Note 1–Description of plan

The following description of Maumee Valley Country Day School Defined Contribution Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

General

The Plan, which was amended and restated effective May 1 2020, is a defined contribution plan that covers all employees of Maumee Valley Country Day School (collectively the Organization or Plan Sponsor) except for part-time employees or if the employee is a student enrolled and attending classes as outlined in the plan agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Plan Amendments

The Plan has implemented certain requirements by the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), which laws require the Plan to, among others, allow certain eligible individuals to receive coronavirus-related relief for loan repayment, suspend required minimum distributions, and delay the commencement date for required minimum distributions. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable laws and Internal Revenue Service (IRS) guidance.

Contributions

Participants may elect to contribute up to 100% of compensation, subject to Internal Revenue Code (the Code) limitations, in the form of pre-tax elective deferrals. The Plan allows for a discretionary employer matching contribution at the discretion of the Organization. The Organization matched 100% of the first 2% to 4% of base compensation contributed by each eligible Plan participant, and 6% of base compensation if a participant contributed 5% or more for 2020.

Effective May 1, 2020, a participant must now attain the age of 21 and work 1,000 hours during the plan year to qualify for a matching contribution. Prior to May 1, 2020, a participant had to work 1,000 during the plan year to qualify for matching contributions.

Vesting

Through April 30, 2020, participants are immediately vested in all contributions and actual earnings thereon.

Effective May 1, 2020, Participants become vested in the Plan Sponsor's discretionary matching plus actual earnings (losses) thereon. Vesting in the Company's discretionary matching contribution plus earnings (losses) thereon is based on years of continuous service. A participant is 33%, 66%, and 100%, vested after 1, 2, and 3 years of credited service, respectively.

Participant accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions and the Organization's contributions. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1–Description of plan–continued

Forfeitures
Upon termination of employment, participants forfeit their nonvested balances. Forfeiture balances are used to pay plan administrative expenses and reduce matching contributions. At December 31, 2020, forfeited nonvested accounts held in the Plan totaled $0. The Plan used forfeitures of $372 to offset plan expenses for the year ending December 31, 2020.

Notes receivable from participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of 50% of their account balance, not to exceed $50,000. Through April 30, 2020, there was no limit on the number of loans to be held outstanding at one time as long as the above criteria had not been exceeded. Effective May 1, 2020, participants may have a maximum of one loan outstanding during any 12-month consecutive period. The note receivable repayment schedule can be no longer than five years unless the note receivable is used to acquire a personal residence, in which case the note receivable must be paid within ten years. Principal and interest are paid ratably through payroll deductions.

The interest rate is generally the Federal Reserve Board Bank prime rate plus one percent. The balance in the participant's account secures the notes receivable.

Pursuant to the CARES Act, plan participants could request a delay of note repayments for repayments that occurred between March 27, 2020 and December 31, 2020 for one year. The participant's note would be re-amortized and include any interest accrued during the period of delay. In addition, plan participants were permitted to borrow up to $100,000 or 100% of their vested account balance, whichever is less. The ability to request a delay in note repayments and the extended note amounts under the CARES Act ceased as of December 31, 2020.

Payment of benefits
On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, an annuity contract, or annual installments over a period of time specified in the plan agreement. Upon occurrence of one of these events and the participant's vested balance $5,000 or less, an automatic lump sum disbursement will be made in the full amount of the participant's vested balance as soon as administratively feasible.

In the event of hardship, as defined in the plan agreement, participants may take a distribution from their participant contribution accounts in an amount necessary to satisfy the financial need, subject to certain tax withholdings.

Note 1–Description of plan–continued

Payment of benefits–continued
Pursuant to the CARES Act, participants who were currently receiving required minimum distributions were offered the option to waive their 2020 distribution and participants who were due to receive the first required distribution in 2020 had their distribution automatically waived. Additionally, the CARES Act permitted plan participants to request up to $100,000 in coronavirus-related distributions, with repayment terms of up to three years. The ability to request special waivers with respect to required minimum distributions and coronavirus-related distributions under the CARES Act ceased as of December 31, 2020.

Plan termination
Although it has not expressed any intention to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event such discontinuance results in the termination of the Plan, the participants shall receive their full account balance, less any administrative costs to the Plan for such distribution.

Note 2–Significant accounting policies

Basis of accounting
The Plan maintains its records on the accrual basis of accounting. Benefit payments are recorded when distributed by the Plan.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Contributions
Employee salary deferrals and employer contributions are included in income during the period the related salary is earned.

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Investment valuation and income recognition
The Plan's investments are stated at fair value except for the fully benefit-responsive investment, which is stated at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion and disclosures related to fair value measurements. Contract value is the relevant measure for fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the Plan.

Note 2–Significant accounting policies–continued

Investment valuation and income recognition–continued
Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is accrued on the ex-dividend date. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as held during the year.

Administrative expenses
The Organization pays the administrative expenses of the Plan, unless the expenses relate to specific investment directions of the participant. Administrative expenses that are paid by the Organization are excluded from these financial statements.

Risks and uncertainties
The Plan utilizes various investment instruments, including mutual funds, pooled separate account, and insurance contract funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the financial statements.

Subsequent events
The Plan has evaluated subsequent events through October 15, 2021, the date the financial statements were available to be issued and has determined there are no subsequent events that require recognition or disclosure.

Recently issued accounting pronouncement
In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement,* to improve the effectiveness of disclosure requirements related to fair value investments. For non-public entities, ASU 2018-13 eliminates the level three rollforward disclosure, disclosure of the valuation process of level 3 fair value investments, disclosure of the amount or reasons for transfers between level one and level two of the fair value hierarchy, and the policy for the timing of transfers between levels of the fair value hierarchy. Non-public entities will be required to disclose transfers into and out of level three of the fair value hierarchy and purchases and issues of level three assets and liabilities. ASU 2018-13 is effective for fiscal years beginning after December 15, 2019 with early adoption permitted. The Plan has adopted (ASU) 2018-13 on a retrospective basis effective January 1, 2020. The adoption of ASU 2018-13 resulted in the removal or modification of certain fair value measurement disclosures.

Note 3–Investments

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held and notes receivables from participants at December 31, 2020 and 2019, and net appreciation (depreciation) in the value of investments, interest and dividends for the year ended December 31, 2020, form were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Teachers Insurance and Annuity Association of America (TIAA), and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, for the period from May 1, 2020 through December 31, 2020 and as of December 31, 2020 as complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information has not been examined by independent auditors.

Note 4–Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic, Fair Value Measurement, are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

a. Quoted prices for similar assets or liabilities in active markets;

b. Quoted prices for identical or similar assets or liabilities in inactive markets;

c. Inputs other than quoted prices that are observable for the asset or liability;

d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Note 4–Fair value measurements–continued

Mutual funds – valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

Insurance contract – traditional non-benefit responsive insurance contract is valued as a confirmation by a third party pricing vendor, annual statements, company assessments, and discounted cash flow.

Pooled Separate Account – The fair values of participation units held in pooled accounts are based on net asset values, as a practical expedient, reported by the fund managers as of the financial statement dates and recent transaction prices. The funds invest principally in equity securities, fixed-income instruments, other mutual funds, and short-term instruments in accordance with each fund's investment objectives.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present the Plan's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis:

		Fair Value Measurements at December 31, 2020 Using		
Description	**Total**	**Level (1)**	**Level (2)**	**Level (3)**
Mutual funds	$ 14,675,856	$ 14,675,856	$ 0	$ 0
Insurance contracts	4,577,657			4,577,657
Total investments in the fair value hierarchy	19,253,513	$ 14,675,856	$ 0	$ 4,577,657
Investments measured at net asset value (a)	417,138			
Total investment assets at fair value	$ 19,670,651			

		Fair Value Measurements at December 31, 2019 Using		
Description	**Total**	**Level (1)**	**Level (2)**	**Level (3)**
Mutual funds	$ 13,165,794	$ 13,165,794	$ 0	$ 0
Insurance contract	4,769,352			4,769,352
Total investments in the fair value hierarchy	17,935,146	$ 13,165,794	$ 0	$ 4,769,352
Investments measured at net asset value (a)	613,668			
Total investment assets at fair value	$ 18,548,814			

Note 4–Fair value measurements–continued

(a) In accordance with Subtopic 820-10, certain investments that were measured at the net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The pooled separate account, that is measured at NAV, have no unfunded commitments, have a daily redemption frequency and require a 1 day redemption period. The fair value of the pooled separate accounts is $417,138 and $613,668 at December 31, 2020 and 2019, respectively.

For investments in certain entities that calculate the NAV per share as the investment's fair value measurement, the following table provides an overview, by major classification, of the nature and risks associated with such investments as well as whether it is probable those investments could be sold at amounts different from their reported net asset value per share based on redemption restrictions, if any.

The following table presents changes in the investments classified in Level 3 of the fair value hierarchy for the year ended December 31:

	2020	2019
Purchases	$ 802,062	$ 692,681
Transfers into Level 3	$ 0	$ 0
Transfers out of Level 3	$ 0	$ 0

There were no transfers in or out of the Level 3 fair value hierarchy as of December 31, 2020 and 2019.

Note 5–Fully benefit-responsive investment contract with insurance company

The Plan includes an account called the TIAA-CREF Traditional Benefit Responsive as an investment option available to participants, which is a fully benefit-responsive investment contract. The account is credited with participant contributions plus earnings and charged for participant withdrawals and administrative expenses. Because the TIAA-CREF Traditional Benefit Responsive is fully benefit responsive, contract value is the relevant measure attribute for that portion of the net assets available for benefits as described in Note 2.

Investments of the TIAA-CREF Traditional Benefit Responsive may periodically include a Guaranteed Investment Contract (GIC), typically issued by insurance companies that provide for guarantees of interest and repayment of principal. An issuer of a GIC is contractually obligated to repay the principal and a specified interest rate or interest rate index that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer. The crediting interest rate is based on a formula agreed upon with the issuer but may not be less than 2%. Such interest rates are reviewed and may be reset monthly.

Note 5–Fully benefit-responsive investment contract with insurance company–continued

Certain events limit the ability of the Plan to transact at contract value with the insurance company and the financial institution issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such events that would limit the Plan's ability to transact at contract value with participants is probable.

GICs do not permit the insurance company to terminate the agreement prior to the scheduled maturity date. If an event of default occurs and is not cured, the non-defaulting party may terminate the contract. The following may cause the Plan to be in default:

- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the Plan agreement
- An acquisition or reorganization in which the successor issuer does not satisfy the investment or credit guidelines applicable to issuers

The issuer may be in default if it breaches a material obligation under the investment contract, makes a material misrepresentation, makes a material amendment to the Plan agreement, or is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers. If, in the event of default of an issuer, the Plan was unable to obtain a replacement investment contract, withdrawing participants may experience losses if the value of the Plan's assets no longer covered by the contract is below contract value. The Plan may seek to add additional issuers over time to diversify the Plan's exposure to such risk, but there is no assurance the Plan may be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Plan unable to achieve its objective of maintaining a stable contract value.

The terms of an investment contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro rata, based on the percentage of investments covered by each issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to issuer default, the issuer will generally be required to pay to the Plan the excess, if any, of contract value over market value on the date of termination. Contract termination also may occur by the trust upon election and notice. In certain limited circumstances, contract termination by the issuer may also occur but with the trust retaining the right to require that the contract will remain in force under original terms over a period of time as underlying assets mature and are repaid.

Note 5–Fully benefit-responsive investment contract with insurance company–continued

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The average yield for the investment contact was approximately 3.1% in 2020.

The crediting interest rate for the investment contract was approximately 4.08% and 4.09% at December 31, 2020 and 2019.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The Plan has a fully-benefit-responsive unallocated contract ("the GIC") with Principal. Principal maintains the contributions in a general account. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2020 $17,995. The credit interest rate is based on the Composite Crediting Rate. Such interest rates are reviewed on a semi-annual basis for resetting. The crediting interest rate and the yield for the fixed annuity contract were 1.15% as of December 31, 2020.

Certain events limit the Plan's ability to transact at contract value with Principal. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on completing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that causes a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

As described in Note 2, because the GIC is fully-benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to the GIC. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 6–Tax status

The Plan has been designed to qualify under Section 403(b) of the Code and therefore, it is not currently eligible to receive a determination letter from the Internal Revenue Service. The Plan is required to operate in conformity with the Code to maintain its qualification under Section 403(b). The Plan Administrator believes that the Plan is operating in accordance with the applicable requirements of Section 403(b) of the Code and therefore, believes the Plan is qualified and the related custodial accounts are tax-exempt.

Note 6–Tax status–continued

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7–Party-in-interest transactions

Certain Plan investments are managed by the trustees; therefore, these transactions qualify as party in interest transactions. The Plan made direct payments to the Trustee in the amount of $16,279 during 2020. There have been no known prohibited transactions with a party-in interest.

Note 8–Delinquent participant contributions

As required by ERISA, the Organization is required to segregate employee contributions to the Plan from its general assets as soon as administratively feasible. During the year ended December 31, 2019, the Organization failed to remit to the Plan's trustee certain employee contributions of $155,419 within the period prescribed by the Department of Labor's regulations. The contributions were remitted to the Plan during 2019 and the lost earnings were remitted to the Plan during 2021. During the year ended December 31, 2020, the Organization failed to remit to the Plan's trustee certain employee contributions of $59,889 within the period prescribed by the Department of Labor's regulations. The contributions were remitted to the Plan during 2020 but have not remitted the lost earnings as of REPORT DATE.
