Note 1. Description of the Plan

The following description of Schutt Sports, LLC 401(k) Savings Plan (f/k/a Kranos Corporation 401(k) Savings Plan) (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan sponsored by Kranos Acquisition Corporation (the Company) covering all employees of the Company who are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company is the custodian of the Plan's assets.

Contributions: Each year, participants may contribute pretax annual compensation, as defined in the Plan document. Contributions are subject to certain limitations. Participants may also make voluntary nondeductible contributions to the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes 50% of the initial 4% of base compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. Participants direct the investment of their contributions and the Company's contributions to selected investment options as offered by the Plan. Participants may change their investment options daily.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts plus earnings thereon is based on years of service. In addition, a participant will receive credit for any period of severance of less than 12 consecutive months. A participant is vested 20% after two years of service, and is vested an additional 20% for each additional year of service. A participant is 100% vested after six years of credited service.

Notes from participants: Notes from participants are stated at their unpaid principal balances plus any accrued but unpaid interest. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a rate of 4.25% to 6.50%, which is commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: Upon termination of service due to death, disability, retirement or other reasons, a participant may receive the value in his or her account in a lump-sum distribution. Hardship withdrawals are also permitted under circumstances provided by the Plan. During 2020, the Plan implemented certain Coronavirus Aid, Relief, and Economic Security (CARES) Act provisions to allow for the waiver of 2020 required minimum distributions.

Forfeited accounts: At December 31, 2020 and 2019, forfeited nonvested accounts totaled $2,396 and $2,599, respectively. Forfeited nonvested accounts can be used to pay Plan expenses or to reduce employer contributions. During the year ended December 31, 2020, forfeitures of $37,179 were used to reduce employer contributions. Accumulated forfeitures will be applied to pay expenses or reduce the employer contribution in 2021.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value (except for fully benefit-responsive contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Contributions receivable: Employee and employer contributions receivable are recorded based on when the employee deferral and related employer match are earned, related to the participant's service or wages earned during the plan year. Employee and employer contributions receivable are carried at reported amounts less an estimate made for doubtful receivables. Management of the Company reviews contributions receivable annually to determine if any receivables will potentially be uncollectible. Contributions receivable are written off when deemed uncollectible. The Company determined no allowance was necessary as of December 31, 2020 and 2019.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment-related expenses are included in net appreciation of fair value of investments. Certain administrative functions applicable to the Plan are performed by employees of the Company. No such employees receive compensation from the Plan. Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Recently adopted accounting pronouncement: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement,* which modifies the disclosure requirements for fair value measurements by removing, modifying or adding certain disclosures. The Plan adopted ASU 2018-13 effective January 1, 2020. The ASU had an immaterial impact on the financial statements.

Note 3. Information Certified or Provided by the Custodian

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information certified or provided by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, the custodian, except for comparing such information certified or provided by the custodian to information included in the Plan's financial statements and the supplemental schedule related to the following assets:

	2020	2019
Investments at fair value	$ 13,178,554	$ 11,894,493
Investments at contract value	201,380	64,277
	$ 13,379,934	$ 11,958,770
Notes receivable from participants	$ 327,925	$ 417,307

The custodian also certified to the completeness and accuracy of $1,159,526 of net appreciation in fair value of investments, $621,640 of interest and dividends, and $19,054 of interest income on notes receivable from participants for the year ended December 31, 2020.

Note 4. Fair Value Measurements

FASB Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Shares of registered investment companies: Registered investment companies are valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies (mutual funds)	$ 13,178,554	$ -	$ -	$ 13,178,554
Investments at fair value	$ 13,178,554	$ -	$ -	$ 13,178,554

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies (mutual funds)	$ 11,894,493	$ -	$ -	$ 11,894,493
Investments at fair value	$ 11,894,493	$ -	$ -	$ 11,894,493

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to the total net assets available for benefits. For the year ended December 31, 2020, there were no transfers in or out of Level 3.

Note 5. Fully Benefit-Responsive Investment Contract

The Plan holds an investment contract that meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

Note 5. Fully Benefit-Responsive Investment Contract (Continued)

The following table presents a disaggregation of contract value between types of investment contracts held by the Plan:

Type	2020	2019
Traditional investment contract	$ 201,380	$ 64,277

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to Plan participants. The crediting rate is based on a formula established by the contract issuer, but may not be less than 0%. The crediting rate is reviewed on a semiannual basis for resetting.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Such events include the following: (1) the Plan's failure to qualify under section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under section 501(a) of the Internal Revenue Code, (2) premature termination of the contract, (3) Plan termination or merger, (4) changes to the Plan's prohibition on competing investment options or (5) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that significantly affect the Plan's normal operations. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

Note 6. Party-in-Interest Transactions

Fees paid by the Plan to Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, the custodian, of the Plan's investment assets were $6,424 for the year ended December 31, 2020.

Certain administrative and audit fees are paid by the Company. For the Plan year ended December 31, 2020, the Company paid $13,000 of fees paid on behalf of the Plan. The Company also provides certain administrative services at no cost to the Plan.

Note 7. Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8. Tax Status

The Plan is a prototype plan developed by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company. The prototype plan has received a favorable opinion letter from the Internal Revenue Service dated March 31, 2014, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code. The Plan has been amended since receiving this determination. However, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Management has evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision liability for income taxes has been included in the financial statements.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The spread of COVID-19, a novel strain of coronavirus, is altering the behavior of businesses and people throughout the world, including the United States. Further, financial markets have experienced significant volatility attributed to COVID-19 concerns. The continued spread of COVID-19 may adversely impact the local, regional, national and global economies. The extent to which COVID-19 impacts the Plan's results will depend on future developments, which are highly uncertain and cannot be predicted. The impact is highly dependent on the breadth and duration of the outbreak and could be affected by other factors that cannot currently be predicted. Accordingly, management cannot presently estimate the overall operational and financial impact to the Plan, but such an impact could have a material adverse effect on the financial condition of the Plan.

Note 10. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 14, 2021, the date the financial statements were available to be issued.

Note 1. Description of the Plan

The following description of Schutt Sports, LLC 401(k) Savings Plan (f/k/a Kranos Corporation 401(k) Savings Plan) (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan sponsored by Kranos Acquisition Corporation (the Company) covering all employees of the Company who are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company is the custodian of the Plan's assets.

Contributions: Each year, participants may contribute pretax annual compensation, as defined in the Plan document. Contributions are subject to certain limitations. Participants may also make voluntary nondeductible contributions to the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes 50% of the initial 4% of base compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. Participants direct the investment of their contributions and the Company's contributions to selected investment options as offered by the Plan. Participants may change their investment options daily.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts plus earnings thereon is based on years of service. In addition, a participant will receive credit for any period of severance of less than 12 consecutive months. A participant is vested 20% after two years of service, and is vested an additional 20% for each additional year of service. A participant is 100% vested after six years of credited service.

Notes from participants: Notes from participants are stated at their unpaid principal balances plus any accrued but unpaid interest. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a rate of 4.25% to 6.50%, which is commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: Upon termination of service due to death, disability, retirement or other reasons, a participant may receive the value in his or her account in a lump-sum distribution. Hardship withdrawals are also permitted under circumstances provided by the Plan. During 2020, the Plan implemented certain Coronavirus Aid, Relief, and Economic Security (CARES) Act provisions to allow for the waiver of 2020 required minimum distributions.

Forfeited accounts: At December 31, 2020 and 2019, forfeited nonvested accounts totaled $2,396 and $2,599, respectively. Forfeited nonvested accounts can be used to pay Plan expenses or to reduce employer contributions. During the year ended December 31, 2020, forfeitures of $37,179 were used to reduce employer contributions. Accumulated forfeitures will be applied to pay expenses or reduce the employer contribution in 2021.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value (except for fully benefit-responsive contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Contributions receivable: Employee and employer contributions receivable are recorded based on when the employee deferral and related employer match are earned, related to the participant's service or wages earned during the plan year. Employee and employer contributions receivable are carried at reported amounts less an estimate made for doubtful receivables. Management of the Company reviews contributions receivable annually to determine if any receivables will potentially be uncollectible. Contributions receivable are written off when deemed uncollectible. The Company determined no allowance was necessary as of December 31, 2020 and 2019.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment-related expenses are included in net appreciation of fair value of investments. Certain administrative functions applicable to the Plan are performed by employees of the Company. No such employees receive compensation from the Plan. Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Recently adopted accounting pronouncement: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement,* which modifies the disclosure requirements for fair value measurements by removing, modifying or adding certain disclosures. The Plan adopted ASU 2018-13 effective January 1, 2020. The ASU had an immaterial impact on the financial statements.

Note 3. Information Certified or Provided by the Custodian

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information certified or provided by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, the custodian, except for comparing such information certified or provided by the custodian to information included in the Plan's financial statements and the supplemental schedule related to the following assets:

	2020	2019
Investments at fair value	$ 13,178,554	$ 11,894,493
Investments at contract value	201,380	64,277
	$ 13,379,934	$ 11,958,770
Notes receivable from participants	$ 327,925	$ 417,307

The custodian also certified to the completeness and accuracy of $1,159,526 of net appreciation in fair value of investments, $621,640 of interest and dividends, and $19,054 of interest income on notes receivable from participants for the year ended December 31, 2020.

Note 4. Fair Value Measurements

FASB Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Shares of registered investment companies: Registered investment companies are valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies (mutual funds)	$ 13,178,554	$ -	$ -	$ 13,178,554
Investments at fair value	$ 13,178,554	$ -	$ -	$ 13,178,554

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies (mutual funds)	$ 11,894,493	$ -	$ -	$ 11,894,493
Investments at fair value	$ 11,894,493	$ -	$ -	$ 11,894,493

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to the total net assets available for benefits. For the year ended December 31, 2020, there were no transfers in or out of Level 3.

Note 5. Fully Benefit-Responsive Investment Contract

The Plan holds an investment contract that meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

Note 5. Fully Benefit-Responsive Investment Contract (Continued)

The following table presents a disaggregation of contract value between types of investment contracts held by the Plan:

Type	2020	2019
Traditional investment contract	$ 201,380	$ 64,277

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to Plan participants. The crediting rate is based on a formula established by the contract issuer, but may not be less than 0%. The crediting rate is reviewed on a semiannual basis for resetting.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Such events include the following: (1) the Plan's failure to qualify under section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under section 501(a) of the Internal Revenue Code, (2) premature termination of the contract, (3) Plan termination or merger, (4) changes to the Plan's prohibition on competing investment options or (5) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that significantly affect the Plan's normal operations. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

Note 6. Party-in-Interest Transactions

Fees paid by the Plan to Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, the custodian, of the Plan's investment assets were $6,424 for the year ended December 31, 2020.

Certain administrative and audit fees are paid by the Company. For the Plan year ended December 31, 2020, the Company paid $13,000 of fees paid on behalf of the Plan. The Company also provides certain administrative services at no cost to the Plan.

Note 7. Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8. Tax Status

The Plan is a prototype plan developed by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company. The prototype plan has received a favorable opinion letter from the Internal Revenue Service dated March 31, 2014, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code. The Plan has been amended since receiving this determination. However, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Management has evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision liability for income taxes has been included in the financial statements.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The spread of COVID-19, a novel strain of coronavirus, is altering the behavior of businesses and people throughout the world, including the United States. Further, financial markets have experienced significant volatility attributed to COVID-19 concerns. The continued spread of COVID-19 may adversely impact the local, regional, national and global economies. The extent to which COVID-19 impacts the Plan's results will depend on future developments, which are highly uncertain and cannot be predicted. The impact is highly dependent on the breadth and duration of the outbreak and could be affected by other factors that cannot currently be predicted. Accordingly, management cannot presently estimate the overall operational and financial impact to the Plan, but such an impact could have a material adverse effect on the financial condition of the Plan.

Note 10. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 14, 2021, the date the financial statements were available to be issued.
