Note 1 – Description of Plan

The following description of the Wheel Pros, LLC 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of Plan provisions.

General – The Plan is a 401(k) salary deferral and profit sharing plan covering substantially all employees of Wheel Pros, LLC, and is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Wheel Pros, LLC (the Company or Plan Sponsor) is the Plan's sponsor and serves as plan administrator. During the year ended December 31, 2020, the Plan switched platforms within John Hancock Life Insurance Company (U.S.A). There were minor changes to the pooled separate accounts offered with the new platform, but there was no overall change in custodian or other changes that would significantly impact the Plan.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act was enacted into law. The CARES Act provides immediate and temporary relief for retirement plan sponsors and their participants, including distributions up to the lesser of vested account balance or $100,000, increased loan limits up to the lesser of 100% of the vested account balance or $100,000, loan repayment extension allowing payments to be deferred up to one year, and waivers of Required Minimum Distributions that would otherwise have been payable during 2020. The provisions of the CARES Act were effective and operationalized immediately, prior to amending the plan document. Plan management has adopted certain relief provisions included in the CARES Act.

Eligibility – Employees of the Company are eligible to participate in the Plan and receive any employer paid profit sharing contributions upon reaching age 21 and after completing six months of service.

Contributions

Participant contributions – Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants may also elect to make Roth contributions utilizing after-tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated fund until elected otherwise by the participant.

Employer safe harbor match and profit sharing contributions – The Company may elect to make discretionary profit sharing contributions to the Plan. The Company makes safe-harbor matches at 100% of employee contributions, up to 3% and 50% of employee contributions in excess of 3%, up to 5% of eligible compensation deferred to the Plan. Profit sharing contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' compensation. There were no profit sharing contributions for the year ended December 31, 2020. Safe harbor matching contributions for the year ended December 31, 2020 were $2,020,705.

Note 1 – Description of Plan (continued)

Contributions are subject to regulatory limitations.

Participant accounts – Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their account into various investment options offered by the Plan.

Vesting – Participants are vested immediately in their contributions and employer safe harbor matching contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service for employer profit sharing contributions with 20% vested after each year of service. No employer profit sharing contributions have been made in the last five years; as such, all employer contributions are vested as of December 31, 2020.

Notes receivable from participants– Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. This was increased to $100,000 or 100% of their vested account balance for the period of March 27, 2020 to September 22, 2020. The loans are issued by the Plan and secured by the balance in the participant's account. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time not to exceed fifteen years. Under the terms of the Plan agreement, plan loans will bear a reasonable rate of interest determined by the plan administrator. Principal and interest are paid ratably through payroll deductions. As of December 31, 2020, the rates of interest on outstanding loans ranged from 5.25% to 7.50% with various maturities through December 2049.

Payment of benefits – On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures – Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan and will be used to pay Plan administrative expenses or reduce future Company contributions. As of December 31, 2020 and 2019, forfeited nonvested accounts totaled $6,993 and $6,475, respectively. For the year ended December 31, 2020, $10 were used for fees.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation – The investments are reported at fair value and contract value. The Plan's custodian certifies the contract value of the guaranteed investment contract and the fair market value of all other investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date.

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2020 and 2019.

Contract value is the relevant measurement for assets invested in fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Note 2 – Summary of Significant Accounting Policies (continued)

Registered investment companies (mutual funds) – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables disclose the fair value hierarchy of the Plan's assets by level as of December 31, 2020 and 2019:

	Fair Value Measurement at December 31, 2020

Total assets in the fair value hierarchy	$ -	$ -	$ -	-
Investments measured at NAV practical expedient				23,179,479
Investments at fair value				$ 23,179,479

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Note 2 – Summary of Significant Accounting Policies (continued)

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan Agreement. No allowance for credit losses has been recorded as of December 31, 2020 and 2019.

Payment of benefits – Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation in fair value of investments.

Subsequent events – The Plan has evaluated subsequent events through October 15, 2021, which is the date the financial statements were available to be issued. No events or transactions are required to be disclosed or included in the financial statements.

Note 3 – Investments

All investments are certified by John Hancock Life Insurance Company (U.S.A.) and John Hancock Trust Company LLC. For the year ended December 31, 2020, the Plan's investments (including gains and losses on investments bought, sold, and held during the year, and reinvested dividends) changed value by $4,530,933. The custodian did not segregate dividend income from net appreciation in fair value of investments and is unable to identify the amount of dividends received.

Note 4 – Guaranteed Investment Contract with Insurance Company

The Plan previously entered into a fully benefit-responsive investment contract (FBRIC) with the custodian, and fully exited the contract during 2020. The custodian maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is determined by the insurance company at the end of each reporting year, based on blending of rates determined on the first day of each month during the reporting year. The FBRIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The contract meets the FBRIC criteria and, therefore, is reported at contract value. Contract value is the relevant measure for FBRICs because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by the custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 4 – Guaranteed Investment Contract with Insurance Company (continued)

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations, which may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the Plan's ability to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

Note 5 – Tax Status

The Plan document is a volume submitter defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the statements of net assets available for benefits.

During March 2020, the World Health Organization characterized the outbreak of a novel coronavirus (COVID-19) as a pandemic. A variety of federal, state, and local governments have taken actions in response to COVID-19. The effects of the pandemic have ranged by jurisdiction with a variety of health and economic consequences, the final scope of which are not currently known or quantifiable.

Note 7 – Information Certified by the Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company (U.S.A) and John Hancock Trust Company LLC, the custodians of the Plan, have certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2020 and 2019.

- Net appreciation in fair value of investments and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2020.

- Distributions and fees paid by the Plan and participants for the year ending December 31, 2020.

- Investments reflected on the schedule of assets (held at end of year).

Accordingly, John Hancock Trust Company LLC, the custodian of the Plan from November 17, 2020 through December 31, 2020, and John Hancock Life Insurance Company (U.S.A.), the custodian of the Plan during the year ended December 31, 2019, and through November 17, 2020, have certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate

Note 8 – Party-In-Interest Transactions

Certain Plan investments are managed by John Hancock Life Insurance Company (U.S.A.) and John Hancock Trust Company LLC. John Hancock Life Insurance Company (U.S.A.) and John Hancock Trust Company LLC are the custodians of the Plan, and, therefore, transactions with these entities qualify as exempt party-in-interest transactions.

Note 9 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time, subject to the provisions of ERISA. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

Note 10 – Reconciliation to Form 5500
