Note 1. Description of Plan

The following description of the Prosci, Inc 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document and summary Plan description for more complete information.

General and eligibility: The Plan is a defined contribution plan established on January 1, 2020, to cover all employees of Prosci, Inc. (the Company or Plan Sponsor). All employees are eligible to participate in the Plan; there is no minimum age requirement or service hour requirement.

Contributions and investment options: Each year participants may contribute a specified percentage or dollar amount between 1% and 90% of pretax annual compensation, as defined by the Plan, subject to certain Internal Revenue Service limitations. The Plan allows participants to designate contributions as Roth 401(k). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company matches 100% of the first 3% of employee contributions and 50% of the next 2% of employee contributions each pay period. The Company may additionally make nonelective contributions to the Plan at its discretion to eligible participants who are employed by the Company on the last day of the Plan year. No such discretionary contributions were made to the Plan during 2020.

Effective September 1, 2020, the Company modified their plan to eliminate safe harbor matching contributions and, therefore, the Plan does not qualify as a safe harbor plan for the 2020 Plan year.

Participants in the Plan direct their contributions and Company contributions into various investment options offered by the Plan. Participants may change their elections daily. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions and an allocation of the Company's contributions and Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately 100% vested in their voluntary contributions, employer safe harbor matching contributions, and nonelective contributions, if any, plus allocated earnings and losses thereon.

Payment of benefits: On termination of service due to retirement, death or disability, a participant, or their beneficiary in the case of death, may elect to receive a lump sum amount equal to the value of the participant's account, or an annuity which provides for annual installments over a specified period. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution less applicable taxes, or the participant may elect to roll over his or her account balances into another qualified retirement savings account. If the participant's account balance is less than $1,000 at the time of termination, a lump-sum payment of cash will automatically be made.

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts amounts from $500 to $50,000 reduced by the excess, if any, of the highest outstanding balance during the prior 12 months over the outstanding balance on the date on which the new note is made and limited to a maximum of 50% of the present value of the participant's vested account balance. The notes bear interest at the Wall Street Journal prime rate on the 14th of each month, plus two percentage points. Notes receivable are collateralized by the participant's vested account balance. The repayment period is limited to five years, except that a note used for the purchase of a principal residence may be up to 30 years. The repayment period may not extend beyond the participant's normal retirement date. Principal and interest are paid ratably through payroll deductions. Participants are allowed one loan at a time. There was no loan activity for the year ended December 31, 2020.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Accounting estimates and assumptions: The preparation of financial statements in accordance with generally accepted accounting principles requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and uncertainties: The Plan utilizes various funds as investment instruments. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the financial statements.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Administrative expenses: Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Administrative expenses of the Plan are charged against earnings, except to the extent expenses are paid by the Company.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Note 2. Summary of Significant Accounting Policies (Continued)

Recently adopted accounting pronouncement: In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. ASU No. 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The adoption of ASU No. 2018-13 did not have a material impact on the financial statements.

Subsequent events: The Plan Administrator evaluated subsequent events through October 14, 2021 which is the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by the Trustee

The following is a summary of the Plan's asset information as of and for the year ended December 31, 2020, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Reliance Trust Company (the Trustee), and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that information provided to the Plan Administrator by the Trustee related to the following assets is, to the best of their knowledge and belief, complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule related to the following assets at December 31, 2020:

Investments, at fair value:	
Mutual funds	$ 1,308,662
Common collective trust	24,587
	$ 1,333,249

The Trustee also certified to the completeness and accuracy of the investment income information (including investments bought, sold and held during the year) for the year ended December 31, 2020, included on the accompanying statement of changes in net assets available for benefits.

Note 4. Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices in active markets for identical assets or liabilities;

Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; and

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Reported at fair value based on quoted market price of the fund and classified within Level 1 of the valuation hierarchy.

Common collective trust (CCT): These investments are public investment vehicles valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus the liabilities, and then divided by the number of shares outstanding. The CCT is not classified within the fair value hierarchy pursuant to Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*.

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy the Plan's investments at fair value as of December 31, 2020. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 1,308,662	$ -	$ -	$ 1,308,662
Total assets at fair value	$ 1,308,662	$ -	$ -	1,308,662
Investments measured at NAV (a)				24,587
				$ 1,333,249

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

During the year ended December 31, 2020, the Plan did not make any significant transfers between levels.

The following table summarizes investments for which fair value is measured using the NAV per share as a practical expedient as of December 31, 2020. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common collective trust (a)	$ 24,587	n/a	Daily	n/a

Note 4. Fair Value Measurements (Continued)

(a) The investment strategy of this fund is not disclosed pursuant to ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)—(I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at its discretion. In the event of termination, the net assets of the Plan, after payment of any expenses properly charged, will be distributed to each participant according to the amount then credited to his or her account.

Note 6. Tax Status

Effective January 1, 2020 and restated September 1, 2020, the Plan adopted a non-standardized form of a prototype plan sponsored by the third-party administrator. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Party-In-Interest Transactions

Service charges paid by the Plan to the third-party administrator for recordkeeping services amounted to $3,147 for the year ended December 31, 2020, and are included in administrative expenses on the statement of changes in net assets available for benefits.

Note 8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2020, to Form 5500:
