**THE COGAR GROUP LTD. RETIREMENT PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2020 AND 2019**

**NOTE 1. DESCRIPTION OF THE PLAN**

The following description of the The Cogar Group Ltd. Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the plan's provision.

***General***

The plan is a defined contribution plan covering eligible employees. The Plan is subject to the provisions of ERISA. Employees are immediately eligible in the profit sharing components of the plan. Employees are eligible to begin making salary deferrals on the first of the month coincident with or next following their date of hire.

***Contributions***

Each Year participants may contribute a portion of their compensation not to exceed the maximum allowable IRC 402(g) limit of \$19,500 for 2020. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also rollover amounts representing distributions from other qualified plans.

The employer may make discretionary matching contributions and discretionary non-elective contributions in addition to the Prevailing Wage Contribution amounts specified for the Plan year.

The maximum IRC 415 limit for total contributions made on behalf of a participant (deferrals and employer contributions) is \$57,000. Catch-up contributions can be made in excess of this limit.

Participants direct the investment of their contributions into various investment options offered by the plan. The plan currently offers various mutual funds as options for participants

***Participant Accounts***

Each participant's account is credited with (a) the Participant's salary deferrals (b) the Company contributions and, (c) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on each participant's earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account balance.

**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2020 AND 2019**

**NOTE 1. DESCRIPTION OF THE PLAN (Continued)**

***Vesting***

Participants are vested immediately in their contributions, prevailing wage contributions plus actual earnings thereon.

Vesting in the company's discretionary match and discretionary profit sharing contributions are based on years of service (defined as 1,000 hours worked in a plan year) as follows:

| Years of service | Vested |
|------------------|--------|
| less than 1      | 0%     |
| 1                | 20%    |
| 2                | 40%    |
| 3                | 60%    |
| 4                | 80%    |
| 5 or more        | 100%   |

***Notes Receivable from Participants***

Participants loans are not allowed for active participants in the Plan. The only loans allowed are loans from other previous plans that were transferred into the Plan. The loans are secured by the balance in the participant's account.

***Payment of Benefits***

Participants, or their beneficiaries, are eligible to receive payment of benefits in the event of the participant's retirement, death, disability, or termination or the termination of the Plan.

Benefits are distributed according to provisions set forth in the plan document. Such options include lump sum and partial distributions.

**THE COGAR GROUP LTD. RETIREMENT PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2020 AND 2019**

**NOTE 2. SUMMARY OF ACCOUNTING POLICIES**

***Basis of Presentation***

The financial statements of the Plan are prepared on the accrual basis of accounting. Employer contributions and income from investments are recorded when they are earned. Employee contributions are recorded when withheld from pay. Expenses are recorded in accounting period in which they are incurred.

***Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

***Investment Valuation and Income Recognition***

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded in the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investment bought and sold as well as held during the year.

**NOTE 4. FAIR VALUE MEASUREMENTS**

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 as described as follows:

|                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|----------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Level 1</i> | <i>Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <i>Level 2</i> | <i>Inputs to the valuation methodology include</i> <ul style="list-style-type: none"> <li>• <i>quoted prices for similar assets or liabilities in active markets;</i></li> <li>• <i>quoted prices for similar assets or liabilities in inactive markets;</i></li> <li>• <i>inputs other than quoted prices that are observable for the asset or liability;</i></li> <li>• <i>inputs that are derived principally from or corroborated by observable market data by correlation or other means.</i></li> </ul> <p><i>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</i></p> |
| <i>Level 3</i> | <i>Inputs to the valuation methodology are unobservable and significant to the fair value measurement.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for asset measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

*Mutual Funds:* The fair value is determined on the basis of quoted prices in an active market. Shares of mutual funds are valued at the net asset value ("NAV") of shares held by the Plan on the last business day of the Plan year where the price of the fund is quoted in an active market.

**NOTE 4. FAIR VALUE MEASUREMENTS (Continued)**

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2020 and 2019:

**NOTE 6. GUARANTEED INVESTMENT CONTRACT WITH GREAT WEST LIFE & ANNUITY INSURANCE COMPANY**

The Plan has a group annuity contract with Great West Life & Annuity Insurance Company that invests contributions in the Key Guaranteed Portfolio Fund totaling \$1,175 for 2020 and \$1,021 for 2019. The Key Guaranteed Portfolio Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly.

Contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits attributable to the group annuity contract since the contract was determined to be a FBRIC. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Certain events limit the ability of the Plan to transact at contract value with the contract issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. At December 31, 2020, the Plan Administrator does believe that such events which would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed for reset on a quarterly basis.

In addition, certain events allow the issue to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include the following: (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreements without the consent of the issuer. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:

**NOTE 7. RELATED-PARTY TRANSACTIONS**

The Plan investments at the end of the year are funds managed by Great West Life & Annuity Insurance Company and Great West Trust Company, LLC. Great West Life & Annuity Insurance Company and Great West Trust Company, LLC is the Custodian as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions.

**NOTE 8. PLAN TERMINATION**

Although it has not expressed any intent to do so, the company has the right under the plan to discontinue its operations at any time and to terminate the plan subject to the provisions of ERISA. In the event of the plan termination, participants will become 100 percent vested in their accounts. Any unallocated assets of the plan shall be allocated to participant accounts and distributed in such a manner as the company may determine.

**NOTE 9. PLAN AMENDMENT AND TAX STATUS**

The Plan obtained its latest determination letter in which the Internal Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**NOTE 10. RISK AND UNCERTAINTIES**

The Plan invests in various securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

COVID-19, a respiratory disease caused by a new strain of coronavirus, was declared a pandemic by the World Health Organization in March 2020 and continues to affect a wide range of economic activities, as well as domestic and global business and financial markets. In December 2020, the U.S. Food and Drug Administration approved the distribution of COVID-19 vaccines that, once widely adopted and utilized, may materially reduce the impact of COVID-19 going forward, although the impact of the virus including certain new strains remain uncertain. The impact, scope and duration of any new strains of the virus, and the ability to successfully distribute the vaccines, remain largely unknown. The attendant governmental policy and social responses, and economic and financial consequences, continue to be the subject of considerable attention and development. The Plan continues to perform all of its traditional operations, however, the Plan's individual investment values have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and related impact on the Plan's liquidity cannot be determined at this time.
