In making those risk assessments, the auditor considers internal control relevant to the plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the plan's internal control. ## Note 1 Plan Description

The following description of Northern Medical Group, PLLC ("the Company") Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

### General

The Plan is a defined contribution plan covering all full-time employees of the Company who have completed at least 1,000 hours of service in twelve consecutive months and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

### Contributions

Subject to annual limitations established by the Internal Revenue Code ("IRC") each year, participants may contribute a minimum of 1% up to 90% of eligible compensation, as defined by the Plan. Participants who have attained age 50 by December 31, are eligible to make catch-up contributions. Participants direct the investment of all contributions into various investment options offered by the Plan.

The Company makes safe harbor contributions of 3% of eligible compensation, as defined by the Plan for eligible employees, regardless of whether they make elective deferrals.

The Company may make additional profit-sharing contributions at its discretion. The Company did not make any profit-sharing contributions during the year ended December 31, 2020.

### Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings. Participant accounts are charged with an allocation of certain administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

### Vesting

Participants are immediately vested in their contributions and the Company's safe harbor contribution plus actual earnings thereon. Vesting in the Company's profit-sharing contribution portion of their account is based on continuous years of service. A participant is 100% vested after six years of service.

**Note 1 Plan Description (continued)**

**Notes Receivable from Participants**
Participants may borrow from their accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate similar to that charged by commercial banks for similar loans. Principal and interest is paid ratably through payroll deductions.

**Payment of Benefits**
On termination of service due to death, disability, retirement or termination of employment, a participant may elect to receive a lump-sum amount equal to the participant's vested interest in their account or payable in installments as defined in the Plan. In-service and hardship withdrawals are also permitted by the Plan.

**Forfeited Accounts**
Forfeited non-vested account balances may be applied to reduce future employer contributions or to pay administrative expenses. For the years ended December 31, 2020 and 2019, unallocated forfeited non-vested amounts totaled $31 and $43, respectively. During the year ended December 31, 2020 forfeited balances of $4,642 were reallocated to employer contributions.

**CARES Act**
During March 2020, Congress passed the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act"), which included several relief provisions available to tax qualified retirement plans and their participants. The provisions of the CARES Act may be effective and operationalized immediately, prior to amending the Plan Document. During 2020, the Plan elected to implement the provisions allowing eligible plan participants to request penalty-free distributions of up to $100,000 before December 31, 2020 for qualifying reasons associated with the COVID-19 pandemic. During 2020, the Plan also implemented the temporary provisions related to increased participant loan limits and the deferral of certain participant loan repayments.

**Note 2 Summary of Significant Accounting Policies**

**Basis of Accounting**
The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

**Use of Estimates**
The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

**Note 2 Summary of Significant Accounting Policies (continued)**

**Investment Valuation and Income Recognition**
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded when paid to the Plan. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Notes Receivable from Participants**
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 and 2019. Delinquent participant loans are reclassified as benefit payments, reducing the participant notes receivable balance, based upon the provisions of the Plan Document.

**Payment of Benefits**
Benefits are recorded when paid.

**Expenses**
The Plan allows certain administrative expenses to be paid from Plan assets, unless otherwise paid by the Company. Expenses paid by the Company are excluded from these financial statements. Certain fees related to administration of participant accounts are charged directly to the respective accounts and are included in administrative expenses. Certain investment related expenses are included in net appreciation of fair value of investments.

**Reclassifications**
Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform to the presentation in the current year financial statements. There was no impact on net assets available for benefits as previously reported.

## Note 3 Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2020 and 2019.

The following is a description of the valuation methodologies used for assets measured at fair value:

Self-directed brokerage account: Valued at the daily closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open end mutual funds that are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

**Note 3 Fair Value Measurements (continued)**

Stable value collective trust: A stable value fund that is comprised primarily of fully benefit-responsive contracts that are valued at the NAV of units of the collective trust. The NAV is used as a practical expedient to approximate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

| | **Assets at Fair Value as of December 31, 2020** | | | |
|---|---|---|---|---|
| | **Level 1** | **Level 2** | **Level 3** | **Total** |

## Note 3 Fair Value Measurements (continued)

(a) In accordance with ASC Subtopic 820-10, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the fair value of the Plan's investments in the statements of net assets available for benefits.

**Fair Value of Investments in Entities that Calculate Net Asset Value**
The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2020 and 2019.

| | 2020 Fair Value | 2019 Fair Value | Unfunded Commitment | Frequency (if currently eligible) | Redemption Notice Period |
|---|---|---|---|---|---|
| Stable Value Collective Trust | | | | | |
| Metlife Reliance Stable Value Fund | **$ 433,985** | $ 790,009 | N/A | Daily | 30 days |

## Note 4 Party-In-Interest Transactions

A party-in-interest is defined under DOL regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer and certain others. As described in Note 2, fees related to the administration of participant accounts and certain other administrative expenses are paid from Plan assets. Therefore, payments to such service providers by the Plan qualify as party-in-interest transactions.

The Plan's investments include a common collective trust managed by Reliance Trust Company. Reliance Trust Company is the Trustee and ADP Retirement Services is the recordkeeper, as defined by the Plan, and are therefore parties-in-interest. TD Ameritrade serves as custodian for the Plan's self-directed brokerage account and is therefore considered to be a party-in-interest. During the year ended December 31, 2019, Slavic Retirement served as recordkeeper for the Plan with Fidelity Investments as the custodian and therefore are considered to be party-in-interest.

The Plan makes loans to participants and therefore, these transactions qualify as a party-in-interest.

## Note 5 Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their account balances and the net assets of the Plan will be allocated as prescribed by ERISA and regulations pursuant thereto.

## Note 6 Tax Status

For the year ended December 31, 2019 the Plan was an adoption of the Slavic Integrated Administration Inc. DBA Slavic401k.com for which the Internal Revenue Service had determined and informed Slavic Integrated Administration Inc. by an opinion letter dated March 31, 2014 that the Plan and related trust were designed in accordance with the applicable sections of the IRC. The Plan was restated on January 1, 2020 as an adoption of the ADP, LLC Prototype Non-standardized Profit-Sharing Plan for which the Internal Revenue Service has determined and informed ADP, LLC by an opinion letter dated July 16, 2014 that the Plan and related trust are designed in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letters, the Plan administrator and Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## Note 7 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

During 2020, the global outbreak of COVID-19 which was declared a pandemic by the World Health Organization in March 2020 led to significant volatility in global financial markets. The COVID-19 pandemic is ongoing in nature and therefore the ultimate impact of COVID-19 on the market value of Plan investments is uncertain.

## Note 8 Subsequent Events

The Plan has evaluated subsequent events through October 15, 2021, which is the date the financial statements were available to be issued.
