NOTE A – DESCRIPTION OF PLAN

The following description of the Central Concrete Supermix, Inc. ("Company") Employees 401(k) and Retirement Savings Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all employees of the Company who have attained the age of 18 and completed 6 months of service. The Plan is subject to the provisions of ERISA. The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

Contributions. Each year, participants may contribute up to 16% of pretax annual compensation, as defined in the Plan, subject to a dollar limit which is set by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. Effective for Plan Years beginning after September 1, 2015, the Plan includes an automatic salary deferral feature. The Plan sponsor will automatically withhold a portion of the participant's compensation from the employee's pay each payroll period equal to 2% of compensation and contribute that amount to the Plan as a salary deferral. The Plan participant may elect an alternative deferral amount or elect not to defer under the Plan in accordance with the deferral procedures of the Plan. The Company contributes 25% of the first 6% of base compensation that a participant contributes to the Plan. Contributions are subject to certain IRS limitations.

Participant Accounts. Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. To earn a year of service, the participant must be credited with at least 1,000 hours of service during the Plan year. A participant is 100% vested upon reaching four years of credited service. Refer to the table below for vesting percentages base on years of service. A 100% vesting applies as a result of death, disability and normal retirement age.

Years of Service	Less than 1	1	2	3	4
Vested %	0%	40%	60%	80%	100%

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest equals the prime rate as published in the Wall Street Journal on the 14th of each month (or on the first business day preceding the 14th in the event the 14th is not a business day), plus 1 percent. The interest rate will be fixed for the duration of the loan except as otherwise required by law. Principal and interest is paid ratably through payroll deductions.

NOTE A – DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits. In-service withdrawals: Hardship withdrawals of employee deferral accounts only. Post-separation Withdrawals.

1. As soon as practicable after death, disability or Normal Retirement Age (NRA).
2. As soon as practicable after employee terminates.
3. Distributions are paid throughout the year.

Forms of Distribution.

Lump sum

Forfeited Accounts. At December 31, 2020 and 2019, forfeited non-vested accounts totaled $1,100 and $1,747, respectively. These accounts will be used to reduce future employer contributions. Also, in 2020, employer contributions were reduced by $882 from forfeited non-vested accounts.

Definition of Compensation. Compensation that is subject to income tax and paid during the Plan year, including overtime and deferrals under Sections 401(k), 125 and 403(b) and excluding bonuses. Compensation for a new participant is recognized as of the first day of the plan year.

Retirement Age and the Start of Benefits. A participant's normal retirement age is the first of the month coincident with or next following the attainment of age 59½.

Entry Dates. The Plan's entry dates for open enrollment are on the first of the month following meeting eligibility requirements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value, when applicable). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance companies. See Fair Value Measurements footnote for discussion of fair value measurements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributes the current year excess contributions to the applicable participants prior to March 15th, if applicable.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through ***October 7, 2021***, which is the date the financial statements were available to be issued.

NOTE C – FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Leve 1 or Level 2 inputs were not available.

NOTE C – FAIR VALUE MEASUREMENTS (CONTINUED)

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Common Stocks: Valued at the closing price reported on the active markets on which the individual securities are traded.

Corporate Bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yield currently available on comparable securities of issuers with similar credit ratings.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

U.S. Government Securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

NOTE C – FAIR VALUE MEASUREMENTS (CONTINUED)

	Assets at Fair Value as of December 31, 2020

	$ 4,132,313	$ 1,713,774	$ 160,756	$ 6,006,843

Gains and losses included in changes in net assets available for benefits for the years ended December 31, 2020 and 2019 are reported as net appreciation in fair value of investments.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2020, there were no significant transfers between Levels 1 and 2 and no transfers into or out of Level 3.

NOTE D – NONPARTICIPANT DIRECTED INVESTMENTS

Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investments is excluded from these financial statements as all Plan investments are participant directed.

NOTE E – INVESTMENTS IN COMMON/COLLECTIVE TRUSTS

Through a Collective Investment Trust (CIT), participating plan contributions are deposited into a Group Annuity Contract issued by MetLife, a guaranteed investment contract. The Contract simulates the performance of a guaranteed investment contract through the guarantee of a specific interest rate and a portfolio of financial instruments that are owned by MetLife. The participating plan's assets are the unit ownership interests in the Contract. The Contract provides that the Trust execute transactions at contract value. MetLife guarantees the contract value, which represents contributions, plus interest, less participant-initiated withdrawals or transfers. This is the Contract's guaranteed value. The Contract's fair value equals the Contract's proportionate share of the fair value of the separate accounts. A participating plan's fair value in each contract equals the Contract's fair value times the ratio of the plan's guaranteed value to the respective Contract's guaranteed value. If a participating plan terminates participation in the Trust, the lesser of the guaranteed value or the fair value will be received.

Defined contribution plans can invest in fully benefit-responsive contracts either directly or indirectly through common/collective trusts (CCTs) or pooled separate accounts (PSAs).

NOTE E – INVESTMENTS IN COMMON/COLLECTIVE TRUSTS (CONTINUED)

Professional standards state that contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts. Professional standards also state that fully benefit-responsive investment contracts are limited to direct investments between the plan and the issuer.

Plans holding fully benefit-responsive investment contracts through beneficial ownership of common collective trusts or pooled separate accounts are not considered fully benefit-responsive investment contracts and the plan's investments in the CCT are not considered fully-benefit responsive investment contracts and should be reported at fair value. The Contract is reported at fair value determined using level 2 inputs.

The Plan also invests in the State Street S&P 500 Index IX Fund, a Collective Investment Fund measured at fair value using the net asset value per unit practical expedient and accordingly has not been classified in the fair value hierarchy. The fair value total amount presented for the aforementioned category in the table above is intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

Net investment income (loss) per unit is calculated based upon an average of daily units outstanding. The calculation is based on the value of a single unit of participation outstanding throughout the year. It represents the percentage change in the net asset value per unit between the beginning and end of the year. The Calculation include only those expenses charged directly to the Class. The result may be reduced by any administrative or other fees which are incurred in the management or maintenance of the individual participant accounts. Calculation include only those expenses charged directly to the Fund and do not include expenses charged to the funds in which the Fund invests.

The fund seeks an investment return that approximates as closely as practical, before expenses, the performance of the S&P 500 (the "Index") over the long term. The Fund is managed using a "passive" or "indexing" investment approach by which State Street Global Advisors Trust Company ("SSGA") attempts to match, before expenses, the performance of the Index. SSGA will typically attempt to invest in securities comprising the Index in similar proportions as held in the Index. SSGA will not hold each security in Index because of the small size and low liquidity of securities at the tail of Index. As such SSGA may employ sampling or optimization techniques to construct Fund.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes the investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2020 and 2019, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

NOTE E – INVESTMENTS IN COMMON COLLECTIVE TRUSTS (CONTINUED)

NOTE F – RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by Reliance Trust Company, an FIS Company. Reliance Trust Company is the trustee and record keeper for the Plan and, therefore, these transactions qualify as party in interest transactions.

Fees paid by the Plan amounted to $33,781 as reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2020.

All of these party in interest transactions are exempt from the prohibited transaction rules of ERISA.

NOTE G – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

NOTE H – TAX STATUS

The Plan sponsor has adopted the ADP, LLC Prototype Non-standardized Profit Sharing Plan. The IRS has determined and informed the Company by a letter dated July 16, 2014, that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

Although the Plan may have been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position and more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE I – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE J – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2020 and 2019 to Form 5500:

	2020	2019

Less: Amounts allocated to withdrawing participants at December 31, 2019	(-)

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to year-end but not yet paid as of that date.

NOTE K – CHANGES IN CLASSIFICATION

The financial statements may include changes in classification made to previously issued financial statements to conform to the current year presentation.

NOTE L – CERTIFIED INVESTMENTS

The Plan administrator has elected to restrict the audit with respect to assets held and transactions executed by certain qualifying institutions, as permitted by Title 29 U.S. Code of Federal Regulations Part 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2020 and 2019, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2020, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Reliance Trust Company, an FIS Company (the trustee of the Plan).
