NOTE 1 – DESCRIPTION OF PLAN

Description of Plan

The following brief description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, covering all eligible employees of Sugared + Bronzed, LLC (the Company) who have attained the age 18 years, excluding employees covered by a collective bargaining agreement and are non-resident aliens. Employees meeting this criteria are deemed immediately eligible to enter the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA). Additionally, the Plan complies with safe harbor provisions.

Contributions

Each year, participants may elect to defer up to 100% of their compensation on a pre-tax basis. Participants may also elect to make Roth contributions to the Plan on an after-tax basis. Participants may contribute up to the maximum amount allowable under the Internal Revenue Code. Participants who have attained age 50 prior to the end of the plan year are eligible to make catch-up contributions, as defined. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct their contributions into various investment options offered by the Plan. The Plan currently offers a variety of mutual funds as investment options for participants. Contributions are subject to certain limitations.

The Company may make discretionary matching contributions. Company matching contributions are equal to a discretionary percentage of participant salary deferrals. For the year ended December 31, 2020, there were no discretionary matching contributions.

The Company may also make discretionary profit sharing contributions, as determined by the plan sponsor. These matching contributions are equal to a discretionary percentage of participant compensation, as determined by the Company each year. There were no discretionary matching contributions for the plan year ended December 31, 2020.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings (losses) or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching contribution portion of their accounts is based on years of continuous service. Participants shall become fully vested upon death, total and permanent disability and upon attainment of normal retirement, as defined.

Years of Vesting Service	Vesting Percentage
<2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the vested value of the participant's vested interest in his or her account. A participant will become fully vested on or after the date they reach normal retirement age, as defined. Active participants who become totally disabled or die will become fully vested on that date, and a benefit equal to the participant's vested account balance will be paid to the participant or beneficiary. Participants are also permitted to make hardship withdrawals if certain criteria, as defined in the plan document, are met.

Forfeited Accounts

At December 31, 2020 there were no nonvested account balances. If available, these balances are typically used to reduce the Company's employer contributions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan's investment committee determines the plan's valuation policies utilizing information provided by the investment advisors, trustees and insurance company. See Note 3 for discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid. As of December 31, 2020, there were no pending distribution requests.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation or depreciation of fair value of investments.

COVID-19 Pandemic

On March 27, 2020, the "Coronavirus Aid, Relief, and Economic Security (CARES) Act" was signed into law. The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to plan participants under the CARES Act and has implemented the following provisions:

- Special coronavirus distributions up to $100,000,
- Suspended required minimum distributions for 2020.

Subsequent Events

Events that occurred subsequent to December 31, 2020 have been evaluated by the Plan's management for potential recognition or disclosure in the financial statements through the date of the independent auditor's report, which is the date the financial statements were available to be issued. The Plan did not have any material recognizable subsequent events during this period.

NOTE 3 – FAIR VALUE MEASUREMENTS

The Plan accounts for the fair value of its investments under the Fair Value Measurement and Disclosure topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification, which provides the framework for measuring fair value. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three (3) levels of the fair value hierarchy under this guidance are described below:

Level 1
Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2
Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

The following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies (exchange-traded fund): Valued at the daily closing price as reported by the fund. Exchange-traded fund held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The exchange-traded funds held by the Plan are deemed to be actively traded. Fair value of an exchange-traded fund is valued at quoted prices from active markets.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020:

December 31, 2020	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 5,878	$ -	$ -	$ 5,878

NOTE 4 – INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

At December 31, 2020, the Plan's investments were held and certified by Sunwest Trust, Inc., the trustee of the plan. The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustees certified all assets and investment income included in the accompanying financial statements and supplemental schedule is complete and accurate.

The Plan's auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 5 – RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Betterment for Business, recordkeeper for the Plan, manages the daily transactions of the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Betterment for Business for investment management services amounted to $48 for the year ended December 31, 2020.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their Company discretionary matching contributions.

NOTE 7 – TAX STATUS

The IRS has determined and informed the plan sponsor by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator and the plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the plan's financial statements. Required nondiscrimination testing, as applicable, has been completed for the Plan, and any excess deferrals or contributions have been disposed of in accordance with regulations.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by a taxing authority. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress because this is the initial year of the Plan.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.
