NOTE 1 – DESCRIPTION OF PLAN

Cadeco Industries Inc. 401(k) Plan (the Plan) is a qualified retirement plan adopted by Cadeco Industries, Inc. (the Company), to enable employees to save for retirement. The Plan was originally effective January 1, 2015 and was amended and restated effective December 1, 2017. The Plan is administered by the Company and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In March 2020, the novel coronavirus (COVID-19) outbreak was declared a pandemic by the World Health Organization. The COVID-19 pandemic has also led to extreme volatility in financial markets and has affected and may continue to affect Plan assets. While the potential economic impact brought by, and the duration of, COVID-19 may be difficult to assess or predict, a widespread pandemic could result in significant disruption of global financial markets. The extent to which COVID-19 impacts the financial markets will depend on future developments that are highly uncertain and cannot be predicted.

The following description of the Plan provides only general information. Participants should refer to the plan document and trust agreement for a more complete description of the Plan's provisions.

Eligibility – All non-excluded employees of the Company are eligible to participate in the Plan upon completing the Plan's eligibility requirements. In order to participate in the Plan, an employee must be at least age 18 and have completed three months of service. Employees will become a participant in the Plan on the first day of the month following the completion of the eligibility requirements.

Contributions – Participants may elect to defer a percentage (up to 90%) of their eligible compensation into the Plan as elective deferrals on a pre-tax or Roth basis, not to exceed the dollar limit set by law. Participants who are projected to reach age 50 during a calendar year will be eligible to make a catch-up contribution at any time during that calendar year. Participants may increase or decrease the amount of their contribution percentage or suspend contributions at any pay date.

The Company will make a matching contribution equal to 50% of the first 3% of participants' elective deferrals. The Company may also decide to make nonelective contributions to the Plan, although the Company is not required to do so.

Participants can roll over part or all of an eligible rollover distribution they receive from an eligible retirement plan into the Plan as a rollover contribution.

Participant Accounts – Each participant's account is credited with the participant's contributions, employer contributions, rollover contributions, as well as an allocation of Plan earnings. Participant accounts are charged with an allocation of certain administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options – The Company decides which investment options are available to participants. Participants direct the investment of their contributions into various investment options offered by the Plan. Company contributions are invested per the participants' direction. The Plan offers mutual funds and a common/collective trust fund as investment options for participants. Participants may modify elections, transfer existing balances, and obtain information regarding investments on a daily basis.

Vesting – Participants are always 100% fully vested in their elective deferral, safe harbor and rollover contributions, and Plan earnings thereon. Company matching and nonelective contributions are subject to graded vesting schedules.

Participants will become 100% vested in their matching contributions account after three years of service. For nonelective contributions, participants will earn 20% vesting each year after two years of service and will become 100% vested after six years of service. Participants will also become 100% fully vested in their total account balance upon death, disability, or normal retirement while still employed by the Company.

Notes Receivable From Participants – Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their account balance, reduced by any outstanding loan balance, if any, during the previous 12 months. Loans are adequately secured by the balance in the participant's account and bear a reasonable rate of interest. Participants may only have one loan outstanding at any given time. Loans must be fully repaid through payroll deductions within five years unless the loan is used for the purchase of a primary residence. Loans used to purchase a primary residence may be repaid within a period of no more than 30 years. A participant has to repay any outstanding loan before a new loan can be made.

Payment of Benefits – A distribution to a participant can be made due to retirement or termination of employment. A beneficiary or beneficiaries may request a distribution in the event of death or disability. A participant can elect their entire vested account balances to be paid in a non-rollover distribution, direct rollover distribution, or a combination of both. A participant's consent is required to distribute vested account balances greater than $5,000. If the vested account balance is $5,000 or less, the Company may direct the trustee that any amount exceeding $1,000 be distributed to an IRA. If the vested account balance is $1,000 or less, the Company may direct Reliance Trust Company, the trustee, to distribute it as a lump sum distribution.

Participants who have reached age 59½ may elect to withdraw all or a portion of their deferral contributions account while still employed by the Company. Hardship distributions may also be made to satisfy certain immediate and heavy financial needs that a participant may have.

Forfeited Accounts – If a participant terminates employment before becoming 100% vested in their account balance, the non-vested portion of their account balance will be forfeited. The Company may use forfeitures to pay Plan expenses or to reduce amounts otherwise required to be contributed to the Plan. At December 31, 2020 and 2019, the forfeited non-vested account totaled $21 and $20, respectively. During 2020, the Company used $394 to offset Company matching contributions.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Company to make estimates and assumptions that affect the reported amount of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See *Note 3* for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 or 2019.

Excess Participant Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2020 and 2019 excess contributions to the applicable participants prior to March 15, 2021 and 2020, respectively.

Benefits Paid to Participants – Benefits are recorded when paid.

Administrative Expenses – Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation.

Reclassification – A reclassification of investments was made to the prior financial statements to conform to the current period presentation. The reclassification had no impact on net assets available for benefits or changes in net assets available for benefits.

Subsequent Events – The Plan has evaluated subsequent events through October 11, 2021, the date the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- **Level 1** – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- **Level 2** – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- **Level 3** – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trust Fund – Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that's securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2020			
	Level 1	Level 2	Level 3	Total
Mutual funds	**$ 302,747**	**$ -**	**$ -**	**$ 302,747**
Total assets in the fair value hierarchy	**$ 302,747**	**$ -**	**$ -**	**302,747**
Common collective trust fund, measured at NAV as practical expedient				**1,523**
Total investments at fair value				**$ 304,270**

	2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 183,034	$ -	$ -	$ 183,034
Total assets in the fair value hierarchy	$ 183,034	$ -	$ -	183,034
Common collective trust fund, measured at NAV as practical expedient				1,463
Total investments at fair value				$ 184,497

NOTE 4 – INFORMATION CERTIFIED BY TRUSTEE

The Company has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee of the Plan has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2020 and 2019, the supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2020, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2020.

Accordingly, as permitted under such election, the Company instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the trustee, except for comparing such information certified by the trustee with information included in the Plan's financial statements and supplemental schedule.

NOTE 5 – STABLE VALUE FUND

The Morley Stable Value Fund (the Fund) is a collective trust fund offered by the Principal Global Investors Trust Company whose objective is to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile and liquidity for benefit responsive payments. The Fund invests primarily in a variety of high-quality table value investment contracts (the performance of which may be predicted on underlying fixed income securities), as well as cash and cash equivalents. The Fund is considered to be fully benefit-responsive and is presented at fair value.

Participants ordinarily may direct either the withdrawal or transfer of all or a portion of their investment at contract value. The Fund imposes certain restrictions on the Plan, and the Fund itself may be subject to circumstances that affect its ability to transact at contract value. The Company believes that the occurrence of events that would cause the Fund to transact at less than contract value is not probable.

Redemption is generally permitted daily. Individual participants redemptions for benefit payments and redemptions by participants to reinvest in options that do not compete with the common collective trust are generally permitted without restriction. Were the Plan to initiate a full redemption of the common collective trust, a twelve-month advance written notice is required.

The net asset value of the Fund at December 31, 2020 and 2019 was $1,523 and $1,463, respectively.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, all participants become 100% vested. The Company will arrange for distributions upon Plan termination as soon as administratively feasible.

NOTE 7 – TAX STATUS

The Company adopted a prototype non-standardized profit sharing plan with CODA, sponsored by ADP, LLC. The prototype plan obtained its latest opinion letter on July 8, 2014, in which the IRS stated that the prototype plan, as then designed, was acceptable under section 401 of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees. The Plan has not requested its own determination letter from the IRS. The Company believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, no provision for income tax has been included in the Plan's financial statements.

U.S. GAAP requires the Company to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 – RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by the trustee. These transactions qualify as party in interest transactions. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibited transactions rules under ERISA.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
