American Salon Group 401(k) Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the American Salon Group 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 2020 covering substantially all employees of American Salon Group (the Company) who have completed 90 days of service and attained 18 years of age. Employees may enter the Plan on the first day of the following month after becoming eligible. The Plan offered immediate participation for employees who were employed at January 1, 2020. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The trustees are responsible for oversight of the Plan. The trustees, along with an investment advisor, determine the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may elect to defer up to the maximum contribution amount allowed by the law. The Plan allows for voluntary after-tax (Roth) contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts from other qualified plans (rollover). In addition, the Plan allows for discretionary employer matching contributions. The Plan also provides for a discretionary profit sharing contribution for participants who are employed on the last day of the Plan year. There were no discretionary employer matching contributions or profit sharing contributions made for the year ended December 31, 2020.

Participant Accounts

Each participant's account is credited with the participant's contributions, any contributions by the Company, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the discretionary employer matching and profit sharing contributions is based on years of credited service and are subject to the following vesting schedule:

<u>Years of service</u>	<u>Vested percentage</u>
Less than 1 year	0%
1 years	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

American Salon Group 401(k) Plan

Notes to Financial Statements

Payment of benefits

Upon death, disability, or retirement or termination of services, a participant's voluntary contributions plus the vested amount of Company contributions and earnings thereon are paid in a single lump sum payment as provided by the Plan. If the participant's account balance is between \$1,000 and \$5,000, the Plan may make an automatic rollover of the participant's vested interest in his or her account to a qualified individual retirement account. If the participant's account balance is less than \$1,000, the Plan may make an automatic lump sum distribution to the participant equal to the participant's vested interest in his or her account. Distributions of a participant's account balance may be authorized at any time by the Plan administrator under certain hardship conditions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustees determine the Plan's valuation policies utilizing information provided by investment advisors and the insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments are recorded when paid.

Plan Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of benefit payments are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

American Salon Group 401(k) Plan

Notes to Financial Statements

Subsequent Events

The Plan has evaluated subsequent events through October 15, 2021, the date the financial statements were available to be issued.

3. Information Certified by the Custodian

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator has elected to restrict the scope of the auditor's examination. Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2020, and net appreciation in fair value of investments for the year then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Massachusetts Mutual Life Insurance Company, the custodian. Auditing procedures have not been performed on this information except to compare such information to the information included in the accompanying financial statements and supplemental schedule.

4. Fair Value Measurements

The following is a description of the valuation methodologies used for assets measured at fair value. As of December 31, 2020, the fair value of the pooled separate accounts measured at net asset value was \$322,458.

Pooled separate accounts: The fair values of participation units in the pooled separate accounts are based upon the net asset values (NAV) of such accounts which are provided by the custodian. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the pooled separate accounts less its liability. This practical expedient is not used when it is determined to be probable that the pooled separate accounts will sell the investment for an amount different than the reported NAV. The accounts allow for daily redemptions and contributions.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The pooled separate accounts invest in target date funds that seek to provide long-term investors with an asset strategy designed to maximize assets for retirement consistent with the risk level and projected retirement date associated with each fund. The funds are designed to automatically adjust their risk over time in order to reduce the risk of investment in equity securities and shift from a focus on capital appreciation to one of capital preservation, while maintaining some exposure to capital appreciation asset classes. There are no redemption restrictions or unfunded commitments on these investments. The Plan has the ability to redeem the investments at the NAV (or its equivalent) in the near term.

American Salon Group 401(k) Plan

Notes to Financial Statements

5. Tax Status

The Company adopted a non-standardized prototype profit sharing plan with a cash or deferral arrangement sponsored by Rea & Associates Inc (Rea). Rea received a favorable opinion letter from the IRS dated March 31, 2014. Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes that the Plan and related trust is designed and operating in accordance with applicable sections of the Internal Revenue Code (IRC). Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

7. Party in Interest Transactions

Certain Plan investments are units of pooled separate accounts managed by Massachusetts Mutual Life Insurance Company (MassMutual). MassMutual is the custodian as defined by the Plan, therefore, these transactions qualify as party in interest transactions. During the year ended December 31, 2020, the Plan paid MassMutual administrative fees totaling \$4,749.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.
