Note 1: Description of Plan

The following description of the Toyesco 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement, including amendments, for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Myers Automotive Group, Inc. dba Toyota of Escondido, ADGS Automotive Group, Inc. dba Hyundai of Escondido, and TE Motorsports, LLC (collectively referred to as the "Company"). The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code ("IRC") and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan initially became effective May 1, 1990, and has been amended and restated effective January 1, 2019.

On March 27, 2020 the Coronavirus Aid, Relief, and Economic Security ("CARES Act") was signed into law. Plans are permitted to immediately adopt any of the provisions provided that the Plan document is retroactively amended on or before December 31, 2022. Further discussion of the provisions adopted can be found in **Payment of Benefits** and **Notes Receivable from Participants.**

Employees will become eligible to participate in the Plan once they have completed six (6) months of service and have reached age 21 years or older. Plan entry dates are on the first day of the calendar quarter after satisfying eligibility requirements.

Contributions

Each year participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, up to the IRC annual maximum. Such contributions may be pre-tax Elective Deferrals (as defined). Participants may also contribute amounts representing distributions from other qualified plans ("rollovers"). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan allows for the Company to make discretionary matching contributions. During 2020 the Company matched 1% of the employee deferred compensation up to the first 4% of compensation on a per payroll basis. The eligibility for the matching contributions is the same as eligibility for the Plan and elective deferrals. The Plan also allows for the Company to make discretionary profit- sharing contribution. For the year ending December 31, 2020, the Company did not elect to make a profit-sharing contribution.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, (b) Plan earnings or losses, and (c) administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1: Description of Plan (Continued)

Vesting

Participants are immediately 100% vested in their contributions plus actual earnings thereon. Prior to January 1, 2019, participants were also 100% vested in any Company discretionary matching and profit-sharing contributions upon participation in the Plan. Effective January 1, 2019, the Company discretionary matching contributions and profit-sharing contributions and earnings thereon will be vested in accordance with the following schedule:

Years of Service	Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Each participant will also become fully vested upon termination of the Plan, or upon retirement at or after normal retirement date, or discontinuance of employment due to death or permanent disability.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to $50,000 as reduced by the excess (if any) of the highest outstanding balance of loans in the previous 12 months over the outstanding balance of loans from the plan on the loan date, or 50% of a participant's vested balance, whichever is less. The loans are secured by the balance in the participant's account. Loan repayment periods may not exceed five years unless the loan proceeds are used to acquire a principal residence, in which case the loan repayment period may not extend beyond 15 years (20 years if it was initiated prior to January 1, 2019) from the date of the loan. All loans shall bear an interest rate equal to the prime rate plus 2% (prime rate plus 1% if it was initiated prior to January 1, 2019), which shall remain fixed throughout the duration of the loan. Principal and interest are paid ratably through payroll deductions. Each participant may have only two loans outstanding at any one time. Effective August 1, 2019, the Plan amended its loan policy to limit the number of outstanding loans to one at any one time and refinancing of an existing loan is not permitted.

In accordance with the CARES Act, the Plan adopted the following temporary provisions for qualified participants:

- For qualified individuals with outstanding loans, loan repayments during the period March 27, 2020 through December 31, 2020, may be deferred. During the period of deferment, the loans will continue to accrue interest. Accrued interest will be added to the remaining principal balance, and the loan will be re-amortized. The term of the loan can be extended up to 1 year from the date the loan was originally due to be repaid.

- Qualified individuals may borrow the lessor of $100,000 or 100% of their vested account balance from March 27, 2020 to September 22, 2020.

Note 1: Description of Plan (Continued)

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, installment payments or an annuity. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All vested account balances not exceeding $1,000 will be immediately distributed in a lump-sum payment. All vested account balances exceeding $1,000, up to $5,000, will be immediately rolled into another tax deferred account. With the Plan administrator's approval, participants may withdraw all or part of their aggregate contributions in the event of financial hardship. Active employees who attain age 59 1/2 are permitted to withdraw at any time any part of his or her vested account.

In accordance with the Bipartisan Budget Act of 2019, the Plan adopted the following provisions with an effective date of January 1, 2020:

- Participants who obtain a hardship distribution, can continue to contribute to the plan, and are no longer subject to a six-month suspension.

- Participants are no longer required to take a loan out from the plan before they can obtain a hardship distribution.

In accordance with the CARES Act, the Plan adopted the following temporary provisions for qualified participants:

- Qualified individuals could request a coronavirus-related distribution up to $100,000 between January 1, 2020 and December 31, 2020. The coronavirus-related distributions were not subject to the early withdrawal penalty or to the mandatory federal withholding of 20%. Participants have the option repay the distribution within three years.

Forfeited Accounts

At December 31, 2020 and 2019, forfeited non-allocated accounts totaled $705 and $681, respectively. Forfeitures are retained in the Plan and may be used to reduce future employer contributions or to restore forfeited account balances of rehires who are eligible for a restoration of forfeitures. For the year ended December 31, 2020, there was no usage of forfeitures.

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Note 2: Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians, and also the appropriateness of the Plan's investment offerings and investment performance. See note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded on a cash basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent notes receivable that are deemed by the Plan Administrator to be in default are recorded as distributions on the basis of the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2020 and 2019.

Corrective Distributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. These corrective distributions should generally be distributed prior to March 15, 2021.

Payment of Benefits

Benefits are recorded when paid.

Deemed Distributions

Plan provisions provide that participants must repay note receivable balances upon termination from the Plan. Outstanding balances that are not repaid are treated as deemed distributions.

Plan Fees and Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan, unless otherwise paid by the Company. Expenses paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of the fair value of investments and in administrative expenses.

Date of Management's Review

Events occurring after December 31, 2020 have been evaluated for possible adjustments to the financial statements or disclosures as of October 15, 2021, which is the date the financial statements were available to be issued.

Note 3: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Pooled separate accounts ("PSAs"): PSAs are valued at the NAV based on units of the pooled separate accounts. The NAV is used as a practical expedient to estimate fair value and is generally based on the fair value of the underlying investments held by the pooled separate account less its liabilities. This practical expedient is not used when it is determined to be probable that the pooled separate account will sell the investment for an amount different than the reported NAV. The redemption frequency of the pooled separate accounts is daily, and there are no redemption restrictions or unfunded commitments related to the pooled separate accounts.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with Subtopic 820-10, certain investments, with fair values totaling $8,246,781 and $7,378,826 at December 31, 2020 and 2019, respectively, were measured at NAV per share (or its equivalent) as a practical expedient and have not been classified by level in the fair value hierarchy.

Note 3: Fair Value Measurements (Continued)

In regards to the classification of investment options offered by the Plan, there were no reclassifications in or out of levels 1, 2 or 3 during the years ended December 31, 2020 and 2019. The nature, risks and investment objectives of the investments described above, including those for which fair value is estimated using NAV as a practical expedient, can be found in the Plan's enrollment literature. These investments can be redeemed immediately and without a redemption notification period. For the years ended December 31, 2020 and 2019, there were no unfunded commitments associated with any of these investments.

Note 4: Group Annuity Contract with Voya

The Plan invests in fully benefit-responsive guaranteed investment contracts with Voya Retirement Insurance and Annuity Company (Voya) totaling $878,224 for 2020 and $574,112 for 2019. Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1%. The crediting rate is reviewed on an annual basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by both Principal and Voya, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events that cause a significant withdrawal from the plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following: (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, and (4) a material amendment to the agreements without the consent of the issuer.

Note 5: Information Certified by the Plan's Custodian

The Plan administrator elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following information included in the accompanying financial statements is complete and accurate:

- Investments and notes receivables from participants as reflected on the accompanying statements of net assets available for benefits as of December 31, 2020 and 2019, respectively.

- Investment income and interest income on notes receivable from participants as reflected in the statement of changes in net assets available for plan benefits for the year ended December 31, 2020.

Note 6: Party-In-Interest Transactions

The Plan allows for transactions with certain parties who may perform investment or recordkeeping services for the Plan. The Plan also issues loans to participants, which are secured by the balances in the participants' accounts. These transactions qualify as party-in-interest transactions for which a statutory exemption exists.

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the terms of the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8: Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9: Risks and Uncertainties (Continued)

On March 11, 2020, the World Health Organization declared the current coronavirus, or COVID-19, outbreak to be a global pandemic. Both prior to and in response to this declaration and the rapid spread of COVID-19 around the world and within the United States, international, federal, state, and local government or other authorities have instituted certain preventative measures. These restrictions are disrupting economic activity worldwide, resulting in volatility in the global capital markets. The complete impact of COVID-19 on companies, the Plan's financial position, results of operations and changes in equity remains dependent on future developments, including the duration of the pandemic and the related length of its impact on the global economy, which cannot be predicted at this time.

Note 10: Delinquent Participant Contributions

During the 2019 and 2020 audit, it was determined that the Company had failed to remit employee deferrals in the time described in 29 CFR 2510.3-102. As a result of these late remittances, the Plan is considered to have engaged in a prohibited transaction. The plan administrator has identified the procedural errors that allowed the late deferrals to occur and has taken steps to ensure that this does not happen again in the future. The plan sponsor is in the process of self-correcting the late remittances and will remit lost earnings to the Plan. These earning are expected to be immaterial to the financial statements.

Note 11: Subsequent Event

The Plan is in the process of changing the custodian from Voya Retirement Insurance and Annuity Company to ADP Retirement Services during October 2021. The blackout period began October 1, 2021 and upon completion all assets of the Plan will be transferred.
