Each year, participants may contribute up to 100 percent of their pretax annual compensation, as defined in the Plan Agreement, in increments of 1 percent. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover contributions). Employer matching contributions may be made at the discretion of the Company's Board of Directors. No matching contributions were made in 2020 or 2019. Profit sharing contributions may also be made at the discretion of the Company's Board of Directors. Profit sharing contributions amounted to $-0- in 2020 and $200,000 in 2019 under the modified cash basis of accounting. Participants direct the investment of all contributions into various investment options offered by the Plan. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's matching and/or profit sharing contributions (if any), and (b) Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTES TO FINANCIAL STATEMENTS
(MODIFIED CASH BASIS)
DECEMBER 31, 2020 AND 2019

Note 1 **Description of Plan - Continued**

Vesting
Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Notes Receivable From Participants
Participants may borrow from their account a minimum of $1,000, up to a maximum equal to $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 8.75 percent and have maturity dates that range from 2021 to 2047. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits
On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or equal installments over various periods based on life expectancy.

Forfeited Accounts
At December 31, 2020 and 2019, forfeited non-vested accounts totaled $2,160 and $996, respectively. Forfeitures of employer matching contributions may be used to reduce employer contributions or pay Plan expenses. Profit sharing forfeitures may be allocated to qualifying participants' individual accounts. During the years ended December 31, 2020 and 2019, approximately $389 and $67, respectively were used to pay Plan expenses.

Note 2 **Significant Accounting Policies**

Basis of Accounting
The accompanying financial statements have been prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under the modified cash basis of accounting, certain revenues and assets are recognized when received rather than when earned, and certain expenses are recognized when paid, rather than when an obligation is incurred.

Use of Estimates
The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 **Significant Accounting Policies - Continued**

Investment Valuation and Income Recognition
Investments are reported at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a settlement date basis. Interest and dividends are recorded when received. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants
Notes receivable from participants are measured at their unpaid principal balance. Interest income is recorded when received. Related fees are recorded as administrative expenses and are expensed when they are paid. No allowance for credit losses has been recorded as of December 31, 2020 and 2019 in accordance with the modified cash basis of accounting. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loans to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefit payments are charged directly to the specific participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation (depreciation) of fair value of investments.

Date of Management's Review
The Plan Administrator has evaluated subsequent events for potential recognition and disclosure through October 14, 2021, the date the financial statements were available to be issued.

Note 3 **Investments**

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Ascensus, as agent for Ascensus Trust Company, the trustee, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected on the accompanying Statements of Net Assets Available for Benefits – Modified Cash Basis as of December 31, 2020 and 2019, and the related investment income and interest income on notes receivable from participants reflected on the Statement of Changes in Net Assets Available for Benefits – Modified Cash Basis for the year ended December 31, 2020. Additionally, Ascensus has certified the information in the Schedule of Assets (Held at End of Year) – Modified Cash Basis as of December 31, 2020.

Note 4 **Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.
Level 2	Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4 **Fair Value Measurements - Continued**

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 or 2019.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019.

	Assets at Fair Value as of December 31, 2020			
	Level 1	*Level 2*	*Level 3*	*Total*
Mutual Funds	**$10,139,906**	$ -	$ -	**$ 10,139,906**

	Assets at Fair Value as of December 31, 2019			
	Level 1	*Level 2*	*Level 3*	*Total*
Mutual Funds	$ 8,643,509	$ -	$ -	$ 8,643,509

Note 5 **Fully Benefit-Responsive Investment Contract**

The Plan offers an investment in a stable value fund that management believes meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Ascensus Trust Company, represents contributions made within the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The stable value fund is a bank collective trust fund which invests in high quality guaranteed investment contracts issued by an insurance company (contract issuer). The contract issuer is contractually obligated to repay principal and interest at a specified interest rate that is guaranteed to the Plan. The contract crediting rate is reset quarterly based on a formula established by the contract issuer and ranged from 1.65 percent to 2.27 percent during 2020.

Note 5 **Fully Benefit-Responsive Investment Contract - Continued**

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. However, management does not believe that any events are probable of occurring that might limit the ability of the Plan to transact at contract value.

Note 6 **Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their account balance.

Note 7 **Tax Status**

The Plan adopted a standardized prototype plan sponsored by Ascensus, Inc. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status dated March 31, 2014. The prototype plan opinion letter has been relied upon by the Plan. Although the prototype plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore the Plan is qualified and the related trust is tax exempt.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 **Risks and Uncertainties**

Investment Risk

The Plan provides for investments in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits - modified cash basis.

Note 8 **Risks and Uncertainties - Continued**

COVID-19 Pandemic

In March 2020, the World Health Organization categorized COVID-19 as a global pandemic and the United States declared the worldwide outbreak as a national emergency. The pandemic has led to significant volatility in financial and investment markets and has and may continue to affect participants' account balances and the fair value of the Plan's assets. Due to global uncertainty as to the duration and challenges posed by the pandemic, the potential economic impact is difficult to assess or predict and will continue to depend on future developments that are highly uncertain and cannot be predicted.

Note 2 **Significant Accounting Policies**

Basis of Accounting
The accompanying financial statements have been prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under the modified cash basis of accounting, certain revenues and assets are recognized when received rather than when earned, and certain expenses are recognized when paid, rather than when an obligation is incurred.

Use of Estimates
The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 **Significant Accounting Policies - Continued**

Investment Valuation and Income Recognition
Investments are reported at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a settlement date basis. Interest and dividends are recorded when received. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants
Notes receivable from participants are measured at their unpaid principal balance. Interest income is recorded when received. Related fees are recorded as administrative expenses and are expensed when they are paid. No allowance for credit losses has been recorded as of December 31, 2020 and 2019 in accordance with the modified cash basis of accounting. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loans to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefit payments are charged directly to the specific participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation (depreciation) of fair value of investments.

Date of Management's Review
The Plan Administrator has evaluated subsequent events for potential recognition and disclosure through October 14, 2021, the date the financial statements were available to be issued.

Note 3 **Investments**

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Ascensus, as agent for Ascensus Trust Company, the trustee, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected on the accompanying Statements of Net Assets Available for Benefits – Modified Cash Basis as of December 31, 2020 and 2019, and the related investment income and interest income on notes receivable from participants reflected on the Statement of Changes in Net Assets Available for Benefits – Modified Cash Basis for the year ended December 31, 2020. Additionally, Ascensus has certified the information in the Schedule of Assets (Held at End of Year) – Modified Cash Basis as of December 31, 2020.

Note 4 **Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.
Level 2	Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4 **Fair Value Measurements - Continued**

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 or 2019.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019.

	Assets at Fair Value as of December 31, 2020			
	Level 1	*Level 2*	*Level 3*	*Total*
Mutual Funds	**$10,139,906**	$ -	$ -	**$ 10,139,906**

	Assets at Fair Value as of December 31, 2019			
	Level 1	*Level 2*	*Level 3*	*Total*
Mutual Funds	$ 8,643,509	$ -	$ -	$ 8,643,509

Note 5 **Fully Benefit-Responsive Investment Contract**

The Plan offers an investment in a stable value fund that management believes meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Ascensus Trust Company, represents contributions made within the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The stable value fund is a bank collective trust fund which invests in high quality guaranteed investment contracts issued by an insurance company (contract issuer). The contract issuer is contractually obligated to repay principal and interest at a specified interest rate that is guaranteed to the Plan. The contract crediting rate is reset quarterly based on a formula established by the contract issuer and ranged from 1.65 percent to 2.27 percent during 2020.

Note 5 **Fully Benefit-Responsive Investment Contract - Continued**

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. However, management does not believe that any events are probable of occurring that might limit the ability of the Plan to transact at contract value.

Note 6 **Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their account balance.

Note 7 **Tax Status**

The Plan adopted a standardized prototype plan sponsored by Ascensus, Inc. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status dated March 31, 2014. The prototype plan opinion letter has been relied upon by the Plan. Although the prototype plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore the Plan is qualified and the related trust is tax exempt.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 **Risks and Uncertainties**

Investment Risk

The Plan provides for investments in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits - modified cash basis.

Note 8 **Risks and Uncertainties - Continued**

COVID-19 Pandemic

In March 2020, the World Health Organization categorized COVID-19 as a global pandemic and the United States declared the worldwide outbreak as a national emergency. The pandemic has led to significant volatility in financial and investment markets and has and may continue to affect participants' account balances and the fair value of the Plan's assets. Due to global uncertainty as to the duration and challenges posed by the pandemic, the potential economic impact is difficult to assess or predict and will continue to depend on future developments that are highly uncertain and cannot be predicted.
