Note 1. Plan Description

The following description of Abundant Venture Partners Holding, LLC (the Company) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of the Company and participating affiliates, except those employees covered by a collective bargaining agreement. Employees become eligible to participate in the Plan upon the first day of the month after they attain the eligibility requirements. Participants must have attained the age of 21 and completed three months of service to be eligible to participate in the Plan. Participants must also be employed on the last day of the Plan year and completed at least 1,000 hours of service to be eligible for Company matching and Company nonelective contributions, if any. Eligible employees shall be deemed to have elected to defer 3% of their compensation beginning as of the date he/she becomes a participant unless prior to such date, the participant elects to defer a different amount, or opt-out completely. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may elect to make pre-tax contributions up to 75% of their eligible compensation, as defined by the Plan, subject to annual limits as permitted under the Internal Revenue Code (IRC). Participants may also designate a portion of their contributions to the Plan as Roth contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers).

The Company may make discretionary matching and discretionary nonelective contributions to the Plan, as determined by the Board of Directors each year. There were no Company match nor Company nonelective contributions made for the year ended December 31, 2020.

Participant accounts: Each participant's account is credited with the participant's contributions, the Company's discretionary matching contributions, if any, an allocation of the Company's nonelective contribution, if any, investment earnings and losses, and Plan expenses. Allocations are based on compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant receives 25% vesting credit for each year of credited service until attaining 100% vesting after four years of credited service, as defined. In the event of death, disability, or retirement at designated ages, participants become fully vested.

Forfeited accounts: At December 31, 2020 and 2019, forfeited nonvested accounts totaled $55,791 and $60,813, respectively. These accounts can be used to pay Plan expenses or to reduce Company contributions. In 2020, no forfeited nonvested account funds were used to pay Plan expenses.

Investment options: Upon enrollment in the Plan, participants may direct the investment of their account balances in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Payment of benefits: Distributions from the Plan may be made in the form of a single lump-sum or in installments, not to exceed the life expectancy of the participant. If a participant’s non-forfeitable balance is less than $5,000 at termination, the benefit will be paid in a lump-sum payment.

Note 1. Plan Description (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000, reduced by the highest outstanding loan balance during the previous twelve months, or one-half of the participant's vested account balance. Participants may only have one loan outstanding at a time. Loan terms range from 1-5 years, unless the loan is for the purchase of the participant's primary residence, for which loan terms can extend up to 30 years. The loans are collateralized by the balance in the participant's account and bear interest at a rate of prime plus 2% at the time of loan origination. The outstanding loans at December 31, 2020, have an interest rate of 5.25% to 6.75%. Principal and interest are paid through payroll deductions.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment Trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Due from broker: At December 31, 2020, the trustee had liquidated the investments in the Plan in preparation to transfer the funds to the new trustee in January 2021 (see Note 10). The due from broker balance at December 31, 2020 represents the receivable for liquidated funds held on behalf of the trustee.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Defaulted loans are treated as distributions based upon the terms of the Plan documents.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 15, 2021, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Reliance Trust Company, the Trustee

The following is a summary of the Plan's asset and income information as of December 31, 2020 and 2019, and for the year ended December 31, 2020, included throughout the Plan's financial statements that was prepared by or derived from information provided by the Trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that information provided to the Plan Administrator by the Trustee related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements related to the following assets and income:

	2020	2019
Shares of registered investment companies	$ -	$ 3,752,996
Notes receivable from participants	$ 43,117	$ 595
Net appreciation in fair value of investments	$ 625,280	
Interest and dividends	$ 130,535	
Interest income on notes receivable from participants	$ 1,951	

Note 4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2020 and 2019.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded.

There were no investments measured at fair value held as of December 31, 2020. The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2019:

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 3,752,996	$ -	$ -	$ 3,752,996
Total assets at fair value	$ 3,752,996	$ -	$ -	$ 3,752,996

Note 4. Fair Value Measurements (Continued)

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2020, there were no significant transfers in or out of Level 3.

Note 5. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2020:

Net assets available for benefits per the financial statements	$ 5,265,056
Receivable due from broker	(5,221,939)
Shares of registered investment companies	5,221,357
Net assets available for benefits per Form 5500	$ 5,264,474

The following is a reconciliation of the change in net assets available for benefits per the financial statements to the Form 5500 for the period ended December 31, 2020:

Change in net assets available for benefits per the financial statements	$ 1,511,465
Benefits payments	(5,292)
Expenses	4,710
Change in net assets available for benefits per Form 5500	$ 1,510,883

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7. Income Tax Status

Effective January 1, 2016, the Plan adopted a standardized form of a prototype plan sponsored by Automatic Data Processing. The prototype plan provider has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

Note 7. Income Tax Status (Continued)

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Related-Party Transactions

Certain Plan investments are managed by Reliance Trust Company, the Trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest. The Company pays certain Trustee and plan administration fees to Reliance Trust Company on behalf of the Plan. Fees paid by the Plan to Reliance Trust Company for the year ended December 31, 2020, totaled $6,796.

Certain employees of the Company provide administrative services to the Plan. These employees do not receive any compensation from the Plan for their services.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts report in the statements of net assets available for benefits.

Note 10. Subsequent Event

Effective January 1, 2021, the Plan changed its Trustee from Reliance Trust Company to Fidelity Trust Company. In connection with the change in Trustee, total plan assets, including notes receivable from participants, totaling approximately $5,300,000 were transferred out of Reliance Trust Company to Fidelity Trust Company in January 2021.
