Note 1. Plan Description

The following description of the Corsearch Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General and eligibility: Established on March 1, 2018, the Plan is a defined contribution plan covering substantially all full-time employees of Corsearch, Inc. (the Company or Employer or Plan Sponsor) who are not a member of a collective bargaining group or non-resident aliens. Employees are eligible to begin participating upon hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute up to 75% of their annual pre-tax or post-tax compensation, as defined by the Plan document, up to the maximum amount allowed by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company makes a safe-harbor matching contributions to the Plan up to 5% of an eligible participants' compensation, with a 100% match of the first 3% and then 50% of the next 2% of a participant's contributions. In addition, the Plan allows for discretionary non-elective contributions equal to a discretionary percentage, to be determined by the Company on a periodic basis. Participants must be active on the last day of the Plan year with at least 1,000 hours of service during the Plan year to be eligible for discretionary non-elective contributions. There were no discretionary non-elective contributions made for the year ended December 31, 2020.

Participant accounts: Each participant's account is credited with the participant's contributions, the Company's safe harbor matching contribution, the Company's discretionary non-elective contribution, if any, plan earnings and administrative expenses. Allocations are based on participant contributions, participant earnings or account balances, as defined by the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options: Participants have the right to direct the investment of Plan assets held under the Plan on their behalf into various investment securities offered by the Plan and can change the allocation of future contributions and current account balances at their discretion.

Notes receivable from participants: Participants are allowed to borrow a minimum of $1,000 and a maximum of $50,000 from their fund accounts, up to 50% of the participant's vested account balance. Each note bears interest at prime plus 1.00%, with prime being determined by the rate published in the Wall Street Journal (3.25% at December 31, 2020). Interest rates on outstanding notes receivable ranged from 4.25% to 6.50% at December 31, 2020. Note terms generally range from one to five years except for notes to purchase a principal residence, which can have a term of up to fifteen years. Principal and interest are paid ratably through payroll deductions, and notes receivable outstanding at December 31, 2020 are due in various amounts through November 2025. A participant may have no more than two notes outstanding at a time.

Vesting: Participants are immediately vested in their voluntary contributions and the Company's safe-harbor matching contributions plus the actual earnings thereon. Vesting in the Company's discretionary non-elective contributions plus actual earning thereon is based upon years of continuous service and begins after one year of service, as defined by 1,000 hours. A participant is 100% vested upon reaching three years of credited service. Participants are immediately vested upon reaching the normal retirement age, upon death or disability while employed.

Note 1. Plan Description (Continued)

Payment of benefits: Upon termination of service, participants may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount or periodic installments. If a participant's vested balance is $1,000 or less, the participant will receive a single lump distribution of their entire vested account balance. If a participant's vested balance is greater than $1,000 but less than $5,000, and the participant does not elect to have such distribution paid directly to an eligible retirement plan in a direct rollover or to receive the distribution, then the Plan Administrator will pay the distribution in a direct rollover to an IRA designated by the Plan Administrator. In-service distributions are permitted for participants that attain age 59 ½, or in situations of hardship or disability.

Administrative expenses: The Plan's administrative expenses are paid by the Plan. Certain administrative functions are performed by employees of the Company. However, such employees receive no compensation from the Plan.

Forfeitures: The balance of forfeited employer contributions and allocated earnings thereon may be used to reduce the Company's discretionary contributions or to pay Plan administrative expenses. As of December 31, 2020 and 2019, there were no forfeited balances available for use and there was no forfeiture activity during the year ended December 31, 2020.

On March 27, 2020, President Trump signed into law the "Coronavirus Aid, Relief, and Economic Security (CARES) Act." The CARES Act, among other things, includes several relief provisions available to tax qualified retirement plans and their participants. The CARES Act allows eligible plan participants to request penalty-free distributions of up to $100,000 before December 31, 2020 for qualifying reasons associated with the COVID-19 pandemic, permits increasing the limit for plan loans, permits suspension of loan payments due for up to one year, and permits individuals to stop receiving 2020 required minimum distributions. The Plan has implemented certain provisions of the CARES Act and will execute a formal Plan amendment within the timeframe required by law.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and uncertainties: The Plan may invest in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

The Coronavirus (COVID-19) pandemic continues to have an unprecedented impact on global and North American economic conditions. These conditions may continue to affect the fair values of Plan assets. The ultimate impact of COVID-19 on the Plan's financial position and results of operations is dependent on future developments, including the duration of the pandemic and the associated length of its impact on the global economy, which cannot be predicted at this time.

Note 2. Significant Accounting Policies (Continued)

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measure at their unpaid principle balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2020. If a participant ceases to make note repayments and the Plan Administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule H, line 4i—schedule of assets (held at end of year).

Benefit payments: Benefits are recorded when paid.

Recently adopted accounting pronouncement: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement: Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*. This amendment to the Accounting Standards Codification (ASC) Topic 820, Fair Value Measurement, removes the disclosure requirements for the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy, the policy for timing of transfers between levels, the valuation process for Level 3 fair valued measurements, and for nonpublic entities, the changes in unrealized gains and losses for the period included in earnings for recurring Level 3 fair value measurements held at the end of the reporting period. The amendment also clarifies that the measurement uncertainty disclosure is to communicate information about the uncertainty in measurements as of the reporting date. The amendment also clarifies that in lieu of a roll forward for Level 3 fair value measurements, a nonpublic entity is required to disclose transfers into and out of Level 3 of the fair value hierarchy and purchases and issues of Level 3 assets and liabilities. This amendment was adopted by the Plan on January 1, 2020 and did not significantly impact the Plan's financial statements.

Note 3. Information Certified by Great-West Trust Company, LLC

The following is a summary of the Plan's asset and income information as of December 31, 2020 and 2019, and for the year ended December 31, 2020, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee, Great-West Trust Company, LLC, and furnished to the Plan Administrator. The trustee also certified the completeness and accuracy of $544,246 of net appreciation in fair value of investments, $119,925 of interest and dividends and $5,392 of interest income on notes receivables from participants for the year ended December 31, 2020.

Note 4. Fair Value Measurements

The FASB ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the topic are discussed below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2020 and 2019. Following is a description of the valuation methodologies used for assets measured at fair value.

Note 4. Fair Value Measurements (Continued)

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020 and 2019.

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 4,939,891	$ -	$ -	$ 4,939,891

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 3,505,354	$ -	$ -	$ 3,505,354

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2020, there were no transfers in or out of Level 3.

Note 5. Plan Termination

Although they have not expressed any intent to do so, the Company has the right to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6. Party-in-Interest Transactions

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan or party rendering services to the Plan, the employer and certain others. As such, transactions conducted by the Company and Great-West Trust Company, LLC, the trustee, qualify as party-in-interest transactions.

Note 7. Income Tax Status

The Plan has adopted a prototype non-standardized profit sharing plan sponsored by Great-West Trust Company, LLC. The prototype non-standardized profit sharing plan provider has received an opinion letter from the Internal Revenue Service as to the qualified status. The opinion letter has been relied upon by the Plan. The Plan Administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded as of December 31, 2020 there are no uncertain positions taken by or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

Note 8. Subsequent Events

The Plan Administrator has evaluated subsequent events for potential recognition and disclosure through October 15, 2021, the date on which the financial statements were available to be issued.
