1. DESCRIPTION OF THE PLAN

The following description of Munger Bros., LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General The Plan is a defined contribution plan covering substantially all employees of entities in which members of the Munger family have an ownership interest, which include Munger Bros., LLC; Crowne Cold Storage, LLC; Monarch Nut Company, LLC; Sarbanand Enterprises, LLC; and Sarbanand Farms, LLC (collectively, the Company), who are age 18 or older. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). In December 2017, the members of the Company signed a resolution to cease participation in 401K Retirement Solutions' multiple-employer plan and adopt the Plan effective January 1, 2018. As a result of the resolution, during the 2018 Plan year, the accounts of all participants were transferred out of 401K Retirement Solutions and into the Plan. The Plan administrator is responsible for oversight of the Plan, including the appropriateness of the Plan's investment offerings and investment performance.

Contributions Participants may elect to contribute to the Plan, in the form of traditional and Roth salary deferrals, up to the lesser of 100% of their eligible compensation or the maximum amount allowable by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company makes safe harbor matching contributions based on 100% of the employee's elective deferral that does not exceed 3% of the employee's compensation, plus 50% of the next 2% of the elective deferral, not to exceed 5% of the employee's compensation. The Company made safe harbor matching contributions of $339,422 and $315,343 for the years ended December 31, 2020 and 2019, respectively. Additionally, the Company may make nonelective contributions as determined by the Company. The Company made no nonelective contributions for the years ended December 31, 2020 and 2019.

Automatic Enrollment Employees eligible to participate in the Plan are automatically enrolled upon meeting the eligibility requirements noted above. Unless otherwise directed, the rate of deferral upon enrollment is 3% of eligible compensation on a pre-tax basis, to be invested in specific pre-selected investment offerings based on a participant's estimated time to retirement.

Participant Accounts Each participant's account is credited with the participant's contributions, Company contributions, and account earnings, and may be charged with an allocation of administrative expenses that are paid by the Plan. The Company's nonelective contribution allocations are based on a participant's eligible compensation, relative to total eligible compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting Participants are immediately vested in their contributions, Company safe harbor matching contributions, and earnings thereon. Nonelective contributions are subject to vesting. A participant is 100% vested after five years of credited service. Participants are credited with one year of service for each Plan year in which they worked at least 1,000 hours.

Notes Receivable From Participants Participant notes receivable are not permitted by the provisions of the Plan. The notes receivable from participants balance presented on the accompanying statements of net assets available for benefits consist of participant notes receivable balances transferred in from the 401K Retirement Solutions' multiple-employer plan, which permitted participant notes receivable. The notes receivable are secured by the balances in the participants' accounts. Principal and interest will be paid ratably through semimonthly payroll deductions until such time as the existing balances reach maturity.

Payment of Benefits Withdrawals are allowed in the event of termination, disability, death, retirement, or attainment of age 59½. Depending on the event, the withdrawal may be subject to early withdrawal penalties imposed by the *Internal Revenue Code* (IRC). Payments are made in the form of a lump-sum distribution.

As of December 31, 2020 and 2019, there were no amounts allocated to participants who elected to withdraw from the Plan but have not yet been paid.

Forfeitures Forfeitures attributable to nonelective contributions may be used to pay Plan expenses or reduce future Company contributions. There were no forfeited nonvested account balances used to reduce plan expenses for the years ended December 31, 2020 and 2019. There were no forfeited nonvested account balances at December 31, 2020 and 2019.

Plan Termination Although it has not expressed any intent to do so, the Company has the right to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a plan termination, participants would become 100% vested in their Company nonelective contributions.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The Plan uses the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition Investments are reported at fair value. Fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisors and the custodian. Fair value measurements are discussed below.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments purchased and sold, as well as held during the year.

Fair Value Measurements The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2020 and 2019.

Group Annuity Contract: The group annuity contract account is made up of a variety of sub-accounts that individually invest in specific established mutual funds. The group annuity contract sub-account net unit value is not a publicly quoted price in an active market. The market value of each sub-account is based on the underlying mutual fund per share. Net asset value is adjusted for sub-account specific fees and differing treatment of distributions and mutual fund share splits. Participant transactions (issuances and redemptions) may occur daily. Participant-directed redemptions have no restrictions; however, the Plan is required to provide a 12-month notice to liquidate its entire share in the fund, in order to ensure that securities liquidations will be carried out in an orderly business manner.

See note 4 for the classification of these assets within the fair value hierarchy.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes Receivable From Participants Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses was recorded as of December 31, 2020 and 2019. Delinquent participant notes receivable are recorded as distributions on the basis of the terms of the Plan agreement.

Payment of Benefits Benefits are recorded when paid.

Expenses Certain operating expenses of the Plan are deducted from participant accounts and the remaining expenses are paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments.

Implementation of New Accounting Standard Beginning January 1, 2020, the Plan adopted provisions of Financial Accounting Standards Board Accounting Standards Update (ASU) 2018-13*, Fair Value Measurements: Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurements*. This ASU modifies the disclosure requirements for fair value measurements. Those modifications include the removal and addition of disclosure requirements, as well as clarifying specific disclosure requirements. There were no financial impacts or changes to disclosures necessary upon adoption of this ASU.

Evaluation of Subsequent Events The Plan has evaluated subsequent events through October 12, 2021, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such an election, the investments and notes receivable from participants included in the statements of net assets available for benefits, and the investment income and interest income on notes receivable from participants included in the statements of changes in net assets available for benefits as of and for the years ended December 31, 2020 and 2019, were not subject to auditing procedures and have been certified as complete and accurate by John Hancock Life Insurance Company (John Hancock).

4. FAIR VALUE MEASUREMENTS

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

December 31, 2020	Level 1	Level 2	Level 3	Total
Group annuity contract	$ -	$ 6,294,255	$ -	$ 6,294,255

December 31, 2019	Level 1	Level 2	Level 3	Total
Group annuity contract	$ -	$ 4,943,495	$ -	$ 4,943,495

5. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by John Hancock. John Hancock is the custodian as defined by the Plan, and therefore these transactions qualify as party-in-interest transactions.

John Hancock provides certain administrative services to the Plan pursuant to an agreement between the Company and John Hancock. John Hancock receives revenue from mutual funds and other service providers for services John Hancock provided to the funds. This revenue is used to offset certain amounts owed to John Hancock for administrative services to the Plan.

Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing rather than a direct payment. If the revenue received by John Hancock from investment providers exceeds the amount owed under the agreement, John Hancock remits the excess to the Plan's trust on a quarterly basis. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants. The Plan or the Company may make a payment to John Hancock for administrative services not covered by revenue sharing.

6. TAX STATUS

The Plan has adopted a volume submitter profit sharing plan established by Central Administrative Services, Inc DBA Hicks Pension Services. The volume submitter plan obtained an opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the form of the prototype plan, as then designed, was acceptable under Section 401 of the IRC. The Plan administrator believes that the Plan is currently designed and operating in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified and the related trust is tax exempt.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

As a result of the spread of the COVID-19 coronavirus, economic uncertainties have arisen which have resulted in significant volatility in the investment markets. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time.

8. PLAN AMENDMENT

In April 2020, the Plan implemented the distribution provision of the Coronavirus Aid, Relief, and Economic Security (CARES) Act that was signed into law on March 27, 2020. A CARES Act distribution allows the Plan's participants to take a COVID-19 related hardship distribution up to $100,000 from their account without a 10% early withdrawal penalty through December 31, 2020. These distributions may be repaid within three years without penalty. Additionally, the Plan implemented provisions from the CARES Act on April 7, 2020, that temporarily waived the required minimum distributions for the 2020 calendar year.

While the Plan has implemented the CARES Act provisions, no formal adoption has been made. The third-party administrator will draft the good faith amendment for adopting plan sponsors to comply with the relevant CARES Act provisions in 2022.

9. SUBSEQUENT EVENT

In February 2021, the Plan changed custodian and third-party administration services from John Hancock to The Standard.
