Note 1. Plan Description

The following description of Marco Group Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of Marco Group International Opco, LLC (referred to as the Company) over the age of 21. Participation in the Plan is voluntary and employees can enroll in the Plan on the first day of the quarter after having met the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Trustees are responsible for oversight of the Plan.

On March 2, 2020, the Company entered in an agreement with Abrasive Products and Equipment, LLC to merge operations and form a new entity, Marco APE Holdings, LLC. There were no changes to the Plan during 2020 as a result of this merger, except that the adoption agreement was restated effective July 15, 2020, to clarify that legacy employees of Abrasive Product and Equipment, LLC are excluded from participating in the Plan. Refer to Note 10 for a subsequent event.

Contributions: Participants may contribute up to 100% of pretax annual compensation, as defined in the Plan document, up to the maximum limits of the Internal Revenue Code (IRC) (subject to federal limitations). Participants may designate all or a portion of their deferred contributions as after-tax contributions in a Roth account. Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans otherwise known as rollover contributions. Participants direct the investment of all contributions into various investment options offered by the Plan.

The Company, at the discretion of the Company's Board of Directors, can contribute both matching and discretionary contributions. For the period from January 1, 2020 to April 30, 2020, the Company's matching contributions were 50% of each participant's contribution up to 6% of each employee's eligible wages as long as the employee is participating. The Company did not make any matching contributions during the period from May 1, 2020 to December 31, 2020. The Company did not make a discretionary contribution for the year ended December 31, 2020.

Participant accounts: Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's discretionary contribution, if any, and investment results. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on the participant earnings, account balance, or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested balance.

Participant investment options: Participants are allowed to invest in a variety of investment choices, as more fully described in the Plan's literature, to which participants may designate the allocation of their account balances. Participants may elect, on a daily basis, to have all or part of their account balances and future contributions transferred from one fund to another or in any combination.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in Company matching and discretionary contributions plus actual earnings thereon is based on years of continuous service. Participants vest on Company contributions ratably over a five-year vesting period. Notwithstanding the above, participants become 100% vested upon early retirement age (55), death or permanent disability.

Note 1. Plan Description (Continued)

Payment of benefits: Upon termination of service, death, disability or retirement, a participant may elect to receive, or have their beneficiary receive, the value of the vested interest in their account in the form of a lump-sum distribution, rollover or partial withdrawal. Distribution of benefits upon termination becomes automatic if the participant's account balance is less than $5,000. Participants with an account balance less than $5,000 but greater than $1,000 receive a direct rollover into a qualified individual retirement account unless they elect to receive a lump-sum payment. Those with a balance less than $1,000 receive a lump-sum payment. The Plan allows participants to withdraw funds from their account balance after the age of 59½. Participants may also withdraw funds derived from their account balance in the event of hardship, as defined by the Plan.

Forfeited accounts: Forfeited balances of terminated participant's nonvested accounts are used to pay for the Plan's general administrative expenses and/or to fund employer contributions. Total forfeitures used to fund employer contributions totaled approximately $11,400 in 2020. There were approximately $25,500 of nonvested forfeiture accounts included in net assets available for benefits as of December 31, 2020. There were no significant amount of nonvested forfeiture accounts included in net assets available for benefits as of December 31, 2019.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Coronavirus Aid, Relief, and Economic Security (CARES) Act: On March 27, 2020, the CARES Act was enacted in response to the COVID-19 pandemic. The CARES Act suspended required minimum distributions for 2020.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustees determined the valuation policies utilizing information provided by the Plan's investment advisors and former custodian. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Due from broker: Principal Life Insurance Company (Principal) is the Plan's former custodian. On January 4, 2021, Voya Institutional Trust Company (Voya) became the Plan's new custodian. At December 31, 2020, $8,182,169 of funds in Principal's custody have been reflected as a due from broker on the statement of net assets available for benefits, as they were in process of being transferred to Voya.

Payment of benefits: Benefits paid to participants are recorded when paid.

Note 2. Summary of Significant Accounting Policies (Continued)

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment-related expenses are included as an offset to net appreciation in fair value of investments.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 14, 2021, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by the Plan's Former Custodian

The following is a summary of the Plan's asset information as of December 31, 2020 and 2019, and for the year ended December 31, 2020, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Principal (the former custodian) and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the former custodian that information provided to the Plan Administrator by the former custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule related to the following assets:

	2020	2019
Pooled separate accounts	$ 40,022	$ 9,066,252
Investment contract	-	25,061
Total investments	$ 40,022	$ 9,091,313
Due from broker	$ 8,162,179	$ -

Principal also certified to the completeness and accuracy of $1,247,254 of net appreciation in the fair value of investments and $376 of interest income related to the aforementioned investments for the year ended December 31, 2020.

Note 4. Fair Value Measurements

Accounting standards established the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability

Note 4. Fair Value Measurements (Continued)

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2020 and 2019.

Pooled separate accounts: Pooled separate accounts are valued based on the net asset value (NAV) per unit as reported by the investment manager, which is published daily. The underlying assets of the pooled separate accounts consisted solely of investments in mutual funds registered with the Securities and Exchange Commission.

Investment contract: The non–fully benefit-responsive investment contract was valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable duration and creditworthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	2020			
	Level 1	Level 2	Level 3	Total
Investments, at fair value:				
Pooled separate accounts	$ -	$ 40,022	$ -	$ 40,022

	2019			
	Level 1	Level 2	Level 3	Total
Investments, at fair value:				
Pooled separate accounts	$ -	$ 9,066,252	$ -	$ 9,066,252
Investment contract	-	-	25,061	25,061
	$ -	$ 9,066,252	$ 25,061	$ 9,091,313

Note 5. Income Tax Status

The Plan has adopted a nonstandard form of a prototype plan sponsored by Principal. The prototype plan has received an opinion letter dated March 31, 2014, from the Internal Revenue Service (IRS) as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended subsequent to the version covered by the prototype plan's determination letter; however, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note 7. Related-Party Transactions and Party-In-Interest Transactions

The Plan's investments included pooled separate accounts and an investment contract managed by Principal. As a result, these transactions qualify as party-in-interest transactions.

Note 8. Risks and Uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes would materially affect the amounts reported in the 2020 statement of net assets available for benefits.

In March 2020, the World Health Organization declared COVID-19 a pandemic. This has resulted in substantial volatility in financial markets and, as a result, the Plan's investments have experienced significant fluctuations in fair value. The full impact of the COVID-19 pandemic continues to evolve as of the date of this report; therefore, the extent of any adverse impact to the Plan's participants cannot be predicted at this time.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits at December 31, 2020 per the financial statements to Form 5500:

	2020
Net assets per financial statement	$ 8,223,986
Employer contributions receivable	(21,785)
Net assets per Form 5500	$ 8,202,201

Note 9. Reconciliation of Financial Statements to Form 5500 (Continued)

The following is a reconciliation of the net decrease in net assets available for benefits for the year ended December 31, 2020 per the financial statements to Form 5500:

	2020
Net decrease per financial statement	$ (867,327)
2020 Employer contributions receivable	(21,785)
Net decrease per Form 5500	$ (889,112)

Note 10. Subsequent Event

Effective January 4, 2021, the Abrasive Products and Equipment, LLC's plan, a related plan through common ownership, was merged into the Plan. Approximately $4,390,000 of assets were transferred into the Plan on January 4, 2021. Effective January 1, 2021, the Plan's name was changed to Allredi, LLC 401(k) Plan and the Abrasive Products and Equipment, LLC employees began participating in the plan.
