Under the American Rescue Plan Act of 2021 (ARPA), the shortfall relief wipes out existing shortfall amortization bases and changes the amortization period. By default, this relief applies starting with the 2022 plan year. This Schedule SB reflects the shortfall amortization bases without regard to the ARPA shortfall relief for the 2019 and 2020 plan years. On August 27, 2021, Energy Harbor Corp. made an explicit election to apply the ARPA shortfall relief to the Energy Harbor Pension Plan for Collectively Bargained Employees for the 2021 plan year.

For former Duquesne Light company participants, this includes any benefit payable by Duquesne Light.</p> <p>For early retirement situations, the benefit offset is reduced according to the applicable early retirement reduction factor based on service and plan provisions as of the emergence date. Optional Form Factors	<p>For payments other than lump sums, conversions are generally based on an interest rate of 6.00% and the RP-2000 Combined Healthy Mortality Table (weighted 50% male and 50% female).</p> <p>For lump sums, conversions currently use the interest rates under Internal Revenue Code section 417(e) from October of the preceding plan year and the mortality table under section 417(e) for the plan year. For certain legacy² participants, a grandfathered basis also applies.</p>
Years of Credited Service	Prior to January 1, 2014, a year in which at least 1,000 hours are worked. On and after January 1, 2014, elapsed time from date of participation (one month credited if at least one hour worked in the month).

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Under the American Rescue Plan Act of 2021 (ARPA), the stabilized interest rates for certain purposes will be adjusted once the ARPA stabilization is applied. By default, this stabilization would have applied starting with the 2020 plan year.

On August 27, 2021, Energy Harbor Corp. made an explicit election not to apply the ARPA interest rate stabilization (for any purposes) to the Energy Harbor Pension Plan for Collectively Bargained Employees for the 2020 plan year. Therefore, this Schedule SB reflects stabilized 2020 minimum funding interest rates without regard to ARPA.

Additionally, line items 11b(1), 16 and 20 were based on the 2019 plan year results for the FirstEnergy Corp. Master Pension Plan (EIN/PN: 34-1843785/001).

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of the Plan

The Energy Harbor Pension Plan for Collectively Bargained Employees (the Plan) is a non-contributory defined benefit pension plan. The Plan Sponsor is Energy Harbor Corp. (the Company). The Company contributes such amounts as necessary, on an actuarial basis, to provide plan assets sufficient to pay benefits to the Plan's participants. The normal retirement age is 65. The Plan also provides for early retirement upon reaching established age and service levels, certain disability benefits, death benefits and certain termination provisions. Participants should refer to the appropriate summary plan description or the plan document for more complete information. The Plan is a qualified plan under Section 401(a) of the Internal Revenue Code (IRC) of 1986, as amended, and is therefore exempt from taxation.

The Plan was established February 27, 2020. The Plan is a successor plan to the FirstEnergy Corp. Master Pension Plan (FE Master Plan). Only active participants were transferred from the FE Master Plan to the Plan. The benefits that participants accrued through February 26, 2020, remain the obligation of the FE Master Plan.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits include benefits expected to be paid to:

- a) Retired or terminated employees or their beneficiaries.
- b) Beneficiaries of employees who died while in active service.
- c) Present employees and their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by Aon, consulting actuaries, using actuarial assumptions to reflect the time value of money and the probability that a benefit payment will be made between the valuation date and the expected payment date.

The significant actuarial assumptions used in the valuation of accumulated plan benefits as of February 27, 2020 were:

- a) Life Expectancy - The mortality basis is derived from Pri-2012 combined healthy mortality table projected generationally using scale MP-2019 (base year 2012).
- b) Retirement Age - Scale ranging from 4% of all eligible employees at age 55 to 100% at age 70.
- c) Withdrawal - Scale ranging from 19.30% at age 15 and no years of service to 0% at age 55 with 3 plus years of service.
- d) Discount Rate - Obligations of the Plan are assumed to be settled at a rate of 3.38%.
- e) Actuarial Method – Standard unit cost method.

Initial obligation assumed recorded on the Statement of Changes in Accumulated Plan Benefits relates to participants in Part L of the FE Master Plan who accrued a cash balance benefit under the FE Master Plan which were not offset after the transfer to the Energy Harbor Pension Plan.

NOTES TO FINANCIAL STATEMENTS

Contributions and Funding

It is the Company's policy to make contributions to the Plan in amounts estimated to be necessary to fully provide for all employee's benefits by the time they retire. During the 2020 Plan year, the employer contributions exceeded the minimum funding requirements as specified in the Employee Retirement Income Security Act of 1974 (ERISA).

The Company made \$20,002,432 in voluntary contributions to the Plan for the Plan year of February 27, 2020 (date of inception) through December 31, 2020. This amount is recorded on the Statement of Changes in Net Assets Available for Benefits as contributions.

Expenses

All expenses incurred in the asset custody and management of the Plan are charged to and paid by the Plan. Other administrative expenses of the Plan are paid by the Company.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Investment Valuation and Income Recognition

Investments in securities are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date (as exit price). See Note 6 for further discussion of fair value measurements. Securities are valued at quoted market prices.

Actuarial fees and other Plan administrative expenses are charged against Plan assets.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends from investments are recorded on an ex-dividend date.

The Statement of Changes in Net Assets Available for Benefits presents the net appreciation or depreciation in the fair value of the Plan's investments, which consist of the net realized gains or losses and the net unrealized appreciation or depreciation of those investments.

ENERGY HARBOR PENSION PLAN FOR COLLECTIVELY BARGAINED EMPLOYEES
NOTES TO FINANCIAL STATEMENTS

Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in estimations and assumptions, it is at least reasonable possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Investment securities are exposed to various risks such as interest rate, market and credit risks. Market values of securities fluctuate based on the magnitude of changing market conditions; significant changes in market conditions could materially affect Plan investments.

Subsequent Events

The Plan has evaluated subsequent events through October 15, 2021, the date the financial statements were available to be issued and determined that there were no events or transactions which require recognition or disclosures in these financial statements.

NOTE 2 - GENERAL DESCRIPTION AND OPERATION OF THE PLAN

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for more complete information. The Plan is subject to the provisions of ERISA.

Participation and Benefits

The Plan is a defined benefit plan covering all bargaining unit employees of the Company. The Plan provides for pension, death, disability, service and separation benefits calculated under formulas principally based on length of service. Participants may elect to receive their plan benefits in various forms of an annuity or lump sum payment.

Termination Provisions

Although the Company has not expressed any intent to do so, subject to limitations set forth in certain collective bargaining agreements, the Plan may be amended or terminated with the agreement of relevant unions. If no collective bargaining agreement is in effect requiring the continued maintenance of the Plan, the Company may terminate the Plan at their sole discretion. In the event of termination the net assets would be distributed as follows:

- a) Any excess assets after the Plan's satisfaction of all benefits owed under the Plan shall revert to the Company or participating employers.
- b) The right of affected eligible participants to benefits accrued to the date of such termination or partial termination will be nonforfeitable.

Vesting

Participants are vested after three years of eligibility service.

NOTE 3 - TAX STATUS

Although the Plan has not received a determination letter from the Internal Revenue Service (IRS), the Plan was designed in accordance with the applicable requirements of the IRC, and therefore, the Plan is qualified, and the trust established for the Plan is exempt from federal income tax, under the applicable sections of the IRC. The Plan has been amended since formation on February 27, 2020. However, the Company and Plan's tax counsel believe the Plan is currently designed and being operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 4 - FINANCIAL DATA CERTIFIED BY TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, all investments, at fair value, including any investment income earned thereon during the period of February 27, 2020 (date of inception) through December 31, 2020, is certified to be complete and accurate or derived from information certified to be complete and accurate by U.S. Bank (the Trustee). Refer to the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits for amounts certified by the Trustee.

NOTE 6 – INVESTMENTS AND FAIR VALUE MEASUREMENTS

The Plan's investments at December 31, 2020 are summarized as follows:

	<u>Fair Value</u>	<u>Cost</u>
Mutual Funds	\$ 3,783,596	\$ 3,962,411
Money market funds	10,972,958	10,972,778
Total assets in the fair value hierarchy	<u>\$ 14,756,554</u>	<u>\$ 14,935,189</u>

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonable possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of Net Assets Available for Benefits.

Authoritative accounting guidance establishes a fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy gives the highest priority to Level 1 measurements and the lowest priority to Level 3 measurements.

The three levels of the fair value hierarchy are as follows:

Level 1 – Quoted prices for identical instruments in active markets.

Level 2 – Quoted prices for similar instruments in active markets;
– Quoted prices for identical or similar instruments in markets that are not active; and
– Model-derived valuations for which all significant inputs are observable market data.

Models are primarily industry-standard models that consider various assumptions, including quoted forward prices for commodities, time value, volatility factors and current market and contractual prices for the underlying instruments, as well as other economic measures.

Level 3 – Valuation inputs are unobservable and significant to the fair value measurement. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020:

	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 3,783,596	\$ -	\$ -	\$ 3,783,596
Money market funds	10,972,958	-	-	10,972,958
Total assets in the fair value hierarchy	<u>\$ 14,756,554</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 14,756,554</u>

The classification of fair value measurements within the hierarchy is based upon the lowest level of input that is significant to the measurement. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to total investments at fair value of the Plan. Valuation methodologies used for assets and liabilities measured at fair value are as follows:

Mutual funds: Valued at fair value as determined by quoted market prices on active markets.

Money market funds: Valued based on the underlying investments traded on the active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total Plan net assets available for benefits. For the period from February 27, 2020 (date of inception) through December 31, 2020, there were no significant transfers in or out of levels 1, 2 or 3.
