Note 1. Description of Plan

The following is a summary of certain provisions of the Jakprints Inc. 401(k) Profit Sharing Plan and Trust (the "Plan"). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established as of January 1, 2012 covering all eligible employees of Jakprints, Inc., Indie Merchandising, LLC and Monopile, LLC (collectively the "Company"). Participation in the Plan is automatic, and employees are enrolled with a withholding rate of 4% of compensation. Eligible employees are enrolled on the first day of each quarter after attaining age 18 and completing six months of eligible service. Contribution deferrals will automatically increase by 1% each year until reaching a maximum of 10% of compensation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Administration – The Plan is sponsored and administered by the Company which is responsible for controlling and managing the operations and administration of the Plan.

Contributions – Each year, participants may contribute up to 92% of their annual eligible compensation, as defined by the Plan. The Plan allows for Roth 401(k) contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make discretionary matching and profit sharing contributions to the Plan. In April 2020, the Company discontinued matching contributions equal to 25% of the employee's contributions of the first 6% of compensation deferred. For 2020, no discretionary Company profit sharing contributions were made to the Plan. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts – Each participant's account is credited with the participant's contributions and Company contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in Company contributions plus actual earnings thereon is based on years of continuous service at a rate of 20% per year after years two through six. A participant is fully vested after six years of credited service, or in the event of death, disability, or attaining normal retirement age.

Notes Receivable From Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate is based on the prevailing rate of prime plus 1% at the time of the loan. Principal and interest are paid ratably through payroll deductions.

Note 1. Description of Plan (Continued)

Payment of Benefits – If the participant's vested benefit in the Plan does not exceed $5,000 at the time of termination of employment, the participant's benefit must be distributed in a single lump-sum payment as soon as administratively feasible. If the participant's vested benefit in the Plan exceeds $5,000 at the time of termination of employment, the participant may elect to either maintain their account in the Plan, receive a lump-sum distribution or rollover their account balance into another individual retirement account. Participants may also withdraw their vested account balances at any time on or after the age of 59½, or upon retirement, death or disability. Additionally, the Plan has provisions for active participants to make hardship withdrawals from their voluntary contribution accounts, subject to limitations and restriction.

Forfeitures – At December 31, 2020 and 2019, forfeited nonvested accounts totaled $16,782 and $26,489, respectively. These accounts may be used to pay certain Plan expenses, to reduce future employer contributions or allocated to participants. In 2020, $11,904 of forfeitures was allocated to participants.

Termination Provisions – Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements are prepared using the accrual basis of accounting.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisers and Mid Atlantic Trust Company ("MATC") (the "Trustee"). See Note 4 for a discussion of fair value measurements.

Purchases and sales of investment securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions – Participant contributions are recorded and credited to each participant's account when received by the Trustee. Any contributions attributable to the Plan year not received by the trust by the last day of the Plan year are recorded as a receivable.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses has been recorded as of December 31, 2020 and 2019. If a participant ceases to make scheduled repayments and the plan administrator deems the participant note receivable to be in default, the participant note receivable balance is reduced and a benefit payment recorded.

Note 2. Summary of Significant Accounting Policies (Continued)

Payment of Benefits – Benefits are recorded when paid.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Administrative Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of distributions are charged directly to the affected participant's account and are included in administrative expenses. Indirect investment related expenses are included in net appreciation in fair value of investments.

Evaluation of Subsequent Events – The Plan has evaluated subsequent events through October 13, 2021, the date on which the financial statements were available to be issued.

Note 3. Unaudited Information

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified to the completeness and accuracy of all investments and notes receivable from participants reflected in the statements of net assets available for benefits at December 31, 2020 and 2019, the supplemental schedule of assets (held at end of year) at December 31, 2020, the related investment activity and loan interest activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2020 and investment information in the accompanying notes to the financial statements. This information is unaudited by independent accountants.

Note 4. Fair Value Measurements

The Plan estimates the fair value of financial instruments using available market information and other generally accepted valuation methodologies. The inputs used to measure fair value are classified into three levels:

- Level 1 – Quoted market prices in active markets for identical assets and liabilities
- Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data
- Level 3 – Unobservable inputs in which little or no market data exists

Note 4. Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for plan assets measured at fair value:

- The fair value of investments in the money market fund is valued based on their reported net asset value ("NAV"). The NAV of short-term securities is based on the market value of their underlying investments, adjusted for charges and expenses, and is classified as Level 2.

- The fair values of registered investment companies are determined based on their quoted closing market prices in active markets for identical investments, and are classified as Level 1.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodologies used from 2019 to 2020. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level the Plan's assets at fair value as of December 31, 2020 and 2019:

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total

Note 5. Income Tax Status

The prototype on which the Plan is based obtained an opinion letter on April 10, 2014, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). Although the Plan has been amended since adopting the prototype, the plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2020, there are no uncertain positions taken or expected to be taken that would require such recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions.

During 2020, the Department of Labor began an investigation related to the Plan. The investigation closed September 9, 2021.

Note 6. Risks and Uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 7. Party-in-Interest Transactions

Certain Plan investments are held in a money market account managed by the Trustee. In addition, administrative expenses in the amount of $26,771were paid to the Trustee of the Plan during the year ended December 31, 2020; therefore, these transactions qualify as party-in-interest transactions.

Note 8. COVID-19 Global Pandemic

On January 30, 2020, the World Health Organization declared the outbreak of the coronavirus disease 2019 ("COVID-19") a global health emergency and subsequently declared the COVID-19 outbreak a global pandemic in March 2020. The pandemic has adversely affected domestic and global economic activity and the full impact continues to evolve as of the date of this report. Accordingly, the effects of the pandemic on the Plan's current and future operations are unknown at this time.
