Moderne Glass Company, Inc. 401(k) & Profit Sharing Plan

Notes to Financial Statements December 31, 2020 and 2019

1. Plan Description

The following description of the Moderne Glass Company, Inc. 401(k) & Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General and Eligibility

The Plan is a defined contribution plan covering all eligible employees of Moderne Glass Company, Inc. (the Company) who have completed one year of service and are age eighteen or older. The Plan does not cover employees whose employment is governed by a collective bargaining agreement.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

The Plan provides that employees electing to participate may contribute to the Plan, through pretax payroll deferrals, a selected percentage of compensation as defined by the Plan. Due to limitations imposed by the Internal Revenue Code (IRC), the aggregate amount of deferrals with respect to any participant cannot exceed \$19,500 for 2020 and \$19,000 for 2019. A participant that has reached the age of 50 by the end of the tax year may contribute an additional \$6,500 for 2020 and \$6,000 2019 as a catch-up contribution.

The Company contributions are at the sole discretion of Management. Discretionary Company contributions are allocated based on participant compensation to total compensation for all eligible participants. In order to receive a discretionary Company contribution, an employee must have worked 1,000 hours during the plan year and be employed on the last day of the plan year or have separated from employment during the plan year and completed more than 500 hours of service. The Company authorized discretionary contributions of \$60,000 and \$60,000 to the Plan during 2020 and 2019.

Participant Accounts

Each participant's account is credited with a) participant's contributions, b) allocation of the employer discretionary contribution, c) Plan earnings less applicable expenses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan.

1. Plan Description (cont.)

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six (6) years of credited service based upon a two to six year graded term in accordance with the plan document; or immediately if a) employment is terminated due to death or disability, b) retirement upon attaining age 65, or c) Plan termination.

<i>December 31,</i>	Percent Vested
Less than 2 years	0 %
Less than 3 years	20 %
Less than 4 years	40 %
Less than 5 years	60 %
Less than 6 years	80 %
Six or more years	100 %

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Withdrawal of a portion of a participant's account is permitted due to an immediate and heavy financial need.

Forfeited Accounts

Forfeitures of non-vested Company contributions will be used to reduce future employer discretionary contributions. Forfeitures reduced employer contributions by approximately \$0 and \$6,709 for the years ended December 31, 2020 and 2019. The balance remaining in the forfeiture account at December 31, 2020 and 2019 was approximately \$18,634 and \$4,682, respectively.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments of the Plan are stated at fair value. The fair value of the financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchase and sales of investments within the Plan are reflected on a trade date basis.

Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

The change in net appreciation in fair value of investments is the difference between the quoted market value of the Plan's investments at the end of the year compared to the value of such investments at the beginning of the year (including capital gain distributions and investments bought and sold during the year).

Use of Estimates

The preparation of financial statements in accordance with generally accounting principles requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, the actual amounts could materially differ from those estimates. Any adjustments applied to the estimated amounts are recognized in the year in which such adjustments are determined. Significant estimates include fair value measurements of Plan investments.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

2. Summary of Significant Accounting Policies (cont.)

Related Party Transactions/Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of the Plan are charged directly to the participant's accounts and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

The Company entered into an Administrative Services Agreement (the Agreement) with TransAmerica Financial Life Insurance Company (TransAmerica). TransAmerica Retirement Solutions (TARS), and affiliate of TransAmerica, is the third party administrator. This agreement includes a revenue-sharing arrangement whereby TransAmerica shares revenue generated by the Plan in excess of their fee. Deposits relating to the revenue-sharing arrangement are invested in the guaranteed income fund, and are used to pay other Plan expenses with any remaining amounts reallocated to participants.

Activity related to income, revenue sharing, and expenses for the years ended December 31, 2020 and 2019 include revenue sharing transfers in of \$73,213 and \$47,228, and transfers out to pay direct fees of \$59,067 and \$47,568, respectively.

Plan Expenses

Plan expenses consisted of \$31,560 and \$31,886 in administrative service fees, \$27,507 and \$19,457 in accounting and professional fees, and \$2,050 and \$2,050 in other expenses for the years ended December 31, 2020 and 2019, respectively.

Payment of Benefits

Benefit payments are recorded when paid.

3. Concentration of Credit Risk

The following presents investments that represent 10% or more of the Plan's net assets available for benefits:

<i>December 31,</i>	2020	2019
MFS Value A Fund	\$ -	\$ 502,551
Total	\$ -	\$ 502,551

The MFS Value A Fund had a market value of \$259,237 as of December 31, 2020 but did not exceed the 10% threshold of the Plan's net assets.

4. Tax Status

The Plan document, which was amended and restated effective February 1, 2016, is a TARS Standardized Prototype Cash or Deferred Profit Sharing Plan, which received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014. It is the opinion of the Plan Administrator that the Plan and its underlying trust have operated within the terms of the Plan and are qualified under the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or the Department of Labor (DOL). Management has evaluated the Plan's design and operation and has concluded that the Plan is designed and has been operated in compliance with the applicable requirements of the IRC. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

5. Fair Value Measurements

ASC 820, Fair Value Measurements and Disclosures (ASC 820) establishes a framework for measuring fair value. The standard provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access.

Moderne Glass Company, Inc. 401(k) & Profit Sharing Plan

Notes to Financial Statements December 31, 2020 and 2019

5. Fair Value Measurements (cont.)

Level 2 – Inputs to the valuation methodology include; a) quoted prices for similar assets or liabilities in active markets; b) quoted prices for identical or similar assets or liabilities in inactive markets; c) inputs other than quoted prices that are observable for the asset or liability; d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual Funds

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The valuation methods described above may provide a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While the Plan believes its valuation methods are appropriate and consistent with other market participants, it is possible that different fair value measurements may arise due to the use of different methodologies or assumptions in determining the fair value measurement at the reporting date.
