ARBOR REHABILITATION 401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Arbor Rehabilitation 401(k) Retirement Plan (the Plan) is provided for general information purposes. Participants should refer to the plan document for more complete description of the Plan's provisions.

General

The Plan, established in accordance with Section 401(k) of the Internal Revenue Code (IRC) is a defined contribution retirement plan and became effective January 1, 2003. The Plan provides retirement benefits for all eligible employees of Arbor Rehabilitation and Healthcare Services, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended and restated.

Effective January 1, 2019, the Company became a member of an affiliated service group with Aspen Therapy, LLC (Aspen), an entity under common ownership with the Company. Transfers to/from other plan in the statement of changes in net assets available for benefits represent the plan assets of participants who switched employment to/from Aspen. The net amount of plan assets transferred to Aspen was \$46,719 and \$11,000 during 2020 and 2019, respectively.

Participation

The Plan covers all employees of the Company who meet the minimum service and age requirements, as defined in the Plan, with the exception of those employees covered by a collective bargaining agreement and non-resident aliens. Effective January 1, 2019, eligible employees who have completed twelve months of continuous service with at least 1,000 hours worked will be eligible to participate in the Plan on a semi-annual basis after the twelve months of service have been met. Effective October 1, 2020, participants may enroll in the Plan on the first day of the quarter immediately following the meeting of eligibility requirements.

Participant Accounts and Contributions

A participant may contribute, through payroll reductions, pre-tax or Roth deferrals based on annual compensation, up to a maximum dollar amount allowed by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Each participant's account is credited with the participant's elective contributions, Company matching and profit sharing contributions, any earnings thereon, and charged with an allocation of administrative expenses. Effective October 1, 2020, the Company implemented an automatic enrollment feature at a rate of two percent for all for all eligible employees who have not made an election or who are deferring less than two percent.

The Company may make discretionary matching contributions as determined by the Plan Sponsor. Effective January 1, 2019, the Company can also make profit sharing contributions to participants who meet certain requirements. For the year ended December 31, 2020, the Company matched 25% on the first 2% of each participant's elective deferrals through September 30, 2020, and 50% on the first 2% of each participant's elective deferral subsequent to this date. For the year ended December 31, 2019, the Company matched 25% on the first 2% of each participant's elective deferrals. The Company did not make any discretionary profit sharing contributions for the years ended December 31, 2020 and 2019.

Rollover Contributions

Distributions from another qualified plan may be transferred into the Plan.

Investment Options

Each participant directs the manner in which their contributions, as well as those of the Company, are to be allocated among the investment options available under the Plan.

Vesting

Participants are immediately vested in their deferral contributions, rollover contributions, and the actual earnings thereon. All Company contributions and related earnings are vested on a graduated schedule by which participants will be 20% vested after two years of service and 20% for each additional year of service. Participants are fully vested upon completion of six years of service. If a participant dies, becomes disabled, or reaches normal retirement age while employed, they will become fully vested.

Forfeitures

Non-vested participant balances that are forfeited can be used to reduce future Company contributions or to pay plan expenses. Total forfeitures held at December 31, 2020 and 2019 were approximately \$28,200 and \$21,700, respectively. There were no forfeitures used to offset Company matching contributions or pay Plan expenses during 2020 or 2019.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. Repayments of loans are to be made over a period not to exceed five years, except for loans taken for the purchase of a primary residence. The participants are charged interest on all outstanding loans. Interest rates on the loans outstanding at December 31, 2020 were between 4.25% and 6.50%.

The Coronavirus Aid, Relief, and Economic Security (CARES) Act which was signed into law on March 27, 2020 included provisions to allow plans to make it easier for eligible participants to withdraw funds under certain circumstances. The Plan has implemented provisions permitting eligible participants to suspend loan payments that were due during the period March 27, 2020 through December 31, 2020 as well as to increase the maximum loan amounts.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based on the terms of the plan document.

Benefit Payments

On termination of service due to death, disability, retirement, or separation of service, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. However, if the vested account balance is less than \$5,000, a lump-sum distribution will be made to the participant regardless of whether the participant elects to receive it. In the case of a severe financial hardship, the Company may direct distribution of all or a portion of the participant's balance, subject to certain restrictions. In-service distributions are permitted as well provided that the participant has achieved normal retirement age, as defined in the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

2. SIGNIFICANT ACCOUNTING POLICIES**Basis of Accounting**

The financial statements are prepared on the accrual basis of accounting.

Investments

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The net investment gain (loss) on the statements of changes in net assets available for benefits reflects the gains and losses on investments bought and sold, as well as held during the year, and represents the net appreciation (depreciation) of investments.

Plan Expenses

Administrative and other Plan expenses are paid by the Plan, or by the Company, at the option of the Company. Expenses paid by the Company are excluded from these financial statements.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (US GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. INFORMATION CERTIFIED BY THE CUSTODIAN

The agent for the custodian has certified to the completeness and accuracy of the amounts reported as investments, notes receivable from participants, net investment income (loss), and interest and dividends on the Plan's financial statements and the accompanying supplemental schedule of assets (held at end of year).

4. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none"> • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual Funds and Money Markets: Value is equal to the net asset values of the shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

All the Plan's assets measured at fair value are classified within Level 1 of the fair value hierarchy as of December 31, 2020 and 2019.

5. INCOME TAX STATUS

The Plan has adopted a Prototype Standardized Profit Sharing Plan with a cash or deferral arrangement which received a favorable determination letter from the Internal Revenue Service (IRS) on March 31, 2014 which stated that the Plan is acceptable under Section 401(a) of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2017.

6. PROHIBITED TRANSACTIONS

During 2019, the Company failed to remit to the Plan certain participant contributions within the period prescribed by Department of Labor (DOL) Regulations. The Company intends to make contributions to the affected participants' accounts to compensate those participants for potential lost income. Procedures have been put in place to ensure that this situation is remedied.

7. SUBSEQUENT EVENTS

Plan management evaluated subsequent events through October 15, 2021, the date which the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.
