tables include unaudited information regarding the Master Trust and the Plan as of and for the years ended December 31:

K & F INDUSTRIES RETIREMENT PLAN FOR SALARIED EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

NOTE 7 INTEREST IN K & F INDUSTRIES MASTER PENSION TRUST (CONTINUED)

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2019 and 2018, there were no significant transfers in or out of Levels 1, 2, or 3.

NOTE 8 INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated November 6, 2015, that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC) and, therefore, the related trust is not subject to the tax under present income tax law. The Plan has been amended since filing for the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

K & F INDUSTRIES RETIREMENT PLAN FOR SALARIED EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

NOTE 10 RELATED PARTY TRANSACTIONS

Certain Plan investments are units of a common collective trust fund managed by The Northern Trust Company, the trustee, therefore, these transactions qualify as party-ininterest transactions which are exempt from the prohibited transaction rules. Management fees for these funds are paid by the respective funds and reduce the return earned on the funds.

NOTE 11 TRANSFERS

During 2018, the Plan had a change in plan asset allocation methodology. The trust document allows the trustee to determine the allocation method. The change in allocation method caused an increase of \$1,093,734 in net assets at December 31, 2018. There was no change in asset allocation methodology during 2019.

NOTE 12 SUBSEQUENT EVENTS

Subsequent to year-end, the World Health Organization declared the spread of Coronavirus Disease (COVID-19) a worldwide pandemic. The COVID-19 pandemic is having significant effects on global markets, supply chains, businesses, and communities. Management believes the Company is taking appropriate actions to mitigate the negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated at this time.

On March 27, 2020, the CARES Act was signed into law allowing Plan Sponsors to defer payment of all contributions requirements for the 2020 calendar year until January 1, 2021. The Plan has elected to use this provision to defer a 2019 contributions of \$541,000 previously scheduled to be made on September 15, 2020, until January 1, 2021.

As a result for the COVID-19 pandemic, the Plan Sponsor announced a 20% reduction in their global workforce. The reduction will have no impact on the 2020 funding requirements for the Plan.

The Plan has evaluated subsequent events through October 12, 2020, the date the financial statements were available to be issued.

Certain assumptions are prescribed as described below. The other assumptions are estimates derived from historical and recent experience as well as market observations, combined with professional judgment about future expectations.

Interest:

The interest rates used for the 2019 plan year are the 24-month average corporate bond segment rates for September 2018 (a 4-month lookback) subject to funding stabilization. Under stabilization, the interest rates used for funding purposes are calculated in the usual manner (24-month average corporate bond rates) but are then constrained to be within a corridor around a 25-year average of those same bond rates. For 2019, the stabilization corridor is 10%. Under current law, it is scheduled to remain at 10% through 2020, then increase by 5% per year until it reaches 30% for 2024.

The rates are as follows:

	Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter	Effective Interest Rate
Current Year, reflecting stabilization	3.74%	5.35%	6.11%	5.47%
Current Year, without stabilization	2.28%	3.81%	4.46%	3.96%
Prior Year, reflecting stabilization	3.92%	5.52%	6.29%	5.64%
Prior Year, without stabilization	1.75%	3.76%	4.66%	3.97%

The interest rates used to determine the PBGC variable-rate premium are:

	Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter
Current Year	3.38%	4.32%	4.69%
Prior Year	2.33%	3.55%	4.11%

These interest rates are based on the plan sponsor's election for the 2014 plan year (an election that can currently be changed) and are subject to the constraints established by law.

Mortality Rates RP-2006 separate employee and annuitant healthy mortality tables, projected generationally to 2019 using scale MP-2017. (Previously, RP-2000 separate employee and annuitant healthy mortality table with static projection using scale AA and no collar-adjustment.)
This assumption is one of the choices allowed by the regulations.

Benefit Election 100% of participants are assumed to elect payment in the form of a 5-year certain and life.

Retirement From Inactive Status	Age 65	
Percent Married	Male – 85% Female – 50%	
Age Difference	Male spouses are assumed to be three years older than female spouses.	
Administrative Expenses	An expense assumption is required under the funding rules. Plan-related expenses of \$1,210,000 expected to be paid by the plan during the year (based on current year PBGC premium plus the average amount of other administrative expenses over the prior 3 years). This assumption is based on recent historical data, adjusted to reflect estimated future experience and professional judgment.

Asset Method	As selected by the plan sponsor assets are determined by averaging the market value as of the valuation date and the adjusted market values as of the preceding two years. The resulting value is limited to between 90% to 110% of market value of assets. The adjusted market values reflect cash flow and expected earnings to the valuation date. The expected earnings are based on an assumed rate of return of 7.00%, not to exceed the applicable third segment rate of 6.48% in 2017 and 6.29% in 2018.
Funding Method	Funding method is unit credit actuarial cost method, as prescribed by law. The liability is measured on an accrual-to-date basis using mandated mortality tables and interest rates with no salary projection past the end of the year. If all assumptions are met (including the investment earnings implicitly assumed by the interest rate), funding the plan at the minimum required contribution level is generally designed to achieve a 100% funded status within seven years. Once that is achieved, or for overfunded plans, the required contribution will generally equal the target normal cost reduced by any overfunding.

Non-Prescribed Assumption Changes since Prior Valuation

Assumption Type	Description
Administrative Expenses	An expense assumption is required under the funding rules. Plan-related expenses of \$1,210,000 are expected to be paid by the plan during the year (based on current year PBGC premium plus the average amount of other administrative expenses over the prior 3 years). Previously, \$1,122,000 had been assumed. This assumption is based on recent historical data, adjusted to reflect estimated future experience and professional judgment.
