Independent Auditor's Report

To the Rio Tinto America Inc. Benefits Governance Committee of
Rio Tinto America Inc. Retirement Plan
South Jordan, Utah

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2020 Financial Statements

We have performed an audit of the financial statements of Rio Tinto America Inc. Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C), which comprise the statement of net assets available for benefits as of December 31, 2020, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2020 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2020 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of December 31, 2020, and for the year then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion on the 2020 Financial Statements

In our opinion, based on our audit and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the 2020 Financial Statements* section of our report:

- the amounts and disclosures in the accompanying 2020 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying 2020 financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2020 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the 2020 Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2020 Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2020 Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the 2020 financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2020 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the 2020 financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Emphasis of Matter – Plan Merger

As discussed in Note 1 to the financial statements, the governing body of the Plan approved the merger of the U.S. Borax Inc. Retirement Plan for Represented Employees and Kennecott Utah Copper Pension Plan for Represented Hourly Employees into the Plan effective December 31, 2020. Our opinion is not modified with respect to this matter.

Other Matter – 2020 Supplemental Schedule Required by ERISA

The 2020 supplemental schedule of non-exempt transactions is presented for purposes of additional analysis and is not a required part of the 2020 financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2020 financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the 2020 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare

the 2020 financial statements or to the 2020 financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Other Matter - Report on the 2019 Financial Statements

The financial statements of the Plan as of December 31, 2019 were audited by ACM LLP, whose partners and professional staff joined BDO USA, LLP as of August 1, 2020, and has subsequently ceased operations. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed ACM LLP not to perform, and they did not perform, any auditing procedures with respect to the information certified by the qualified institution. Their report, dated September 25, 2020, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an opinion and accordingly, they did not express an opinion on the 2019 financial statements, and (b) the form and content of the information included in the 2019 financial statements other than that derived from the information certified by the qualified institution were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Rio Tinto America Inc. Retirement Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of Rio Tinto America Inc. Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General: The Plan was established by Rio Tinto America Inc. (the “Company”). The Plan is a noncontributory defined benefit pension plan covering salaried and non-represented hourly paid employees of the Company, subsidiaries and affiliates of Rio Tinto America Holdings Inc. designated in Appendix A of the Plan document as participating companies (the “Participating Companies” and together with the Company, the “Employer”), and Affiliated Employers (as defined in the Plan document). The Company and the Participating Companies are subsidiaries of Rio Tinto America Holdings Inc., which is an indirect, wholly-owned subsidiary of Rio Tinto plc (the “Parent”). The Plan is intended to be a qualified retirement plan under the Internal Revenue Code (“IRC”) and is subject to the provisions of Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. The Company previously appointed Conduent HR Services to be the third party administrator of the Plan. Effective November 1, 2020, the Company appointed Aon Consulting, Inc. to be the third party administrator of the Plan. The Plan is administered by the Rio Tinto America Inc. Benefits Governance Committee (the “Plan Administrator”).

Effective April 1, 2007, the Plan was closed to new participants (except as noted below). Therefore, employees who are hired or rehired by the Employer or Affiliated Employers (who otherwise would have been eligible under the Plan) after March 31, 2007, are not eligible for participation in the Plan.

The Plan was amended on August 19, 2019 to allow certain terminated vested participants (as defined in the amendment) to make an election to receive their plan benefits as a lump sum or annuity payment (calculated according to the parameters in the amendment) during a limited election period. Participants submitted their elections to take a lump sum payment or annuity payment by October 31, 2019. All lump sum payments or annuity commencements related to the amendment were completed by December 31, 2019.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”) was passed into law. The Company declined to elect the expanded plan features covered under the Act.

The Plan was amended effective November 1, 2020 to eliminate the minimum one year marriage requirement prior to participant’s death or annuity start date to be eligible for benefit and eliminated the adjustment to spousal benefits for spouses more than ten years younger than the participant.

The Plan participates in the Rio Tinto America Master Retirement Trust (“Master Trust”), which was created to hold the qualified defined benefit investment assets of the Plan and other plans sponsored by the Parent’s subsidiaries. The Company has appointed State Street Bank and Trust Company (“Trustee”), to be the trustee of the Master Trust and to invest and manage assets of the related plans.

2019 Plan Merger: Effective December 31, 2019, the Rio Tinto Alcan Pension Plan (U.S.) (“Alcan Plan”) was merged into the Plan. Investment balances and accrued plan expenses of \$477,142,826 and \$(233,027), respectively, were legally transferred to and assumed by the Plan on December 31, 2019. There was no physical transfer of assets as both plans were invested in the same master trust.

Rio Tinto America Inc. Retirement Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

2020 Plan Mergers: Effective December 31, 2020, the U.S. Borax Inc. Retirement Plan for Represented Employees ("Borax Plan") and Kennecott Utah Copper Pension Plan for Represented Hourly Employees ("Kennecott Plan") were merged into the Plan. Investment balances and accrued plan expenses of \$249,704,931 and \$(60,205), respectively, were legally transferred to and assumed by the Plan on December 31, 2020. There was no physical transfer of assets as all the plans were invested in the same master trust.

Previous Annuity Buy Outs: The Plan (and previously merged plans which are now part of this Plan) entered into, and were amended to reflect, various group annuity contract purchases, under which the entire benefit rights of annuitized individuals are fully guaranteed by the respective insurance company contract issuer, legally enforceable by the annuitized individuals, and guaranteed by way of an irrevocable commitment to pay benefit liabilities to the annuitized individuals. Funds under these contracts have been allocated and applied to the purchase of these annuities, and the related benefit obligations are excluded from the Plan's investments and present value of the accumulated plan benefit obligations.

2019 Annuity Buy Out: Effective April 2, 2019, the Plan entered into, and was amended to reflect, a group annuity contract purchase ("2019 Annuity Buy Out") with Met Tower Life, under which the entire benefit rights of 738 annuitized individuals were fully guaranteed by Met Tower Life, legally enforceable by the annuitized individuals against Met Tower Life, and guaranteed by Met Tower Life by way of an irrevocable commitment to pay benefit liabilities to the annuitized individuals. Net premium payments were approximately \$171,929,000 related to the 2019 Annuity Buy Out. Funds under this contract were allocated and applied to the purchase of these annuities and were excluded from the Plan's interest in the Master Trust and present value of the accumulated plan benefit obligations. A contract amendment resulted in an additional amount owed to Met Tower Life of \$158,716 in 2020.

Pension benefits – Rio Tinto America: Participants are eligible for monthly benefit payments upon reaching normal retirement age (age 65). Pension payments are calculated using the final average monthly earnings based upon the highest 36 consecutive months (out of the last 120 months of employment with the Employer or Affiliated Employers), which produce the highest aggregate eligible compensation. The amount of the monthly benefit is based upon the participant's final average earnings and eligible benefit service.

The normal forms of retirement benefits available under the Plan are a monthly life annuity for a single participant or, for a married participant, a 50 percent qualified joint and survivor annuity. Participants will receive a lump-sum distribution in the event the actuarial present value of the participant's entire vested benefit is \$5,000 or less. A reduced early retirement benefit is available after attainment of age 55 and completion of five years of vesting service.

A participant vests fully in retirement benefits after performing five years of vesting service, upon reaching normal retirement age while still employed by the Participating Employers, or termination of the Plan.

Rio Tinto America Inc. Retirement Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Pension Benefits – Historical AlcanCorp Plan: Participants are entitled to annual pension benefits at normal retirement age (65 with five years of service). Benefit accruals were frozen for all participants effective as of June 30, 2013 although participants continue to accrue vesting service.

The Plan permits early retirement when the sum of the participant's age plus the participant's years of service equals 75 or more, or if the participant reaches age 55 with five years of service. The early retirement benefit is the product of the normal retirement benefit multiplied by a factor based on the number of years the participant's early retirement precedes the normal retirement date.

The Plan also provides for disability, termination and pre-retirement spouse benefits for participants meeting certain age and length of service requirements. There is also a provision for a postretirement spouse benefit that generally does not require a reduction in the participant's benefit.

Pension Benefits – Historical Alcan Combined Plan: Participants are entitled to annual pension benefits at normal retirement (age 65). Benefit accruals were frozen for all participants effective December 31, 2011.

The Plan generally permits early retirement if the participant reached age 60 with five years of service. The early retirement benefit is the product of the normal retirement benefit multiplied by a factor based on age and early commencement.

The Plan also provides for disability, termination and pre-retirement spousal benefits for participants meeting certain age and length of service requirements.

Termination of the Plan: Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits which former participants or their beneficiaries have been receiving for at least three years, or employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit which was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit which would be payable under the Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations (discussed below).
- c. All other vested benefits (vested benefits not insured by the PBGC).
- d. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Rio Tinto America Inc. Retirement Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions which affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible changes in these estimates and assumptions in the near-term could be material to the financial statements.

Risks and uncertainties: The Master Trust invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, currency exchange rate, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near-term and such changes could materially affect the amounts reported by the Master Trust.

The Master Trust invests in securities with contractual cash flows, such as futures contracts, forward contracts, credit default swaps, interest rate swaps and options. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, delinquencies and/or defaults, and may be adversely affected by a shift in the market's perception of the issuers and changes in interest rates.

The COVID-19 outbreak was declared a worldwide pandemic on March 11, 2020 by the World Health Organization ("WHO"). The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to instability in financial markets. As a result, the Master Trust's investment portfolio has incurred volatility. However, because the values of the Master Trust's investments have and will fluctuate in response to changing market conditions, the amount of losses that may be recognized in subsequent periods, if any, cannot be determined. The value of the Plan's interest in the Master Trust's investments has a direct impact on its funded status. As a result of such changes in market value and possible changes to the actuarial assumptions used in determining the present value of accumulated plan benefits, the Plan Sponsor may need to make greater cash contributions to fund the Plan. However, the actual impact, if any, on future required contributions, Plan liquidity, and benefit limitations cannot be determined at this time.

Rio Tinto America Inc. Retirement Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price which would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Rio Tinto America Inc. Pension Investment Committee (“Investment Committee”) determines the Master Trust’s investment valuation policies, utilizing information provided by the investment advisors and Trustee. See Note 6 for a discussion of fair value measurements.

Interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date. Purchases and sales of investments are recorded on a trade-date basis. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Valuation of investment in Master Trust: The Master Trust is a multiple-plan trust, ownership of which is divided among the participating plans based on allocated units of participation. Each participation unit has a value equal to the total fair value of the Master Trust’s net assets divided by the total participation units outstanding. As a result of the mergers of the Borax Plan and Kennecott Plan into the Plan effective December 31, 2020, the Master Trust will be dissolved, effective January 1, 2021, as all net assets are now held by the Rio Tinto America Inc. Retirement Plan Trust (“RTA Plan Trust”).

The Plan has an undivided interest in the Master Trust’s underlying investments. The Plan’s investment in the Master Trust is stated at fair value. The Plan’s interest in the Master Trust is based on the beginning-of-year value of the Plan’s interest in the Master Trust, plus actual contributions and allocated investment income (loss), less actual distributions and actual and allocated investment-related expenses. The net investment income (loss) and investment-related expenses attributable to the Master Trust, which are not plan-specific, are allocated by the Trustee to the Plan based on the Plan’s pro rata share of each of the underlying assets of the Master Trust on a monthly basis. The Plan presents in the statements of changes in net assets available for benefits its interest in the net investment income or loss of the Master Trust, which consists of the realized gains or losses, unrealized appreciation or depreciation, interest, dividends of the Master Trust’s investments, and allocated expenses.

Funding policy: The Company contributes to the Plan at such times and in such amounts as considered necessary so contributions are sufficient to provide benefits as actuarially calculated under the terms of the Plan. The Company’s current funding policy is to pay contributions with the goal of eliminating the PBGC variable rate premium.

Contributions to the Plan are designed to fund at least the minimum required contributions as specified by ERISA and determined under IRC section 430(a). The minimum contribution is determined as of the beginning of the plan year, and all contributions are discounted at the effective interest rate from the date funded to the beginning of the plan year. The Company may elect to use all or a portion of any funding standard carryover balance or prefunding balance to offset the minimum required contribution for a plan year depending on the Plan’s funded status.

The Plan is “not-at-risk” for 2020, thus allowing the use of a more favorable interest rate corridor in determining the minimum required contribution. Adjustment to the statutory interest rates specified under IRC section 430 were first introduced by the Moving Ahead for Progress in the 21st Century Act (“MAP-21”) and subsequently modified by the Highway and Transportation Funding Act of 2014 (“HATFA”).

Note 2. Summary of Significant Accounting Policies (Continued)

The Plan met all minimum funding requirements. Under the law, the minimum required contribution for the 2020 and 2019 plan years, respectively, was \$17,173,386 and \$7,897,190. The minimum contribution for the 2020 and 2019 plan years was satisfied fully by an application of prefunding balances. Therefore, there were no contributions made to the Plan during the years ended December 31, 2020 and 2019.

Benefit restrictions under IRC section 436 depend on the Plan's Adjusted Funding Target Attainment Percentage ("AFTAP"). For 2020 and 2019, the Plan's AFTAP was 112.15 percent and 109.85 percent, respectively. As this exceeded 90 percent and the plan sponsor is not in bankruptcy, there were no restrictions on amendments increasing benefits, accelerated payments, or future accruals.

Payment of benefits: Benefits are recorded when paid by the Plan.

Administrative expenses: The Company pays a portion of the costs and expenses incurred in administering the Plan, with the Plan paying the remaining costs and expenses. The Company provides accounting and other services for the Plan at no cost to the Plan. Expenses paid directly by the Company are excluded from these financial statements, unless reimbursed by the Plan.

Tax status: The Internal Revenue Service determined and informed the Company by a letter dated July 16, 2015, the Plan and the Master Trust are designed in accordance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore believes that the Plan and the Master Trust are tax-exempt.

The Plan Administrator has evaluated the Plan's tax positions and concluded the Plan had taken no uncertain tax positions which would require adjustment to the financial statements or disclosures. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax years in progress.

New Accounting Pronouncements: The Financial Accounting Standard Board ("FASB") issued Accounting Standard Update ("ASU") No. 2018-13, *Fair Value Measurements Topic (820), Disclosure Framework- Changes to the Disclosure Requirements for Fair Value Measurements*, in August 2018. ASU No. 2018-13 eliminates certain disclosures including the disclosure related to transfers between level 1 and 2 investments, the valuation policies for level 3 measurements, and for nonpublic entities, the change in the level 3 investment unrealized gains and losses included in earnings. ASU No. 2018-13 also amends certain disclosures including disclosing purchases, sales and transfers for level 3 investments instead of the level 3 roll forward. ASU No. 2018-13 is effective for periods beginning after December 15, 2019. The Plan adopted the guidance on January 1, 2020. The adoption of ASU No. 2018-13 resulted in the following changes in disclosures: a) the level 3 investment rollforward was removed and replaced with a disclosure of level 3 purchases, sales, and transfers, and b) the disclosure of the policy for timing of transfers between levels was removed.

Subsequent events: The Plan Administrator evaluated subsequent events and transactions through October 15, 2021, the date which the financial statements were available to be issued. No events, other than those noted below, require recognition or disclosure.

Borax Plan: Effective June 19, 2021, the Company entered into a Collective Bargaining Agreement with the Boron Union whereby, the pension multiplier was increased \$1 per year from the effective date of the agreement through 2028.

Note 3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees with vested rights or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances—retirement, death, disability and termination of employment—are included to the extent they are deemed attributable to employee service rendered prior to the valuation date.

The actuarial present value of accumulated plan benefits was calculated by consulting actuaries and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected future payment dates.

The actuarial valuation was done by using the beginning-of-the-year method; therefore, the accumulated plan benefits as of December 31, 2019, are presented from information provided by the actuary as of January 1, 2020. There were no significant change in the Plan's provisions or coverage from December 31, 2019, to January 1, 2020.

The more significant assumptions underlying the actuarial computations as of December 31, 2019, are as follows:

Investment return	4.90% per annum
Mortality table used	Pri-2012 white collar table with generational mortality projected by Scale MP-2020 for salaried participants; Pri-2012 blue collar table with generational mortality projected by Scale MP-2020 for hourly participants
Retirement rates and average retirement age	Rates increasing from 5% to 100% between ages 55 and 70, and an average retirement age of 62 and 63 for the Plan and the former Alcan Plan, respectively, for active and terminated vested participants
Withdrawal rates	Rates for pre-retirement ages that vary by age and employee group.

The foregoing actuarial assumptions are based on the presumption the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 3. Actuarial Present Value of Accumulated Plan Benefits (Continued)

The actuarial present value of accumulated plan benefits as of December 31, 2019, is summarized as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefits	\$ 323,357,899
Other participants	214,072,476
	<u>537,430,375</u>

Nonvested benefits	1,996,722
--------------------	-----------

Total actuarial present value of accumulated plan benefits, at December 31, 2019	<u>\$ 539,427,097</u>
--	-----------------------

Below is a summary of significant changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2019:

Actuarial present value of accumulated plan benefits, at beginning of year	<u>\$ 336,610,837</u>
Increase (decrease) during the year attributable to:	
Benefits paid	(14,163,377)
Interest accumulation	18,129,316
Plan amendments	-
Alcan Merger (Note 1)	367,921,415
Annuity Buyout	(151,784,332)
Lump Sum Window	(29,998,837)
Change in actuarial assumptions*	10,205,568
Other changes**	2,506,507
Net change	<u>202,816,260</u>
Actuarial present value of accumulated plan benefits, at end of year	<u>\$ 539,427,097</u>

*The most significant changes in actuarial assumptions were a change in the Investment Return from 5.50 percent to 4.90 percent; a change in the mortality assumption from the Pri-2012 white collar table with generational mortality projected by Scale MP-2019 to the Pri-2012 white collar table with generational mortality projected by Scale MP-2020 for salaried participants and the Pri-2012 blue collar table with generational mortality projected by Scale MP-2020 for hourly participants; a change in the percent married assumption to 75%; and a change in the disability rates to no assumed future disablements.

**The other changes component represents the normal operation of the pension plan. The normal operation of the pension plan consists primarily of the increase due to the ongoing benefit accruals (if any) and those items of plan experience that are not associated with plan asset performance.

The actuarial present value of the accumulated plan benefits at December 31, 2020 will be increased by approximately \$191,300,000 as a result of the mergers of the Borax and Kennecott plans into the Plan. The assumption of the accumulated plan benefits by the Plan resulting from the mergers is not reflected in the accumulated plan benefits as of December 31, 2019.

Note 4. Certified Investment Information

Certain information related to investments disclosed in the accompanying financial statements, including investments held at December 31, 2020 and 2019 and net appreciation (depreciation) in fair value of investments, interest and dividends for the years ended December 31, 2020 and 2019 (except for the investments and related investment income in partnerships, joint ventures and the real estate commingled fund) was certified as complete and accurate by the Trustee, a qualified institution. This financial information was obtained or derived from the certified trust statements in accordance with ERISA Section 103 (a)(3)(C), pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Information included in the accompanying financial statements as to investment in the Master Trust, investment income (loss) from the Master Trust, and investment information contained in Note 5 is presented solely upon the certified investment information.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and notes to the financial statements.

Note 5. Interest in Master Trust

The Plan participates in the Master Trust as permitted by the Plan document and Master Trust agreement. The Plan has an undivided interest of 100.0 percent and 74.8 percent in the net assets of the Master Trust as of December 31, 2020 and 2019, respectively.

The Master Trust financial information disclosed below and in Note 6 represents 100 percent of the Master Trust net assets and the related changes in net assets in which the Plan has an undivided interest as of and for the years ended December 31, 2020 and 2019.

Note 6. Fair Value Measurements

Accounting guidance provides the framework for measuring fair value. That framework provides a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted market prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 6. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets within the Master Trust measured at fair value. There have been no significant changes in the methodologies used at December 31, 2020 and 2019.

Fixed-income securities: Fixed-income securities consist of U.S. and foreign government securities, mortgage backed securities, options, corporate bonds and other obligations. These securities are valued based on pricing matrices or models from pricing vendors used by the Trustee. Commingled funds are valued based on the net asset value ("NAV") of units held at year-end as provided by the fund administrator.

Common and preferred stocks: Common and preferred stocks are valued based on the last sales price on the primary exchange.

Partnerships/joint ventures/real estate: Partnerships/joint ventures/real estate investments are valued based on the estimated fair value of the participation owned by the Master Trust as determined by the general partner or investment manager of the respective partnership. The NAV of these investments is based on the fair value of the underlying investments. The fair value of the underlying investments is estimated using techniques that may rely heavily on the investment managers' assumptions and qualitative observations. The valuation inputs for the underlying investments are derived primarily from estimated future cash flows, market rates for real estate assets, market interest rates, interest spreads, credit risk, liquidity and other financial data. The Trustee uses the fair valuations from the investment managers and the Investment Committee reviews and validates their valuation methods and processes throughout the year. The Trustee did not make any adjustments to any valuations. The Investment Committee establishes and follows valuation policies and procedures, and periodically evaluates the fair valuation policies and procedures of the specialized investment consultants who perform the valuations and requests and reviews the valuation policies of the investment managers and general partners annually.

This category includes 15 private equity funds as of December 31, 2020 and 2019. They are comprised of limited partnerships that invest in private equity, both domestically and internationally. Certain of these investments are considered illiquid and are meant to be held for the life of the funds but, if necessary, sales can be arranged through the secondary market. Distributions are received through the liquidation of the underlying assets of the funds. It is estimated that the underlying assets will be liquidated over the next several years, but no later than 11 years. Unfunded commitments of the Master Trust as of December 31, 2020 and 2019 approximate \$38 million and \$49 million, respectively, for these funds.

This category also includes 6 investments in domestic and international real estate fund limited partnerships and one commingled real estate fund, for the years ended December 31, 2020 and 2019. The fair value of the limited partnerships is estimated using the NAV of the Master Trust's ownership interest in partners' capital. The valuation inputs of these investments are derived from third-party appraisals. Certain of these investments are considered illiquid, but sales can be arranged on the secondary market. Distributions from each fund are received as income is generated through the investments and as the underlying assets of the funds are liquidated. It is estimated that the underlying assets will be liquidated over the next several years, but no later than 10 years. Unfunded commitments of the Master Trust as of December 31, 2020 and 2019 approximate \$16 million and \$19 million, respectively, for these 6 investments. The commingled real estate fund is valued based on the NAV of units held at year-end as provided by the fund manager.

Notes to Financial Statements

Note 6. Fair Value Measurements (Continued)

Interest-bearing cash and cash equivalents: Interest-bearing cash is valued at cost plus accrued income, which approximates fair value measured by similar assets in active markets.

Loans secured by mortgages: Loans secured by mortgages are valued on the basis of their principal and interest payments discounted at prevailing interest rates for similar investments.

Derivatives and cash collateral: Futures contracts, credit default swaps, interest rate swaps, and other derivatives are valued based on pricing matrices or models from pricing vendors used by the Trustee. See Note 8 for additional disclosures.

Note 6. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The Master Trust follows guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of the guidance can be determined using NAV per share as a practical expedient, when fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV.

The following tables include categories of investments within the Master Trust that measure NAV per share (or its equivalent) as a practical expedient, as of December 31, 2020 and 2019:

		2020			
		Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Asset category:					
Fixed-income investments:

Note 7. Related Party and Party-in-Interest Transactions

The Master Trust invests in the following investments managed by the Trustee or affiliated companies that qualify as party-in-interest transactions:

	December 31	
	2020	2019
State Street Bank & Trust Co. Short Term Investment Fund	\$ 25,509,469	\$ 18,953,651
AXA Early Secondary Fund V	9,598,177	8,968,881
AXA Capital Europe	500,373	716,542
AXA Capital America LP	429,291	443,346
AXA Secondary Fund V	174,631	431,245
State Street Corp JR Subordinated	158,595	159,417
State Street Corp Preferred Stock	50,994	49,428
AXA Private Equity Fund II	16,967	30,087

Fees paid by the Master Trust and the Plan for investment-related, administrative and custodial expenses to the Trustee and affiliated companies amounted to approximately \$326,000 and \$293,000 for the years ended December 31, 2020 and 2019, respectively. Fees paid by the Master Trust or Plan for investment management services were included as a reduction of the return earned on each investment. Certain other administrative functions are performed by officers or employees of the Parent and affiliates, for which no compensation is received from the Plan.

These transactions are not, however, considered prohibited transactions under Section 408(b) of the ERISA regulations.

During the year ended December 31, 2019, the Trustee inadvertently overpaid invoices of \$6,792 for investment management services. These overpayments were refunded to the Master Trust at a later date; however, the Plan Administrator has determined that these were prohibited transactions at the Master Trust level, and has calculated and remitted the related lost earnings. This prohibited transaction is reflected on Schedule G of the 2019 Master Trust Form 5500.

During the year ended December 31, 2019, certain administrative invoices were paid twice out of Plan assets in error, which resulted in non-exempt transactions with parties-in-interest. After the 2019 plan year financial statements were issued, the Plan Administrator discovered an additional overpayment of \$2,486, related to custodial fees, which was made during the year ended December 31, 2019. This resulted in a non-exempt transaction with a party-in-interest. The Plan was reimbursed for the non-exempt transaction amounts noted above, and has calculated and remitted the related lost earnings. See the Schedule of Non-Exempt Transactions.

During the year ended December 31, 2019, certain administrative invoices were paid twice out of the Alcan Plan assets in error, which resulted in non-exempt transactions with parties-in-interest. After the Alcan Plan 2019 plan year financial statements were issued, the Plan Administrator discovered an additional overpayment of \$2,486, related to custodial fees, which was made during the year ended December 31, 2019. This resulted in a non-exempt transaction with a party-in-interest. The Plan was reimbursed for all of the Alcan Plan's non-exempt transaction amounts noted above, since the Alcan Plan merged into the Plan effective December 31, 2019. The Plan Administrator has calculated and remitted the lost earnings. See the Schedule of Non-Exempt Transactions.

Notes to Financial Statements

Note 8. Derivative Financial Instruments

As of December 31, 2020 and 2019, a fixed-income manager of the Master Trust utilizes derivative financial instruments, including but not limited to, futures contracts, credit default swaps and interest rate swaps. This manager uses these financial instruments to manage exposure to interest rate and credit risks and to achieve the overall desired duration under the Master Trust's fixed-income mandate. Since all derivative instruments are held within the Master Trust, all are included at fair value in the Plan interest in the Rio Tinto America Master Retirement Trust as presented in the Statements of Net Assets Available for Benefits. Changes in the fair value (i.e., gains or losses) of the derivatives are recorded in the Plan interest in the Rio Tinto America Master Retirement Trust investment income (loss) ("Plan interest in MT Income") in the accompanying Statements of Changes in Net Assets Available for Benefits.

Futures contracts are used to adjust interest rate exposures and replicate government bond positions. Many offer opportunity to outperform due to active management of the liquid portfolio backing the exposure. These contracts are valued using a marked approach based on quoted prices, recent trading activity for identical or similar instruments or broker or dealer quotes with reasonable levels of price transparency.

Credit default swaps are used to manage credit exposure without buying or selling securities outright. Written credit default swaps increase credit exposure ("selling protection"), obligating the portfolio to buy bonds from counterparties in the event of a default. Purchased credit default swaps decrease exposure ("buying protection"), providing the right to "put" bonds to the counterparty in the event of a default.

The maximum potential amount of future payments (undiscounted) that the Master Trust as a seller of protection could be required to make under a credit default swap agreement would be an amount equal to the notional amount of the agreement. Notional amounts of all credit default swap agreements outstanding as of December 31, 2020 and 2019, for which the Master Trust is a seller of protection, are disclosed below. These potential amounts would be partially offset by any recovery values of the respective referenced obligations, up-front payments received upon entering into the agreement, or net amounts received from the settlement of buy protection credit default swap agreements entered into by the Master Trust for the same referenced entity or entities.

Interest rate swap agreements involve the exchange by the Master Trust with a counterparty of their respective commitments to pay or receive interest, e.g., an exchange of floating-rate payments for fixed-rate payments, with respect to the notional amount of principal. These swaps are used to adjust interest rate and yield curve exposure and substitute for physical securities. Long swap positions ("received fixed") increase exposure to long-term interest rates; short positions ("pay fixed") decrease exposure. Notional amounts of all interest rate swap agreements outstanding as of December 31, 2020 and 2019, are disclosed below.

The notional values of futures contracts, credit default swaps and interest rate swaps, which are summarized below, provide an indication of the extent of the Plan's involvement in such instruments. Notional amounts of derivative financial instruments do not necessarily represent amounts exchanged by parties and, therefore, are not a direct measure of the Plan's exposure from its use of derivatives.

Schedule SB, line 7—Explanation of Discrepancy in Prior Year Funding Standard
Carryover Balance or Prefunding Balance

The January 1, 2020 funding valuation reflects the merger of the Rio Tinto Alcan Pension Plan U.S. into the Rio Tinto America Inc. Retirement Plan as of December 31, 2019.

As a result, the balances shown on line 7 reflect the sum of the balances of the previous plans:

	Carryover Balance	Prefunding Balance
Rio Tinto Alcan Pension Plan U.S. (EIN: 41-2098316, PN: 001)	\$0	\$58,612,352
Rio Tinto America Inc. Retirement Plan (EIN: 11-3359689, PN: 001)	0	98,738,040
Total	\$0	\$157,350,392

The amounts shown on lines 8-13 reflect the sum of the amounts for each of the plans that were merged on 12/31/2019. The interest rate shown on lines 10 and 11(b) is the interest rate for the Rio Tinto America Inc. Retirement Plan (EIN: 11-3359689, PN: 001). The interest rate for the Rio Tinto Alcan Pension Plan U.S. (EIN: 41-2098316, PN: 001) is different. As such, the interest amounts on lines 10 and 11 are the sum of the interest amounts for both plans.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the assumed combined expenses payable from the trust from \$3,404,766 (\$1,143,634 for RTA and \$2,261,132 for Alcan) to \$2,844,066.
- A change in the funding asset return assumption from 5.50% for 2019 to 4.90% for 2020.
- A change in the percent married assumption to 75%.
- A change in the disability rates to no assumed future disablements.

These changes were made to better reflect anticipated plan experience. The non-prescribed assumption changes did not reduce the funding shortfall by more than \$5 million; as such, approval of the Commissioner is not required.

Schedule SB, Part V—Summary of Plan Provisions

Legacy RTA Plan

Effective Date January 1, 2003.

Date of Participation First day of the month after completing one year of service. Participation is closed to new entrants as of April 1, 2007. Participants who were active in the RTA plan at that time were given the option to either stay in the RTA plan or transfer to the Investment Partnership Plan (IPP) as of September 30, 2007.

As of October 1, 2012, Cleveland Salaried employees that were participants in the AlcanCorp Pension Plan before 2012 began accruing in the RTA Plan. Benefits in the RTA Plan are calculated using pay and service earned after the date of transfer into the RTA Plan. However, participants receive vesting service from date of hire.

As of January 1, 2013, all remaining active PPPI, active Cable, and LTD participants in the AlcanCorp Pension Plan began accruing in the RTA Plan. Benefits in the RTA Plan are calculated using pay and service earned after the date of transfer into the RTA Plan. However, participants receive vesting service from date of hire.

As of January 1, 2015, active participants who are rehired into the IPP with a break in service of less than five years are eligible to receive pay increases to their RTA Plan benefit, even if they did not choose to transfer to the IPP in 2007.

As of November 6, 2017, all participants who were part of the annuity contract purchase that occurred on October 31, 2017 are no longer participants under the plan.

As of April 9, 2019, all participants who were part of the annuity contract purchase that occurred on April 2, 2019 are no longer participants under the plan.

As of December 31, 2019, all participants who were part of the Alcan plan were merged into the RTA plan.

Normal Retirement

- Eligibility Age 65.
- Total Benefit (a) For service before January 1, 2003:
- See supplements.
- (b) For service after December 31, 2002:
- A monthly benefit equal to (i) plus (ii) below, multiplied by Benefit Service:
- (i) 1% of Final Average Earnings up to Social Security Covered Compensation.
- (ii) 1.667% of Final Average Earnings in excess of Social Security Covered Compensation.

Compensation Update

Former AlcanCorp Pension Plan participants also receive a compensation update on their frozen benefit from the AlcanCorp Pension Plan. The compensation update is payable from the RTA Plan. The compensation update is equal to the percentage increase of the Final Average Earnings over the participant's Highest Average Earnings used to calculate the frozen benefit payable from the AlcanCorp Pension Plan, multiplied by the frozen benefit payable from the AlcanCorp Pension Plan. The compensation update has a minimum value of \$0 and is added to the Normal Retirement Benefit accrued under the RTA Plan as described above.

Early Retirement

- Eligibility Age 55 and five years of Vesting Service.
- Total Benefit Termination before age 55 or before completing 10 years of Vesting Service.
- The accrued normal retirement benefit multiplied by the appropriate age-based factor below:

<u>Age</u>	<u>Factor</u>	<u>Age</u>	<u>Factor</u>
65	1.00	59	0.76
64	0.96	58	0.72
63	0.92	57	0.68

Late Retirement
Eligibility

Retire after normal retirement date.

Total Benefit

The normal retirement benefit accrued at the date of late retirement.

Disability Retirement for Non-Luzenac Hourly Employees

Eligibility

Five years of Vesting Service.

Total Benefit

The normal retirement benefit, calculated using Benefit Service that continues to accrue during disability leave, multiplied by the appropriate early retirement factor from the tables above.

Disability Retirement for Luzenac Hourly Employees

Eligibility

Ten years of Vesting Service.

Total Benefit

A monthly benefit equal to the greater of (a) or (b) below:

(a) The normal retirement benefit as of this date of disability,
or

(b) \$500.

Vested Termination

Eligibility

Five years of Vesting Service or age 65.

Total Benefit

The normal retirement benefit accrued at termination, commencing at age 65. The participant may elect for benefits to start after age 55, with benefits reduced by the early retirement factors for retirement with less than 10 years of service.

Preretirement Death
Eligibility

Five years of Vesting Service.

Total Benefit

For a married participant, the surviving spouse receives 50% of the participant's accrued benefit, payable as an immediate life annuity.

For a single participant with a trust beneficiary, the trust receives lump sum equal to the actuarial equivalent of 50% of the participant's accrued benefit.

For a single participant with a non-trust beneficiary, the beneficiary receives the actuarial equivalent of 50% of the participant's accrued benefit, payable as a 60-month temporary life annuity.

Normal Form of Benefit

50% J&S annuity if married, otherwise a life annuity.

For married participants, if the spouse pre-deceases the participant, payments will continue to the participant in the amount equal to what the participant would have received at retirement had the participant elected a single life annuity.

Optional Forms of Payment

A retiring participant may also elect other optional forms of payment on an actuarially equivalent basis. These options include:

- life annuity,
- 50%, 75%, or 100% joint and survivor annuities,
- 5, 10, or 15 year certain and life annuities,
- level income option for retirement prior to commencement of Social Security benefits, and
- lump sum, if monthly benefit is \$100 or less.

Before April 1, 2018, these optional forms are based on the 1971 Group Annuity Male Mortality Table and 5.00% interest.

After April 1, 2018, these optional forms are based on the 417(e) Mortality Table and 6.00% interest.

Employee Contributions

Legacy Alcan Plan

Plan History

Following is a description of significant events that have occurred within the past ten years.

Effective December 31, 2011, all benefit accruals are frozen for certain Cable unit employees. Benefit Service and Social Security Covered Compensation are frozen as of December 31, 2011. Highest Average Earnings shall not include earnings during 2011 or any subsequent years. Members who are affected are “Non-Grandfathered Cable Unit Members” and include participating employees that do not meet the following criteria:

- age 45 and ten years of Benefit Service, or;
- age 55 and nine years of Benefit Service or ten years of Eligibility Service.

All other Cable unit employees are “Grandfathered Cable Unit Members” and continue to accrue benefits. This includes any Cable unit employee on long-term disability or severance.

Effective December 31, 2011, all benefit accruals under the AlcanCorp Plan formula are frozen for Salaried Sebree and Cleveland employees. These participants start to accrue benefits under the Rio Tinto America Plan formula for service after December 31, 2011. The December 31, 2011 frozen benefit is increased by the percentage increase of the Final Average Earnings (as defined under the Rio Tinto America formula), over the participant’s Highest Average Earnings (as defined under the AlcanCorp formula) at December 31, 2011.

Effective December 31, 2011, any PPPI employee who was a participant of the Alcan Combined Pension Plan as of December 31, 2011 shall become a participant of the AlcanCorp Pension Plan as of January 1, 2012. For these participants, the benefit payable from the AlcanCorp Pension Plan is equal to the benefit accrued under the Alcan Combined formula using all years of service and pay prior to termination, and offset by the benefit accrued under the Alcan Combined formula as of December 31, 2011.

The Specialty Aluminas business unit was sold in August 2012 and the Cable business unit was sold on September 4, 2012. For participants with ongoing accruals, any accruals in the plan have ceased as of the date of sale. Any participants that were terminated as a result of the sales with less than five years of service have been vested in their benefit. Participants that were on LTD at the time of the sale will continue to earn future service accruals from the AlcanCorp Pension Plan.

As of September 30, 2012, accruals for Cleveland participants were frozen in the AlcanCorp Pension Plan. These participants transferred to the Rio Tinto America Plan on October 1, 2012. The Rio Tinto America Plan provides future accruals and pay growth on the past service frozen benefit from the AlcanCorp Plan.

Any remaining Cable, PPPI and LTD participants in the AlcanCorp Pension Plan as of December 31, 2012 have transferred to the Rio Tinto America Plan. Accruals in the AlcanCorp Pension Plan have ceased as of December 31, 2012 for these participants. The Rio Tinto America Plan provides future accruals and pay growth on the past service benefit from the AlcanCorp Plan, as applicable.

As of July 1, 2013, accruals were frozen for all remaining participants.

Effective December 31, 2013, the Alcan Combined Pension Plan was merged into the AlcanCorp Pension Plan, and the merged plan was renamed the Rio Tinto Alcan Pension Plan (U.S.). The January 1, 2014 funding valuation reflects the benefit liabilities and plan assets of the Alcan Combined Pension Plan that merged into the Rio Tinto Alcan Pension Plan (U.S.) on December 31, 2013.

As of November 6, 2017, all participants who were part of the annuity contract purchase that occurred on October 31, 2017 are no longer participants under the plan.

As of August 6, 2018, all participants who were part of the annuity contract purchase that occurred on August 1, 2018 are no longer participants under the plan.

Effective April 1, 2018, the plan's actuarial equivalence definition was changed for the non-legacy PPPI groups to 6.00% interest and the 417(e) Mortality Table.

Effective December 31, 2019, the Alcan plan was merged into the RTA plan.

Freeze Dates

Benefit accruals are frozen for non-grandfathered Cable participants effective December 31, 2011

Benefit accruals under the AlcanCorp formula are frozen for Sebree and Cleveland Salaried participants effective December 31, 2011, but are increased by the percentage increase of the Final Average Earnings (as defined under the Rio Tinto America formula), over the participant's Highest Average Earnings at December 31, 2011 (as defined under the AlcanCorp formula). These participants accrue under the Rio Tinto America Plan formula for post-2011 benefit service.

All benefit accruals from the AlcanCorp Pension Plan are frozen for Cleveland participants effective September 30, 2012.

Benefit accruals for all remaining AlcanCorp Pension Plan participants are frozen effective July 1, 2013.

Date of Participation

First of month following date of hire for regular full time employees

Normal Retirement
Eligibility

Age 65 and five years of Eligibility Service

Total Benefit

A monthly benefit equal to (a) plus (b) plus (c) below:

- (a) 45% of Highest Average Earnings
- (b) 15% of Highest Average Earnings in excess of the Social Security Covered Compensation
- (c) 0.25% of Highest Average Earnings times the number of Unused Months

If the participant has fewer than 35 years of Benefit Service, then the monthly benefit amount will be multiplied by the participant's Benefit Service and divided by 35

Frozen Sebree and Cleveland Benefit

The benefit under the AlcanCorp formula for Sebree and Cleveland participants is determined as the greater of (a) and (b) below:

(a) Accrued benefit as of December 31, 2011 using Benefit Service and Highest Average Earnings as of December 31, 2011 (*based on Earnings through December 31, 2010*), plus the Highest Average Earnings make-up (Part (c) above), increased by the percentage increase of the Final Average Earnings under the Rio Tinto formula at termination over the Highest Average Earnings at December 31, 2011, if any.

(b) Accrued benefit as of December 31, 2011 using Benefit Service and Highest Average Earnings as of December 31, 2011 (*based on Earnings through December 31, 2011*), increased by the percentage increase of the Final Average Earnings under the Rio Tinto formula at termination over the Highest Average Earnings at December 31, 2011, if any.

Prior Plan Offsets

If Benefit Service includes service from other company sources and the prior plan benefit is not payable from the AlcanCorp Trust, the total benefit amount above is offset by any such benefit. The offset amount cannot exceed the benefit amount that would be accrued had only Benefit Service giving rise to the offset were used in determining the total benefit.

Early Retirement Eligibility

Age 55 and five years of Eligibility Service, or when age plus Eligibility Service is at least 75

Total Benefit

Late Retirement Eligibility	After age 65 with five years of Eligibility Service
Total Benefit	The normal retirement benefit actuarially increased beyond the normal retirement date.
Vested Termination Eligibility	Five years of Eligibility Service
Total Benefit	The normal retirement benefit accrued at date of termination, commencing at age 65. The participant may elect for benefits to start before age 65, with benefits reduced by the early retirement reduction factors above.
Cable and Specialty Aluminas	Any Cable and Specialty Aluminas participants affected by the sales are immediately vested in their benefit
All active participants	All remaining active participants as of July 1, 2013 are immediately vested as a result of the plan freeze
Preretirement Death Eligibility	Any vested participant or participant eligible for early retirement, and married to an eligible spouse
Total Benefit	<p>For a participant who is eligible for early or normal retirement, the benefit is an immediate annuity to the surviving spouse equal to 50% of the monthly benefit the participant would have been entitled to had he retired the day before his death and elected the 50% J&S option.</p> <p>For all other vested participants, the benefit is a deferred annuity to the surviving spouse equal to 50% of the monthly benefit that the participant would have been entitled to had he terminated employment on the date of his death, survived to the earliest retirement age, elected the 50% J&S option, and then died the following day.</p>
Disability Retirement Eligibility	Eligible for a medical leave of absence
Total Benefit	The normal retirement benefit, computed using Benefit Service that continues to accrue during disability leave

Normal Form of Benefit

50% J&S annuity if married, otherwise 5 year certain and life annuity. For married participants, the normal form of benefit is actuarially reduced if the spouse is 10 years younger

Optional Forms of Payment

A retiring participant may also elect other optional forms of payment on an actuarially equivalent basis. The options include:

- Full Benefit Joint and Survivor Annuity: Payable for life of participant with an amount less than 50% payable to the spouse upon the participant's death. Only available if spouse is more than 10 years younger. The participant's benefit is not reduced for payment form.
- Continuing Income Joint and Survivor Annuity: Payable for life of participant with a chosen percent (1-100%) payable to the beneficiary upon the participant's death.
- A level income option for retirement prior to commencement of Social Security benefits.
- Lump sum if monthly retirement benefit is less than \$100.
- Participants with accrued benefits from prior plans may have different optional forms

Most optional forms are based on the 417(e) Mortality Table and 6.00% interest. Certain prior plans use different actuarial equivalence for benefits accrued in those plans.

Benefit Limits

Effective January 1, 2002, EGTRRA increased the Internal Revenue Code section 415 limit to \$160,000 and the limit on compensation to \$200,000. The \$200,000 pay limit was applied retroactively for participants who were active as of January 1, 2002.

Special Provisions Applicable to Former Nonhighly-Compensated Members of the
American National Can Group Retirement Plan for Salaried Employees—Plan 1 (i.e.,
former ACPI Salaried Plan)

Note: Eligibility for these special provisions is based on service in the ANCG Salaried Plan, but the actual monthly retirement benefit and the annual salary is based on accredited service and salary as of December 31, 1988 (under the terms of the ACPI Salaried Plan then in effect).

PPPI assumes all liabilities under the ANC 25-Year Survivorship and ANCG 10-Year Survivorship Plan in respect to PPPI employees transferring from ANC.

Survivor Income Benefit

Eligibility

The following requirements must be met at death:

- Hired before January 1, 1979
- Ten years of service
- Employee is active, on leave, on long-term or short-term disability, and
- Not covered by the Survivorship Benefit.

Total Benefit

For death before age 55: a monthly benefit of \$100 payable to the employee's age 55. After the employee's age 55, a monthly benefit equal to the greatest of \$100, 15% of the monthly retirement benefit (as if retired on date of death), or the Preretirement Spouse's Benefit.

For death after age 55: a monthly benefit equal to the greatest of \$100, 15% of the monthly retirement benefit (as if retired on date of death), or the Preretirement Spouse's Benefit.

Survivorship Benefit

Eligibility

The following requirements must be met at death:

Employed on or before April 30, 1975
25 years of service before age 65, and
Either active, on long-term or short-term disability, or an early retiree (does not include vested terminations).

Total Benefit

An amount calculated from a benefit base of two times frozen annual salary (base pay plus salary reductions only). If the benefit base is greater than \$5,000, the amount shall be paid in monthly installments to a beneficiary in such amounts as would have been payable had the benefit base been used to purchase a straight life annuity from an insurance company.

Plan Changes Since the Prior Year

The funding valuation reflects the following plan changes:

- A change in the mortality basis for lump sum payments from the 2019 plan year IRC section 417(e)(3) mortality table to the 2020 plan year IRC section 417(e)(3) mortality table.
- The compensation limit under Section 401(a)(17) of the Internal Revenue Code changed from \$280,000 to \$285,000.
- The dollar limit under Section 415(b) of the Internal Revenue Code changed from \$225,000 to \$230,000.
- The Alcan Plan was merged into the RTA Plan, effective December 31, 2019.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Under the American Rescue Plan Act of 2021 (ARPA), the stabilized interest rates for certain purposes will be adjusted once the ARPA stabilization is applied. By default, this stabilization would have applied starting with the 2020 plan year.

On August 12, 2021, Rio Tinto America Inc. made an explicit election not to apply the ARPA interest rate stabilization (for any purposes) to the Rio Tinto America Inc. Retirement Plan for the 2020 plan year. Therefore, this Schedule SB reflects stabilized 2020 minimum funding interest rates without regard to ARPA.

The U.S. Borax Inc. Retirement Plan for Represented Employees and the Kennecott Utah Copper Pension Plan for Represented Hourly Employees were merged into the Rio Tinto America Inc. Retirement Plan as of December 31, 2020, but this does not impact the January 1, 2020 funding results.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, line 7—Explanation of Discrepancy in Prior Year Funding Standard
Carryover Balance or Prefunding Balance

The January 1, 2020 funding valuation reflects the merger of the Rio Tinto Alcan Pension Plan U.S. into the Rio Tinto America Inc. Retirement Plan as of December 31, 2019.

As a result, the balances shown on line 7 reflect the sum of the balances of the previous plans:

	Carryover Balance	Prefunding Balance
Rio Tinto Alcan Pension Plan U.S. (EIN: 41-2098316, PN: 001)	\$0	\$58,612,352
Rio Tinto America Inc. Retirement Plan (EIN: 11-3359689, PN: 001)	0	98,738,040
Total	\$0	\$157,350,392

The amounts shown on lines 8-13 reflect the sum of the amounts for each of the plans that were merged on 12/31/2019. The interest rate shown on lines 10 and 11(b) is the interest rate for the Rio Tinto America Inc. Retirement Plan (EIN: 11-3359689, PN: 001). The interest rate for the Rio Tinto Alcan Pension Plan U.S. (EIN: 41-2098316, PN: 001) is different. As such, the interest amounts on lines 10 and 11 are the sum of the interest amounts for both plans.

Surviving Spouse Benefit	It is assumed that 75% of males and 75% of females have an eligible spouse, and that males are three years older than their spouses.
Valuation Compensation	2019 pensionable earnings rolled forward one year with the salary increase assumption.
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$230,000 and the IRC section 401(a)(17) compensation limit of \$285,000.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Schedule SB, Part V—Summary of Plan Provisions

Legacy RTA Plan

Effective Date	
January 1, 2003.	
Date of Participation	
	First day of the month after completing one year of service. Participation is closed to new entrants as of April 1, 2007. Participants who were active in the RTA plan at that time were given the option to either stay in the RTA plan or transfer to the Investment Partnership Plan (IPP) as of September 30, 2007.
	As of October 1, 2012, Cleveland Salaried employees that were participants in the AlcanCorp Pension Plan before 2012 began accruing in the RTA Plan. Benefits in the RTA Plan are calculated using pay and service earned after the date of transfer into the RTA Plan. However, participants receive vesting service from date of hire.
	As of January 1, 2013, all remaining active PPPI, active Cable, and LTD participants in the AlcanCorp Pension Plan began accruing in the RTA Plan. Benefits in the RTA Plan are calculated using pay and service earned after the date of transfer into the RTA Plan. However, participants receive vesting service from date of hire.
	As of January 1, 2015, active participants who are rehired into the IPP with a break in service of less than five years are eligible to receive pay increases to their RTA Plan benefit, even if they did not choose to transfer to the IPP in 2007.
	As of November 6, 2017, all participants who were part of the annuity contract purchase that occurred on October 31, 2017 are no longer participants under the plan.
	As of April 9, 2019, all participants who were part of the annuity contract purchase that occurred on April 2, 2019 are no longer participants under the plan.
	As of December 31, 2019, all participants who were part of the Alcan plan were merged into the RTA plan.

Normal Retirement

Eligibility

Age 65.

Total Benefit

(a) For service before January 1, 2003:

See supplements.

(b) For service after December 31, 2002:

A monthly benefit equal to (i) plus (ii) below, multiplied by Benefit Service:

(i) 1% of Final Average Earnings up to Social Security Covered Compensation.

(ii) 1.667% of Final Average Earnings in excess of Social Security Covered Compensation.

Compensation Update

Former AlcanCorp Pension Plan participants also receive a compensation update on their frozen benefit from the AlcanCorp Pension Plan. The compensation update is payable from the RTA Plan. The compensation update is equal to the percentage increase of the Final Average Earnings over the participant's Highest Average Earnings used to calculate the frozen benefit payable from the AlcanCorp Pension Plan, multiplied by the frozen benefit payable from the AlcanCorp Pension Plan. The compensation update has a minimum value of \$0 and is added to the Normal Retirement Benefit accrued under the RTA Plan as described above.

Early Retirement Eligibility

Age 55 and five years of Vesting Service.

Total Benefit

Termination before age 55 or before completing 10 years of Vesting Service.

The accrued normal retirement benefit multiplied by the appropriate age-based factor below:

Legacy Alcan Plan

Plan History

Following is a description of significant events that have occurred within the past ten years.

Effective December 31, 2011, all benefit accruals are frozen for certain Cable unit employees. Benefit Service and Social Security Covered Compensation are frozen as of December 31, 2011. Highest Average Earnings shall not include earnings during 2011 or any subsequent years. Members who are affected are "Non-Grandfathered Cable Unit Members" and include participating employees that do not meet the following criteria:

- age 45 and ten years of Benefit Service, or;
- age 55 and nine years of Benefit Service or ten years of Eligibility Service.

All other Cable unit employees are "Grandfathered Cable Unit Members" and continue to accrue benefits. This includes any Cable unit employee on long-term disability or severance.

Effective December 31, 2011, all benefit accruals under the AlcanCorp Plan formula are frozen for Salaried Seabee and Cleveland employees. These participants start to accrue benefits under the Rio Tinto America Plan formula for service after December 31, 2011. The December 31, 2011 frozen benefit is increased by the percentage increase of the Final Average Earnings (as defined under the Rio Tinto America formula), over the participant's Highest Average Earnings (as defined under the AlcanCorp formula) at December 31, 2011.

Effective December 31, 2011, any PPPI employee who was a participant of the Alcan Combined Pension Plan as of December 31, 2011 shall become a participant of the AlcanCorp Pension Plan as of January 1, 2012. For these participants, the benefit payable from the AlcanCorp Pension Plan is equal to the benefit accrued under the Alcan Combined formula using all years of service and pay prior to termination, and offset by the benefit accrued under the Alcan Combined formula as of December 31, 2011.

The Specialty Aluminas business unit was sold in August 2012 and the Cable business unit was sold on September 4, 2012. For participants with ongoing accruals, any accruals in the plan have ceased as of the date of sale. Any participants that were terminated as a result of the sales with less than five years of service have been vested in their benefit. Participants that were on LTD at the time of the sale will continue to earn future service accruals from the AlcanCorp Pension Plan.

As of September 30, 2012, accruals for Cleveland participants were frozen in the AlcanCorp Pension Plan. These participants transferred to the Rio Tinto America Plan on October 1, 2012. The Rio Tinto America Plan provides future accruals and pay growth on the past service frozen benefit from the AlcanCorp Plan.

Any remaining Cable, PPPI and LTD participants in the AlcanCorp Pension Plan as of December 31, 2012 have transferred to the Rio Tinto America Plan. Accruals in the AlcanCorp Pension Plan have ceased as of December 31, 2012 for these participants. The Rio Tinto America Plan provides future accruals and pay growth on the past service benefit from the AlcanCorp Plan, as applicable.

As of July 1, 2013, accruals were frozen for all remaining participants.

Effective December 31, 2013, the Alcan Combined Pension Plan was merged into the AlcanCorp Pension Plan, and the merged plan was renamed the Rio Tinto Alcan Pension Plan (U.S.). The January 1, 2014 funding valuation reflects the benefit liabilities and plan assets of the Alcan Combined Pension Plan that merged into the Rio Tinto Alcan Pension Plan (U.S.) on December 31, 2013.

As of November 6, 2017, all participants who were part of the annuity contract purchase that occurred on October 31, 2017 are no longer participants under the plan.

As of August 6, 2018, all participants who were part of the annuity contract purchase that occurred on August 1, 2018 are no longer participants under the plan.

Effective April 1, 2018, the plan's actuarial equivalence definition was changed for the non-legacy PPPI groups to 6.00% interest and the 417(e) Mortality Table.

Effective December 31, 2019, the Alcan plan was merged into the RTA plan.

The benefit under the AlcanCorp formula for Sebree and Cleveland participants is determined as the greater of (a) and (b) below:

(a) Accrued benefit as of December 31, 2011 using Benefit Service and Highest Average Earnings as of December 31, 2011 (*based on Earnings through December 31, 2010*), plus the Highest Average Earnings make-up (Part (c) above), increased by the percentage increase of the Final Average Earnings under the Rio Tinto formula at termination over the Highest Average Earnings at December 31, 2011, if any.

(b) Accrued benefit as of December 31, 2011 using Benefit Service and Highest Average Earnings as of December 31, 2011 (*based on Earnings through December 31, 2011*), increased by the percentage increase of the Final Average Earnings under the Rio Tinto formula at termination over the Highest Average Earnings at December 31, 2011, if any.

Prior Plan Offsets

If Benefit Service includes service from other company sources and the prior plan benefit is not payable from the AlcanCorp Trust, the total benefit amount above is offset by any such benefit. The offset amount cannot exceed the benefit amount that would be accrued had only Benefit Service giving rise to the offset were used in determining the total benefit.

Normal Form of Benefit

50% J&S annuity if married, otherwise 5 year certain and life annuity. For married participants, the normal form of benefit is actuarially reduced if the spouse is 10 years younger

Optional Forms of Payment

A retiring participant may also elect other optional forms of payment on an actuarially equivalent basis. The options include:

- Full Benefit Joint and Survivor Annuity: Payable for life of participant with an amount less than 50% payable to the spouse upon the participant's death. Only available if spouse is more than 10 years younger. The participant's benefit is not reduced for payment form.
- Continuing Income Joint and Survivor Annuity: Payable for life of participant with a chosen percent (1-100%) payable to the beneficiary upon the participant's death.
- A level income option for retirement prior to commencement of Social Security benefits.
- Lump sum if monthly retirement benefit is less than \$100.
- Participants with accrued benefits from prior plans may have different optional forms

Most optional forms are based on the 417(e) Mortality Table and 6.00% interest. Certain prior plans use different actuarial equivalence for benefits accrued in those plans.

Benefit Limits

Effective January 1, 2002, EGTERRA increased the Internal Revenue Code section 415 limit to \$160,000 and the limit on compensation to \$200,000. The \$200,000 pay limit was applied retroactively for participants who were active as of January 1, 2002.

Plan Provisions – Alcan Combined Pension Plan Formula

Participants Accruing Under Formula PPPI participants that are active as of January 1, 2012

Benefit payable from the AlcanCorp Pension Plan is equal to the benefit accrued under the Alcan Combined formula using all years of service and pay prior to termination, and offset by the benefit accrued under the Alcan Combined Pension Plan as of December 31, 2011.

PPPI participants transferred to the Rio Tinto America Plan on January 1, 2012

ANCG Offset for PPPI Employees
Transferring from ANC

Benefits payable from the Plan will be equal to the Total Benefit payable to a participant minus the portion of the benefit that will be paid by former ANC Plan #020.

The ANCG portion of the benefit will be based on service with ANCG and the Highest Average Salary upon termination from PPPI. Highest Average Salary for the ANCG portion of the benefit is limited to an average of 5% increases from the ANCG Highest Average Salary at the time of participant transfer. Eligibility for benefits is based on combined service with PPPI and ANCG.

Plan Changes Since the Prior Year

The funding valuation reflects the following plan changes:

- A change in the mortality basis for lump sum payments from the 2019 plan year IRC section 417(e)(3) mortality table to the 2020 plan year IRC section 417(e)(3) mortality table.
- The compensation limit under Section 401(a)(17) of the Internal Revenue Code changed from \$280,000 to \$285,000.
- The dollar limit under Section 415(b) of the Internal Revenue Code changed from \$225,000 to \$230,000.
- The Alcan Plan was merged into the RTA Plan, effective December 31, 2019.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Under the American Rescue Plan Act of 2021 (ARPA), the stabilized interest rates for certain purposes will be adjusted once the ARPA stabilization is applied. By default, this stabilization would have applied starting with the 2020 plan year.

On August 12, 2021, Rio Tinto America Inc. made an explicit election not to apply the ARPA interest rate stabilization (for any purposes) to the Rio Tinto America Inc. Retirement Plan for the 2020 plan year. Therefore, this Schedule SB reflects stabilized 2020 minimum funding interest rates without regard to ARPA.

The U.S. Borax Inc. Retirement Plan for Represented Employees and the Kennecott Utah Copper Pension Plan for Represented Hourly Employees were merged into the Rio Tinto America Inc. Retirement Plan as of December 31, 2020, but this does not impact the January 1, 2020 funding results.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the assumed combined expenses payable from the trust from \$3,404,766 (\$1,143,634 for RTA and \$2,261,132 for Alcan) to \$2,844,066.
- A change in the funding asset return assumption from 5.50% for 2019 to 4.90% for 2020.
- A change in the percent married assumption to 75%.
- A change in the disability rates to no assumed future disablements.

These changes were made to better reflect anticipated plan experience. The non-prescribed assumption changes did not reduce the funding shortfall by more than \$5 million; as such, approval of the Commissioner is not required.

Schedule SB, line 32—Schedule of Amortization Bases

Type of Base	Present Value of Installment	Date Established	Years Remaining	Amortization Installment
Shortfall	\$ 2,298,732	January 1, 2016	3	\$ 793,797
Shortfall	\$ 5,656,450	January 1, 2017	4	\$ 1,490,830

Shortfall	\$ 14,705,928	January 1, 2020	7	\$ 2,381,926

Under the American Rescue Plan Act of 2021 (ARPA), the shortfall relief wipes out existing shortfall amortization bases and changes the amortization period. By default, this relief applies starting with the 2022 plan year. This Schedule SB reflects the shortfall amortization bases without regard to the ARPA shortfall relief for the 2019 and 2020 plan years.

Part III Form M-1 Compliance Information (to be completed by welfare benefit plans)

11a If the plan provides welfare benefits, was the plan subject to the Form M-1 filing requirements during the plan year? (See instructions and 29 CFR 2520.101-2.), ☐ Yes ☐ No

If "Yes" is checked, complete lines 11b and 11c.

11b Is the plan currently in compliance with the Form M-1 filing requirements? (See instructions and 29 CFR 2520.101-2.) ☐ Yes ☐ No

11c Enter the Receipt Confirmation Code for the 2020 Form M-1 annual report. If the plan was not required to file the 2020 Form M-1 annual report, enter the Receipt Confirmation Code for the most recent Form M-1 that was required to be filed under the Form M-1 filing requirements. (Failure to enter a valid Receipt Confirmation Code will subject the Form 5500 filing to rejection as incomplete.)
