Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

To the Rio Tinto America Inc. Benefits Governance Committee of
U.S. Borax Inc. Retirement Plan for Represented Employees
South Jordan, Utah

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2020 Financial Statements

We have performed an audit of the financial statements of U.S. Borax Inc. Retirement Plan for Represented Employees (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C), which comprise the statement of net assets available for benefits as of December 31, 2020, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2020 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2020 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of December 31, 2020, and for the year then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion on the 2020 Financial Statements

In our opinion, based on our audit and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the 2020 Financial Statements* section of our report

- the amounts and disclosures in the accompanying 2020 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying 2020 financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2020 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the 2020 Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2020 Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2020 Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the 2020 financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2020 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the 2020 financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Emphasis of Matter – Plan Merger

As discussed in Note 1 to the financial statements, the governing body of the Plan approved the merger of the Plan into the Rio Tinto America Inc. Retirement Plan effective December 31, 2020. Our opinion is not modified with respect to this matter.

Other Matter – 2020 Supplemental Schedule Required by ERISA

The 2020 supplemental schedule of non-exempt transactions is presented for purposes of additional analysis and is not a required part of the 2020 financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2020 financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the 2020 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare

the 2020 financial statements or to the 2020 financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Other Matter - Report on the 2019 Financial Statements

The financial statements of the Plan as of December 31, 2019 were audited by ACM LLP, whose partners and professional staff joined BDO USA, LLP as of August 1, 2020, and has subsequently ceased operations. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed ACM LLP not to perform, and they did not perform, any auditing procedures with respect to the information certified by the qualified institution. Their report, dated September 25, 2020, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an opinion and accordingly, they did not express an opinion on the 2019 financial statements, and (b) the form and content of the information included in the 2019 financial statements other than that derived from the information certified by the qualified institution were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

U.S. Borax Inc. Retirement Plan for Represented Employees

Notes to Financial Statements

Note 1. Description of the Plan

The following description of U.S. Borax Inc. Retirement Plan for Represented Employees (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General: The Plan was established by U.S. Borax Inc. (the “Company”). On December 31, 2015, the Plan was restated in its entirety. The Plan was a noncontributory defined benefit pension plan covering all eligible Boron Represented or Wilmington Represented Employees, as defined in the Plan document. Employees began participating in the Plan when they completed at least one year of eligibility service (1,000 hours in a 12-month period). The Plan was closed to new hires and rehires effective May 17, 2010 for Boron Represented Employees and June 17, 2011 for Wilmington Represented Employees.

The Company is a subsidiary of Rio Tinto America Inc., which is an indirect, wholly-owned subsidiary of Rio Tinto plc (the “Parent”). The Plan was intended to be a qualified retirement plan under the Internal Revenue Code (“IRC”) and was subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. The Company previously appointed Conduent HR Services to be the third party administrator of the Plan. Effective November 1, 2020, the Company appointed Aon Consulting, Inc. to be the third party administrator of the Plan. The Plan was administered by the Rio Tinto America Inc. Benefits Governance Committee (the “Plan Administrator”).

The Plan was amended on January 21, 2020 to allow certain terminated vested participants (as defined in the amendment) to make an election to receive their plan benefits as a lump sum or annuity payment (calculated according to the parameters in the amendment) during a limited election period. Participants were required to submit their election to take a lump sum payment or annuity payment between January 31, 2020 and March 31, 2020. All lump sum and annuity payments were completed by June 30, 2020.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”) was passed into law. The Company declined to elect the expanded plan features covered under the Act.

The Plan participated in the Rio Tinto America Master Retirement Trust (“Master Trust”), which was created to hold the qualified defined benefit investment assets of the Plan and other plans sponsored by the Parent’s subsidiaries. The Company appointed State Street Bank and Trust Company (“Trustee”), to be the trustee of the Master Trust and to invest and manage assets of the related plans.

Plan merger: Effective December 31, 2020, the Plan was merged into the Rio Tinto America Inc. Retirement Plan (“RTA Plan”). The RTA Plan participates in the Master Trust, as described above. The Plan’s net assets and accumulated benefits were transferred into the legal control of the RTA Plan on December 31, 2020. This included investment balances and accrued plan expenses of \$103,677,742 and \$(9,292) respectively. There was no physical transfer of assets as both plans were invested in the same master trust. See Note 3 for the amount of accumulated plan benefits assumed by the RTA Plan.

2019 Annuity Buy Out: Effective April 2, 2019, the Plan entered into, and was amended to reflect, a group annuity contract purchase (“2019 Annuity Buy Out”) with Met Tower Life, under which the entire benefit rights of 680 annuitized individuals were fully guaranteed by Met Tower Life, legally enforceable by the annuitized individuals against Met Tower Life, and guaranteed by Met Tower Life by way of an irrevocable commitment to pay benefit liabilities to the annuitized individuals. Net premium payments totaled approximately \$113,949,000 related to the 2019 Annuity Buy Out. Funds under this contract were allocated and applied to the purchase of these annuities and were excluded from the Plan’s interest in the Master Trust and present value of the accumulated plan benefit obligations. A contract amendment resulted in an additional amount owed to Met Tower Life of \$89,019 in 2020.

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Pension benefits: Participants were eligible for monthly retirement benefit payments upon reaching normal retirement age (age 65). Pension payments were calculated using years of pensionable service, as defined. Pensionable service was based upon 1,800 hours each calendar year. Participants received varying monthly benefit amounts based on years of pensionable service and a monthly benefit multiplier. Generally, the monthly benefit multiplier was based on the year of termination of employment from the Company. For Boron Participants, the monthly benefit multiplier amount per year of service was \$75 as of November 4, 2006, and for all future benefits. For Wilmington Participants, the monthly benefit multiplier amount per year of services was \$76 on June 17, 2017, and will continue to increase by one dollar increments every July 1st through 2021.

The normal forms of retirement benefits available under the Plan were a monthly life annuity or, for a married participant, a qualified 50 percent joint and survivor annuity. Participants received a lump-sum distribution in the event that the actuarial present value of the participant's entire vested benefit was \$5,000 or less. Participants could elect to receive retirement benefits after attainment of age 55. Benefit payments could be reduced for early commencement.

A Participant who completed less than five years of vesting service and who had not attained age 55 while employed by the Company was entitled to no benefits under the Plan. A Participant became fully vested upon attainment of age 55 while employed by the Company or completion of five years of vesting service, whichever occurred first.

Due to the merger of the Plan into the RTA Plan, future benefits will continue to be paid under the terms described above, within the RTA Plan.

Termination of the Plan: Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. Effective December 31, 2020, the Plan was merged into the RTA Plan. Future benefits will be paid out of the RTA Plan, under the provisions of ERISA and related regulations.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions which affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Plan contributions were made and the actuarial present value of accumulated plan benefits was reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term could be material to the financial statements.

U.S. Borax Inc. Retirement Plan for Represented Employees

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Risks and uncertainties: The Master Trust invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, currency exchange rate, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near-term and such changes could materially affect the amounts reported by the Master Trust.

The Master Trust invests in securities with contractual cash flows, such as futures contracts, forward contracts, credit default swaps, interest rate swaps and options. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, delinquencies and/or defaults, and may be adversely affected by a shift in the market's perception of the issuers and changes in interest rates.

The COVID-19 outbreak was declared a worldwide pandemic on March 11, 2020 by the World Health Organization ("WHO"). The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to instability in financial markets. As a result, the Master Trust's investment portfolio has incurred volatility. However, because the values of the Master Trust's investments have and will fluctuate in response to changing market conditions, the amount of losses that may be recognized in subsequent periods, if any, cannot be determined. The value of the Plan's interest in the Master Trust's investments has a direct impact on its funded status. As a result of such changes in market value and possible changes to the actuarial assumptions used in determining the present value of accumulated plan benefits, the Plan Sponsor may need to make greater cash contributions to fund the RTA Plan. However, the actual impact, if any, on future required contributions, liquidity, and benefit limitations cannot be determined at this time.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price which would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Rio Tinto America Inc. Pension Investment Committee ("Investment Committee") determines the Master Trust's investment valuation policies, utilizing information provided by the investment advisors and Trustee. See Note 6 for a discussion of fair value measurements.

Interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date. Purchases and sales of investments are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Valuation of investment in Master Trust: The Master Trust is a multiple-plan trust, ownership of which is divided among the participating plans based on allocated units of participation. Each participation unit has a value equal to the total fair value of the Master Trust's net assets divided by the total participation units outstanding. As a result of the mergers of the Plan and the Kennecott Utah Copper Pension Plan for Represented Hourly Employees into the RTA Plan effective December 31, 2020, the Master Trust will be dissolved, effective January 1, 2021, as all net assets are now held by the Rio Tinto America Inc. Retirement Plan Trust ("RTA Plan Trust").

U.S. Borax Inc. Retirement Plan for Represented Employees

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

The Plan had an undivided interest in the Master Trust's underlying investments. The Plan's investment in the Master Trust was stated at fair value. The Plan's interest in the Master Trust was based on the beginning-of-year value of the Plan's interest in the Master Trust, plus actual contributions and allocated investment income (loss), less actual distributions and actual and allocated investment-related expenses. The net investment income (loss) and investment-related expenses attributable to the Master Trust, which were not plan-specific, were allocated by the Trustee to the Plan based on the Plan's pro rata share of each of the underlying assets of the Master Trust on a monthly basis. The Plan presented in the statements of changes in net assets available for benefits its interest in the net investment income or loss of the Master Trust, which consisted of the realized gains or losses, unrealized appreciation or depreciation, interest, dividends of the Master Trust's investments, and allocated expenses. Due to the merger of the Plan into the RTA Plan, its future interests were combined under the RTA Plan Trust on December 31, 2020.

Funding policy: The Company contributed to the Plan at such times and in such amounts as was considered necessary so contributions were sufficient to provide benefits as actuarially calculated under the terms of the Plan. The Company's funding policy was to pay contributions with the goal of eliminating the PBGC variable rate premium.

Contributions to the Plan were designed to fund at least the minimum required contributions as specified by ERISA and determined under IRC section 430(a). The minimum contribution was determined as of the beginning of the plan year, and all contributions were discounted at the effective interest rate from the date funded to the beginning of the plan year. The Company could elect to use all or a portion of any funding standard carryover balance or prefunding balance to offset the minimum required contribution for a plan year depending on the Plan's funded status. Any remaining pre-funded balances were transferred to the RTA Plan due to the merger.

The Plan was "not-at-risk" for 2020, thus allowing the use of a more favorable interest rate corridor in determining the minimum required contribution. Adjustment to the statutory interest rates specified under IRC section 430 were first introduced by the Moving Ahead for Progress in the 21st Century Act ("MAP-21") and subsequently modified by the Highway and Transportation Funding Act of 2014 ("HATFA").

The Plan met all minimum funding requirements. Under the law, the minimum required contribution for the 2020 and 2019 plan years, respectively, was \$4,515,309 and \$3,589,304. The minimum contribution for the 2020 and 2019 plan years was satisfied fully by an application of prefunding balances. Therefore, there were no contributions made to the Plan during the years ended December 31, 2020 and 2019.

Benefit restrictions under IRC section 436 depend on the Plan's Adjusted Funding Target Attainment Percentage ("AFTAP"). For 2020 and 2019, the Plan's AFTAP was 107.26 percent and 114.65 percent, respectively. As this exceeded 90 percent and the plan sponsor is not in bankruptcy, there were no restrictions on amendments increasing benefits, accelerated payments, or future accruals.

Payment of benefits: Benefits were recorded when paid by the Plan.

Administrative expenses: The Company paid a portion of the costs and expenses incurred in administering the Plan, with the Plan paying the remaining costs and expenses. The Company provided accounting and other services for the Plan at no cost to the Plan. Expenses paid directly by the Company were excluded from these financial statements, unless reimbursed by the Plan.

U.S. Borax Inc. Retirement Plan for Represented Employees

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Tax status: The Internal Revenue Service determined and informed the Company by a letter dated October 20, 2016, the Plan and the Master Trust was designed in accordance with the applicable requirements of the IRC. The Plan document was amended since receiving the determination letter. However, the Plan Administrator believes the Plan was designed and being operated in compliance with the applicable requirements of the IRC, and therefore believes that the Plan and the Master Trust are tax-exempt.

The Plan Administrator has evaluated the Plan's tax positions and concluded that the Plan had taken no uncertain tax positions which would require adjustment to the financial statements or disclosures. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax years in progress.

New Accounting Pronouncements: The Financial Accounting Standard Board ("FASB") issued Accounting Standard Update ("ASU") No. 2018-13, *Fair Value Measurements Topic (820), Disclosure Framework- Changes to the Disclosure Requirements for Fair Value Measurements*, in August 2018. ASU No. 2018-13 eliminates certain disclosures including the disclosure related to transfers between level 1 and 2 investments, the valuation policies for level 3 measurements, and for nonpublic entities, the change in the level 3 investment unrealized gains and losses included in earnings. ASU No. 2018-13 also amends certain disclosures including disclosing purchases, sales and transfers for level 3 investments instead of the level 3 roll forward. ASU No. 2018-13 is effective for periods beginning after December 15, 2019. The Plan adopted the guidance on January 1, 2020. The adoption of ASU No. 2018-13 resulted in the following changes in disclosures: a) the level 3 investment rollforward was removed and replaced with a disclosure of level 3 purchases, sales, and transfers, and b) the disclosure of the policy for timing of transfers between levels was removed.

Subsequent events: The Plan Administrator evaluated subsequent events and transactions through October 15, 2021, the date which the financial statements were available to be issued. No events, other than those noted below, require recognition or disclosure.

Effective June 19, 2021, the Company entered into a Collective Bargaining Agreement with the Boron Union whereby, the pension multiplier was increased \$1 per year from the effective date of the agreement through 2028.

As described in Note 1, the Plan became part of the RTA Plan effective December 31, 2020, and any future events will impact the combined RTA Plan.

Note 3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees with vested rights or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances—retirement, death, disability and termination of employment—are included to the extent they are deemed attributable to employee service rendered prior to the valuation date.

Note 3. Actuarial Present Value of Accumulated Plan Benefits (Continued)

The actuarial present value of accumulated plan benefits was calculated by consulting actuaries and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected future payment dates.

The actuarial valuation was done by using the beginning-of-the-year method; therefore, the accumulated plan benefits as of December 31, 2019, are presented from information provided by the actuary as of January 1, 2020. There were no significant changes in the Plan's provisions or coverage from December 31, 2019, to January 1, 2020.

The more significant assumptions underlying the actuarial computations as of December 31, 2019, are as follows:

Investment return	4.90% per annum
Mortality table used	Pri-2012 blue collar table with generational mortality projected by Scale MP2020
Retirement rates and average retirement age	Rates increasing from 2% to 100% between ages 55 and 70, and an average retirement age of 62 for active and 61 for terminated vested participants.
Withdrawal rates	Rates for pre-retirement ages that vary by age at hire, years of service (select by year until ultimate rates reached after 5 years attained), and gender.

The foregoing actuarial assumptions are based on the presumption the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2019, is summarized as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefits	\$ 14,313,079
Other participants	65,004,215
	<hr/> 79,317,294

Nonvested benefits

Total actuarial present value of accumulated plan benefits, at December 31, 2019	<hr/> 2,452,341
	<hr/> \$ 81,769,635

Note 3. Actuarial Present Value of Accumulated Plan Benefits (Continued)

Below is a summary of significant changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2019:

Actuarial present value of accumulated plan benefits, at beginning of year	\$ 169,224,622
Increase (decrease) during the year attributable to:	
Benefits paid	(5,714,486)
Interest accumulation	9,152,309
Plan amendments	84,561
Annuity Buyout	(98,193,201)
Change in actuarial assumptions*	6,287,461
Other changes**	928,369
Net change	(87,454,987)
Actuarial present value of accumulated plan benefits, at end of year	\$ 81,769,635

*The most significant changes in actuarial assumptions were a change in the Investment Return from 5.50 percent to 4.90 percent; and a change in mortality assumption from the Pri-2012 blue collar table with generational mortality projected by Scale MP-2019 to the Pri-2012 blue collar table with generational mortality projected by Scale MP-2020.

**The other changes component represents the normal operation of the pension plan. The normal operation of the pension plan consists primarily of the increase due to the ongoing benefit accruals (such as the annual increase in the benefit multiplier) and those items of plan experience that are not associated with plan asset performance.

The estimated present value of accumulated plan benefits assumed by the RTA Plan was approximately \$79,800,000 at December 31, 2020. The assumption of the accumulated plan benefits by the RTA Plan resulting from the merger is not reflected in the accumulated plan benefits as of December 31, 2019.

Note 4. Certified Investment Information

Certain information related to investments disclosed in the accompanying financial statements, including investments held at December 31, 2020 and 2019 and net appreciation (depreciation) in fair value of investments, interest and dividends for the years ended December 31, 2020 and 2019 (except for the investments and related investment income in partnerships, joint ventures and the real estate commingled fund) was certified as complete and accurate by the Trustee, a qualified institution. This financial information was obtained or derived from the certified trust statements in accordance with ERISA Section 103 (a)(3)(C), pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Information included in the accompanying financial statements as to investment in the Master Trust, investment income (loss) from the Master Trust, and investment information contained in Note 5 is presented solely upon the certified investment information.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and notes to the financial statements.

Note 5. Interest in Master Trust

The Plan participated in the Master Trust as permitted by the Plan document and Master Trust agreement. The Plan had an undivided interest of 10.9 percent in the net assets of the Master Trust as of December 31, 2019. Due to the Plan merger into the RTA Plan, the Plan had no interest in the net assets of the Master Trust as of December 31, 2020.

The Master Trust financial information disclosed below and in Note 6 represents 100 percent of the Master Trust net assets and the related changes in net assets in which the Plan has an undivided interest as of and for the years ended December 31, 2020 and 2019.

Note 6. Fair Value Measurements

Accounting guidance provides the framework for measuring fair value. That framework provides a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted market prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 6. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets within the Master Trust measured at fair value. There have been no significant changes in the methodologies used at December 31, 2020 and 2019.

Fixed-income securities: Fixed-income securities consist of U.S. and foreign government securities, mortgage backed securities, options, corporate bonds and other obligations. These securities are valued based on pricing matrices or models from pricing vendors used by the Trustee. Commingled funds are valued based on the net asset value ("NAV") of units held at year-end as provided by the fund administrator.

Common and preferred stocks: Common and preferred stocks are valued based on the last sales price on the primary exchange.

Partnerships/joint ventures/real estate: Partnerships/joint ventures/real estate investments are valued based on the estimated fair value of the participation owned by the Master Trust as determined by the general partner or investment manager of the respective partnership. The NAV of these investments is based on the fair value of the underlying investments. The fair value of the underlying investments is estimated using techniques that may rely heavily on the investment managers' assumptions and qualitative observations. The valuation inputs for the underlying investments are derived primarily from estimated future cash flows, market rates for real estate assets, market interest rates, interest spreads, credit risk, liquidity and other financial data. The Trustee uses the fair valuations from the investment managers and the Investment Committee reviews and validates their valuation methods and processes throughout the year. The Trustee did not make any adjustments to any valuations. The Investment Committee establishes and follows valuation policies and procedures, and periodically evaluates the fair valuation policies and procedures of the specialized investment consultants who perform the valuations and requests and reviews the valuation policies of the investment managers and general partners annually.

This category includes 15 private equity funds as of December 31, 2020 and 2019. They are comprised of limited partnerships that invest in private equity, both domestically and internationally. Certain of these investments are considered illiquid and are meant to be held for the life of the funds but, if necessary, sales can be arranged through the secondary market. Distributions are received through the liquidation of the underlying assets of the funds. It is estimated that the underlying assets will be liquidated over the next several years, but no later than 11 years. Unfunded commitments of the Master Trust as of December 31, 2020 and 2019 approximate \$39 million and \$49 million, respectively, for these funds.

This category also includes 6 investments in domestic and international real estate fund limited partnerships and one commingled real estate fund, for the years ended December 31, 2020 and 2019. The fair value of the limited partnerships is estimated using the NAV of the Master Trust's ownership interest in partners' capital. The valuation inputs of these investments are derived from third-party appraisals. Certain of these investments are considered illiquid, but sales can be arranged on the secondary market. Distributions from each fund are received as income is generated through the investments and as the underlying assets of the funds are liquidated. It is estimated that the underlying assets will be liquidated over the next several years, but no later than 10 years. Unfunded commitments of the Master Trust as of December 31, 2020 and 2019 approximate \$16 million and \$19 million, respectively, for these 6 investments. The commingled real estate fund is valued based on the NAV of units held at year-end as provided by the fund manager.

Notes to Financial Statements

Note 6. Fair Value Measurements (Continued)

Interest-bearing cash and cash equivalents: Interest-bearing cash is valued at cost plus accrued income, which approximates fair value measured by similar assets in active markets.

Loans secured by mortgages: Loans secured by mortgages are valued on the basis of their principal and interest payments discounted at prevailing interest rates for similar investments.

Derivatives and cash collateral: Futures contracts, credit default swaps, interest rate swaps, and other derivatives are valued based on pricing matrices or models from pricing vendors used by the Trustee. See Note 8 for additional disclosures.

The Master Trust's Level 3 investment activity included purchases of \$10,919,827 and sales of (\$17,772,445) for the year ended December 31, 2020, and purchases of \$27,090,183 and sales of (\$65,485,497) for the year ended December 31, 2019. There were no transfers in or out of Level 3 investments for the years ended December 31, 2020 and 2019.

Notes to Financial Statements

Note 6. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The Master Trust follows guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of the guidance can be determined using NAV per share as a practical expedient, when fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV.

The following tables include categories of investments within the Master Trust that measure NAV per share (or its equivalent) as a practical expedient, as of December 31, 2020 and 2019:

		2020			
		Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period

Note 7. Related Party and Party-in-Interest Transactions

The Master Trust invests in the following investments managed by the Trustee or affiliated companies that qualify as party-in-interest transactions:

	December 31	
	2020	2019
State Street Bank & Trust Co. Short Term Investment Fund	\$ 25,509,469	\$ 18,953,651

State Street Corp Preferred Stock	50,994	49,428
AXA Private Equity Fund II	16,967	30,087

Fees paid by the Master Trust and the Plan for investment-related, administrative and custodial expenses to the Trustee and affiliated companies amounted to approximately \$326,000 and \$293,000 for the years ended December 31, 2020 and 2019, respectively. Fees paid by the Master Trust or Plan for investment management services were included as a reduction of the return earned on each investment. Certain other administrative functions are performed by officers or employees of the Parent and affiliates, for which no compensation is received from the Plan.

These transactions are not, however, considered prohibited transactions under Section 408(b) of the ERISA regulations.

During the year ended December 31, 2019, the Trustee inadvertently overpaid invoices of \$6,792 for investment management services. These overpayments were refunded to the Master Trust at a later date; however, the Plan Administrator has determined that these were prohibited transactions at the Master Trust level, and has calculated and remitted the related lost earnings. This prohibited transaction is reflected on Schedule G of the 2019 Master Trust Form 5500.

During the year ended December 31, 2019, certain administrative invoices were paid twice out of Plan assets in error, which resulted in non-exempt transactions with parties-in-interest. After the 2019 plan year financial statements were issued, the Plan Administrator discovered an additional overpayment of \$2,486, related to custodial fees, which was made during the year ended December 31, 2019. This resulted in a non-exempt transaction with a party-in-interest. The Plan was reimbursed for the non-exempt transaction amounts noted above, and has calculated and remitted the related lost earnings. See the Schedule of Non-Exempt Transactions.

Notes to Financial Statements

Note 8. Derivative Financial Instruments

As of December 31, 2020 and 2019, a fixed-income manager of the Master Trust utilizes derivative financial instruments, including but not limited to, futures contracts, credit default swaps and interest rate swaps. This manager uses these financial instruments to manage exposure to interest rate and credit risks and to achieve the overall desired duration under the Master Trust's fixed-income mandate. Since all derivative instruments are held within the Master Trust, all are included at fair value in the Plan interest in the Rio Tinto America Master Retirement Trust as presented in the Statements of Net Assets Available for Benefits. Changes in the fair value (i.e., gains or losses) of the derivatives are recorded in the Plan interest in the Rio Tinto America Master Retirement Trust investment income (loss) ("Plan interest in MT Income") in the accompanying Statements of Changes in Net Assets Available for Benefits.

Futures contracts are used to adjust interest rate exposures and replicate government bond positions. Many offer opportunity to outperform due to active management of the liquid portfolio backing the exposure. These contracts are valued using a marked approach based on quoted prices, recent trading activity for identical or similar instruments or broker or dealer quotes with reasonable levels of price transparency.

Credit default swaps are used to manage credit exposure without buying or selling securities outright. Written credit default swaps increase credit exposure ("selling protection"), obligating the portfolio to buy bonds from counterparties in the event of a default. Purchased credit default swaps decrease exposure ("buying protection"), providing the right to "put" bonds to the counterparty in the event of a default.

The maximum potential amount of future payments (undiscounted) that the Master Trust as a seller of protection could be required to make under a credit default swap agreement would be an amount equal to the notional amount of the agreement. Notional amounts of all credit default swap agreements outstanding as of December 31, 2020 and 2019, for which the Master Trust is a seller of protection, are disclosed below. These potential amounts would be partially offset by any recovery values of the respective referenced obligations, up-front payments received upon entering into the agreement, or net amounts received from the settlement of buy protection credit default swap agreements entered into by the Master Trust for the same referenced entity or entities.

Interest rate swap agreements involve the exchange by the Master Trust with a counterparty of their respective commitments to pay or receive interest, e.g., an exchange of floating-rate payments for fixed-rate payments, with respect to the notional amount of principal. These swaps are used to adjust interest rate and yield curve exposure and substitute for physical securities. Long swap positions ("received fixed") increase exposure to long-term interest rates; short positions ("pay fixed") decrease exposure. Notional amounts of all interest rate swap agreements outstanding as of December 31, 2020 and 2019, are disclosed below.

The notional values of futures contracts, credit default swaps and interest rate swaps, which are summarized below, provide an indication of the extent of the Plan's involvement in such instruments. Notional amounts of derivative financial instruments do not necessarily represent amounts exchanged by parties and, therefore, are not a direct measure of the Plan's exposure from its use of derivatives.

Note 10. Plan Audit by the Department of Labor

In May 2018, the Plan received a letter from the DOL stating their intent to audit the Plan. On September 2, 2020, the Plan received notice from the DOL that the audit was complete, and the investigation of the Plan was closed, with no matters that would impact the accompanying financial statements.

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	The Boron and Wilmington pension plans were effective October 1, 1963, and merged to form the Borax Hourly Pension Plan on December 31, 2010.
Eligibility for Participation	All regular full time Boron and Wilmington hourly employees.
Participation date	First of month following the completion of one year of service. Participation is closed to Boron Hourly employees as of May 17, 2010, and to Wilmington Hourly employees as of June 17, 2011. As of April 9, 2019, all participants who were part of the annuity contract purchase that occurred on April 2, 2019 are no longer participants under the plan. However, they are still included in the 2019 funding valuation since they were participants in the plan as of the valuation date.
Normal Retirement Eligibility	Age 65.
Total Benefit—Boron Hourly	A monthly benefit equal to \$75.00 per year of pensionable service. There have been no benefit level changes in the past ten years, and there are currently no scheduled increases to the benefit level.
Total Benefit—Wilmington Hourly	A monthly benefit equal to \$78.00 per year of pensionable service. The following table lists all benefit level changes in the past ten years as well as future increases under the current Collective Bargaining Agreement:

Effective Date	Benefit Level
6/17/2011	\$75.00
6/17/2017	\$76.00
7/1/2018	\$77.00
7/1/2019	\$78.00
7/1/2020	\$79.00
7/1/2021	\$80.00

The benefit levels effective 7/1/2020 and beyond are not reflected in the 2020 funding valuation since the increases were effective after the valuation date.

Early Retirement
Eligibility

Age 55.

Total Benefit

The accrued normal retirement benefit multiplied by the appropriate age-based factor below:

<u>Age</u>	<u>Factor</u>	<u>Age</u>	<u>Factor</u>
65	1.00	59	0.88
64	1.00	58	0.84
63	1.00	57	0.80
62	1.00	56	0.76
61	0.96	55	0.72
60	0.92		

Late Retirement
Eligibility

After age 65.

Total Benefit

The retirement benefit accrued at the date of late retirement.

Disability Retirement
Eligibility

10 years of pensionable service.

Total Benefit

A monthly benefit equal to 15% of Final Average Earnings, increased by 1% of Final Average Earnings for each year of pensionable service in excess of 15, not to exceed 25.

The benefit is reduced by workers' compensation and 50% of any Social Security benefits. The benefit is not payable while the participant is eligible for the company's Long Term Disability plan.

Vested Termination
Eligibility

Earlier of age 55 or 5 years of vesting service.

Total Benefit

The normal retirement benefit at date of termination, commencing at age 65. The participant may elect for benefits to start as early as age 55, with benefits reduced based on actuarial reduction factors.

Preretirement Death

Eligibility

For members with a surviving spouse, 5 years of vesting service.

Any participant with 15 years of vesting service that does not have a surviving spouse shall have a death benefit payable to the dependent child(ren).

Spouse's Total Benefit

For an active participant age 55 or older with at least 25 years of service, the benefit is an immediate annuity to the surviving spouse equal to 50% of the accrued normal retirement benefit.

For all other vested participants, the benefit is a deferred annuity to the surviving spouse equal to 50% of the monthly benefit the participant would have been entitled to had he terminated employment on the date of his death, survived to early retirement age, elected the 50% J&S option, and then died the following day.

Beneficiaries' Total Benefit

An immediate annuity to the dependent child(ren) equal to 50% of the accrued normal retirement benefit payable until the earlier of the dependent child's 21st birthday, marriage or first date of employment.

Normal Form of Benefit

50% J&S annuity if married, otherwise straight life annuity.

Optional Forms of Payment

A retiring participant may also elect other optional forms of payment on an actuarially equivalent basis. These options include:

- life annuity,
- 50%, 66 $\frac{2}{3}$ %, 75%, or 100% joint and survivor annuities,
- 5, 10, or 15 year certain and life annuities, and
- level income option for retirement prior to commencement of Social Security benefits.

Before April 1, 2018, these optional forms are based on the 1971 Group Annuity Male Mortality Table and 5.00% interest.

After April 1, 2018, these optional forms are based on the 417(e) Mortality Table and 6.00% interest.

Definitions

Pensionable Service	Measured from the date the employee meets the eligibility requirements of the plan, or from date of hire after completing five years of vesting service.
Vesting Service	A year of vesting service is earned for any year in which an employee has 1,000 hours of service or more. A fractional year is granted equal to the number of hours worked divided by 1,000.
Final Average Earnings	A participant's average annual earnings for the highest five consecutive calendar years within the last ten consecutive calendar years preceding retirement or termination.
Earnings	Gross annual earnings, absence pay, holiday pay, premium payments (exclusive of bonuses), directors' fees, vehicle allowances, repayment of expenses, insurance payments, and 401(k) and cafeteria plan deferrals.

Plan Changes Since the Prior Year

The funding valuation reflects the following plan changes:

- Effective July 1, 2019, the benefits for Wilmington participants who are active in the Borax Hourly plan on that date increased to \$78.00 times all years of service and increase an additional \$1 each year through 2021.
- The dollar limit under Section 415(b) of the Internal Revenue Code changed from \$225,000 to \$230,000.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Under the American Rescue Plan Act of 2021 (ARPA), the stabilized interest rates for certain purposes will be adjusted once the ARPA stabilization is applied. By default, this stabilization would have applied starting with the 2020 plan year.

On August 12, 2021, U.S. Borax, Inc. made an explicit election not to apply the ARPA interest rate stabilization (for any purposes) to the U.S. Borax Inc. Retirement Plan for Represented Employees for the 2020 plan year. Therefore, this Schedule SB reflects stabilized 2020 minimum funding interest rates without regard to ARPA.

The U.S. Borax Inc. Retirement Plan for Represented Employees and the Kennecott Utah Copper Pension Plan for Represented Hourly Employees were merged into the Rio Tinto America Inc. Retirement Plan as of December 31, 2020, but this does not impact the January 1, 2020 funding results.

EIN: 98-0047580 PN: 002

Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)
Surviving Spouse Benefit	It is assumed that 75% of males and 75% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of \$230,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>
Expected Return on Assets	
2018 Plan Year	5.20%
2019 Plan Year	5.50%
2020 Plan Year	4.90%
Trust Expenses Included in Target Normal Cost	\$418,653, based on the prior year's actual plan administrative expenses (excluding PBGC premiums) plus the estimated PBGC premium for the current year

Under the American Rescue Plan Act of 2021 (ARPA), the shortfall relief wipes out existing shortfall amortization bases and changes the amortization period. By default, this relief applies starting with the 2022 plan year. This Schedule SB reflects the shortfall amortization bases without regard to the ARPA shortfall relief for the 2019 and 2020 plan years.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the assumed expenses payable from the trust from \$464,116 to \$418,653.
- A change in the funding asset return assumption from 5.50% for 2019 to 4.90% for 2020.

These changes were made to better reflect anticipated plan experience. The non-prescribed assumption changes did not reduce the funding shortfall by more than \$5 million; as such, approval of the Commissioner is not required.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)
Surviving Spouse Benefit	It is assumed that 75% of males and 75% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of \$230,000.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.
Expected Return on Assets	A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
2018 Plan Year	5.20%
2019 Plan Year	5.50%
2020 Plan Year	4.90%
Trust Expenses Included in Target Normal Cost	\$418,653, based on the prior year's actual plan administrative expenses (excluding PBGC premiums) plus the estimated PBGC premium for the current year
Actuarial Method	Standard unit credit cost method

Schedule SB, Part V—Summary of Plan Provisions

Effective Date

The Boron and Wilmington pension plans were effective October 1, 1963, and merged to form the Borax Hourly Pension Plan on December 31, 2010.

Eligibility for Participation

All regular full time Boron and Wilmington hourly employees.

Participation date

First of month following the completion of one year of service.

Participation is closed to Boron Hourly employees as of May 17, 2010, and to Wilmington Hourly employees as of June 17, 2011.

As of April 9, 2019, all participants who were part of the annuity contract purchase that occurred on April 2, 2019 are no longer participants under the plan. However, they are still included in the 2019 funding valuation since they were participants in the plan as of the valuation date.

Normal Retirement
Eligibility

Age 65.

Total Benefit—Boron Hourly

A monthly benefit equal to \$75.00 per year of pensionable service.

There have been no benefit level changes in the past ten years, and there are currently no scheduled increases to the benefit level.

Total Benefit—Wilmington Hourly

A monthly benefit equal to \$78.00 per year of pensionable service.

The following table lists all benefit level changes in the past ten years as well as future increases under the current Collective Bargaining Agreement:

Effective Date	Benefit Level
6/17/2011	\$75.00
6/17/2017	\$76.00
7/1/2018	\$77.00
7/1/2019	\$78.00
7/1/2020	\$79.00
7/1/2021	\$80.00

Schedule SB Attachment (Form 5500)—2020 Plan Year

EIN: 98-0047580 PN: 002

The benefit levels effective 7/1/2020 and beyond are not reflected in the 2020 funding valuation since the increases were effective after the valuation date.

Early Retirement
Eligibility

Age 55.

The accrued normal retirement benefit multiplied by the appropriate age-based factor below:

<u>Age</u>	<u>Factor</u>	<u>Age</u>	<u>Factor</u>
65	1.00	59	0.88
64	1.00	58	0.84
63	1.00	57	0.80
62	1.00	56	0.76
61	0.96	55	0.72
60	0.92		

Late Retirement
Eligibility

After age 65.

The retirement benefit accrued at the date of late retirement.

Disability Retirement
Eligibility

10 years of pensionable service.

A monthly benefit equal to 15% of Final Average Earnings, increased by 1% of Final Average Earnings for each year of pensionable service in excess of 15, not to exceed 25.

Total Benefit

The benefit is reduced by workers' compensation and 50% of any Social Security benefits. The benefit is not payable while the participant is eligible for the company's Long Term Disability plan.

Vested Termination
Eligibility

Earlier of age 55 or 5 years of vesting service.

Total Benefit

The normal retirement benefit at date of termination, commencing at age 65. The participant may elect for benefits to start as early as age 55, with benefits reduced based on actuarial reduction factors.

**Preirement Death
Eligibility**

For members with a surviving spouse, 5 years of vesting service.

Any participant with 15 years of vesting service that does not have a surviving spouse shall have a death benefit payable to the dependent child(ren).

Spouse's Total Benefit

For an active participant age 55 or older with at least 25 years of service, the benefit is an immediate annuity to the surviving spouse equal to 50% of the accrued normal retirement benefit.

For all other vested participants, the benefit is a deferred annuity to the surviving spouse equal to 50% of the monthly benefit the participant would have been entitled to had he terminated employment on the date of his death, survived to early retirement age, elected the 50% J&S option, and then died the following day.

Beneficiaries' Total Benefit

An immediate annuity to the dependent child(ren) equal to 50% of the accrued normal retirement benefit payable until the earlier of the dependent child's 21st birthday, marriage or first date of employment.

Normal Form of Benefit

50% J&S annuity if married, otherwise straight life annuity.

Optional Forms of Payment

A retiring participant may also elect other optional forms of payment on an actuarially equivalent basis. These options include:

- life annuity,
- 50%, 66 $\frac{2}{3}$ %, 75%, or 100% joint and survivor annuities,
- 5, 10, or 15 year certain and life annuities, and
- level income option for retirement prior to commencement of Social Security benefits.

Before April 1, 2018, these optional forms are based on the 1971 Group Annuity Male Mortality Table and 5.00% interest.

After April 1, 2018, these optional forms are based on the 417(e) Mortality Table and 6.00% interest.

Definitions

Pensionable Service

Measured from the date the employee meets the eligibility requirements of the plan, or from date of hire after completing five years of vesting service.

Vesting Service

A year of vesting service is earned for any year in which an employee has 1,000 hours of service or more. A fractional year is granted equal to the number of hours worked divided by 1,000.

Final Average Earnings

A participant's average annual earnings for the highest five consecutive calendar years within the last ten consecutive calendar years preceding retirement or termination.

Earnings

Gross annual earnings, absence pay, holiday pay, premium payments (exclusive of bonuses), directors' fees, vehicle allowances, repayment of expenses, insurance payments, and 401(k) and cafeteria plan deferrals.

Plan Changes Since the Prior Year

The funding valuation reflects the following plan changes:

- Effective July 1, 2019, the benefits for Wilmington participants who are active in the Borax Hourly plan on that date increased to \$78.00 times all years of service and increase an additional \$1 each year through 2021.
- The dollar limit under Section 415(b) of the Internal Revenue Code changed from \$225,000 to \$230,000.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Under the American Rescue Plan Act of 2021 (ARPA), the stabilized interest rates for certain purposes will be adjusted once the ARPA stabilization is applied. By default, this stabilization would have applied starting with the 2020 plan year.

On August 12, 2021, U.S. Borax, Inc. made an explicit election not to apply the ARPA interest rate stabilization (for any purposes) to the U.S. Borax Inc. Retirement Plan for Represented Employees for the 2020 plan year. Therefore, this Schedule SB reflects stabilized 2020 minimum funding interest rates without regard to ARPA.

The U.S. Borax Inc. Retirement Plan for Represented Employees and the Kennecott Utah Copper Pension Plan for Represented Hourly Employees were merged into the Rio Tinto America Inc. Retirement Plan as of December 31, 2020, but this does not impact the January 1, 2020 funding results.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the assumed expenses payable from the trust from \$464,116 to \$418,653.
- A change in the funding asset return assumption from 5.50% for 2019 to 4.90% for 2020.

These changes were made to better reflect anticipated plan experience. The non-prescribed assumption changes did not reduce the funding shortfall by more than \$5 million; as such, approval of the Commissioner is not required.

Schedule SB, line 32—Schedule of Amortization Bases

Type of Base	Present Value of Installment	Date Established	Years Remaining	Amortization Installment
Shortfall	\$ 7,863,586	January 1, 2019	6	\$ 1,446,405
Shortfall	\$ 6,182,664	January 1, 2020	7	\$ 1,001,409

Under the American Rescue Plan Act of 2021 (ARPA), the shortfall relief wipes out existing shortfall amortization bases and changes the amortization period. By default, this relief applies starting with the 2022 plan year. This Schedule SB reflects the shortfall amortization bases without regard to the ARPA shortfall relief for the 2019 and 2020 plan years.
