Note 1 – Description of the Plan

The following description of the Pinnacle Plastic Products 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan, as amended and restated, is a defined contribution plan covering all eligible employees of Pinnacle Industrial Enterprises, Inc. (the Company and Plan Administrator) who have completed 1 year of service (as defined by the Plan document) and have attained age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Accounts

Each participant's account is credited with the participant's contributions, Company contributions, and an allocation of Plan earnings (losses). The allocation of Plan earnings (losses) is based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the vested value of the participant's account. Participants direct the investment of their account balances among the investment funds offered by the Plan.

Contributions

Participants may elect to contribute pre-tax deferrals up to the maximum allowed by the IRS, as defined by the Plan document. Participants are also permitted to contribute amounts distributed from another qualified plan (rollover contributions).

The Plan provides for discretionary matching contributions, to be determined by the Company. Effective April 2020, the Company elected to make discretionary matching contributions of 5% of participant deferrals with a maximum match of $500 per participant. The Company matched 15% of participant deferrals from January 2019 through March 2020. The Plan also provides for a discretionary nonelective contribution to be allocated to eligible participants as defined by the Plan document. There was no discretionary nonelective contribution in 2020 or 2019.

During 2019, the Company contributed amounts to correct operational defects relating to plan years 2007 through 2019, in accordance with the Employee Plans Compliance Resolution System. These amounts are reflected as other employer contributions within the statements of changes in net assets available for benefits.

Payment of Benefits

The Plan generally provides that upon retirement, death, disability, or termination, participants are entitled to receive the vested value of their account in a lump sum payment or as further defined in the Plan document. Upon meeting certain other qualifications, participants may also be eligible for in-service distributions and hardship distributions.

Note 1 – Description of the Plan (continued)

Vesting

Participants are immediately vested in their contributions (including related earnings and losses). Company contributions and related earnings (losses) become fully vested according to the following schedule.

Years of Service	Vested Percentage
Less than 2	0%
2, but less than 3	20%
3, but less than 4	40%
4, but less than 5	60%
5, but less than 6	80%
6 or more	100%

Forfeitures

Forfeitures may be used to offset plan expenses or to reduce Company contributions. Unallocated forfeitures at December 31, 2020 and 2019 were $27,512 and $11,804, respectively. Forfeitures totaling $52 and $1,521 were used to reduce the Company's 2020 and 2019 matching contributions, respectively.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974. In the event of Plan termination, participants become fully vested in the total value of their account.

Administrative Expenses

Administrative expenses are paid by the Company or by the Plan, as permitted in the Plan document. The services are rendered by parties-in-interest to the Plan.

Note 2 – Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Benefit payments to participants are recorded upon distribution.

Note 2 – Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In contrast, contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts. Contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. There have been no changes in the valuation methods used. The Plan's investments are held by Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC as of December 31, 2020. The Plan's investments were held by Principal Life Insurance Company as of December 31, 2019.

Mutual funds represent investments with various investment managers. The fair values of these investments are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are valued at net asset value.

Units held in pooled separate accounts and common/collective trust funds are valued at net asset value (NAV). The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less any liabilities. This practical expedient is not used when it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV.

The Great-West Investments Fixed Account, held as of December 31, 2020, is a fully-benefit responsive guaranteed interest account valued at contract value, which represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

As of December 31, 2019, the Plan held Principal Life guaranteed interest accounts which are backed by Principal's general account. The account is credited with contributions and earnings on the underlying investments, and charged for participant withdrawals and administrative expenses. The guaranteed interest accounts promise contract value for a benefit event (termination, death, disability and retirement); however, there is a possible surrender charge when funds are withdrawn prior to their maturity. The reference rate used to determine if a surrender charge applies is equal to the applicable fixed U.S. Treasury rate (as defined) plus 0.50%. A charge applies when the reference rate is higher than the rate being credited to the unmatured funds being transferred or withdrawn. Principal Life guaranteed interest accounts are considered non-benefit responsive, and are included in the financial statements at fair market value as reported to the Plan by Principal. Fair market value is the amount that would be received were the funds to be withdrawn or transferred within the Plan prior to maturity, and represents the guaranteed interest account contract value adjusted as previously described to reflect the rates of interest available in the marketplace for similar investments.

Note 2 – Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent Events

Management has evaluated subsequent events through October 15, 2021, the date the financial statements were available to be issued.

Note 3 – Investments

All investment information disclosed in the accompanying financial statements and schedules, including investments held at December 31, 2020 and 2019, net appreciation (depreciation) of investments, and dividends and interest for the years then ended, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the custodians.

Note 4 – Guaranteed Interest Account

The Plan holds a traditional investment contract that meets the fully-benefit responsive investment contract criteria, and therefore is reported at contract value. The guaranteed interest account issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Note 4 – Guaranteed Interest Account (continued)

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value without adjustment. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer. The guaranteed interest account permits the issuer or the Plan to terminate the agreement prior to the scheduled maturity date as a result of specific occurrences as defined in the contract.

Note 5 – Fair Value Measurements

The various inputs that may be used to determine the value of the Plan's investments are summarized in three broad levels within the fair value hierarchy. The three levels are described below:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly; and

Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table provides information about significant unobservable inputs related to the Plan's level 3 investment in the Principal Life guaranteed interest accounts for year ended December 31, 2019:

Type	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range of Rates
Principal Life Guaranteed Interest Accounts	$464,761	Market Value Adjustment	Composite Guaranteed Rate	0.64% - 1.82%
			Current Rate on 12/31/2019	2.07% - 2.16%

The Plan did not hold the Principal Life guaranteed interest accounts as of December 31, 2020.

Note 5 – Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020 and 2019. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	Investments at Fair Value as of December 31, 2020		
	Level 1	Level 3	Total
Mutual funds	$ 263	$ -	$ 263
Total investments measured at NAV as the practical expedient	-	-	1,231,918
Total investments at fair value	$ 263	$ -	$ 1,232,181

	Investments at Fair Value as of December 31, 2019		
	Level 1	Level 3	Total
Guaranteed interest accounts	$ -	$ 464,761	$ 464,761
Total investments measured at NAV as the practical expedient	-	-	795,138
Total investments at fair value	$ -	$ 464,761	$ 1,259,899

For Level 3 investments, purchases for the years ended December 31, 2020 and 2019 totaled $3,466 and $1,375,829, respectively. There were no issuances or transfers into or out of Level 3 of the fair value hierarchy for the years ended December 31, 2020 and 2019.

Note 6 – Income Tax Status

The Internal Revenue Service ruled on March 31, 2014, that the Prototype Non-Standardized Profit Sharing Plan with CODA (the prototype plan of Great-West Trust Company, LLC upon which the Plan is based) qualifies under Section 401 of the Internal Revenue Code (IRC) and the related trust is, therefore, not subject to tax under present income tax law. The Plan has since been amended. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator will take the necessary steps, if any, to bring the Plan's operations into compliance with the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
