NOTES TO FINANCIAL STATEMENTS**NOTE A. DESCRIPTION OF PLAN**

The following description of the Strunk HR, LLC 401(k) Plan (Joint Ventures, LLC) (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

GENERAL

The Plan is a defined contribution retirement plan established to encourage and assist employees in regularly saving for their retirement through payroll reductions and to provide retirement benefits for employees of Joint Ventures, LLC (the “Company”).

During 2017, the Plan became a participant in the Strunk HR, LLC 401(k) multiple employer plan, which was formed on January 1, 2014, and employees began making contributions beginning at the end of 2017.

ELIGIBILITY

Employees must be at least 21 years of age and complete two months of service to participate in salary deferral and employer matching contributions. Upon satisfying these requirements, employees can enroll in the Plan on the first day of the month coinciding with or following the month in which the requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended, and the Internal Revenue Code (the “Code” or “IRC”).

CONTRIBUTIONS

Participants may contribute to the Plan through payroll deductions up to 90% of their eligible compensation, subject to the limitations prescribed by the IRC. Contributions may be contributed on a pre-income tax or after-tax basis. Contributions determined to be excessive in accordance with the discrimination rules of the Internal Revenue Service regulations are refunded annually.

For each Plan year, the Company may make discretionary matching contributions to the Plan. The Company has the right under the Plan to discontinue its contributions at any time. For the year ended December 31, 2020, the Company made discretionary matching contributions equal to 50% of the first 2% of compensation the employee contributed to the plan. The matching contribution is made each pay period that the employee contribution is made, with provisions allowing for a true-up following the end of the Plan year. For the year ended December 31, 2020, the Company made matching contributions totaling \$25,441.

INVESTMENT OPTIONS

The Plan provides for participant-directed investment elections among different types of investment funds and participants may change their investment elections by communicating directly with the third-party administrator.

PARTICIPANT ACCOUNTS

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contributions, allocation of the Company's contributions, and the Plan earnings. Each participant's account is also charged with withdrawals and an allocation of Plan losses and administrative expenses. Allocations of participant earnings and administrative expenses are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account, subject to vesting limitations.

VESTING

Participants are immediately vested in their voluntary contributions and any earnings on these contributions. Vesting in the remainder of their accounts, including employer match, is based on years of service, with 1,000 hours of service needed for a year of vesting service to be credited. An employee is vested in employer discretionary matching contributions at the rate of 20% after two years of service, 40% after three years of service, 60% after four years of service, 80% after five years of service, and is fully vested after six years of service. Upon disability or death, an employee is 100% vested in his or her entire account.

PAYMENT OF BENEFITS

Upon termination of service, participants may elect to receive a lump-sum amount equal to the value of their vested account balance, they may request their vested account balance be rolled over into an IRA or qualified plan, or they may defer receipt of distribution until retirement, as long as the participants' vested balance exceeds \$5,000. Benefits are distributable without penalty upon death, disability, or normal retirement at age 65 with five years of participation and are subject to certain minimum distribution rules. Distributions will be paid by lump sum, except for installment payments for certain required minimum distributions.

The Plan provides for in-service withdrawals after age 59 ½ and hardship withdrawals for specific immediate and heavy financial needs, as defined in the Plan, which must come from a participant's elective deferral and rollover contribution account balances. Withdrawals are generally subject to 20% federal income tax withholding and any applicable state income tax withholding, unless the participant elects not to have taxes withheld. Also, withdrawal prior to the age 59 ½ may be subject to a 10% early withdrawal penalty tax.

NOTES RECEIVABLE FROM PARTICIPANTS

The Plan is permitted to make loans to participants. Each loan must not exceed \$50,000 or 50% of the participant's vested account balance at the date the loan is granted. Loans bear interest at prevailing rates and are generally required to be repaid within five years. The loans are secured by the balance in the participant's account. Generally, principal and interest are paid ratably through payroll deductions. A loan is considered to be in default and may be treated as a deemed distribution if amounts due remain outstanding at the end of the quarter following the quarter the amounts became due.

ADMINISTRATIVE EXPENSES

Administrative expenses of the Plan are paid from plan assets and certain other administrative expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivables from participants and benefit payments are charged directly to the participant's account and are included in administrative expenses in the accompanying statement of changes in net assets available for benefits.

FORFEITURES

Forfeitures are the non-vested portion of participant account balances from terminated participants. These funds, which have been retained in the Plan, are available to reduce future contributions of the Company or to pay administrative expenses of the Plan. The balance of the forfeiture account was \$4,537 and \$2,540 as of December 31, 2020 and 2019, respectively.

NOTE B. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies followed by the Plan in the preparation of its financial statements are as follows:

BASIS OF ACCOUNTING

The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Receivables and liabilities are accrued in accordance with the American Institute of Certified Public Accountants Audit and Accounting Guide, *Audits of Employee Benefit Plans*.

NET APPRECIATION (DEPRECIATION) IN FAIR VALUE OF INVESTMENTS

The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

USE OF ESTIMATES

The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balance. Loan fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 and 2019. If a participant ceases to make note repayments and the Plan Administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded upon the occurrence of a distributable event. As of December 31, 2020 and 2019, there were no notes receivable from participants.

PAYMENT OF BENEFITS

Benefits to participants are recorded when approved for distributions, which generally coincides with the time of payment. There were no participants who had elected to withdraw from the Plan that had not been paid as of December 31, 2020.

INCOME TAX STATUS

The Plan participates in a defined contribution volume submitter plan and trust offered by CCH Incorporated, dba ftwilliam.com, which is intended to meet the requirements of the IRC as a qualified Retirement Plan and Trust/Custodial Account. The volume submitter plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended by the Company, the Plan administrator and Company management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in these financial statements.

Accounting principles generally accepted in the United States of America clarify the accounting for uncertainty in income taxes by creating a framework to recognize, measure, present, and disclose in financial statements uncertain tax positions that have been taken or expect to be taken in a tax return. The Plan administrator and Company management believe that there are no material uncertain tax positions for which it is reasonably possible that reported total amounts could significantly differ from amounts that may be determined upon examination by taxing authorities. Additionally, the Company is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status. In general, the Plan's informational returns remain subject to examination by taxing authorities for three years, unless specific conditions are met, from the filing date. Accordingly, the Form 5500 filings since inception of the Plan remain subject to examination.

INVESTMENT VALUATION AND INCOME RECOGNITION

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Investment expenses are recorded as a reduction in investment earnings.

The Plan's investments are stated at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement Level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The Plan's policy is to recognize significant transfers between levels at the end of the reporting period.

NOTE C. FAIR VALUE MEASUREMENTS

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds: Valued at the daily closing price, as reported by the fund, of shares held by the Plan at year-end. Mutual funds held by the Plan are open-end, actively traded mutual funds registered with the Securities and Exchange Commission and are required to publish their daily net asset value ("NAV") and transact at that price.

Unitized funds: Valued at the net asset value ("NAV") based on the fair value of the underlying mutual funds and exchange traded funds held by the Plan at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's mutual funds and unitized funds are all Level 1 investments within the fair value hierarchy as of December 31, 2020 and 2019.

NOTE D. UNITIZED FUNDS

The Plan has participant-directed investments held in unitized funds accounts that allow participants to invest in model portfolios managed by the Plan's registered investment advisor. The underlying investments of the unitized funds are mutual funds and exchange traded funds. Although these investments are not publicly traded, the unitized funds have a readily determinable fair value as the net asset value is computed daily, based on the market prices of the underlying investments, and published to the Plan.

NOTE E. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in shares of unitized funds managed by affiliates of CuraFin Advisors, the Plan's registered investment advisor. Certain Plan expenses are paid by the Plan sponsor. These investment and expense transactions are considered party-in-interest transactions for which statutory exemption exists.

NOTE F. UNAUDITED INFORMATION CERTIFIED BY CUSTODIAN

The following unaudited information in the Plan's financial statements and supplemental schedules was certified to be complete and accurate by the Plan's custodian, Mid Atlantic Trust Company, within the meaning of 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

- All amounts reported as non-interest bearing cash, mutual funds, and unitized funds in the statements of net assets available for benefits as of December 31, 2020 and 2019.
- All amounts reported as net appreciation (depreciation) in fair value of investments and dividend income in the statement of changes in net assets available for benefits as of December 31, 2020.
- All amounts reported in the supplemental schedule of assets held at end of year and schedule of delinquent participant contributions.

NOTE G. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE H. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Financial instruments that potentially subject the Plan to concentration of credit risk consist primarily of cash, mutual funds, and unitized funds. The total loss that could occur if the amounts became uncollectible is the stated fair value of the financial instruments reported in the accompanying statement of net assets available for benefits.

NOTE J. SUBSEQUENT EVENTS

Accounting principles generally accepted in the United States of America requires management to disclose the date through which subsequent events were evaluated when determining whether adjustment or disclosure in the financial statements is required. A subsequent event is an event or transaction that occurs after the balance sheet date but before the financial statements are issued. The Plan administrator evaluated subsequent events through October 15, 2021, which represents the date the accompanying financial statements were available to be issued.
